Maximum Lawful Rate of Interest for Residential Mortgages for the Month of February 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of February, 2017, is 5 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.81 to which was added 2.50 percentage points for a total of 5.31 that by law is rounded off to the nearest quarter at 5 1/4%.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Community Conservation Partnerships Program Grants Available

The Department of Conservation and Natural Resources (Department) announces the 2017 open application period for the Community Conservation Partnerships Program Grants administered by the Bureau of Recreation and Conservation (Bureau). The open application period opens January 23, 2017, and will end at 4 p.m. on April 12, 2017. Depending on the funding source, eligible applicants include municipalities and appropriate non-profit organizations in this Commonwealth.

Applications must be submitted electronically through the Department's Grants Portal. No paper, faxed or e-mailed applications will be accepted. Grant information, project guidance documents, program policies, applications and instructions are available online at <http://www.dcnr.state.pa.us/brc/grants>. For assistance with the Department's Grants Portal, contact the Department's Grants Customer Service Center, (800) 326-7734, DCNR-Grants@pa.gov.

Grant assistance from the Department helps communities and organizations in this Commonwealth plan, acquire and develop recreation, park and trail facilities, and conserve open space. New in 2017 is the Riparian Forest

Buffer Grant Program from which grants will be awarded to municipal entities, educational institutions and nonprofits to establish riparian forest buffers along the Commonwealth's waterways.

The Bureau administers the Community Conservation Partnerships Program, which combines several State and Federal funding sources including the Keystone Recreation, Park and Conservation Fund, the Environmental Stewardship Fund, the Pennsylvania Recreation Trails Program, the Land and Water Conservation Fund, the Snowmobile Restricted Account and the All-Terrain Vehicle Restricted Account.

The Statewide Comprehensive Outdoor Recreation Plan 2014—2019 at www.paoutdoorrecplan.com identifies the Commonwealth's outdoor recreation priorities. Projects will be selected, in part, on how well they align with these priorities. The priorities include:

Community parks and recreation: Priority projects in this category include planning and development projects that focus on rehabilitation of existing parks or promote health and wellness through innovative partnerships.

Land conservation: Priority projects in this category include land conservation projects that protect critical habitat, forested watersheds, wetlands and riparian corridors, or create critical connections between public lands.

Rivers implementation: Priority projects in this category include projects that enhance public access to the Commonwealth's waterways or projects that improve the Commonwealth's watersheds including the planting of riparian forest buffers.

Trails: Priority projects in this category include projects that close priority trail gaps as well as projects that rehabilitate or upgrade existing trails.

Bureau staff are available to assist agencies with developing a competitive grant application. Staff contact information can be found on the Bureau's web site at <http://www.dcnr.state.pa.us/brc/aboutus/index.htm>.

Revisions to Schedule of Prices for State Parks

A. Summary and Background

Under section 314 of the Conservation and Natural Resources Act (71 P.S. § 1340.314) and 17 Pa. Code § 11.224 (relating to prices), the Department of Conservation and Natural Resources (Department), Bureau of State Parks (Bureau), will revise its price schedule for State Park activities, uses and privileges effective February 1, 2017. The new schedule, which is in section D, includes revisions to the schedule to add a transaction fee range and a base price for campsites fee range.

The new schedule includes a price increase for non-Commonwealth residents for the base night of camping.

The new schedule reflects a price increase for the transaction fee to continue to defray the cost of using the upgraded reservation system.

The revisions to the schedule provide a range to be used for larger multifamily overnight facilities. This range currently applies to the Hufman and Copper Kettle facilities at Laurel Hill State Park. This range could also be utilized at other large family group facilities in the future.

The revisions to the schedule provide a reduced range for whitewater rafting launching due to collecting a transaction fee for each reservation. The revision also includes a range/fee for the use of facilities to recharge electric cars.

The revisions to the schedule also provide a weekend/holiday daily admission range to be used at pools. This reflects current trends in the surrounding communities where a higher rate is charged on peak days. This assists operationally as well as increases revenue generation.

The new price schedule, which is comparable to those of state parks in neighboring states, is needed to increase revenue to the Bureau. In addition to offsetting inflation, it narrows the gap between State Parks and private

facilities, resulting in a more favorable competitive climate for the private sector.

For comparison purposes, the current price schedule along with the new price schedule can be found at the State Parks web site at <http://www.dcnr.state.pa.us/stateparks/prices/index.htm>. It can also be obtained by calling State Parks Reservations and Information at (888) PA-PARKS. When the new price schedule becomes effective, it will be posted on the previously listed State Parks web site.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or

suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State

Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southcentral Region: Air Quality Program, 909 Elmerston Avenue, Harrisburg, PA 17110.

Contact: Thomas Hanlon, Facilities Permitting Chief, 717-705-4862, Virendra Trivedi, New Source Review Chief, 717-705-4863, or William Weaver, Regional Air Quality Manager, 717-705-4702.

22-03095A: Fager-Finkenbinder Funeral Home & Crematory, Inc. (208 North Union Street, Middletown, PA 17057) for the installation of a human crematory at the funeral home located in Middletown Borough, **Dauphin County**. The expected increases in facility emissions as a result of the changes proposed are: 2.30 tpy of PM, 0.99 tpy of NO_x, 3.29 tpy of CO, 0.82 tpy of SO_x, 0.99 tpy of VOCs and 927.53 tpy of CO₂. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

Public Notification to Solicit Comments on **PennEast Pipeline Company; Plan Approval Application No: 13-00019A.**

Notice is hereby given under 25 Pa. Code §§ 127.44(b)(5) and 127.424, that the Department of Environmental Protection (Department) is soliciting comments on the proposed Air Quality Plan Approval 13-00019A for PennEast Pipeline Company, 1 Meridian Boulevard, Suite

2C01, Wyomissing, PA 19610 for the construction and operation of the Kidder compressor station to be located in Kidder Township, **Carbon County** as described in their March 21, 2016 Plan Approval Application and any other subsequent supplemental submissions.

The project includes the following equipment:

1. Three (3) natural gas-fired, combustion turbine—Gas Compressor Sets, (model no. Mars 100-16000S rated at 15,900 horsepower (hp) each under ISO conditions (47,700 total ISO hp)).

2. One (1) new natural gas-fired internal combustion engine auxiliary power unit.

3. Two (2) fuel gas heaters rated at approximately 1.03 million British thermal units per hour (MMBtu/hr) heat input each.

4. One (1) 1,100 gallon storage tank to store pipeline liquids collected in the gas filters.

5. Various small storage vessels (for waste liquids, lubricating oil, etc.)

The company has proposed to use Solar's lean-premixed dry low emissions system (SoLoNO_x) to provide the lowest NO_x emissions possible during normal operating conditions. The hot exhaust gas leaving the CTs will be directed through an exhaust system that includes a catalytic oxidizer for reducing carbon monoxide (CO) and volatile organic compounds (VOCs) emissions. The combustion and fuel systems are designed to reduce NO_x, CO and unburned hydrocarbons to attain NO_x emission level of 15 PPM and CO emission level of 2.5 PPM, corrected to

15% oxygen, and non-methane/non-ethane hydrocarbons at 2.5 PPM corrected to 15% oxygen when burning natural gas. The company will operate each turbine for 8,760 hours annually.

The natural gas fired auxiliary power unit will be operated to a maximum of 500 hours of operation each, in any 12 consecutive month periods, for non-emergency operation.

The facility will be subject to NSPS Subpart KKKK, JJJJ and 25 Pa. Code § 127.12(a)(5) Best Available Technology (BAT) requirements. The visible emission will be equal to or less than 20% for up to 3 minutes in one hour; <60% at all time from each turbine. The company shall be subject to and comply with 25 Pa. Code § 123.31 for malodorous emissions. Fugitive emissions, including greenhouse gases (GHGs) emissions, have been reviewed pursuant to 25 Pa. Code § 123.1(a)(9). A Best Available Technology (BAT) review for Greenhouse Gases (GHGs) emissions and Gas Compression vs. Electric Compression emissions analysis was submitted by the company and has been reviewed by the Department.

Emissions from the turbines will meet BAT & NSPS Subpart KKKK requirements. Emissions from the emergency generator engine will meet BAT & NSPS Subpart JJJJ requirements. The Plan Approval and Operating Permit will include testing, monitoring, record keeping and reporting requirements designed to keep the sources operating within all applicable air quality requirements.

The following table shows the proposed emissions from the facility:

| Source | Annual Emissions TPY | | | | | | | |
|-------------------------|----------------------|------|----------------------------|---|-------|-----------------|-------------------|--------------|

Noncoal Applications Received

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Table 2

| Parameter | 30-day Average | Daily Maximum | Instantaneous Maximum |
|--------------------------------------|----------------|---------------------------------|-----------------------|
| Suspended solids | 10 to 35 mg/l | 20 to 70 mg/l | 25 to 90 mg/l |
| Alkalinity exceeding acidity* pH* | | greater than 6.0; less than 9.0 | |

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

| Parameter | 30-Day Average | Daily Maximum | Instantaneous Maximum |
|-------------------|----------------|---------------------------------|-----------------------|
| Iron (Total) | 3.0 mg/l | 6.0 mg/l | 7.0 mg/l |
| Manganese (Total) | 2.0 mg/l | 4.0 mg/l | 5.0 mg/l |
| Suspended solids | 35 mg/l | 70 mg/l | 90 mg/l |
| pH* | | greater than 6.0; less than 9.0 | |

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a

remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Approval of a Reasonably Available Control Technology (RACT II) plan for **Calpine Corporation** located in Bethlehem, **Northampton County**.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the Bethlehem Energy Center owned and operated by Calpine Corporation in Bethlehem, Northampton County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997 National Ambient Air Quality Standard (NAAQS) and the 2008 NAAQS for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit 48-00076 for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

Persons wishing to file a written protest or provide comments or request a public hearing, which they believe should be considered prior to the issuance of a permit, may submit the information to Mr. Mark Wejkszner, Air Quality Program Manager, Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18701-1915. A 30-day comment period from the Date of Publication in the *PA Bulletin* will exist for the submission of comments, protests and hearing request. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed RACT II Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the proposed RACT II Plan. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915.

All pertinent application documents are available for public review between 8 a.m. and 4 p.m. at the PA DEP Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18701-1915. Appointments for scheduling a review may be made by calling 570-826-2419.

Conditional State Water Quality Certification for the Emsworth Locks and Dam Hydroelectric Project, FERC Project No. 13757-002

On March 14, 2014, **FFP Missouri 5, LLC** (Applicant) filed an application with the Federal Energy Regulatory Commission (FERC) for a license to construct and operate a 24-megawatt (MW) hydroelectric facility at the Emsworth Locks and Dam, which is owned and operated by the U.S. Army Corps of Engineers (Corps), on the Ohio River, at river mile 6.2, in **Allegheny County**, Pennsylvania (Project). The Applicant is required pursuant to section 401(a) of the Federal Clean Water Act (act) (33 U.S.C.A. § 1341(a)) to provide FERC with certification from the Commonwealth of Pennsylvania (Common-

wealth) that any discharge from the Project to waters of the Commonwealth will comply with provisions of the act relating to water quality standards, and necessary measures to achieve and maintain those standards. The Commonwealth has established such standards and programs to achieve and maintain them under State law, which have been approved by the U.S. Environmental Protection Agency as consistent with the applicable provisions of the act. The Pennsylvania Department of Environmental Protection (Department) administers the Commonwealth's water quality standards programs under State law, and is responsible for the review of requests from applicants for water quality certification made pursuant to section 401 of the act.

On January 7, 2016, Applicant requested a State water quality certification from the Department, as required by Section 401 of CWA (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with CWA requirements.

On August 23, 2016, Rye Development, LLC provided the Department with a complete application for State Water Quality Certification, including an Environmental Assessment for the Project, on behalf of the Applicant. The Project would consist of a new 205-foot-long, 180-foot-wide intake channel to be excavated into the riverbed immediately downstream of the Corps' gate 7 and 8. Four (4) 50-foot-wide, 40-foot-high spillway gate bays would be constructed along the river side of the excavated intake channel, to pass flow equivalent to the Corps' spillway gates 7 and 8. The intake channel would lead to a concrete intake structure that would convey flows past a trash rack with 5-inch clear bar spacing, to a new reinforced concrete powerhouse that is 30 feet long, 180 feet wide and 63.5 feet in height. The powerhouse would house four equally sized horizontal pit Kaplan turbine generator units with a combined capacity of 24 MW. Flows would exit the powerhouse into a 380-foot-long tailrace excavated into the riverbed. Project power would be transmitted from the powerhouse to a new project substation with an 88-foot-long, medium-voltage buried cable, and then from the new substation to an existing substation with a 1,893-foot-long, 69-kilovolt overhead transmission line.

The Department published notice of its proposed state water quality certification in the *Pennsylvania Bulletin*,

46 Pa.B. 5902 (September 17, 2016), and received zero (0) comments from the public.

By this notice, the Department certifies that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301–303, 306 and 307 of CWA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317), and will not violate the Commonwealth's water quality standards set forth in 25 Pa. Code Chapter 93, provided that the construction, operation and maintenance of the Project complies with the conditions for this certification as listed below, and the terms and conditions of the State law permits required to demonstrate compliance with Pennsylvania's Water Quality Standards:

1. *Conditional State Water Quality Certification*—This conditional State water quality certification is based upon the information that is available, to date, due to the FERC licensing process, and is granted with the understanding that the applicant will be submitting a final Environmental Assessment (EA) to the Department, to be reviewed and approved by the Department, prior to the start of construction. This final EA shall be submitted to the Department at the same time that the Applicant submits its application to the U.S. Army Corps of Engineers (USACE or Corps) for a Section 404 Permit, to facilitate a coordinated review between the Department and USACE. The final EA that is submitted to the Department must be developed from final design plans, specifications and reports.

2. *Erosion and Sediment Control*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 102. The Applicant shall obtain and comply with an NPDES permit from the Department for the discharge of stormwater if the earth disturbance activities associated with the Project will result in a total disturbance equal to or greater than 1 acre. Earth disturbance activities associated with discharging dredged or fill material from the Project to waters of the United States which require permit coverage under Section 404 of CWA (33 U.S.C.A. § 1344) need not obtain an additional NPDES Permit from the Department for earth disturbance activities covered by the Section 404 permit. The Applicant shall submit final detailed erosion and sediment control and post construction stormwater management plans for all Project activities to the Department and County Conservation District for their review and approval prior to commencement of construction. Specific guidance on the requirements of the NPDES Permit for Stormwater Discharges Associated with Construction Activities can be obtained from the County Conservation District or the DEP Regional Office.

3. *Water Obstruction and Encroachment Permit*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 105 relating to dam safety and waterway management. The Applicant shall obtain, from the Department, and comply with a Chapter 105 Water Obstruction and Encroachment Permit (WO&EP), for the construction, operation and maintenance of any water obstruction or encroachment associated with the Project that is outside the scope of work licensed under the Federal Power Act, pursuant to the Clean Streams Law (35 P.S. §§ 691.1–691.1001), Dam Safety and Encroachments Act (32 P.S. §§ 673.1–693.27), and Flood Plain Management Act (32 P.S. §§ 679.101–679.601.), and all applicable implementing regulations.

4. *Submerged Lands License Agreement*—The Applicant shall obtain, from the Department, and comply with a Submerged Lands License Agreement, pursuant to Section 15 of the Dam Safety and Encroachments Act, 32 P.S.

§ 693.15, to occupy submerged lands of the Commonwealth in navigable waters as necessary to construct, operate and maintain the Project.

5. *Water Resource Planning Act Registration*—In accordance with the Pennsylvania Water Resources Planning Act, 27 Pa.C.S. § 3118, and the regulations thereunder, 25 Pa. Code Chapter 110, the Applicant must register the hydropower facility with the Department, and report water usage to the Department, annually.

6. *Limited Power Permit*—The Applicant shall obtain and comply with a permit from the Department as required by the Water Power and Water Supply Permits Act, Act of June 14, 1923, 32 P.S. §§ 591–625, related to the construction of a power dam or for a “change in stream” to develop power. The Applicant shall submit an application for this permit to the Department on the form available from the Department.

7. *Water Quality Monitoring*—During final design, the Applicant shall develop a water quality monitoring plan, to be implemented during the construction and operation of this project, and shall submit this plan to the Department for review and approval, prior to the start of construction, to ensure that the receiving water quality is not adversely impacted by the Applicant's construction, operation or maintenance of the Project. This water quality monitoring plan shall include adequate provisions to ensure that monitoring will assess any potential cumulative effect upon water quality, from the operation of all the currently proposed hydroelectric projects, within the greater Pittsburgh region. Thereafter, Applicant shall submit the results of the water quality monitoring to the Department and the USACE, along with suggested modifications in the operation or maintenance of the Project for inclusion in the adaptive management plan, should adverse impacts to water quality result from the project.

8. *Operating Plan and Adaptive Management Plan*—The applicant will be developing an operating plan, Memorandum of Agreement, and an adaptive management plan with the USACE. Applicant will submit these plans to the Department for review and approval, prior to the start of construction, to evaluate potential effects of these plans upon, and compliance with, state water quality standards.

9. *Final Project Design Development*—During final design, applicant shall evaluate alternative designs for the proposed Project that may have the potential to reduce expected fish entrainment and mortality, such as, but not limited to, reducing and/or modifying the proposed 5-inch trash rack spacing, intake channel design, or other alternative designs, pursuant to Section 105.14(b)(4) and (6) of the Department's regulations, 25 Pa. Code § 105.13(e)(1)(viii) and 105.14(b)(4) and (6). This alternatives analysis shall be included in the Applicant's final EA, to be submitted to the Department for review and approval, prior to the start of construction. The final design shall also take into account the cumulative impact evaluations associated with conditions (10) and (11).

10. *Cumulative Impacts to Fish Populations*—Since the project is one of several, currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant, during final design, shall further evaluate the cumulative impacts from these hydroelectric projects, upon area fish populations, due to expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

11. *Cumulative Impacts to Mussel Populations*—Since the Project is one of several currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant shall further evaluate, during final design, the cumulative impacts from these hydroelectric projects, upon local mussel populations, due to potential unavailability of host fish from expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

12. *Minimum By-pass Flows*—During the final design, Applicant shall further evaluate the amount of by-pass flows necessary for the purposes of protection of public health, water quality control, conservation of fisheries, and aquatic habitat, improvement of recreation, and protection of instream and downstream water uses. Applicant shall provide this evaluation to the Department, within its final EA, for the Department's review and approval, prior to the start of construction. If it is determined that by-pass flows are needed, the by-pass flows shall be provided across the length of the dam.

13. *Aids to Navigation (ATON) Plan*—Applicant shall develop an ATON Plan, to avoid or minimize impacts to recreational boating. This plan must be reviewed and approved by the PA Fish and Boat Commission (PFBC), prior to the start of construction. Please contact the PA Fish and Boat Commission, PO Box 67000, Harrisburg, PA 17106, regarding the requirements for an ATON Plan.

14. *Hydraulic Modeling*—Applicant has indicated that additional hydraulic modeling will be conducted during Final Design. The results of this additional hydraulic modeling shall be included in the applicant's final EA that is to be submitted to the Department, for the Department to review and approve, prior to the start of construction. In addition, the applicant shall use the results of the additional hydraulic modeling to further evaluate potential impacts to mussels and their habitat, the potential for increased erosion of Neville Island and the river bed, and any other potential impacts that may be identified during the Department's review of the Applicant's final EA. Alternative designs may need to be considered, to avoid or minimize any adverse environmental impacts that may be identified from this additional modeling and/or additional evaluations for impacts. Mitigation may be required to compensate for any adverse environmental impacts that cannot be avoided. The evaluation of potential impacts to mussels and their habitat shall also include an evaluation of the potential to impact the mussel bed that was identified, which is a unique resource in the Ohio River, within Pennsylvania.

15. *Programmatic Agreement*—Applicant shall comply with the Final Programmatic Agreement Between the Federal Energy Regulatory Commission and the Pennsylvania State Historic Preservation Office for Managing Historic Properties that may be Affected by Issuing an Original License to FFP Missouri 5, LLC for the Construction, Operation, and Maintenance of the Emsworth Locks and Dam Hydroelectric Project Located in Allegheny County, Pennsylvania (FERC No. 13757-002).

16. *Riparian Property*—Within its final EA, Applicant shall submit evidence that it has obtained notarized and signed releases, or has acquired rights of occupancy and use other than fee title, from the owners of any affected riparian property. This conditional water quality certification does not convey any real property rights or interests or authorization to trespass on privately-owned riparian land.

17. *Corps Authorization*—This conditional water quality certification does not relieve the Applicant of the responsibility to obtain any applicable approval/permit from the District Engineer, Pittsburgh District, U.S. Army Corps of Engineers, Room 1817 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222, under Section 10 of the Rivers and Harbor Act or Section 404 of the Clean Water Act of 1977.

18. *Fish and Mussel Surveys and Mitigation*—The Project footprint will reduce riverine habitat below the dam by approximately 3.5 acres, and approximately 11.2 acres will be disturbed during construction. In addition, Applicant acknowledges that the project could potentially alter some mussel habitat conditions through changes in velocity and scour patterns downstream of the dam. In addition, the Applicant identified a mussel bed below the dam, along the edge of Neville Island, which is a unique resource in the Ohio River, in Pennsylvania. Accordingly, fish and mussel surveys shall be conducted three (3) years after project construction, to evaluate the project's impact to fish and mussel species in the project area. The plans for these surveys shall be included within the Applicant's final EA, for the Department's review and approval. In addition, the results of these surveys shall be submitted to the Department for review, within 60 days of completion of these surveys. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the applicant may have to provide compensation for the adverse environmental impact.

19. *Cumulative Environmental Impact Assessment*—The Project is one of several, currently proposed hydroelectric projects in the Ohio, Monongahela, and Allegheny Rivers, within the greater Pittsburgh area river basins. Fish species, such as walleye, smallmouth bass, darters, etc., inhabit the area that can exhibit some migratory behavior, and could pass through multiple hydroelectric projects. In addition, the Applicant's Fish Entrainment Study reports mortality to fish species, such as catfish, drum, darters and bass, that are more likely to be host fish that are important to mussel propagation. Accordingly, Applicant shall develop a plan to conduct fish and mussel surveys, after the construction of all, or at least 50%, of the currently proposed hydroelectric projects, to evaluate the potential for cumulative impacts to area fish and mussel populations. This plan shall be included with the Applicant's final EA, for the Department's review and approval. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the Applicant may have to provide compensation for the adverse environmental impact.

20. *Clean Water Program Coordination*—Applicant shall evaluate the cumulative impacts of lowering Dissolved Oxygen (DO) concentration below existing levels on overall water quality. This analysis shall include an evaluation of the effects of lower DO levels on other dischargers, whose dissolved oxygen analysis could be impacted by any reduction in DO due to the proposed project. The Applicant shall include, within its final EA to be submitted to the Department, a full analysis depicting the pre- and post-construction dissolved oxygen using a Q7-10 flow, and achieving a 7-day average of 5.5 mg/l and a minimum of 5.0 mg/l at the project site, and all points potentially impacted downstream of the project, in accord-

ance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder, and 25 Pa. Code § 93.7.

21. *Water Quality Requirements*—The project must maintain the applicable water quality standard of a 7-day average DO concentration of 5.5 mg/l and a minimum DO concentration of 5.0 mg/l, at Q7-10 low flow conditions, unless the analysis required by the preceding condition indicates that a higher DO level is needed to maintain the DO water quality standard within the Dashields Pool given consideration of all existing, permitted dischargers currently within the pool in accordance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder.

22. *Stream and Habitat Mitigation*—Since the Project will eliminate approximately 3.5 acres of riverine habitat, Applicant shall include, within its final EA to be submitted to the Department, a plan to mitigate for this lost habitat, for the Department's review and approval, prior to the start of construction.

23. *Fishing Access*—During final design, Applicant shall evaluate the feasibility of restoring/providing angler access to the Ohio River, within or near the project area.

24. *Boater Safety*—During final design, Applicant shall evaluate the potential for velocity changes within the river channel, from the hydroelectric project discharge, to affect navigation and boaters in the vicinity of nearby dock(s) (e.g. Neville Island Terminals Corp. dock or other). Accordingly, in its final EA, Applicant shall provide to the Department, and to the owner(s)/operator(s) of the dock(s), an analysis of the effect that the increased velocities might have on barge and/or boat safety, and on barge operators and boaters, in the vicinity of the dock(s). This analysis shall be completed by a hydrologist. In addition, Applicant shall provide a letter from the owner(s)/operator(s) of the dock(s), commenting on this analysis.

25. *Fish Mitigation*—Since the project will impact fish, Applicant shall include, within its final EA to be submitted to the Department, a mitigation plan to compensate for this environmental impact, for the Department's review and approval, prior to the start of construction.

26. *Fish and Mussel Salvage*—Applicant shall further develop its fish and mussel salvage plan to safely remove fishes and mussels from the project area that would otherwise be trapped behind the proposed coffer dams during the dewatering process. These fish and mussels should be relocated to areas outside of the project area. The Applicant shall include this salvage plan within its final EA, to be reviewed and approved by the Department, prior to the start of construction.

27. *River Sediment Testing*—Applicant shall manage dredge material removed from the river in accordance with the Solid Waste Management Act, Act of July 7, 1980, P.L. 380, No. 97, as amended, 35 P.S. §§ 6018.101—6018.1003 ("Solid Waste Management Act") and regulations promulgated thereunder. Permittee should contact the Facilities Chief, Waste Management Program, Southwest Regional Office, with questions regarding this requirement. The project shall be consistent with the Department's Management of Fill policy and the analytic requirements therein. If the testing reveals that the dredged material exceeds the requirements for unrestricted use as clean fill, then the Applicant shall arrange for off-site disposal of the dredged sediments, after applying for and obtaining approval from the Department's Waste Management Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

28. *Threatened, Endangered and Special Concern Species*—The results obtained from utilizing the Pennsylvania Natural Diversity Inventory's Pennsylvania Natural Diversity Inventory (PNDI), and any determinations received from an appropriate jurisdictional agency during any associated consultations, are valid only for 2 years. Accordingly, Applicant must include new PNDI search results within its final EA, along with evidence of any necessary follow-up with the appropriate jurisdictional agency(s). In addition, PNDI search results and clearances must be current and valid, prior to the start of construction.

29. *Seasonal Construction Schedule*—No activities related to the transmission line portion of this project shall be completed during the osprey (*Pandion haliaetus*, PA threatened) nesting season, March 25 to July 31. All activities related to the transmission line should be completed between August 1 and March 24, which is outside the nesting season, to avoid potential impacts to nesting osprey.

30. *Geotechnical Testing*—If a temporary road, drilling platform or other structure is needed to conduct any core boring drilling operations or geotechnical testing, within the Commonwealth's waterways, Applicant shall obtain a permit(s) or other authorization(s) from the Department, prior to conducting any core boring drilling operations or geotechnical testing.

31. *Preparedness, Prevention and Contingency Plan*—The Applicant shall develop and maintain on site a Preparedness, Prevention and Contingency Plan (PPC Plan) for any project activities utilizing pollutants, pursuant to Section 91.34 of the regulations, 25 Pa. Code § 91.34. The PPC Plan shall be developed in accordance with the "Guidelines for the Development and Implementation of Environmental Emergency Response Plans" which can be found at: <http://www.elibrary.dep.state.pa.us/dsweb/Get/Document-48522/400-2200-001.pdf>.

32. *Operation*—The Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control and related appurtenances which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by the Applicant.

33. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of the Department to determine compliance with this State Water Quality Certification, including all required state water quality permits and state water quality standards. A copy of this certification shall be made available for inspection by the Department during such inspections of the Project.

34. *Transfer of Projects*—If the Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, the Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the Department's Southwest Regional Office of such intent. Notice to the Department shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them. The existing owner shall continue

to be responsible for construction and operations at the Project until a transfer to the new owner has been completed. The new owner shall comply with the conditions of this certification, which shall remain in effect, unless modified, in writing, by the Department.

35. *Correspondence*—All correspondence with and submittals to the Department concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Waterways and Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, and shall reference DEP File No. WQ05-003, APS ID # 888601, or Authorization No. 1103887.

36. *Reservation of Rights*—The Department may suspend or revoke this State Water Quality Certification if it determines that the Applicant has not complied with the terms and conditions of this certification. The Department reserves the right to require additional measures to achieve compliance with applicable laws and/or regulations, subject to the Applicant's applicable procedural and substantive rights.

37. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve the Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable federal or State law or regulation.

38. *Severability*—The provisions of this State Water Quality Certification are severable and should any provi-

sion of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Any person aggrieved by this action may appeal, pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A, to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, 717-787-34-83. Request for comments on the Total Maximum Daily Load (TMDL) Developed for Stony Run, Westmoreland County

The Department of Environmental Protection will accept comments as of January 21, 2017 for the proposed TMDL proposed address aquatic life use impairments in Stony Run as noted in 2014 Pennsylvania Integrated Water Quality Monitoring and Assessment Report (Integrated List), initially listed in 2006. Stony Run is a tributary of the Kiski-Conemaugh River and the larger Allegheny River Basin. The watershed is located in Derry Township, Westmoreland County. The impairments were documented during biological surveys of the aquatic life present in the watershed (2005). No additional assessments have been conducted in this watershed as of the original impairment assessment (2005) and consecutive listing (2006). Excessive siltation due to agriculture activities was the source identified as causing impairment to the designated aquatic life use (Cold Water Fishery—CWF) in Stony Run. Pennsylvania does not currently have water quality criteria for sediment, a TMDL endpoint was identified using a reference watershed approach.

This proposed TMDL sets allowable loadings within the specifically impaired stream segments of the Stony Run watershed. The loading was allocated among the land uses of cropland, hay/pasture, and associated stream banks present in the watershed. Data used in these TMDLs was generated using a water quality analysis model (MapShed—GWLF) designed by the Penn State University. The following table shows the estimated current loadings for the watershed. Overall load reductions necessary in order to meet the TMDLs are also identified.

Summary of TMDL based load reductions for Stony Run in lbs./yr.

| Pollutant | TMDL | WLA | MOS | LA | LNR | ALA |
|-----------|-------------|----------|-----------|-------------|----------|-------------|
| Sediment | 4,035,993.8 | 40,359.9 | 403,599.4 | 3,592,034.5 | 78,400.0 | 3,513,634.5 |

Summary of TMDL based load reductions for Stony Run in lbs./day

| Pollutant | TMDL | WLA | MOS | LA | LNR | ALA |
|-----------|----------|-------|---------|---------|-------|---------|
| Sediment | 11,057.5 | 110.6 | 1,105.8 | 9,841.2 | 214.8 | 9,626.4 |

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDLs and information on the TMDL program can also be viewed on the Department's website (www.dep.state.pa.us/watermanagement_apps/tmdl/). To submit comments or request a copy of the proposed TMDLs, contact Scott Alexander, Water Program Specialist, Bureau of Clean Water, Central Office, Department of Environmental Protection, Rachel Carson State Office Building, Harrisburg, PA 17105, 717-772-5670, salexander@pa.gov.

The Department will consider all comments in developing the final TMDLs, which will be submitted to EPA for final approval. Written comments will be accepted at the above address and must be postmarked by 30 days after publication in the *Pennsylvania Bulletin*.

Alternative Fuels Technical Assistance Program Opportunity

The Department of Environmental Protection (Department), Office of Pollution Prevention and Energy Assistance, announces an opportunity for eligible entities to apply for the Alternative Fuels Technical Assistance (AFTA) Program for the purpose of maximizing the economic and environmental benefits of alternative fuel use in vehicle fleets within this Commonwealth. Selected applicants will receive professional assistance by a Department-assigned contractor who will work with the applicant to develop technically viable and economically sustainable alternative fueling plans and strategies. Alternative fuels considered under the AFTA Program may include natural gas, electric, propane, hydrogen, hythane, ethanol, methanol and other advanced biofuels.

The Department is seeking applications for the AFTA Program from the following eligible entities: municipalities; school districts; municipal authorities; and nonprofit organizations.

Eligible organizations may apply to the Department by completing an application and providing basic fleet and operational information. An eligible entity can apply alone or in combination with other eligible project partners. Upon acceptance into the AFTA Program, the Department will assign a technical assistance provider (provider) with relevant experience and expertise. The applying organization will work directly with that provider to develop a suitable scope of work and provide all relevant fleet and operational information necessary to complete the analysis. The provider will then evaluate the technical and economic considerations of various alternative fueling strategies specific to the circumstances of the vehicles and organizations involved.

The technical assistance project will result in a final report that will identify fueling options and recommended strategies based on technical and economic considerations specific to the circumstances of the organizations involved, their vehicle needs and their operating profiles. The report is not expected to include detailed project designs or engineered site plans, but will provide analysis and recommendations needed for the applying organizations to make informed decisions that may result in the implementation of an alternative fueling project.

The application period will open on January 21, 2017, and remain open through June 1, 2017. The AFTA Program application is available on the Department's web site at <http://www.dep.pa.gov> (select "Citizens," then "Grants, Loans and Rebates," then "Alternative Fuels Incentive Grant").

The AFTA Program was designed to provide assistance to those eligible entities who are considering an alternative fuels project in this Commonwealth. Funding from the AFTA Program is provided by the Department's Alternative Fuels Incentive Fund. For additional information or application assistance contact Geoff Bristow, Department of Environmental Protection, Office of Pollution Prevention and Energy Assistance at (814) 332-6681 or gbristow@pa.gov.

Interim Final Technical Guidance—New Guidance

DEP ID: 310-2137-006. **Title:** Chapter 105 Water Obstruction and Encroachment Permit Comprehensive Environmental Assessment of Proposed Project Impacts. **Description:** This proposed technical guidance is intended to clarify the process for completing the information requirements for a Water Obstruction and Encroachment Permit application, Environmental Assessment Form # 3150-PM-BWEW0017. Currently, the permit application requirements generally address proposed project impacts to waters of the Commonwealth associated with small scale projects located in a single county and covered by a single permit application. Large scale projects, however, often cross more than one county and are covered by multiple permit applications necessitating the need for a comprehensive review of all proposed impacts to waters of the Commonwealth from the entire project. This guidance outlines for the permit applicant the required project wide comprehensive environmental assessment information in the permit application in accordance with the rules and regulations of 25 Pa. Code Chapter 105 (relating to dam safety and waterway management).

Written Comments: Interested persons may submit written comments on this draft technical guidance document by Tuesday, March 21, 2017. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail must include the originator's name and address. Commentators are encouraged to review this proposed guidance and submit comments using the Department's online eComment tool at www.ahs.dep.pa.gov/eComment or by e-mail to ecomment@pa.gov. Additional Class of Disproportionate Share Payments

The Department of Human Services (Department) is announcing its intent to allocate funding for Fiscal Year (FY) 2016-2017 disproportionate share hospital (DSH) payments to qualifying hospitals that provide a high volume of services to the Medical Assistance population to promote continued access to inpatient and ancillary outpatient services in this Commonwealth and to support academic medical programs that provide integrated patient-centered medical services. Medical Assistance Transportation Program Grant Funding to Primary Contractors

The Department of Human Services (Department) announces how grant funding for the Medical Assistance Transportation Program (MATP) is disbursed to primary contractors when county governments elect not to administer MATP.

Discussion

MATP provides Medical Assistance (MA) beneficiaries with nonemergency medical transportation for the purpose of receiving medical treatment or medical evaluation or purchasing prescription drugs or medical equipment from MA participating providers. The Department administers MATP at the county level through agreements with county governments (county), primary contractors and transportation brokers (Philadelphia County only).

Funding is allocated to the county and the primary contractor through public assistance block grants comprised of the total projected cost to provide transportation services for a given fiscal year.

The Department offers a county the first opportunity to administer MATP. When a county elects not to administer MATP, the Department will enter into a direct grant agreement with a primary contractor to provide nonemergency medical transportation. Under this arrangement, the Department will distribute the grant funds to the primary contractor based on a negotiated trip fee established for each contract period, multiplied by the number of completed trips identified in the primary contractor's monthly invoice. Semiannual adjustments will be made to the initial trip fee projection based on policy and utilization changes that materially affect MATP.

In addition, the Department will reimburse the primary contractor monthly for copayments paid on behalf of an MA beneficiary to access public or private transportation. This includes the cost of fares in excess of the established general fare structure not subsidized by other programs or funding for which an MA beneficiary may also qualify.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice. The identifying information from a Qualifying Ticket may be submitted only once in the Game. No other method of submission will be accepted, and entries submitted using any other method, including entries mailed or hand-delivered to the Pennsylvania Lottery, are not valid and will be disqualified.

(3) Each entry must be complete and the information supplied by the entrant must be accurate. Incomplete entries cannot be accepted.

(4) Only one claimant per entry allowed.

(5) Entrants must be 18 years of age or older.

(ii) All entries received after 11:59:59 p.m. January 22, 2017, through 11:59:59 p.m. March 23, 2017, will be entered into the Drawing to be held between March 24, 2017 and April 4, 2017.

(iii) The entry period for the Drawing will be posted to the Pennsylvania Lottery's publicly accessible website.

(3) By entering a Qualifying Ticket, each entrant will have the opportunity to play a virtual non-prize-determinative game. This game may reveal a predetermined cash prize, or a predetermined prize that triples the number of entries the entrant receives for the ticket submitted (hereafter the "Entry Tripler Prize"). Each Qualifying Ticket will have a predetermined ticket file assigned at the time the ticket is printed that will determine the outcome of the non-prize-determinative game play.

(4) The number of entries an entrant will receive for the Drawing is determined by the purchase price of the Qualifying Ticket entered and the Entry Tripler Prize, if applicable. The respective purchase prices and corresponding number of entries for Qualifying Tickets are as follows: PA-1262 Lots O' Loot (\$2) = 2 entries; and PA-1261 Pot of Gold (\$5) = 5 entries.

(d) *Prizes Available to be Won, Determination of Winners, and Odds of Winning*.

(2) When the predetermined ticket file for a Qualifying Ticket entered in the Game indicates that the non-prize-determinative game play shall not result in an instant

cash prize or an Entry Tripler Prize, the play sequence will show the player receiving the number of entries that were assigned to the Qualifying Ticket entered for the Drawing.

(3) When the predetermined ticket file for a Qualifying Ticket entered in the Game indicates that the non-prize-determinative game play shall result in an award of an instant cash prize, the play sequence will show the player winning a cash prize and receiving the number of entries that were assigned to the Qualifying Ticket entered for the Drawing. The following tables set forth the approximate number of cash prize winners for each cash prize, and the approximate odds of winning a cash prize:

The following table sets forth the approximate number of Entry Tripler Prizes and the approximate odds of winning an Entry Tripler Prize:

All prizes will be paid as a lump-sum cash payment.

(6) The number of winning entries to be selected for the Drawing will be posted to the Pennsylvania Lottery's publicly accessible website.

(7) The odds of winning in the Drawing depend upon the number of entries received for the Drawing.

Each Qualifying Ticket will have a predetermined ticket file assigned at the time the ticket is printed that will determine the outcome of the non-prize-determinative game play.

PMO III—Change in Meeting Schedule of Pennsylvania Carrier Working Group—M-00011468; PMO III—Docket for 2017 Matters and Filings—M-2017-2582567

The Pennsylvania Carrier Working Group (PA CWG) meeting schedule will change from the first Tuesday at 10 a.m. in even numbered months to the second Tuesday at 10:30 a.m. in the third month of each calendar quarter, beginning with the next meeting now scheduled for March 14, 2017, at 10:30 a.m. The meetings will continue to be held by conference call with call-in details announced by e-mail to active participants prior to the meeting.

The PA CWG¹ was formed in 2003 under Pennsylvania Public Utility Commission (Commission) Order to provide a mechanism for Verizon Pennsylvania, LLC² (Verizon PA) and competitive local exchange carriers (CLEC) in this Commonwealth to resolve metrics and remedies issues relative to the wholesale interconnection services that the CLECs obtain from Verizon PA and to coordinate with similar carrier working groups in other jurisdictions. Primary participation in the PA CWG is open to this Commonwealth's incumbent local exchange carriers, CLECs, statutory advocates and Commission staff, as well as consultants sponsored by these Commonwealth entities. Secondary participation is open to entities from other jurisdictions in the traditional Verizon footprint.

Further, the new industry facilitator of the PA CWG is Margaret Rubino of Windstream. Carrier-to-carrier matters related to metrics and remedies proposals and reports of performance in calendar year 2017 will be processed at Doc. No. M-2017-2582567.

The Commission will publish this Secretarial Letter in the *Pennsylvania Bulletin*. For questions related to the PA CWG, contact either Margaret Rubino, Margaret.rubino@windstream.com, or Louise Fink Smith, Pennsylvania Public Utility Commission, finksmith@pa.gov.

10. Respondent, in transporting passengers as a common carrier for compensation, is subject to the power and authority of this Commission pursuant to Section 501(c) of the Public Utility Code, 66 Pa.C.S. § 501(c), which requires a public utility to comply with Commission regulations.

11. Pursuant to the provisions of the applicable Commonwealth statutes and regulations, the Commission has jurisdiction over the subject matter of this complaint and the actions of Respondent related thereto.

Factual Background

12. On July 23, 2015, I&E filed a Complaint against Respondent at Docket No. C-2015-2494317, alleging that Respondent violated Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c), by failing to pay its 2014-2015 Fiscal Year Assessment.

13. On March 21, 2016, I&E filed a Certificate of Satisfaction pursuant to 52 Pa. Code § 5.24, noting that Respondent satisfied the outstanding assessment and civil penalty requested in I&E's Complaint.

14. On or about February 6, 2015, the Commission mailed to Respondent an assessment report for Respondent to report its gross intrastate operating revenues for the 2014 calendar year.

15. The assessment report was accompanied by a letter, which notified Respondent that the report was to be completed and returned to the Commission on or before March 31, 2015.

16. Respondent failed to file an assessment report stating its 2014 calendar year revenues.

17. On or about September 10, 2015, the Commission mailed to Respondent, by certified mail, an assessment invoice for the July 1, 2015 to June 30, 2016 Fiscal Year

(2015-2016 Fiscal Year) that was based, in part, on Respondent's estimated revenues for the 2014 calendar year. Respondent's assessment was \$1,009.

18. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

19. On September 16, 2015, Respondent signed a certified mail card, which indicated that it received an assessment invoice for the 2015-2016 Fiscal Year.

20. The Commission received no objections from Respondent to this assessment.

21. Respondent failed to pay its 2015-2016 Fiscal Year Assessment Invoice.

22. The total outstanding assessment balance for Respondent is \$1,009.

Violations

COUNT 1

23. That Respondent failed to report its gross intrastate operating revenues for the 2014 calendar year in that it did not file an assessment report for that year. If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,000.

COUNT 2

24. That Respondent failed to satisfy its 2015-2016 Fiscal Year assessment in that it did not pay the amount due within thirty (30) days of receipt of the invoice. If proven, this is a violation of Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 25% of the outstanding assessment balance or \$252. This civil penalty is based, in part, on Respondent's history of noncompliance with the Public Utility Code involving a failure to timely pay assessments, as set forth above.

Wherefore, for all the foregoing reasons, the Pennsylvania Public Utility Commission's Bureau of Investigation and Enforcement respectfully requests that:

(a) Respondent be ordered to pay a total of \$2,261, which consists of its outstanding assessment balance of \$1,009 and a total civil penalty of \$1,252 for the above-described violations;

(b) Respondent be directed to file assessment reports on a going-forward basis; and

(c) If payment of the assessment and civil penalty is not made, the Bureau of Investigation and Enforcement requests that:

(1) the Commission issue an Order to cancel the Certificate of Public Convenience issued to Respondent;

(2) this matter be referred to the Pennsylvania Office of Attorney General for appropriate action; and

(3) the Commission certify automobile registrations to the Pennsylvania Department of Transportation for suspension or revocation.

Respectfully submitted,

11. Pursuant to the provisions of the applicable Commonwealth statutes and regulations, the Commission has jurisdiction over the subject matter of this complaint and the actions of Respondent related thereto.

Factual Background

Prior Case

12. On October 4, 2011, I&E filed a Complaint against Respondent at Docket No. C-2011-2256676, alleging that Respondent violated Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b), by failing to file assessment reports for the 2007, 2008, 2009, and 2010 calendar years. I&E requested that Respondent file an assessment report with the Commission for the 2011 calendar year and if not, that the Commission impose a civil penalty in the amount of \$1,000 upon Respondent.

13. On November 3, 2011, Respondent filed its assessment report for the 2011 calendar year and the Complaint docketed at C-2011-2256676 was marked closed.

2015-2016 Fiscal Year

14. On or about February 6, 2015, the Commission mailed to Respondent an assessment report for Respondent to report its gross intrastate operating revenues for the 2014 calendar year in order to calculate Respondent's July 1, 2015 to June 30, 2016 Fiscal Year (2015-2016 Fiscal Year) Assessment.

15. The assessment report was accompanied by a letter, which notified Respondent that the report was to be completed and returned to the Commission on or before March 31, 2015.

16. Respondent failed to file an assessment report stating its 2014 calendar year revenues.

17. On or about September 10, 2015, the Commission mailed to Respondent, by certified mail, an assessment invoice for the 2015-2016 Fiscal Year that was based, in part, on Respondent's estimated revenues for the 2014 calendar year due to Respondent's failure to file an assessment report stating its 2014 calendar year revenues. Respondent's assessment was \$6,538.

18. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

19. The assessment invoice was mailed to Respondent at 2659 South 67th Street, Philadelphia, PA 19142, which is the mailing address that Respondent provided to the Commission.

20. On October 15, 2015, the assessment invoice was returned to the Commission by the United States Postal Service as being undeliverable.

21. On or about October 16, 2015, the Commission re-mailed the 2015-2016 Fiscal Year Assessment Invoice to Respondent by first class mail at 2659 South 67th Street, Philadelphia, PA 19142 and there is no indication that this mailing was returned to the Commission as being undeliverable.

22. The Commission received no objections from Respondent to the assessment amount set forth in the 2015-2016 Fiscal Year Assessment Invoice.

23. Respondent failed to pay its 2015-2016 Fiscal Year Assessment Invoice.

24. The total outstanding assessment balance for Respondent is \$6,538.

Violations

COUNT 1

25. That Respondent failed to report its gross intrastate operating revenues for the 2014 calendar year in that it did not file an assessment report for that year. If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,500. This civil penalty is based, in part, on Respondent's history of non-compliance with the Public Utility Code involving a failure to file assessment reports, as set forth above.

COUNT 2

26. That Respondent failed to satisfy its 2015-2016 Fiscal Year Assessment in that it did not pay the amount due within thirty (30) days of receipt of the invoice. If proven, this is a violation of Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 15% of the outstanding assessment balance or \$981.

Wherefore, for all the foregoing reasons, the Pennsylvania Public Utility Commission's Bureau of Investigation and Enforcement respectfully requests that:

(a) Respondent be ordered to pay a total of \$9,019, which consists of its outstanding assessment balance of \$6,538 and a total civil penalty of \$2,481 for the above-described violations;

(b) Respondent be directed to file assessment reports on a going-forward basis; and

(c) If payment of the assessment and civil penalty is not made, the Bureau of Investigation and Enforcement requests that:

(1) the Commission issue an Order to cancel the Certificate of Public Convenience issued to Respondent;

(2) this matter be referred to the Pennsylvania Office of Attorney General for appropriate action; and

(3) the Commission certify automobile registrations to the Pennsylvania Department of Transportation for suspension or revocation.

Respectfully submitted,

10. Respondent, in transporting passengers as a common carrier for compensation, is subject to the power and authority of this Commission pursuant to Section 501(c) of the Public Utility Code, 66 Pa.C.S. § 501(c), which requires a public utility to comply with Commission regulations.

11. Pursuant to the provisions of the applicable Commonwealth statutes and regulations, the Commission has jurisdiction over the subject matter of this complaint and the actions of Respondent related thereto.

Factual Background

2014-2015 Fiscal Year

12. On or about September 11, 2014, the Commission mailed to Respondent, by certified mail, an assessment invoice for the July 1, 2014 to June 30, 2015 Fiscal Year (2014-2015 Fiscal Year). Respondent's assessment was \$9,120.

13. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

14. The assessment invoice and notice of assessment were mailed to Respondent at 3740 East Thompson Street, Philadelphia, PA 19137-1421, which is the mailing address that Respondent provided to the Commission for assessment purposes.

16. On September 29, 2014, Durham School Services, L.P. (Durham School Services) filed a letter (September 29, 2014 letter) with the Commission objecting to Respondent's 2014-2015 Fiscal Year Assessment Invoice noting

that it acquired certain assets of Respondent's corporation through a bankruptcy auction in February 2014.

17. In its September 29, 2014 letter, Durham School Services provided that the last known mailing address for Respondent was at 7 North Street, Staten Island, NY 10302.

18. Respondent did not file with the Commission any copy of a petition for bankruptcy or apprise the Commission of a change in its current address.

19. On February 3, 2016, Durham School Services filed a letter with the Commission withdrawing its objection to Respondent's 2014-2015 Fiscal Year Assessment noting that its September 29, 2014 letter should not be considered an objection to Respondent's 2014-2015 Fiscal Year Assessment. Durham School Services stated that the reason for the withdrawal of its objection was that it did not have the authority, intent, or legal right to object to Respondent's 2014-2015 Fiscal Year Assessment or to take any other action on behalf of Respondent as Durham School Services acquired certain assets of Respondent's corporation, but did not assume ownership or any liabilities for current or past operations of Respondent.

20. Respondent failed to pay its 2014-2015 Fiscal Year Assessment Invoice.

2015-2016 Fiscal Year

21. On or about February 6, 2015, the Commission mailed to Respondent an assessment report for Respondent to report its gross intrastate operating revenues for the 2014 calendar year in order to calculate Respondent's July 1, 2015 to June 30, 2016 Fiscal Year (2015-2016 Fiscal Year) Assessment.

22. The assessment report was accompanied by a letter, which notified Respondent that the report was to be completed and returned to the Commission on or before March 31, 2015.

24. On or about September 10, 2015, the Commission mailed to Respondent, by certified mail, an assessment invoice for the 2015-2016 Fiscal Year that was based, in part, on Respondent's estimated revenues for the 2014 calendar year due to Respondent's failure to file an assessment report stating its 2014 calendar year revenues. Respondent's assessment was \$8,443.

25. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

26. The assessment invoice and notice of assessment were mailed to Respondent at 3740 East Thompson Street, Philadelphia, PA 19137-1421, which is the mailing address that Respondent provided to the Commission for assessment purposes.

27. On September 15, 2015, Respondent signed a certified mail card, which indicated that it received the assessment invoice and notice of assessment for the 2015-2016 Fiscal Year.

28. The Commission received no objections from Respondent to this assessment.

29. Respondent failed to pay its 2015-2016 Fiscal Year Assessment Invoice.

30. Being that Respondent's 2014-2015 and 2015-2016 Fiscal Year Assessments remained unpaid, on or about July 27, 2016, the Commission re-mailed the assessment

invoices and notice of assessments for the 2014-2015 and 2015-2016 Fiscal Years to Respondent, via certified mail and first class mail, at 7 North Street, Staten Island, NY 10302, which is the last known mailing address of Respondent that Durham School Services provided to the Commission in its September 29, 2014 letter.

Violations

COUNT 1

34. That Respondent failed to report its gross intrastate operating revenues for the 2014 calendar year in that it did not file an assessment report for that year. If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,000.

COUNTS 2-3

35. That Respondent failed to satisfy its 2014-2015 and 2015-2016 Fiscal Year Assessments in that it did not pay the amounts due within thirty (30) days of receipt of the invoices. (b) Respondent be directed to file assessment reports on a going-forward basis; and

(c) If payment of the assessment and civil penalty is not made, the Bureau of Investigation and Enforcement requests that:
