DELAWARE RIVER BASIN COMMISSION

Notice of Commission Meeting and Public Hearing

The Delaware River Basin Commission (Commission) will hold a public hearing on Wednesday, August 12, 1998. The hearing will be part of the Commission's regular business meeting which is open to the public and scheduled to begin at 10 a.m. in the River Run Meeting Room of the West Branch Angler & Sportsman's Resort, Faulkner Road, Deposit, New York.

An informal conference among the Commissioners and staff will be held on Tuesday, August 11, 1998, at 1:30 p.m. at the same location at which status reports on Delaware River fisheries will be presented by representatives of the United States Fish and Wildlife Service and state fisheries management agencies.

In addition to the subjects listed as follows which are scheduled for the August 12 public hearing, the Commission will also address the following: Minutes of the June 24, 1998 business meeting; announcements; General Counsel's report; report on Basin hydrologic conditions; status of compliance—Evansburg Water Company; and public dialogue.

The subjects of the hearing will be as follows:

Applications for Approval of the Following Projects Under Article 10.3, Article 11 and/or Section 3.8 of the Compact:

1. *Holdover Project: Evansburg Water Company D-96-57 CP.* A groundwater withdrawal project to supply up to 0.56 million gallons (mg)/30 days of water to the applicant's Perkiomen Division distribution system from Well No. 202, and to increase the existing withdrawal limit of 5.5 mg/30 days from all wells to 6.06 mg/30 days. The project is located in Perkiomen Township, Montgomery County in the Southeastern Pennsylvania Ground Water Protected Area. This hearing continues that of June 24, 1998.

2. *Mobil Oil Corporation D-96-65.* A groundwater withdrawal project to withdraw up to 40 mg/30 days of water as part of the applicant's groundwater remediation program and process water supply from new Well Nos. RW-22, RW-23, RW-24 and PW-50 and to retain the existing withdrawal limit from all wells of 150 mg/30 days. The project is located in Greenwich Township, Gloucester County, New Jersey.

3. *Floyd G. Hersh, Inc. D-98-7.* A groundwater withdrawal project to supply up to 7.5 mg/30 days of water to the applicant's golf course irrigation system from new Well No. 1, and to limit the withdrawal from all wells to 7.5 mg/30 days. The project is located in Marlborough Township, Montgomery County in the Southeastern Pennsylvania Ground Water Protected Area.

4. *Evansburg Water Company D-98-12 CP.* A resolution to extend approval of Docket No. D-98-12 CP, which granted temporary approval for the operation of Well No. 102 to serve the applicant's Evansburg Division distribution system in Lower Providence Township, Montgomery County in the Southeastern Pennsylvania Ground Water Protected Area.

5. *Merck & Company, Inc. D-98-14.* A groundwater withdrawal project to withdraw up to 12.2 mg/30 days as part of the applicant's groundwater remediation program and process water supply from new Well Nos. 11A, 14 and 15, and to increase the existing withdrawal limit from all wells from 40 mg/30 days to 45 mg/30 days. The project is located in Upper Gwynedd Township, Montgomery County in the Southeastern Pennsylvania Ground Water Protected Area.

6. *Township of Florence D-98-18 CP.* A project to upgrade and expand the applicant's existing municipal sewage treatment plant (STP) from 1.5 million gallons per day (mgd) average monthly flow to 2.5 mgd. The STP is located on Front Street in Florence Township, Burlington County, New Jersey and will continue to discharge to the Delaware River in Water Quality Zone 2. The STP will continue to serve Florence Township.

7. *Honey Brook Golf Club D-98-28.* A groundwater withdrawal project to supply up to 10.37 mg/30 days of water to the applicant's irrigation system from new Well No. PW-1, and to limit the withdrawal from all wells to 10.37 mg/30 days. The project is located in Honey Brook Township, Chester County, PA.

8. *Sun Pipe Line Company D-98-35.* A project to construct a petroleum pipeline under Jacobs Creek in Ewing and Hopewell Townships, Mercer County, New Jersey, to replace an existing deteriorating pipeline stream crossing. The new steel pipeline crossing will be 14 inches in diameter and approximately 250 feet long, and will be excavated 4 feet under the existing stream bed, at a point approximately 1,500 feet west of the intersection of Jacobs Creek and Bear Tavern Roads. The pipeline crossing is part of maintenance work on the applicant's interstate petroleum pipeline system.

Documents relating to these items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact Thomas L. Brand at (609) 883-9500, Ext. 221 concerning docket-related questions. Persons wishing to testify at this hearing are requested to register with the Secretary at (609) 883-9500, Ext. 203 prior to the hearing.

DEPARTMENT OF AGRICULTURE

FY 98-99 Annual Plan for Awarding Grants under the Pennsylvania Agricultural Fair Act

The Department of Agriculture (Department), under authority of section 8(a) of the Pennsylvania Agricultural Fair Act (act) hereby announces that the Secretary of Agriculture, with the advice and assistance of the Agricultural Fair Advisory Committee at its meeting of July 16, 1998, adopted the FY98-99 Annual Plan on the awarding of grants to eligible organizations under the provisions of the act.

The act authorizes the Department to make grants to organizations conducting eligible agricultural fairs, State-wide agricultural organizations which contribute to the development of agriculture and agribusiness and to eligible agricultural youth groups for support of their programs. The Secretary, with the advice and assistance of Advisory Committee created by the act, is to adopt an annual plan for awarding of grants subject to the limitations specified in section 5 of the act.

The Annual plan, as adopted by the Secretary, provides for the award of grants to each eligible organization subject to the availability of funds on the following basis:

1. For operating expenses, the maximum payment allowed for each Class Fair under section 5(1)(i)(A) of the act will be paid.
2. For premium reimbursement, the maximum payment allowed under section 5(1)(i)(B) of the act will be paid.
3. For reimbursement to each eligible organization conducting harness horse racing at its annual fair, other than races for 2 and 3 year old colts and fillies, the maximum amount of reimbursement allowed under section 5(1)(iii) of the act will be paid.
4. For reimbursement to each eligible organization conducting races for 2 and 3 year old colts and fillies at its annual fair, the maximum amount of reimbursement allowed under section 5(1)(iv) of the act will be paid.
5. For reimbursement of operating costs and premiums, a maximum amount of \$2,000 and in addition a maximum amount of \$10,000 based on a sum equal to 50% of the amount spent by the eligible Statewide agricultural organizations for premiums that are not in the \$2,000 payment as provided under section 5(2) of the act. The total maximum payment hereunder shall not exceed \$12,000.
6. For actual expenses incurred for activities which contribute to the advancement of agriculture or agribusi-

ness by 4-H Youth groups, a payment which will be calculated according to the following formula will pay for maximum of 4,000 members per county: 4-H groups with 500 members or less will receive base funding of \$2,000, groups with more than 500 will receive \$2,000 for the first 500 members and an additional \$2.00 per member for every member over 500 with a total maximum funding of \$9,000.

7. For actual expenses incurred for activities which contribute to the advancement of agriculture or agribusiness by FFA Youth groups, a payment which will be calculated according to the following formula:

Tier I: FFA Chapters with 100 members or less will receive base funding of \$1,000 with an additional \$2.00 per member.

Tier II: FFA Chapters with 101 to 210 members inclusive will receive a \$2,000 base funding with no additional monies on a per member basis.

Tier III: FFA Chapters with 211 members or more will receive funding of \$2,000 with an additional \$2.00 per member for every member over 210.

8. Any funds remaining after the above grants have been awarded shall be utilized for capital improvement as provided in section 5-(1)(ii) of the act.

9. The Secretary will endeavor to disburse the above payments in accordance with the following schedule:

(a) By February 1, 1999 for payment under paragraph 1-7 above.

(b) By September 30, 1999 for payment approved and authorized in FY98-99 under paragraph 8 above.

SAMUEL E. HAYES, Jr.,
Secretary

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Family Savings Account Program Workshop for FY 1998-99

Act 23 of 1997 established the Family Savings Account (FSA) Program. The FSA Program is a community building initiative established for the purpose of promoting self-sufficiency through asset development for lower income Pennsylvanians through a matched savings program. The matched savings can be used to help finance the purchase of a new home, pay for education expenses, entrepreneurial or other activities based on an approved plan, which includes participation in a minimum of four workshops in basic economic literacy.

The FSA Program is a key component of Governor Ridge's Project for Community Building. The FSA Program will stimulate economic self-sufficiency by helping participants to focus on long and short term financial skills while encouraging savings and asset development that will empower individuals as well as economically strengthen communities in Pennsylvania.

\$1.25M will be available for the FSA Program for FY 1998-99. Service Providers will be limited to those organizations with the ability to enroll a minimum of 100 savers. Savers will be limited to those persons whose income at the time of enrollment is not more than 200% of the official poverty line established by the Federal Office of Management and Budget.

For FY 1998-99, priority will be given to applicants serving counties presently not served by FSA programs as follows: Adams; Armstrong; Bedford; Berks; Blair; Butler; Cambria; Cameron; Carbon; Centre; Clarion; Clearfield; Clinton; Columbia; Crawford; Cumberland; Dauphin; Elk; Forest; Franklin; Fulton; Greene; Huntingdon; Jefferson;

Juniata; Lawrence; Lebanon; Lehigh; Lycoming; McKean; Mercer; Mifflin; Monroe; Montour; Northampton; Northumberland; Perry; Pike; Potter; Schuylkill; Snyder; Somerset; Union; Venango; Warren; Washington; Westmoreland and York.

The Department of Community and Economic Development, Community Empowerment Office, has scheduled a workshop on September 23, 1998, in Harrisburg, PA for the purpose of providing FSA Program information to interested applicants. Application information, including the Project for Community Building Single Application for Assistance and FSA Program Guidelines, will be provided at the workshop. Community Empowerment Office staff will be available to provide instruction and guidance on the specifics of the proposal writing process to help applicant agencies prepare and write technically acceptable proposals.

All interested applicants are encouraged to attend this workshop. Applicants can register for the workshop to be held in the Forum Building, Room 321, Harrisburg, PA from 9:30 a.m. to 2:30 p.m. by contacting Elizabeth Hoch, Community Empowerment Office, at (717) 787-4140 or through e-mail: liz_hoch@dced.state.pa.us by September 16, 1998.

Workshop space is limited to 75 persons. No more than two persons should attend from each organization. Space will be filled on a first-come, first-serve basis. There is no registration fee for this workshop; however, pre-registration is requested. Persons with a disability who wish to attend the workshop and require an auxiliary aid, service or other accommodation to participate in the workshop, should contact the Community Empowerment Office to discuss how we may best accommodate their needs.

Applications, Actions and Special Notices

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PA0057487. Sewage, **Frontier Wood Products, Inc.**, 1025 North West End Boulevard, Quakertown, PA 18951.

This application is for issuance of an NPDES permit to discharge treated sewage from Frontier Wood Products, Inc. in Richland Township, **Bucks County**. This is a new discharge to Swale to Tohickon Creek.

The receiving stream is classified for the following uses: trout stocking fishery, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001, based on an average flow of 1,000 gpd are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	10	20
Suspended Solids	10	20
Ammonia (as N)	3.0	6.0
Total Residual Chlorine	0.5	1.2
Fecal Coliform	200 colonies/100 ml as a geometric average	
Dissolved Oxygen	minimum of 3.0 mg/l at all times	
pH	within limits of 6.0—9.0 standard units at all times	

Other Conditions:

The EPA waiver is in effect.
 Conditions for future permit modification.
 Effective disinfection.

PA 0042641. Sewage, **PA Department of Conservation and Natural Resources**, Nockamixon State Park, 1542 Mountain View Drive, Quakertown, PA 18951.

This application is for renewal of an NPDES permit to discharge treated sewage from Nockamixon State Park STP in Bedminster Township, **Bucks County**. This is an existing discharge to unnamed Tributary to Tohickon Creek.

The receiving stream is classified for the following uses: cold water fishery, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001, based on an average flow of 0.2 mgd are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

Applications under the Pennsylvania Clean Streams Law

(Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection (Department). Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed; and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protest. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**INDIVIDUAL PERMITS
(PAS)**

NPDES INDIVIDUAL

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD

users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The applicant proposes to remediate the site to meet the Statewide health standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Depart-

ment) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period a municipality may request that the person identified, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, contact the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southeast Regional Office: Environmental Cleanup Program Manager; Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-5950.

Olney Associates, City of Philadelphia, **Philadelphia County**. J. Mark Nielsen, P.E., Environ Corp., 214 Carnegie Center, Princeton, NJ 08540, has submitted a Notice of Intent to Remediate site soil contaminated with PCBs, lead, heavy metals, pesticides, solvents, BTEX and polycyclic aromatic hydrocarbons; and groundwater contaminated with lead, heavy metals, solvents, BTEX and polycyclic aromatic hydrocarbons. The applicant proposes to remediate the site to meet Statewide health and site-specific standards. A summary of the Notice of Intent to Remediate was reported to have been published in *The Philadelphia Inquirer* on July 17, 1998.

Southwest Field Office: John J. Matviya, Environmental Cleanup Program Manager; 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-5217.

The Department accepted the application as administratively complete on July 24, 1998.

Persons interested in obtaining more information about the general permit and application may contact the Division at (717) 787-7381. TDD users may contact the Department through the Pennsylvania Relay Service, (800) 654-5984.

AIR QUALITY

Plan Approval and Operating Permit Applications

Nonmajor Sources and Modifications

The Department of Environmental Protection (Department) has developed an integrated plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the

Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121 through 143, the Federal Clean Air Act and regulations adopted under the act.

OPERATING PERMITS

Applications received and intent to issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4702.

06-3221: Industrial Metal Plating, Inc. (116 Mitchell Road, Reading, PA 19601-1195) for a sulfuric acid anodizing line controlled by a packed bed scrubber in Bern Township, **Berks County**.

28-322-005: Fort James Operating Co. (formerly James River Paper Co., Inc.) (1002 Wayne Avenue, Chambersburg, PA 17201) for the installation of Press #9, flexographic printing press, and Press #8, lithographic printing press, located in Chambersburg Borough, **Franklin County**.

Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, notice is given that the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F (relating to operating permit requirements) and G (relating to Title V operating permits).

Appointments to review copies of the Title V application, proposed permit and other relevant information must be made by contacting Records Management at the regional office telephone number noted. For additional information, contact the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Attn: Kanubhai L. Patel, (717) 705-4702.

22-05006: Taylor Wharton Cylinders (9th and Herr Streets, Harrisburg, PA 17105-2365) located in City of Harrisburg, **Dauphin County**. The facility's major

sources of emissions include paint booths and a heating furnace which primarily emit VOC and oxides of sulfur respectively.

Northcentral Regional Office: Air Quality Program, 208 West Third Street, Suite 101, Williamsport, PA 17701, Attn: Mohammad Zaman, (717) 327-3637.

17-00005: Glen-Gery Corp. (P. O. Box 338, State Route 970, Bigler, PA 16825) for their Bigler Plant located in Bradford Township, **Clearfield County**. The facility manufactures brick from clay and related products. The major sources include natural gas and sawdust fired kilns, natural gas furnaces and sawdust fired dryer which emit major quantities of SO₂ and NOx.

41-00025: Lycoming County Resource Management Services (P. O. Box 187, Montgomery, PA 17752) for their Lycoming County Landfill located in Brady Township, **Lycoming County**. The facility's major sources include a cogeneration plant, flare system, diesel-fired crusher and generator which emit major quantities of NOx, and CO. The owner and operator of the facility have taken Federally enforceable emission restrictions to limit the potential to emit NOx and CO below major source thresholds.

Southwest Regional Office: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, Attn: Mark Wayner, (412) 442-4161.

26-00405: Consolidated Natural Gas Transmission Inc. (625 Liberty Avenue, Pittsburgh, PA 15222) for their North Summit Compressor Station located in **Greene County**. The facility's major sources include natural gas compressor engines which emit major quantities of NOx.

03-00190: Standard Products Company (1655 Orr Avenue, Kittanning, PA 16201) for their Kittanning Borough Facility located in **Armstrong County**. The facility's major sources include a spray coating operation and curing ovens which emit major quantities of hazardous air pollutants.

PLAN APPROVALS

Applications received and intent to issue Plan Approvals under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4702.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015);

the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Ebensburg District Office, 437 South Center Street, P. O. Box 625, Ebensburg, PA 15931-0625.

APPLICATIONS RECEIVED UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The following permit applications and requests for Environmental Assessment approval and requests for water quality certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1311—1313, 1316 and 1317 as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit, or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as questions to the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the Federal Water Pollution Control Act.

Southeast Regional Office: Program Manager, Water Management Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E15-587. Encroachment. Richard and Janet DiGuardi, 1327 Airport Rd., Coatesville, PA 19320. To construct and maintain a roadway crossing over Rock Run (TSF, MF) to provide access into a proposed residential subdivision on the property of Richard and Janet DiGuardi. The proposed stream crossing will consist of six 65-foot long culverts. The center culvert will have an 18-foot wide span and 5.2-foot height. The five culverts which are situated in the 100-year floodplain will have a 16-foot span and 5.2-foot height. The project also includes placement of fill material in 0.64 acre of adjacent wetland

(PFO) associated with construction of the roadway crossing. The applicant proposes to construct 0.65 acre of replacement wetlands on site. The site is located at 1327 Airport Road (T-409), approximately 1,400 feet west of the intersection with Bousall School Road (Parkesburg, PA Quadrangle N: 21.8 inches; W: 1.95 inches) in West Caln Township, **Chester County**.

E51-168. Encroachment. City of Philadelphia Water Dept., 1101 Market St., Aramark Tower 2nd Floor, Philadelphia, PA 19107. To perform the following activities along the Pennypack Creek (WWF-MF) and within its 100-year Floodway and Floodplain for the replacement of an undersized combined sewer overflow pipe associated with the Philadelphia Water Department Sheffield Avenue Flood Relief Project: 1. To abandon a 4.5-foot diameter brick sewer pipe system which conveys combined sewer overflow from the Pennypack Creek Interceptor. This pipe will be completely filled with cement-sand grout; 2. To install, operate and maintain a replacement combined sewer overflow system consisting of 15 linear feet of reinforced concrete flared section, attached to approximately 320 linear feet of 8-foot by 7-foot reinforced concrete box culvert, attached to two intercepting chamber manholes, attached to approximately 96 linear feet of 6.5-foot by 10-foot reinforced concrete box culvert, attached to approximately 10 linear feet of reinforced concrete stepped section, attached to approximately 106 linear feet of 5-foot by 10-foot reinforced concrete box culvert, and terminating at a reinforced concrete outfall structure. A flexible flap gate will also be installed at the downstream terminus. All proposed box culverts will have a V-shaped bottom; 3. To install and maintain approximately 33 linear feet of 24-inch reinforced concrete connector pipe and associated manhole between the proposed combined sewer overflow pipe and an associated manhole between the proposed combined sewer overflow pipe and the Pennypack Creek Interceptor; 4. To install and maintain approximately 67 linear feet of flow censor conduit consisting of 3-inch galvanized rigid steel pipe; 5. To install and maintain approximately 9 linear feet of 10.5-foot high gabion stream bank protection on both sides of the proposed outfall structure; 6. To perform minor grading associated with the placement of the aforementioned combined sewer overflow system. The project is situated just north of the intersection of Rhawn Street (S. R. 1014) and the Amtrack Northeast Corridor Mainline Railway (Frankford, PA USGS Quadrangle N: 6.1 inches; W: 3.2 inches) in the City and **County of Philadelphia**.

Northeast Regional Office: Regional Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (717) 826-2511.

E52-156. Encroachment. Milford Borough, 111 West Catherine Street, Milford, PA 18337. To maintain a 12-inch ADS pipe stormwater outfall along the left bank of Sawkill Creek (EV). The project is located along Sawkill Avenue, approximately 600 feet west of the junction of S. R. 0006 and U. S. Route 209 (Milford, PA-NJ Quadrangle N: 13.1 inches; W: 7.7 inches), in Milford Borough, **Pike County** (Philadelphia District, U. S. Army Corps of Engineers).

Southcentral Regional Office: Water Management Program, Soils and Waterways Section, 909 Elmerton Avenue, 2nd Floor, Harrisburg, PA 17110, (717) 705-4707.

E21-282. Encroachment. Cumberland Valley School District, Lee Brandt, 6746 Carlisle Pike, Mechanicsburg, PA 17055. To construct and maintain a 24-inch diameter outfall structure along the right bank of Conodoguinet

Creek located about 180 feet west of Hampden Elementary School (Harrisburg, PA Quadrangle N: 0.33 inch; W: 15.45 inches) in Hampden Township, **Cumberland County**.

Northcentral Region: Water Management, Soils and Waterways Section, F. Alan Sever, Chief, 208 West Third St., Suite 101, Williamsport, PA 17701.

E60-134. Encroachment. **Pa. Dept. of Transportation**, 715 Jordan Ave., Montoursville, PA 17754. To remove the existing structure and to construct and maintain a twin-cell reinforced concrete box culvert with each cell having a span of 25 feet and effective underclearance of 5.9 feet in Limestone Run located on SR 0015 Section 103 approximately 1,000 feet north of SR 0045 (Lewisburg, PA Quadrangle N: 16.0 inches; W: 2.5 inches) in East Buffalo Township, **Union County**. Estimated stream disturbance is approximately 150 feet with no wetland impact; stream classification is WWF.

Southwest Regional Office: Soils and Waterways Section, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E02-1241. Encroachment. **Port of Pittsburgh Commission**, 503 Martindale Street, 5th Floor, Pittsburgh, PA 15212-5746. To construct and maintain a docking facility in the channel of and along the right bank of the Ohio River (WWF). The project is located at the West End Bridge (Pittsburgh West, PA Quadrangle N: 12.7 inches; W: 2.25 inches) in the City of Pittsburgh, **Allegheny County**.

E65-705. Encroachment. **R.W.S. Development Company, Inc.**, R. R. 1, Box 61, Rillton, PA 15678. To place and maintain fill in 0.52 acre of wetlands (PEM) and to place and maintain fill in an unnamed tributary to Long Run (HQ-TSF) for the purpose of construction of a residential development. The applicant proposes to construct 0.52 acre of wetlands (PEM) off site. The project is located along the south side of SR 3055 at its intersection with SR 3022 (Irwin, PA Quadrangle N: 14.00 inches; W: 16.6 inches) in North Huntingdon Township, **Westmoreland County**.

E65-704. Encroachment. **Three Rivers Marine & Rail Terminal, Inc.**, 2200 Springfield Pike, Connellsville, PA 15425. To construct and maintain four lengths of embedded barges totaling a length of 700 feet and having a width of 26.0 feet in and along the Monongahela River (WWF) for the purpose of accommodating additional cargo handling operations. The project is located at River Mile 43.1 (Monongahela, PA Quadrangle N: 0.9 inch; W: 1.1 inches) in Rostraver Township, **Westmoreland County**.

Northwest Regional Office: Soils and Waterways Section, 230 Chestnut Street, Meadville, PA 16335-3481, (814) 332-6942.

E25-571. Encroachment. **General Partitions Manufacturing Corp.**, 1702 Peninsula Drive, Erie, PA 16505. To place fill in 0.112 acre of a wetland area (PEM) as part of an expansion of the existing General Partitions industrial facility. General Partitions is located at 1702 Peninsula Drive approximately 2,400 feet south of the intersection of Peninsula Drive and S.R. 0005. This project proposes to utilize the Wetland Replacement Fund for replacing the impact of 0.112 acre of wetland (Swanville, PA Quadrangle N: 17.8 inches; W: 2.4 inches) located in Millcreek Township, **Erie County**.

E42-259. Encroachment. **Wetmore Township**, R. D. 1, Box 20A, Spring Street, Kane, PA 16735. To remove the existing 24-inch diameter, and 36-inch diameter concrete

pipe culverts and to install and maintain a 64-inch-wide by 43-inch-high by 40-foot-long arch pipe culvert on T-300 across a tributary to West Run (HQ-CWF). The project is located on T-300 across a tributary to West Run, approximately 300 feet north of the intersection of Township Road T-300 and T-303 (Kane, PA Quadrangle N: 5.0 inches; W: 13.6 inches) located in Wetmore Township, **McKean County**.

The applicant is requesting the right to increase water withdrawal from 15,000 gallons per day to 30,000 gallons per day from the Delaware River in New Hope Borough, **Bucks County**.

ACTIONS

FINAL ACTIONS TAKEN UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514), and 2 Pa.C.S. §§ 501-508 and 701-704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, 400 Market Street, Floor 2, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

INDIVIDUAL PERMITS

(PAR)

The following parties have submitted Notices of Intent (NOIs) for Coverage under (1) General NPDES Permit(s) to discharge wastewater into the surface waters of this Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permit(s) for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania. The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective general permit. The Department of Environmental Protection approves the following coverages under the specified General Permit.

The EPA Region III Regional Administrator has waived the right to review or object to this permit action under the waiver provision: 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

**SEWAGE FACILITIES ACT
PLAN APPROVAL**

The Department of Environmental Protection (Department) has taken actions on municipal requests for Act 537 Plan Approval.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania

Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Southeast Regional Office: Sewage Planning Specialist Supervisor; Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

1. The Plan Approval is granted for a revision to the Official Sewage Facilities Plan of Bryn Athyn Borough, Montgomery County to provide for the purchase of the Academy of the New Church (ANC) sewage treatment plant by Bryn Athyn Borough.

2. The construction of a collection and conveyance system to serve the College Park, Alden Road and Loop areas, as described in Sections 5 and 7 and as shown in Appendix D of the plan. The collection and conveyance system will consist of the following: 29,000 lf of 4 inch diameter gravity sewers; a 90 gpm pump station to be located in the vicinity of Fetters Mill Road and Penpack Creek; a 100 gpm pump station to be located in the vicinity of Tomlinson and Sycamore Roads and 7,000 lf of 3 inch diameter force main. The total flow diverted to the ANC treatment plant will not exceed 27,500 gpd. Properties will be connected to public sewers consistent with the implementation schedule found on page 41 of the plan.

3. Properties to be connected to public sewers will have new septic tanks installed when the existing tanks do not meet Chapter 73 specifications. In addition, diversion valves, filters and septic tank effluent pumps, when necessary, will be installed as shown in Appendices D and G of the plan.

4. Properties to be connected to public sewers will also utilize onlot sewage disposal systems for a duration of time established through maintenance and pumping records, as shown in Table 4 and Appendices D and E of the plan. Systems in need of significant improvement, depicted in red and violet in Appendix D, will be connected to public sewers 100% of the time. Systems which are performing satisfactorily but require routine maintenance every 2 to 3 years, as shown in green in Appendix D, will be connected to public sewers 50% of the time. Finally, systems requiring service every 5 years or more, as shown in yellow and white in Appendix D, will discharge to public sewers 30% of the time. Properties will discharge to the ANC plant during the summer months, at that time the Borough will pump and conduct inspection of septic tanks.

5. Continuation of the Borough's current sewage management program.

Southwest Regional Office: Water Management Program Manager; 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4000.

Location: Lower Possum Run and Ridge Boulevard Drainage Basin, Dunbar Township, **Fayette County**.

Project Description: Approval of an update to the Official Sewage Facilities Plan of Dunbar Township, Fayette County. Project involves the construction of a sewage collection, conveyance and treatment facilities for the Lower Opossum Run and Ridge Boulevard Drainage Basins. This project will service approximately 935 equivalent dwelling units in the project area with the construction of a new sewage treatment plant approximately 2,000 feet from the end of Ridge Boulevard, Dunbar Township along the Youghiogheny River. The Department's review of the Sewage Facilities Update Revision has not identified any significant environmental impacts resulting from this proposal.

Regional Office: Water Management Program Manager; Southcentral Region, 909 Elmerton Ave., Harrisburg, PA 17110.

Location: Berwick Township, **Adams County**, 85 Municipal Rd., Hanover, PA 17331.

The approved plan provided for construction of a conventional gravity collection system and a .200 mgd STP discharging to an unnamed tributary to Pine Run. An OLDS management program for the remainder of the Township is required to be in place within 8 months of plan approval. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Location: Newton-Hamilton Borough, **Mifflin County**, P. O. Box 63, Newton-Hamilton, PA 17075.

The Act 537 Official Plan submission was disapproved because Newton-Hamilton Borough failed to address the remaining five plan deficiencies identified the Department's letter dated June 15, 1994. As discussed in the Department's January 29, 1998 letter, failure to respond in writing within 60 days from the date of that letter would result in plan disapproval. Additionally, the Department understands that Newton-Hamilton Borough is participating with Wayne Township in an area Act 537 Plan. The original deficiencies from the 1993 plan are listed below.

1. An original, signed and sealed resolution of adoption has not been provided. (Item 3)

2. No clear alternative has been selected as the intended solution to the sewage disposal needs. Plan page 3-8 identifies only a least costly system "... such as those described as alternative 1.1 and 1.2." (VIII)

3. The alternatives analysis is inadequate. Information supplied concerning the alternative of connection to the Wayne Township/Kistler Borough/Mount Union facilities was insufficient to enable comparison with a Newton Hamilton alternative. (VI)

4. The plan's implementability is highly questionable since it clearly contains a financial disclaimer on page 4-1. Alternate funding schemes to support plan implementation are necessary should the primary funding not materialize. If Pennvest or other Federal funding is to be utilized, the Water Pollution Control Revolving Fund (WPCRF) Checklist must be completed.

5. The plan does not document Borough efforts to coordinate planning activity with Wayne Township Municipal Officials. Conceding no involvement to a vocal citizens group from Wayne Township does not equate to an attempt at intermunicipal coordination.

Location: Suburban Lancaster Sewer Authority, Camp Dresser & McKee, Inc., 227 Granite Run Road, Suite 206, Lancaster, PA 17601.

The approved plan provided for identification of sewage treatment capacity requirements for the SLSA service area, examination of prospective STP sites and, ultimately, purchase of 2.0 mgd sewage treatment capacity from Lancaster City. Treatment to be provided by the Lancaster treatment plant. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Facility will also recycle any waste water generated.

Regional Office: Northcentral Field Operations, Environmental Program Manager, 208 West Third Street, Suite 101, Williamsport, PA 17701.

Application No. M. A. The Department issued a construction permit application to **Pennsylvania American Water Company** (800 West Hersheypark Drive, Hershey, PA 17033; Northumberland Borough, **Northumberland County**) for rehabilitation of the interior and exterior coating system on the Prince Street Tank in order to preserve the structural integrity and extend the life of the steel water storage vessel.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program in the Department Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Southeast Regional Office: Environmental Cleanup Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-5950.

Evans, PP&L, Inc., Environmental Management Division-GENTW8, Two North Ninth Street, Allentown, PA 18101-1179, has submitted a Final Report concerning remediation of site soil contaminated with PCBs. The report is intended to document remediation of the site to meet Statewide health standards.

PP&L Pole #67877S36735. Souderton Borough, **Montgomery County**. Nancy A. Evans, PP&L, Inc., Environmental Management Division-GENTW8, Two North Ninth Street, Allentown, PA 18101-1179, has submitted a Final Report concerning remediation of site soil contaminated with PCBs. The report is intended to document remediation of the site to meet Statewide health standards.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 4

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908) and Chapter 250 Administration of Land Recycling Program.

Provisions of Chapter 250.8 Administration of Land Recycling Program requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the Act 2 (Land Recycling and Environmental Remediation Standards Act) remediation standards. Plans and reports required by provisions of Act 2 for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of reuse of the property, and in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has acted upon the following plans and reports:

Southcentral Regional Office: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110-8200, (717) 705-4705.

CBS Corporation/Former Playskool Facility, East Lampeter Township, **Lancaster County**. CBS Corporation, 11 Stanwix Street, Pittsburgh, submitted a final report concerning the remediation of site soils contaminated with heavy metals and solvents. The final report demonstrated attainment of the site-specific standard, and was approved by the Department on July 21, 1998.

Red Rose Commons, City of Lancaster and Manheim Township, **Lancaster County**. Manko, Gold & Katcher, LLP, 401 City Avenue, Suite 500, Bala Cynwyd, PA 19004 submitted a final report concerning remediation of site soils contaminated with PCBs, lead, heavy metals, solvents, BTEX, PHCs and PAHs. The final report demonstrated attainment of the Statewide health standard, and was approved by the Department on July 21, 1998.

**REASONABLY AVAILABLE CONTROL
TECHNOLOGY
(RACT)**

Proposed Revision to the State Implementation Plan for Volatile Organic Compounds (VOC); Approval of a Reasonably Available Control Technology Plan and Operating Permit; Public Hearing

Huntingdon County

The Department of Environmental Protection (Department) has made a preliminary determination to approve a revised Reasonably Available Control Technology (RACT) Plan and an amendment to the State Implementation Plan (SIP) for a glass fiber manufacturing facility owned and operated by **Owens Corning** in Huntingdon Borough, Huntingdon County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in RACT Operating Permit No. 31-02002 for the existing facility to comply with current regulations.

The preliminary RACT determination, when approved, will be incorporated into an Operating Permit for the facility and will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania's SIP.

A VOC RACT determination is being made for the entire glass fiber manufacturing facility. The preliminary VOC RACT determination for the facility will require various work practices to minimize the emissions of VOC's. Upon final approval of the company's case-by-case analysis, the operating permit will include conditions requiring recordkeeping and reporting of operational data to verify VOC emissions.

An appointment to review the pertinent documents at the Department's Altoona District Office at 615 Howard Avenue, Altoona may be scheduled by contacting Kathy Ciampoli at (814) 946-7290 between 8 a.m. and 4 p.m., Monday through Friday, except holidays.

One public hearing will be held for the purpose of receiving comments on the proposal. The hearing will be held on September 17, 1998, at the Huntingdon Borough building, located at 530 Washington Street, Huntingdon, PA 16652 from 10 a.m. until all scheduled comments are received.

Those wishing to comment are requested to contact Susan Frank at (717) 705-4904 at least 1 week in advance of the hearing to schedule their testimony. Those wishing to comment are requested to provide two written copies of their remarks at the time of the hearing. Oral testimony will be limited to a maximum of 10 minutes per individual. Organizations are requested to designate an individual to present testimony on behalf of the organization. Written comments may be submitted to Steve Weyandt, Air Pollution Control Engineer, 615 Howard Avenue, Altoona, PA 16601, on or before September 22, 1998.

Persons with a disability who wish to attend the hearing scheduled for September 17, 1998, at the Huntingdon Borough building and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact Susan Frank directly at (717) 705-4904 or through the AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

The Department of Environmental Protection (Department) will conduct a public hearing on September 2, 1998, beginning at 1 p.m. in the 1st Floor Conference Room of the Department Regional Office Building located at 230 Chestnut Street, Meadville, PA 16335-3407.

The hearing is for the Department to accept testimony concerning its decision to approve, with conditions, an amended Reasonably Available Control Technology (RACT) plan for boiler #3 and boiler #8:

INDSPEC Chemical Corp., 133 Main Street, Petrolia, PA.

To meet the requirements under 25 Pa. Code §§ 129.91—129.95 (RACT), concerning the emissions of oxides of nitrogen (NOx) and volatile organic compounds (VOC) from various air contamination sources. This RACT is only for the amendment to boilers #3 and #8. The final RACT proposal will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan. This facility is located in **Butler County**.

The proposed SIP revisions do not adopt any new regulations. They incorporate the provisions and requirements contained in RACT approval for the amendment of boiler #3 and boiler #8 to comply with current regulations.

The preliminary RACT determination for boiler #3 and boiler #8, if finally approved, will be incorporated into Plan Approvals and/or Operating Permits for the facility and will be submitted to the EPA as a revision to Pennsylvania's State Implementation Plan.

The following is a summary of the preliminary NOx and VOC RACT determination for boiler #3 and boiler #8:

INDSPEC Chemical Corp.—133 Main Street, Petrolia

<i>Source</i>	<i>NOx RACT Limit</i>
Boiler #3	0.51 lb/MMBtu

<i>Control Device</i>	<i>Implementation Date</i>
operation and maintenance in accordance with manufacturers recommendations; operation and maintenance with good air pollution control practices	Source is shutdown

Source	NOx RACT Limit	Control Device	Implementation Date
Boiler #8	0.51 lb/MMBtu	operation and maintenance in accordance with manufacturers recommendations; operation and maintenance with good air pollution control practices	7/16/1998

For the above facility, a public hearing will be held for the purpose of receiving comments on the above proposed Plan Approval and/or Operating Permit and the proposed SIP revisions. The public hearing is scheduled as follows: Wednesday, September 2, 1998, 1 p.m.—3 p.m., 1st Floor Conference Room, DEP Regional Conference Room, 230 Chestnut Street, Meadville, PA 16335-3407.

Persons wishing to present testimony at the hearing should contact Lori McNabb, Air Pollution Control Engineer, DEP, 270 Chestnut Street, Meadville, PA 16335-3494, (814) 332-6940 at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to a maximum of 10 minutes and two written copies of the oral testimony are required. Each organization is requested to designate one witness to present testimony in its own behalf.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Steve Curcio at (814) 332-6945, or the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those unable to attend the hearing but wish to comment should provide written comments to: Lori McNabb, (814) 332-6940, Air Pollution Control Engineer, Department of Environmental Protection, 270 Chestnut Street, Meadville, PA 16335-3494. Comments should be submitted within 30 days of the date of this publication notice.

All the pertinent documents (applications, review memos and draft approvals) are also available for review from 8 a.m. to 4 p.m. at the Meadville Regional DEP office (Air Quality). Appointments for scheduling a review must be made by calling the Department contact person noted previously.

ACTIONS TAKEN UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The Department of Environmental Protection (Department) has taken the following actions on previously received Dam Safety and Encroachment permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, 400 Market Street, Floor 2, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Streams Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)), (*Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.*)

SPECIAL NOTICES

There was a Notice of Public Hearing published in July 11, 1998, edition re: Letort Meadows Residential Development. The location of the Development was listed incorrectly as South Middleton Township, Cumberland County. The date for the public hearing is being changed from August 26, 1998, to September 22, 1998. The following replaces that notice:

Notice of Public Hearing

The Department of Environmental Protection (Department) has scheduled a public hearing to receive testimony and comments on the proposed 102 Individual NPDES permit for construction activities at the Letort Meadows Residential Development in Carlisle Borough, Cumberland County. Construction at the proposed housing development would affect 9.5 acres of soils along Letort Spring Run which is an exceptional value stream. The hearing will be held on Tuesday, September 22, 1998, at the South Middleton Fire Hall, 405 Forge Road in Boiling Springs, PA beginning at 7 p.m.

Persons intending to testify at the hearing should register by calling Susan Frank at (717) 705-4904. Persons unable to attend the hearing may submit written comments regarding this action to the Department before September 15, 1998, by mailing them to Orlando Dizo at 909 Elmerton Avenue, Harrisburg, PA 17110.

All testimony should be to the point. Each individual will have up to 10 minutes for his/her presentation. To ensure that all speakers have a fair and equal opportunity to present their testimony, relinquishing of time will be prohibited. Further details relating to the procedures to be followed at the hearing will be outlined at the beginning of the proceedings.

An appointment may be scheduled to review the permit application at the Southcentral Regional Office in Harrisburg by contacting Mary DiSanto at (717) 705-4732 between the hours of 8 a.m. and 3:30 p.m., Monday through Friday.

Persons with a disability who wish to attend the hearing but require an auxiliary aid, service or other accommodations to participate in the proceedings, should contact the Department for assistance. TDD users may use the AT&T Relay Service at (800) 654-5984.

**Notice of Settlement Under the
Hazardous Sites Cleanup Act
Naginey Quarry Site
Mifflin County Recycling Center Site
Armagh Township, Mifflin County**

The Department of Environmental Protection (Department) under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305), has entered into a proposed consent order and agreement (COA) with Charles H. and Constance Naginey regarding the Department's cost incurred for conducting response activities at the Naginey Quarry Site (Naginey Site) and the Mifflin County Recycling Site. The Naginey Site is 55 acres of land located in Armagh Township, Mifflin County, approximately 3 miles east of the town of Milroy. The Naginey Site is located in a rural area bordered on the south and east by agricultural lands, on the west by private residences and on the north by a recycling facility and limestone quarry. The Mifflin County Recycling Center Site is located across the road from the Naginey Site.

Former operations at the Naginey Site included the breaking of battery casings, and/or, crushing battery tops to retrieve lead contents, and stockpiling the casings on portions of the Naginey Site. Approximately 300,000 battery casings were stockpiled on the Naginey Site along with approximately 150 drums of foundry sand. Approximately 10 tons of foundry sand was present on the Mifflin County Recycling Center Site.

Preliminary sampling by the Department revealed lead contamination of site soils and waters of an adjacent sinkhole to be in excess of regulatory standards. Because of the threat to human health and the environment and the need to further characterize the extent of lead contamination at the Naginey Site, the Department performed a response to remove the stockpiled battery casings, abandoned drums of foundry waste and the pile of foundry waste. The cost for this removal action is projected to be \$220,000.

On July 27, 1998, the Department and the Nagineys entered into the proposed consent order and agreement. Under the terms of the COA, the Nagineys will pay the Department \$40,000 to reimburse the Department for its

response costs at the Naginey Site. The settlement amount is based upon the Department's determination that the Nagineys cannot pay for all or any substantial portion of its response costs.

This notice is provided under section 1113 of HSCA (35 P. S. § 6020.1113). This section provides that the settlement will become final upon the filing of the Department's response to any significant written comments. The proposed consent order and agreement that contains the specific terms of the settlement is available for public review and comment. The proposed consent order and agreement can be examined from 8 a.m. to 4 p.m. at the Department's office at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Barbara Faletti at (717) 705-4864. A public comment period on the proposed consent order and agreement will extend for 60 days from today's date. Persons may submit written comments regarding the proposed consent order and agreement to the Department by October 8, 1998, by submitting them to Barbara Faletti at the above address.

Notice of Interpretation of Certain Portions of 67 Pa. Code § 153.4(c)

On August 8, 1997, the Pennsylvania Manufactured Housing Association ("PMHA") filed an administrative action with the Department of Transportation ("Department") pursuant to 1 Pa. Code §§ 35.18 and 35.19 requesting waiver, repeal or interpretation of certain portions of 67 Pa. Code Chapter 153. The matter captioned as "In re: Petition of the Pennsylvania Manufactured Housing Association for Waiver, Repeal or Interpretation

of Certain Portions of 67 Pa. Code Chapter 153," was docketed at No. 325 A.D. 1997, in the Department's administrative docket. In its action, PHMA asserted that confusion exists as to whether the regulations of the Department require that modular housing undercarriages display lamps, rear reflex reflectors and turn signals that are permanently mounted upon the frames. At the scheduled hearing, the Department entered in a stipulation of agreement, which is being published pursuant to the Order issued on April 15, 1998, by the Department of Transportation Hearing Officer.

In the instant action PMHA has filed a Petition pursuant to 1 Pa. Code, Section 35.18 under which it has requested that the Department interpret its regulation at 67 Pa. Code 153.4(c) as it relates to the location of required equipment. The regulation in relevant part states. "Except as provided in Paragraphs 1 through 8 of this subsection, each lamp, reflective device, and item of associated equipment shall be securely mounted on a rigid part of the vehicle other than glazing, that is not designed to be removed except for repair . . ." PHMA has explained to the Department that in the course of moving modular housing units and modular housing unit undercarriages transporters utilize removable rear lighting systems. Those systems are subject to breakage if they are permanently attached to the undercarriage of the modular housing unit. Accordingly, PHMA has requested that the Department interpret the phrase, "securely mounted" and the phrase "except for repair" to allow for the usage of removable rear lighting systems. The Department has considered the Petition and concurs that the intent of the regulations can be met utilizing removable rear lighting systems provided they meet certain standards. Accordingly, the Department interprets the phrase "securely mounted" in 67 Pa. Code Section 153.4(c) as meaning "mounted such that there is no lateral or longitudinal movement when subjected to forces normally encountered during movement on the highway." Further, under that same section the Department interprets the phrase "except for repair" as including any removable rear lighting system which is designed to be transferred between the undercarriages and modular housing units.

Questions, suggestions, or comments may be directed to George H. Kabusk, Assistant Counsel, Office of Chief Counsel, Department of Transportation, 3rd Floor Riverfront Office Center, Harrisburg, Pennsylvania 17104-2516, Telephone: (717) 787-2830.

Retention of Engineering Firms

Crawford, Erie, Forest, Mercer, Venango and Warren Counties Project Reference No. 08430AG2231

The Department of Transportation will retain an engineering firm for an Open-End Contract for various engineering services and environmental studies on various projects located in Engineering District 1-0, that is Crawford, Erie, Forest, Mercer, Venango and Warren Counties. The required services may encompass a wide range of design and environmental efforts with the possibility of several different types of projects having aggressive completion schedules. The anticipated projects

may include but not be limited to: bridge replacements or bridge rehabilitations; roadway betterments (3R type projects); capital improvement projects (roadways and/or bridges); traffic signal projects; location studies; and, various environmental studies.

This Contract will be for a sixty (60) month period with projects assigned on an as-needed basis. The maximum amount of this Open-End Contract will be \$1.0 million.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Open-End Contract based on the Department's evaluation of the letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will *not* be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Experience and effectiveness of the proposed project manager(s).
- c. Past record of performance with respect to cost control, quality of work products, ability to meet schedules and previous experience and performance on Open-End Contracts.
- d. Specialized experience and technical competence of key staff.
- e. Availability and diversity of proposed staff listed for this assignment.
- f. Location of consultant with respect to Engineering District 1-0.

This firm may be required to perform any or all of the following engineering services; attend project field views and meetings and prepare minutes of same; prepare appropriate submissions for all project related meetings and field views; disseminate intent-to-enter notices; perform field surveys and plot topography and cross-sections; prepare submissions and materials necessary for the Department to prepare application to the Public Utility Commission (PUC) and attend PUC field conferences; attend and supply any required information for all PUC meetings, field views and hearings during project design; develop erosion and sedimentation control details and narratives; prepare right-of-way plans; prepare type, size and location reports for structures; prepare hydrologic and hydraulic reports for waterway approvals; perform geotechnical investigations and foundation reports; prepare maintenance and protection of traffic control plans; prepare structure drawings; investigate and coordinate utility relocations; prepare prints and information required for value engineering reviews; develop construction project management (CPM) schedules and reasonable construction working times; collect traffic information such as ADT's, classifications, turning movements, circulation, etc.; prepare plans for signal design and implementation of signal interconnections; evaluate alternatives using benefit/cost analysis; documentation study activities and findings for needs analyses; prepare lighting plans; prepare designs of waste water treatment facilities; perform structural analyses; prepare information needed to obtain all required permits, approvals, insurance, etc. for project advancement; and, prepare construction drawings, specifications and cost estimates.

The format and content of all documents, plans, reports and other submissions will be consistent with applicable State and/or federal regulations and guidelines.

The firm may be required to perform any or all of the following environmental studies: air quality analysis; surface water and groundwater hydrology; terrestrial ecology; wetland determinations and delineations; geological and geomorphology investigations; farmlands; visual quality; socio-economic; Section 106 and cultural resource documentation; Section 4(f) and Section 6(f) documentation; noise and vibration analysis; threatened and endangered species surveys and required mitigation; hazardous and residual waste investigations; and, any other environmental study or investigation not listed above. The environmental studies will be conducted in accordance with acceptable Department policies, methodologies and analysis techniques.

The firm may also be required to perform any or all of the following in order to ensure a complete environmental investigation has been performed: provide all necessary environmental services; material and equipment necessary to collect, organize and analyze data; assess impacts; conduct agency coordination and public involvement activities; and, prepare reports and design mitigation summaries.

The reports and other written graphic material to be prepared may include, but not be limited to, early coordination and scoping correspondence; plans of study; meeting minutes; public meetings and hearing presentations; handouts and displays; technical basis reports; NEPA environmental documents; Section 106 documents; Section 4(f) and Section 6(f) evaluations; mitigation plans and reports; and, wetland and floodplain findings.

The engineering services and environmental studies identified above are the general work activities that can be expected under this Open-End Contract. A more specific and project-related Scope of Work will be described for each Engineering Agreement Work Order developed under this Open-End Contract.

In addition to the General Requirements and Information section following this advertisement, respondents to this advertisement are not to include more than ten (10) pages of resumes under Item No. 7 of Standard form 255 (SF-255).

The second copy of the letter of interest and required forms (see "General Requirements and Information" section) shall be sent to: Mr. John L. Baker, P.E., District Engineer, Engineering District 1-0, 1140 Liberty Street, Franklin, PA 16323.

Any technical questions concerning the requirements for this project should be directed to: Mr. Michael L. McMullen, P.E., Engineering District 1-0, at (814) 437-4331.

Any questions concerning the submittal of the letter of interest for this Open-End Contract can be directed to the Consultant Agreement Division at (717) 783-9309.

**Crawford, Erie, Forest, Mercer, Venango and
Warren Counties
Project Reference No. 08430AG2232**

The Department of Transportation will retain an engineering firm for an Open-End Contract for various engineering services and environmental studies on various projects located in Engineering District 1-0, that is Crawford, Erie, Forest, Mercer, Venango and Warren Counties. The required services may encompass a wide range of design and environmental efforts with the

possibility of several different types of projects having aggressive completion schedules. The anticipated projects may include but not be limited to: bridge replacements or bridge rehabilitations; roadway betterments (3R type projects); capital improvement projects (roadways and/or bridges); traffic signal projects; location studies; and, various environmental studies.

This Contract will be for a sixty (60) month period with projects assigned on an as-needed basis. The maximum amount of this Open-End Contract will be \$500 thousand.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Open-End Contract based on the Department's evaluation of the letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will *not* be requested prior to the establishment of the ranking.

Consulting firms with limited previous experience or no experience working in Engineering District 1-0 are encouraged to respond to this advertisement.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Experience and effectiveness of the proposed project manager(s).
- c. Past record of performance with respect to cost control, quality of work products, ability to meet schedules and previous experience and performance on Open-End Contracts.
- d. Specialized experience and technical competence of key staff.
- e. Availability and diversity of proposed staff listed for this assignment.
- f. Location of consultant with respect to Engineering District 1-0.

This firm may be required to perform any or all of the following engineering services; attend project field views and meetings and prepare minutes of same; prepare appropriate submissions for all project related meetings and field views; disseminate intent-to-enter notices; perform field surveys and plot topography and cross-sections; prepare submissions and materials necessary for the Department to prepare application to the Public Utility Commission (PUC) and attend PUC field conferences; attend and supply any required information for all PUC meetings, field views and hearings during project design; develop erosion and sedimentation control details and narratives; prepare right-of-way plans; prepare type, size and location reports for structures; prepare hydrologic and hydraulic reports for waterway approvals; perform geotechnical investigations and foundation reports; prepare maintenance and protection of traffic control plans; prepare structure drawings; investigate and coordinate utility relocations; prepare prints and information required for value engineering reviews; develop construction project management (CPM) schedules and reasonable construction working times; collect traffic information such as ADT's, classifications, turning movements, circulation, etc.; prepare plans for signal design and implementation of signal interconnections; evaluate alternatives using benefit/cost analysis; documentation study activities and findings for needs analyses; prepare light-

ing plans; prepare designs of waste water treatment facilities; perform structural analyses; prepare information needed to obtain all required permits, approvals, insurance, etc. for project advancement; and, prepare construction drawings, specifications and cost estimates.

The format and content of all documents, plans, reports and other submissions will be consistent with applicable State and/or federal regulations and guidelines.

The firm may be required to perform any or all of the following environmental studies: air quality analysis; surface water and ground water hydrology; terrestrial ecology; wetland determinations and delineations; geological and geomorphology investigations; farmlands; visual quality; socio-economic; Section 106 and cultural resource documentation; Section 4(f) and Section 6(f) documentation; noise and vibration analysis; threatened and endangered species surveys and required mitigation; hazardous and residual waste investigations; and, any other environmental study or investigation not listed above. The environmental studies will be conducted in accordance with acceptable Department policies, methodologies and analysis techniques.

The firm may also be required to perform any or all of the following in order to ensure a complete environmental investigation has been performed: provide all necessary environmental services; material and equipment necessary to collect, organize and analyze data; assess impacts; conduct agency coordination and public involvement activities; and, prepare reports and design mitigation summaries.

The reports and other written graphic material to be prepared may include, but not be limited to, early coordination and scoping correspondence; plans of study; meeting minutes; public meetings and hearing presentations; handouts and displays; technical basis reports; NEPA environmental documents; Section 106 documents; Section 4(f) and Section 6(f) evaluations; mitigation plans and reports; and, wetland and floodplain findings.

The engineering services and environmental studies identified above are the general work activities that can be expected under this Open-End Contract. A more specific and project-related Scope of Work will be described for each Engineering Agreement Work Order developed under this Open-End Contract.

In addition to the General Requirements and Information section following this advertisement, respondents to this advertisement are not to include more than ten (10) pages of resumes under Item No. 7 of Standard form 255 (SF-255).

Adams, Cumberland, Dauphin, Franklin, Lancaster, Lebanon, Perry and York Counties
Project Reference No. 08430AG2233

The Department of Transportation will retain two (2) engineering firms for Open-End Contracts to perform

pre-final and final design engineering and, if required, prepare all necessary environmental studies on various projects in the eight-county area of Engineering District 8-0. Each Contract will be for a sixty (60) month period from the date of execution with projects assigned on an as-needed basis. The maximum amount of each Open-End Contract will be \$500 thousand.

The Department will establish an order of ranking of a minimum of five (5) firms for the purpose of negotiating two (2) Open-End Contracts based on the Department's evaluation of the letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.

b. Specialized experience and technical competence of firm with emphasis on the firm's ability to handle projects of a diverse and complex nature. The firm's experience in 3R and I-4R design, safety improvement projects and bridge design projects; the firm's ability to address critical environmental issues in a timely and cost effective manner; and the firm's ability to procure all necessary permits.

c. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on Open-End Contracts. The specific experience of individuals who constitute the firms shall be considered.

d. Location of consultant in respect to the District.

e. Use of Microstation CADD.

f. Current workload.

g. Available staffing for this assignment. The selected firm could be assigned up to 20 concurrent Work Orders of a similar or diverse nature. Prompt turn-around time is expected.

h. Relative size of firm to size of projects that may be completed under this Contract.

The possibility exists that several different types of projects may be assigned with short completion schedules and may encompass a wide range of environmental studies and/or final design efforts. The anticipated types of projects may include, but are not limited to, bridge replacement or bridge rehabilitations with approach work, roadway betterments (3R Type), I-4R projects, SAMI studies, SAMI final design, Capital Improvement Projects (bridges or roadways), and minor location studies.

Areas of environmental study associated with these projects may include, but are not limited to: soils, geology, streams, rivers & watercourses, wetlands, floodplains, navigable waterways, surface water and groundwater resources, National & State Wild & Scenic Rivers & Streams, vegetation, wildlife and habitat, terrestrial and aquatic ecology, threatened and endangered species investigation, farmland, National Natural Landmarks, natural and wild areas, cultural resources, parks and recreation facilities, hazardous or residual waste including underground storage tanks, air quality, noise, energy, vibration, public controversy on environmental grounds, aesthetic

and other values including visual quality, and socio-economic impacts. All environmental studies will be conducted in accordance with accepted analysis techniques and methodologies.

The selected firm may be required to perform any or all of the following in order to ensure a complete environmental investigation has been performed: provide all necessary environmental services, material, and equipment necessary to collect, analyze and organize data; assess or re-evaluate impacts; conduct agency and public involvement activities; and prepare reports and design mitigation plans.

The reports and other written graphic material to be prepared, reviewed and/or distributed may include, but are not limited to: early coordination and scoping documentation and correspondence; technical files; meeting minutes; public meeting and hearing presentations; handouts and displays; technical basis reports; Conceptual State Survey Reports; NEPA environmental documents, including Categorical Exclusions; Section 106 documents, including background research, field views and preparation of documentation required under the Programmatic Agreement for Minor Transportation projects, Section 2002; Section 4(f) and Section 6(f) evaluations; Section 404, 501 and Chapter 105 permits; NPDES permits, 404(b)(1) Alternative Analysis; mitigation plans and reports; wetland monitoring plans; and wetland and floodplain findings.

Other tasks to be completed may include, but not limited to: entry of information into the District Environmental Management System and/or other project management systems; coordinating field views and meetings; review and preparation of comments on environmental policy; monitoring the incorporation of mitigation measures in final design documents; wetland monitoring; Federal Consistency coordination for projects within Gettysburg Historic District; deed and historical research; file review and archiving.

As part of final design, the engineering firm may be required to perform any or all of the following duties: attend field views and prepare minutes; perform necessary field survey; develop alternatives to the alignment; plot topography and cross sections; prepare submissions for field views and safety review meeting; prepare all pertinent submissions and materials necessary for the Department to prepare the application to PUC for the PUC field conference; attend and supply any required information for all PUC meetings and hearings during the project design; develop erosion control details and narrative; develop right-of-way plans; prepare hydrologic and hydraulic reports; prepare type, size and location report; perform bridge/structure design and review; prepare bridge drawings, traffic control plans and narrative; procure core borings; provide the soil and foundation engineering report; investigate utility and property involvement; prepare and disseminate right of entry letters; prepare the necessary number of prints and information required for a value engineering review, make the necessary investigations and adjustments to the design as a result of the value engineering review comments; make all necessary contact with railroad officials for any railroad related cost estimates, permits, insurance, approvals, and other required information; collect signal timing and accident data; perform traffic counts and speed delay studies; prepare plans for signal design and implementation of signal interconnections; evaluate alternatives using benefit/cost analysis; documentation study activities and findings; and prepare construction plans, specifications and estimates.

The format and content of all documents will be consistent with applicable State and Federal regulations, policies and guidelines. This is the general work effort involved. A more specific and project-related Scope of Work will be outlined for each individual Work Order developed under these Open-End Contracts.

The selected firm may be required to supplement the District's Bridge Inspection staff by providing a bridge inspection team with all necessary equipment and material.

Provide survey data for in-house design projects, if needed. Survey information must be directly compatible with District's in-house design capabilities. The District uses in-house software (available to the consultant) or TDS software with a DOS operating data collector.

Project schedules will be maintained by the Department and Consultant using "Welcom's Open Plan" software.

The second copy of the letter of interest and required forms (see "General Requirements and Information" section) shall be sent to: Mr. Barry G. Hoffman, P.E., District Engineer, District 8-0, 2140 Herr Street, Harrisburg, PA 17103-1699.

Any technical questions concerning the requirements for this project should be directed to: Mr. John Bachman, District 8-0, at (717) 783-4519.

Any questions concerning the submittal of the letter of interest for this Open-End Contract can be directed to the Consultant Agreement Division at (717) 783-9309.

The second copy of the letter of interest and required forms (see "General Requirements and Information" section) shall be sent to: Mr. Barry G. Hoffman, P.E., District Engineer, District 8-0, 2140 Herr Street, Harrisburg, PA 17103-1699.

Any technical questions concerning the requirements for this project should be directed to: Mr. John Bachman, District 8-0, at (717) 783-4519.

Any questions concerning the submittal of the letter of interest for this Open-End Contract can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest are required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to: Mr. Charles W. Allwein, P.E., Chief, Consultant Selection Committee, 7th Floor, Forum Place, 555 Walnut Street, P. O. Box 3060, Harrisburg, Pennsylvania 17105-3060. Note: The Zip Code for express Mailing is 17101-1900.

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 P.M. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporate which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act, WBEs or combinations thereof).

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information *must be* packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal

identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organizational Chart (one page, one side, maximum size 11" x 17")

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team)

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project.

Under Item 4 of this form, Column A must specify only the number of subconsultant personnel and Column B must specify only the number of prime consultant personnel to be assigned to work on this project reference number. Do *not* include the total personnel for either the subconsultant or prime consultant under Item 4 unless the total personnel are necessary to provide the required work and services.

The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and *each* subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255

must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (For Construction Inspections Services, if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Accountant must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

HEALTH CARE COST CONTAINMENT COUNCIL

Mandated Benefits

Section 9 of Act 34 of 1993 requires that the Health Care Cost Containment Council (Council) review existing or proposed mandated health benefits on request of the executive and legislative branches of government. The

Council has been requested by Senator Edwin G. Holl, Chairperson of the Senate Banking and Insurance Committee, to review Senate Bill 1198, Printers Number 1487 (Afflerbach), providing for reimbursement for routine patient care costs when an insured, enrollee, or subscriber participates in approved cancer clinical trials.

Initial notification of request for information and documentation was published in the *Pennsylvania Bulletin* on May 23, 1998, with documentation due to the Council by July 23, 1998.

Following is a list of the documentation received. This information is available for public review and comment at the Council offices during regular business hours (8:30 a.m. to 5 p.m.) until August 28, 1998. Any additional comments on this information must be received by this time. Council offices are located at: 225 Market Street, Suite 400, Harrisburg, PA 17101. Send comments (six copies) to Flossie Wolf at this address.

Submissions for SB 1198

1. The Insurance Federation of Pennsylvania (John R. Doubman, Secretary & Counsel)

- Statement addressing Section 9 requirements and opposing Senate Bill 1198.

- Copy of the Federation's submissions opposing Senate Bill 1334 from the legislative session of 1995.

- Attachments addressing institutional review boards.

2. Managed Care Association of Pennsylvania (Kimberly J. Kockler, Executive Director)

- Statement addressing Section 9 requirements and opposing Senate Bill 1198.

- Attachments discussing cancer deaths, clinical trials, clinical research, institutional review boards, and legislation from other states.

3. Highmark (Bruce R. Hironimus, Vice President of Government Affairs)

- Statement addressing Section 9 requirements and opposing Senate Bill 1198.

- Attachments discussing cancer statistics, health insurance trends, projected costs of mandates, investigational treatments, cancer clinical trials, cancer care, and health care costs.

INSURANCE DEPARTMENT

Blue Cross of Northeastern PA; Filing No. 362-BC-SEC-65-NE-DE-1/99; Blue Cross Security 65 Non-Group Rate Increase

Blue Cross of Northeastern Pennsylvania requested to increase rates for the Non-Group Security 65 Program for an effective date of January 1, 1999. Specifically, the requested rate increases are 48.60%, 15.82%, 14.81% and 10.75% for Security 65 packages A, B, C and H respectively, which yields a 14.31% overall average rate increase.

	<i>Current Rate</i>	<i>Proposed Rate</i>
Security 65 Package A	\$23.23	\$34.55
Security 65 Package B	\$47.38	\$54.90
Security 65 Package C	\$59.40	\$68.20
Security 65 Package H	\$94.88	\$105.10

This increase will produce approximately \$5.0 million of additional revenue and will impact approximately 50,000 subscribers.

Copies of the filing are available for public inspection during normal working hours, by appointment, at the Insurance Department's office in Harrisburg.

Interested parties are invited to submit written comments, suggestions or objections to Bharat Patel, Actuary, Insurance Department, Office of Rate and Policy Regulation, Bureau of Accident and Health Insurance, 1311 Strawberry Square, Harrisburg, PA 17120, within 30 days of publication of this notice in the *Pennsylvania Bulletin*.
