Year 2011 Dog Control Facility Bill Reimbursement Grant Program

The Department of Agriculture (Department) gives notice that it intends to award up to \$550,000 in grants under its Year 2011 Dog Control Facility Bill Reimbursement Grant Program (Program). The Program will award bill reimbursement grants of up to \$15,000 per recipient to humane societies or associations for the prevention of cruelty to animals that meet the guidelines and conditions of this Program. The Program will be funded from the Dog Law Restricted Account, from funds which are hereby declared to be "surplus" funds for the limited purposes in section 1002(b) of the Dog Law (3 P. S. § 459-1002(b)).

A proposed version of these guidelines and conditions was published at 40 Pa.B. 5199 (September 11, 2010). The Department invited public and legislative review of these proposed guidelines and conditions in accordance with 7 Pa. Code § 23.4 (relating to guidelines and conditions). The Department received no comments on the proposed guidelines and conditions and by this notice establishes the proposed guidelines and conditions as the final guidelines and conditions for the Program.

The guidelines and conditions for the Program are set as follows.

Guidelines and Conditions for the Year 2011 Dog Control Facility Bill Reimbursement Grant Program

1. Definitions.

The following words and terms, when used in these guidelines and conditions, have the following meanings:

Department—The Department of Agriculture.

Dog control—The apprehending, holding and disposing of stray or unwanted dogs, or as otherwise defined in section 102 of the Dog Law (3 P. S. § 459-102).

Eligible bill—A document seeking payment for materials, services (other than veterinary services and spaying/neutering services) or utilities from a grant recipient, setting forth the following:

- i. The date the document is issued.
- ii. The name and address of the humane society or association for the prevention of cruelty to animals to which the bill is issued.
- iii. If for materials, a description of the materials and the date of delivery. Invoices and/or receipts for materials must set forth or be accompanied by a written description of the intended use of the material and the date the material is used. Materials may not include computers, computer equipment or software. Examples of eligible materials include the following:

- Cleaning supplies.
- Office supplies—typical supplies used to carry on daily office duties.
- Materials for building and repair projects.
- Purchases of medication, needles, and the like.

iv. If for services, the services must be other than veterinary services or spaying/neutering services, and shall include a description of the nature of the services and the dates upon which the services were rendered. Examples of services include the following:

- Labor charges with respect to which the invoice details the exact service performed and the date of performance.

- Cremation services with respect to which the invoice either verifies that only dogs were cremated or—in the event that animals other than dogs were cremated—separates the dogs from those other animals and identifies a charge attributable to only the cremation of the dogs.

- Exterminator services with respect to which the invoice identifies the date of the service and identifies location of the service.

- Property, casualty and liability insurance services (excluding workers compensation insurance).

v. If for utilities (such as electricity, water, sewer, waste disposal and similar purposes), a statement of the period for which the utility, for which payment is sought, was provided.

vi. The name, address and telephone number of the entity issuing the invoice or receipt.

Humane society or association for the prevention of cruelty to animals (SPCA)—A nonprofit society or association duly incorporated under 15 Pa.C.S. Chapter 53, Subchapter A (relating to incorporation generally) for the purpose of prevention of cruelty to animals, or as otherwise defined in section 102 of the Dog Law.

Program—The Year 2011 Dog Control Facility Bill Reimbursement Program.

2. Eligibility.

A humane society or association for the prevention of cruelty to animals is eligible to apply to receive a grant under the Program if that humane society or association for the prevention of cruelty to animals:

- a. Has been in operation for at least 1 year immediately preceding the application date.

- b. Has performed dog control functions for at least 1 year immediately preceding the application date.

- c. Has, in the performance of its dog control functions, accepted at least 100 stray or unwanted dogs into its facility within the year immediately preceding the application date.

- d. Is not a party to a contract with the Department under which the Department pays that humane society or association for the prevention of cruelty to animals for dog control activities performed in the year 2011.

- e. Agrees—as a condition of receiving any grant money under the Program—to continue to perform dog control activities and to accept stray or unwanted dogs from the Department's State Dog Wardens performing dog control functions, through the year 2011.

- f. Agrees—as a condition of receiving any grant money under the Program—to accept stray or unwanted dogs as described in the preceding paragraph without regard to whether the stray or unwanted dog originates from a

county other than the county in which the humane society or association for the prevention of cruelty to animals is located.

g. Has a valid Pennsylvania 2011 "Non Profit" kennel license, and operates only a nonprofit kennel at the facility for which grant reimbursement is requested. Facilities which house kennel operations other than a nonprofit facility (that is, boarding kennel and/or commercial kennel) at the same location are not eligible to participate in this program.

h. If the Humane Society/SPCA has a total operating budget of \$350,000 or less for the 2011 calendar year or, if its budget is on a basis other than calendar year, has a total operating budget of \$350,000 or less for each fiscal year comprising any portion of calendar year 2011, the maximum grant amount will not exceed \$15,000.

i. If the Humane Society/SPCA has a total operating budget exceeding \$350,000 for the 2011 calendar year or, if its budget is on a basis of other than calendar year, has a total operating budget over \$350,000 for each fiscal year comprising any portion of calendar year 2011, the maximum grant amount will not exceed \$10,000.

3. Use of Grant Funds.

The Department will allocate a specific maximum grant amount to a successful grant applicant through a written grant agreement. This maximum grant amount will be specified in the grant agreement, and will not exceed \$15,000 with respect to any application.

The maximum grant amount will be retained by the Department and used to reimburse the grant recipient for eligible bills the grant recipient has paid with respect to materials, services or utilities provided to the grant recipient from January 1, 2011, through December 31, 2011. The total reimbursement the Department will pay a grant recipient will not exceed the maximum grant amount. Any money remaining in a grant allocation beyond the termination date of the grant agreement will lapse into the Dog Law Restricted Account. If a bill covers materials, services or utilities provided, in whole or in part, before January 1, 2011, or after December 31, 2011, that bill is not an eligible bill and will not be reimbursed by the Department under the Program.

4. Application Process.

a. *Application required.* A humane society or association for the prevention of cruelty to animals seeking a grant under the Program must complete a written application form and deliver it to the Department no later than 30 days from the date this notice is published in the *Pennsylvania Bulletin*. Applications received by the Department beyond that date will not be considered.

b. *Obtaining an application form.* The Department will provide grant application forms upon request, or the application may be downloaded from the Department's web site: www.agriculture.state.pa.us.

Requests for application forms should be directed to Susan West, Director, Bureau of Dog Law Enforcement, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 787-4833, fax (717) 772-4352.

- v. Verification that, in the event a grant is awarded, the applicant will continue to perform dog control activities, and to accept stray or unwanted dogs from the Department's State Dog Wardens performing dog control functions, through the year 2011.

- vi. Other information as the Department might reasonably require.

5. Review and approval of grant application.

a. *Review and notification.* The Department will review each timely grant application and provide the applicant written notification of whether the Department awards the grant, denies the grant or awards a grant in some amount less than the applicant sought. This written notification will be mailed no later than 30 days from the date the Bureau of Dog Law Enforcement receives the grant application, to the address provided by the applicant on the grant application form. If an application is incomplete or the Department requires additional information or documentation to evaluate the grant request, it will so advise the applicant within 30 days from the date it receives the grant application.

b. *Review criteria.* The Department will consider the following, among other factors, in determining whether to award a grant application:

6. Grant agreement.

a. *Grant agreement required.* A successful grant applicant must execute a grant agreement with the Department, setting forth the terms and conditions under which the grant money will be used by the Department to reimburse the grant recipient for payment of eligible bills.

b. *Reimbursement requests.* The grant agreement will set forth the exact procedure by which a grant recipient shall seek reimbursement from the Department for payment of eligible bills. The basic reimbursement request procedure will be as follows:

By July 15, 2011, the grant recipient will: (1) deliver copies of the eligible bills it has paid between January 1, 2011, and June 30, 2011; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 6-month period.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908)

Sections 302, 303, 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or

other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the site(s) identified below, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified below. During this comment period the municipality may request that the person identified below, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1-(800) 654-5984.

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Pennsylvania Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that DEP has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice, and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed

document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified below. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121 through 143, the Federal Clean Air Act and regulations adopted under the Act.

06-05105B: Green Gas Pioneer Crossing Energy, LLC (4251 SW High Meadows Avenue, Palm City, FL 34990) for installation of two additional landfill gas to electric energy units at their Pioneer Crossing Landfill in Exeter Township, **Berks County**.

In accordance with 25 PA Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the abovementioned company for the abovementioned project. This plan approval may be incorporated into the company's facility-wide permit via an administrative amendment at a later date.

49-00047A: Furman Foods, Inc. (PO Box 500, 770 Cannery Road, Northumberland PA 17857-0500) for construction of an anaerobic digester that will handle maximum 0.85 MGD of wastewater from the plant's process in order to reduce the volume of wastewater sent to the irrigation field. Digester construction will also expand the current on-site treatment capabilities and further process additional wastewater from projected business growth. Further processing is also required for nutrient reduction as part of the Chesapeake Bay Tributary Strategy. Furman Foods also propose to install a flare and engine that will respectively control and combust biogas generated from the digester. The proposed engine will be a nominal 225 kW; bio-gas-fired engine-generator set to produce electricity at the wastewater treatment plant located on-site at the plant in Point Township, **Northumberland County**. A new scrubber will scrub the biogas sent to the engine to remove hydrogen sulfide. The scrubber media will be iron sponge (wood chip impregnated with iron oxide).

The Department of Environmental Protection's (Department) review of the information submitted by Furman Foods, Inc. indicates that the air contamination sources to

be constructed will comply with applicable regulatory requirements pertaining to air contamination sources including the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction described in the previous paragraph.

The emissions (PTEs) from the digester will not exceed on a 12-consecutive month period basis; 3 tpy of nitrogen oxides, 15 tons of carbon monoxide, and 35 tons of sulfur dioxide using the flare for biogas destruction throughout the entire 12-consecutive month period and based on 8760 hours of operation. During normal operation, the engine will combust most (> 70%) of the biogas from the digester. The PTEs during normal operation from the engine are approximately equal to 3.4 tpy of nitrogen oxides, 1.7 tons of carbon monoxide, 0.1 tons of sulfur dioxide, 0.7 tpy of VOC as non-methane hydrocarbons, and 0.7 tpy of formaldehyde. To demonstrate compliance with ton per 12 CMP emissions limitations from the engines, Furman Foods will be required to conduct EPA reference method testing on the engine's exhaust for nitrogen oxides, carbon monoxide, volatile organic compounds, and formaldehyde. Testing will measure the average emissions rate over at least three (3), 1-hour periods to assure the rates do not exceed the following guaranteed rates: nitrogen oxides—1.0 g/Bhp-hr, carbon monoxide—0.5 g/Bhp-hr, volatile organic compound—0.2 g/Bhp-hr, and formaldehyde—0.07 g/Bhp-hr.

In addition to the emission limitations above, the following is a summary of the types of conditions the Department intends to place in Plan Approval 49-00047A to ensure compliance with applicable Federal and State regulatory requirements including the best available technology requirements of 25 Pa. Code Sections 127.1 and 127.12.

Annual testing on the engine for NO_x and CO.

Monitoring requirement of the H₂S from the outlet of the scrubber.

Monitoring requirements of the pilot flame of the flare and temperature of the combustion zone in the flare.

Monitoring requirement of the engine's catalyst inlet temperature.

Monitoring requirements of monthly engine and flare run-time hours.

Work practice requirements to construct and operate the engine (and catalyst), scrubber, and flare in accordance with the manufacturer's recommendations and good air pollution control practices.

Work practice requirements to operate the flare at minimum combustion zone temperature equal to 1400 Fahrenheit and retention time equal to 0.3 seconds.

Recordkeeping of the engine and flare parameters.

A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at 570-327-3693. Written comments or requests for a public hearing shall be directed to Muhammad Q. Zaman, Environmental Program Manager, Air Quality Program, Department of Environmental Protection, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, 570-327-3648 within 30 days of the publication date for this notice.

65-00354B: Sunoco Partners Marketing & Terminals L.P. (525 Fritztown Road, Sinking Spring, PA, 19608) for installation of one new vapor recovery unit at their Delmont Terminal at 1734 Old Route 66 in Salem Township, **Westmoreland County**.

In accordance with 25 PA Code §§ 127.44(b) and 127.45, the Pennsylvania Department of Environmental Protection (DEP) intends to issue Major Source Plan Approval to allow the installation of one new vapor recovery unit at the Delmont Terminal, located at 1734 Old Route 66 in Salem Township, Westmoreland County. The facility currently has a Title V Operating Permit, No. TV-65-00354. The existing vapor combustion system will remain in place as a backup emission control device. The provisions of this plan approval will subsequently be incorporated into the Title V Operating Permit through an amendment in accordance with 25 Pa Code § 127.450.

Annual emissions from the proposed facility are estimated to be 49.31 tons of VOC and emissions of 0.96 tons of all HAPs combined under the normal operation scenario, with the vapor recovery unit in operation. Emissions under the alternate operation scenario are estimated to be 99.72 tons of VOC and emissions of 1.76 tons of all HAPs combined, with the vapor combustion unit in operation. Gasoline throughput at the facility shall not exceed 483,296,354 gallons in any consecutive 12-month period. The vapor recovery unit shall emit no more than 0.000083 lbs (10 mg/per liter) of VOC to the atmosphere for every gallon of gasoline loaded from the vapor recovery unit under the normal operation scenario. COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.31); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); the Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); the Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on

a mining permit application may be submitted by any person or any officer or head of any federal, state or local government agency or authority to the Department at the address of the District Mining Office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—123 and 86.31—34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 (relating to public hearing-informal conferences) or § 86.34 (relating to informal conferences), must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2 below. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91 through 96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s) (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the District Mining Office indicated above each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding

the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Depart-

ment considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

**Cohen Scrapyard,
Bradford County, Pennsylvania**

The Department of Environmental Protection ("DEP"), under the authority of the Hazardous Sites Cleanup Act, Act of October 18, 1988, P. L. 756, No. 108, *as amended*, 35 P. S. §§ 6020.101—6020.1305 ("HSCA"), has entered into a Consent Order and Agreement for Inability to Pay Settlement with Norman Cohen, Charlotte Cohen, and Shari Cohen, who has power of attorney ("Cohen").

The DEP and Cohen have agreed to a settlement whereby Cohen will reimburse the DEP for up to \$130,000.00 in HSCA Funds spent by the DEP. The HSCA Funds were spent towards the remediation of an automobile junkyard Cohen had owned and operated, which was closed in approximately 1998. The property is identified as Tax Parcel No. 09-020-10-00 ("Site").

Inspections conducted by the Department in 1994 noted numerous violations such as antifreeze draining to the ground surface, waste tires, stained soils and stressed vegetation, batteries, and 55-gallon drums containing waste paint. Subsequent negotiations with Cohen, a November 27, 2000 Administrative Order, and a court order from Commonwealth Court resulting from a petition to enforce the administrative order, as well as other court proceedings, did not accomplish the necessary waste removal and site characterization activities. During the summer of 2003, DEP used HSCA funds to retain the services of Baker Environmental, Inc., a consultant, to remove containerized wastes from the Site and to perform initial soil characterization activities. Four above-ground storage tanks, two underground storage tanks and forty-

three containers of petroleum products and waste, paints, roof coatings, antifreeze and hydraulic oils were removed. In May 2004, the DEP's mobile lab was on the Site to further characterize the extent of the soil contamination. The DEP has spent approximately \$131,593.98 of HSCA Funds towards assessment and remedial activity at the Site.

Financial information provided by Cohen, which Cohen has certified to be true, has documented Cohen's financial inability to complete the work. The settlement includes a mortgage on the Cohen home located at 202 Lincoln Street, Sayre, PA 18840, Tax Parcel No. 33-030.22-334-000-000 ("Home"). The proceeds from the sale of the Home shall go to DEP after Cohens have not lived in the Home for a twenty-four consecutive month period, and there is no good faith belief that neither Charlotte Cohen nor Norman Cohen will be able to return to live in the Home. Cohen shall pay a minimum of \$77,300.00 and up to \$130,000.00 to reimburse DEP. If the sale of the Home is for less than \$130,000, and the sales agreement has been approved by DEP, the mortgage will be satisfied in full.

Copies of the full agreement are in the hands of PA DEP, Office of Chief Counsel, Attention: Amy Ershler, 208 West Third Street, Suite 101, Williamsport, PA 17701, (570) 321-6568, and Melissa Keeffe, DeSisti & Keeffe, 325 North Keystone Avenue, Sayre, PA, 18840, telephone: (570) 888-2352, and may be reviewed by any interested party on request during normal business hours.

DEP shall receive and consider comments relating to the settlement for 60 days from the date of publication of this notice. Comments should be sent to the address noted above for the Office of Chief Counsel, PA DEP. DEP reserves the right to withdraw from the settlement if comments received disclose facts or considerations not previously known to DEP which indicate that the settlement is inappropriate, improper, or not in the public interest. At the conclusion of the 60 day comment period, if there are comments, then DEP shall meet with the Cohens to address the public comments. If there are not adverse comments, within two weeks after the mortgage has been recorded, DEP will request that Commonwealth Court mark the case filed to 164 M.D. 2001, of DEP v. Cohen as settled and discontinued.

Nutrient and Sediment Reduction Credit Trading Program; Notice of Actions

The Department of Environmental Protection (Department) provides notice of the following action under the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). This action was taken under The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed) (see 40 Pa.B. 5790 (October 9, 2010)).

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board. Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

For further information about this certification or the Trading Program, contact Ann Roda, Water Planning Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4726, aroda@state.pa.us or visit the Department's web site at www.depweb.state.pa.us (DEP Programs: Nutrient Trading).

Regulation #53-9 (IRRC #2861)
Preliminary Provisions; Definitions
October 7, 2010

We submit for your consideration the following comments on the proposed rulemaking published in the August 7, 2010 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Joint Committee on Documents (Committee) to respond to all comments received from us or any other source.

Section 1.4.—Definitions.—Implementation procedures.

This proposed regulation adds a definition for “copy” to the preliminary provisions of the *Pa Code (Code)*. It defines “copy” as “an electronic or printed version.” Under

1 Pa. Code §§ 15.1 through 15.6, numerous government entities are to be provided with one copy of documents, in particular the *Code* and *Pa Bulletin (Bulletin)*, with the subscription paid by the Commonwealth. According to the Preamble, the distribution of the *Code* and *Bulletin* is paid for by the Legislative Reference Bureau (LRB). The Preamble also states that as a result of the proposed definition, “most entities listed in Chapter 15 will no longer receive paper copies of the *Code* and *Bulletin* paid for by the LRB.”

In light of 1 Pa. Code Chapter 15, the Committee should explain in the Preamble to the final-form regulation how it intends to comply with the existing distribution requirements.

Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That Jeiby & Vallery, Inc., Respondent, maintains a principal place of business at 5160 Whitaker Avenue, Philadelphia, PA 19124.

2. That Respondent was issued a Certificate of Public Convenience by this Commission on May 8, 2001, at A-00117602.

The Bureau of Transportation and Safety's Motor Carrier Services and Enforcement Prosecutory Staff's proposed civil penalty for this violation is \$250.00.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission fine Jeiby & Vallery, Inc., the sum of two hundred and fifty dollars (\$250.00) for the illegal activity described in the complaint and order such other remedy as the Commission may deem to be appropriate.
