READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PART I. GENERAL [231 PA. CODE CH. 200]

Amendment of Rule 240 Governing Proceedings In Forma Pauperis; No. 354; Civil Procedural Rules Doc. No. 5

Order

Per Curiam:

And Now, this 8th day of June, 2001, Pennsylvania Rule of Civil Procedure 240 is amended to read as follows.

This order shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective July 1, 2001.

Rule 240. In Forma Pauperis.

(d)(1) If the party is represented by an attorney, the prothonotary shall allow the party to proceed in forma pauperis upon the filing of a praecipe which

[(i)] contains a certification by the attorney that he or she is providing free legal service to the party and believes the party is unable to pay the costs[, and

(ii) is accompanied by the affidavit required by subdivision (c)].

(i) The praecipe required by subdivision (d) shall be substantially in the following form:

PRAECIPE TO PROCEED IN FORMA PAUPERIS

To the Prothonotary:

Kindly allow _____, (Plaintiff) (Defendant), to proceed in forma pauperis.

* * * * *

Explanatory Comment

Prior to the present amendment, Rule 240(d) provided for a party represented by an attorney to proceed in forma pauperis upon the filing of a praecipe. The rule prescribed two requirements for the praecipe. First, the praecipe must have contained "a certification by the attorney that he or she is providing free legal service to the party and believes the party is unable to pay the costs". Second, the praecipe must have been "accompanied by the affidavit required by subdivision (c)" which is filed in support of a petition for leave to proceed in forma pauperis and which demonstrates the party's inability to pay the costs of litigation.

Subdivision (d) has been amended by deleting the requirement that the affidavit accompany the praecipe. As amended, the rule provides for the prothonotary to allow a party to proceed in forma pauperis solely upon a praecipe containing the certification of the party's attorney. A conforming amendment to the form of the praecipe in subdivision (i) deletes the reference to the accompanying affidavit. These amendments bring the rule into conformity with Rule 552(d) of the Pennsylvania Rules of Appellate Procedure and Rule 206 E.(iii) of the Pennsyl-

vania Rules of Civil Procedure Governing Actions and Proceedings before District Justices.

PART I. GENERAL

[231 PA. CODE CHS. 1910 AND 1930]

Amendments to the Rules Relating to Domestic Relations Matters; No. 353 Civil Procedural Rules; Doc. No. 5

Order

Per Curiam:

And Now, this 5th day of June, 2001, Rules 1910.16-4, 1910.16-6, 1910.19, 1910.27 and 1930.5 of the Pennsylvania Rules of Civil Procedure are amended as follows. New Rule 1930.6 of the Pennsylvania Rules of Civil Procedure is promulgated as follows.

This order shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective immediately.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.16-4. Support Guidelines. Calculation of Support Obligation. Formula.

* * * * *

(c) Substantial or Shared Physical Custody.

* * * * *

(2) Without regard to which parent initiated the support action, [When] when the children spend equal time with both parents, the Part II formula cannot be applied unless the obligor is the parent with the higher income. In no event shall an order be entered requiring the parent with the lower income to pay basic child support to the parent with the higher income. However, nothing in this subdivision shall prevent the entry of an order requiring the parent with less income to contribute to additional expenses pursuant to Rule 1910.16-6. Pursuant to either party's initiating a support action, the trier of fact may enter an order against either party based upon the evidence presented without regard to which party initiated the action. [and] If application of the formula in Part II results in obligee receiving a larger share of the parties' combined income[,] in cases in which the parties share custody equally, then the court shall adjust the support obligation so that the combined income is allocated equally between the two households.

[Example. Where the obligor and obligee have monthly net incomes of \$3,000 and \$2,500 respectively, their combined child support obligation for two children is \$1,433. Obligor's share of this obligation is 55%, or \$788. If the children spend equal

time with both parents, the formula in Part II results in a support obligation of \$501 payable to obligee. Since this amount gives obligee \$3,001 of the combined income, and leaves obligor with only \$2,499 of the combined income, the obligor's support obligation must be adjusted to \$250 to equalize the combined income between the parties' households. This is the presumptively correct amount of basic support payable to obligee under these circumstances]

Example. Mother and Father have monthly net incomes of \$3,000 and \$2,000 respectively. Mother has filed for support for the parties' two children with whom they share time equally. Pursuant to the Basic Child Support Schedule at Rule 1910.16-3, the support amount for two children at their parents' combined net income level is \$1,335 per month. Mother's share is 60% of that amount, or \$801. Father's share is 40%, or \$534. Application of subdivisions a. and b. of the Part II formula results in a 20% reduction in support when each parent spends 50% of the time with the children. Because the parties share custody equally, Mother cannot be the obligee for purposes of the Part II calculation because she has the higher income of the two parents. In these circumstances, although Mother initiated the support action, she would become the obligor even if Father has not filed for support. Father cannot be an obligor in the Part II calculations nor can the amount of support Mother is obligated to pay to Father be offset by calculating Father's adjusted amount of support under Part II because a support order cannot be entered against the parent with the lesser income. Using Mother as the obligor, her adjusted percentage share of the basic support amount is 40% (60% - 20% = 40%). Her adjusted share of the basic support amount is \$534 (40% of \$1,335). However, instead of \$534 per month, Mother's support obligation would be adjusted to \$500 per month to allocate the parties' combined income equally between the two households. This is the presumptively correct amount of basic support payable to Father under these circumstances.

* * * * *

(d) *Divided or Split Physical Custody.*

* * * * *

(2) When calculating a combined child support and spousal or APL obligation, and one or more children reside with each party, the court shall, **except as set forth in subdivision (3) below**, offset the obligor's spousal and child support obligation with the obligee's child support obligation and award the net difference to the obligee as spousal and child support. [In the example above, Husband's spousal and child support obligation to Wife and two children is \$564. Wife's child support obligation for one child is \$188. Subtracting \$188 from \$564 produces a net support amount of \$376 payable to Wife as spousal and child support.]

(3) When one or more of the children resides with each party and the obligee's net income is 10% or less of the parties' combined net monthly income, then, in calculating the spousal support or APL obligation, the court shall deduct from the obligor's income both the support owed for the child or children residing with the obligee, as well as the direct support the obligor provides to the child or

children living with the obligor, calculated in accordance with the guidelines as if the child or children were not living with the obligor.

* * * * *

(f) *Allocation. Consequences.*

* * * * *

(3) Unallocated charging orders for child and spousal support, or child support and alimony pendente lite, shall terminate upon the death of the payee spouse or payee ex-spouse.

[(3)] (4) * * *

Explanatory Comment—2000

Subdivision (3) is new and the former subdivision (3) has been renumbered as subdivision (4). The new language is intended to insure alimony tax treatment of unallocated orders pursuant to § 71 of the Internal Revenue Code. A similar change has been made to the form order at Rule 1910.27(e). New Rule 1910.19(d) provides that all spousal support and alimony pendente lite orders terminate upon the death of the payee. Termination of a charging order does not affect arrears existing at that time.

Rule 1910.16-6. Support Guidelines. Adjustments to the Basic Support Obligation.

(a) *Child care expenses.* Reasonable child care expenses paid by the custodial parent, if necessary to maintain employment or appropriate education in pursuit of income, are the responsibility of both parents. These expenses shall be allocated between the parties in proportion to their net incomes and obligor's share added to his or her basic support obligation. **When the custodial parent is receiving a child care subsidy through the Department of Public Welfare, the expenses to be allocated between the parties shall be the full unsubsidized cost of the child care, not just the amount actually paid by the custodial parent.** However, if allocation of the unsubsidized amount would result in a support order that is overly burdensome to the obligor, deviation pursuant to Rule 1910.16-5 may be warranted.

* * * * *

Official Note: A child care subsidy provided by the Department of Public Welfare should not be used to reduce the child care expenses subject to allocation between the parties to the extent that obligor has the financial resources to contribute to the actual costs of child care. Nor is it appropriate to order the obligee to seek a child care subsidy in order to reduce the obligor's share of child care expenses if obligor has the financial ability to contribute to those expenses. **While public policy requires that parents, rather than taxpayers, pay for their children's child care when they are able to do so, allocation of the full unsubsidized cost of child care may result in a support order that is overly burdensome to the obligor.** In those circumstances, in addition to considering deviation to relieve the burden on the obligor, the trier of fact also has the discretion to determine whether or not to include in the order other adjustments under Rule 1910.16-6, such as a mortgage contribution, which are not mandatory. No adjustment to the basic support amount shall be permitted if such would cause the obligor's remaining net monthly income to fall below the Computed Allowance Mini-

mum (CAM) of \$550. Implicit in the rule requiring apportionment of the unsubsidized cost of child care is recognition of the duty of the subsidy recipient to report any additional income pursuant to Department of Public Welfare regulations so that adjustments can be made to entitlements accordingly.

* * * * *

Rule 1910.19. Support. Modification. Termination. Guidelines as Substantial Change in Circumstances.

* * * * *

(d) All charging orders for spousal support and alimony pendente lite shall terminate upon the death of the payee spouse.

Rule 1910.27. Form of Complaint. Order. Income and Expense Statement. Health Insurance Coverage Information Form. Form of Support Order. Form Petition for Modification.

* * * * *

(b) The order to be attached at the front of the complaint set forth in subdivision (a) shall be in substantially the following form:

* * * * *

If you fail to appear for the conference or to bring the required documents, the court may issue a warrant for your arrest and/or enter an interim support order. If paternity is an issue, the court shall enter an order establishing paternity.

THE HEARING OFFICER MAY ENTER AN APPROPRIATE ORDER AGAINST EITHER PARTY BASED UPON THE EVIDENCE PRESENTED WITHOUT REGARD TO WHICH PARTY INITIATED THE SUPPORT ACTION.

(e) The form of a support order shall be substantially as follows:

IMPORTANT LEGAL NOTICE

PENNSYLVANIA LAW PROVIDES THAT ALL SUPPORT ORDERS SHALL BE REVIEWED AT LEAST ONCE EVERY THREE (3) YEARS IF SUCH A REVIEW IS REQUESTED BY ONE OF THE PARTIES. CHAPTER 1930. RULES RELATING TO DOMESTIC RELATIONS MATTERS GENERALLY

Rule 1930.5. Discovery in Domestic Relations Matters.

* * * * *

(b) Discovery shall be available without leave of court in accordance with R.C.P. 4001 et seq. in [**complex support,**] alimony, equitable distribution, counsel fee and expense [**applications**] and **complex support proceedings.**

* * * * *

Explanatory Comment—2000

Subdivision (b) has been amended to clarify that the adjective “complex” applies only to a support proceeding.

(Editor’s Note: The following section is new and is printed in regular type to enhance readability.)

Rule 1930.6. Paternity Actions.

(a) *Scope.* This rule shall govern the procedure by which a putative father may initiate a civil action to establish paternity and seek genetic testing. Such an action shall not be permitted if an order already has been entered as to the paternity, custody or support of the child, or if a support or custody action to which the putative father is a party is pending.

Explanatory Comment

Where the paternity of a child born out-of-wedlock is disputed, 23 Pa.C.S. § 4343 provides that the court shall make the determination of paternity in a civil action without a jury. That statutory provision also states, “A putative father may not be prohibited from initiating a civil action to establish paternity.” Rule 1930.6 governs the procedures by which a putative father may initiate a civil action to establish paternity outside the context of a support or custody proceeding.

(b) *Venue.* An action may be brought only in the county in which the plaintiff or the child(ren) reside.

(c) *Commencement of Action.* An action shall be initiated by filing a verified complaint to establish paternity and for genetic testing substantially in the form set forth in subdivision (1) below. The complaint shall have as its first page the Notice of Hearing and Order set forth in subdivision (2) below.

(1) The complaint filed in a civil action to establish paternity shall be substantially in the following form:

(Caption)

COMPLAINT TO ESTABLISH PATERNITY AND FOR GENETIC TESTING

3. Defendant is the natural mother and Plaintiff believes that he may be the natural father of the following child(ren):

4. The above-named children reside at the following address with the following individuals:

5. Defendant was/was not married at the time the child(ren) was/were conceived or born.
 6. Defendant is/is not now married. If married, spouse's name: _____
 7. There is/is not a custody, support or other action involving the paternity of the above-named child(ren) now pending in any jurisdiction. Identify any such actions by caption and docket number _____
 8. There has/has not been a determination by any court as to the paternity of the child(ren) in any prior support, custody, divorce or any other action. If so, identify the action by caption and docket number _____
 9. Plaintiff agrees to pay all costs associated with genetic testing directly to the testing facility in accordance with the procedures established by that facility.

Wherefore, Plaintiff requests that the court order Defendant to submit to genetic testing and to make the child(ren) available for genetic testing.

I verify that the statements made in this complaint are true and correct to the best of my knowledge, information and belief. I understand that false statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.

FINAL REPORT¹

Revision of the Comment to Pa.R.Crim.P. 105

LOCAL RULE PROCEDURES

On June 8, 2001, effective immediately, upon the recommendation of the Criminal Procedural Rules Committee, the Court approved the revision of the *Comment* to Rule of Criminal Procedure 105 (Local Rules) that adds a cross-reference to the Administrative Office of Pennsylvania Courts' (AOPC) webpage.

The Committee continues to consider the issues related to local rules. One area that remains a concern is access to local rules by members of the bar, particularly those with multi-judicial district practices, and others involved in the criminal justice system. Aware, as part of the Supreme Court's Judicial Council's study of statewide local rule practices, that the Judicial Council and Madam Justice Newman were instrumental in having those local rules lodged with the AOPC published² on the AOPC's webpage, and that, in November 2000, the Court approved the revision of the note to Civil Rule 239 to include a reference to the AOPC's webpage site where the local rules are published, the Committee agreed that a similar reference in the Criminal Rules would be an asset to the members of the bar and others involved in the criminal justice system. Accordingly, the Committee recommended, and the Court approved, the following revision of the Rule 105 *Comment*:

The Administrative Office of the Pennsylvania Courts maintains a webpage containing the texts of local rules. That webpage is located at:

¹The Committee's *Final Reports* should not be confused with the official Committee *comments* to the rules. Also note that the Supreme Court does not adopt the Committee's *Comments* or the contents of the Committee's explanatory *Final Reports*.

²Rule 105(C)(2) requires that all local rules be lodged with the AOPC.

RULES AND REGULATIONS

Title 37—LAW

STATE POLICE

[37 PA. CODE CHS. 58 AND 59]

DNA Detection of Sexual and Violent Offenders Act

The State Police, by this order, adopts Chapter 58 (relating to administrative regulation regarding the DNA Detection of Sexual and Violent Offenders Act), as derived specifically from the DNA Detection of Sexual and Violent Offenders Act (act) (35 P. S. §§ 7651.101—7651.1102), to read as set forth in Annex A.

A. *Effective Date*

The final-form regulations will be effective upon publication in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

These final-form regulations are adopted under the authority of the act.

C. *Background and Purpose*

As provided, the act became effective November 28, 1996. The final-form regulations set forth the administration, policies and procedures designed to carry out the provisions of the act. In addition, the contents of Chapter 59 (relating to procedures for the receipt and processing of DNA samples for the State DNA database) have been incorporated into the final-form regulations, thus enabling the deletion of Chapter 59. These final-form regulations are necessary for the general administration of the act.

D. *Comments Received*

Notice of proposed rulemaking was published at 26 Pa.B. 5011 (October 19, 1996) with an invitation to submit written comments within 30 days of publication. The only comments received were those of the Independent Regulatory Review Commission (IRRC). The following is a summary of those comments and the State Police response:

(1) IRRC raised a concern that the contents of Chapter 59 contained policy and should be incorporated into the final-form regulations. The State Police agrees and has incorporated the provisions into the final-form regulations, thus enabling the deletion of Chapter 59.

(2) IRRC raised a concern as to the fiscal information provided by the State Police. The State Police agrees and has revised the Regulatory Analysis Form accordingly. Additionally, this Preamble also contains more detailed fiscal information.

(3) IRRC raised a concern as to the effective date of the act and whether the State Police and Department of Corrections (Department) are currently prepared to carry out its provisions. The effective date as set forth by the act is November 28, 1996. The State Police and criminal justice agencies to which this act applies are already complying with all provisions of the act. These final-form regulations codify that which is already being done. A separate laboratory has been set up in the annex of the existing State Police laboratory facility in Greensburg to comply with the provisions of the act. Personnel and resources have also been shifted to ensure full compliance.

(4) IRRC raised concerns it received from Senator Harold F. Mowery, Jr., former Chairperson of the Senate Law and Justice Committee, in which provisions in the act outlining the DNA Detection Fund were not mentioned in the proposed regulations. The State Police and IRRC respectfully disagree in that the act clearly states how the DNA Detection Fund is to work. As is mentioned later in this Preamble and in the Regulatory Analysis Form, the State Police expects to collect little more than 1% of this fee which is ultimately court imposed and court collected, and thus beyond the immediate control of the State Police.

Senator Mowery also recommended that the final-form regulations make mention of confidentiality as it is reflected in the act. The State Police agrees and has incorporated a section dealing with this issue.

(5) IRRC raised concerns regarding a perceived lack of specificity of DNA handling and custody procedures. The State Police disagree because how blood samples will be delivered and what conditions will be imposed, as well as chain of custody, are addressed in the final-form regulations. Kits will be provided to the correctional facilities by the State Police and will include a mailing carton. In addition, various forms are required to be completed for among other reasons the purpose of establishing chain of custody. The kit contains a security seal which further ensures evidentiary integrity.

Since there is agreement between the State Police and IRRC that this field is still evolving and is therefore likely to change. The State Police does not wish to establish specific procedures in the final-form regulations. The final-form regulations, and any policies and procedures contained therein, are in compliance with Federal Bureau of Investigation Combined DNA Index System (FBI CODIS) standards and must remain so at all times.

(6) IRRC raised concerns regarding access to data and information. IRRC suggested language to be added to the final-form regulations, to which the State Police agreed and incorporated.

(7) IRRC raised concerns regarding several sections of the act not being addressed. The State Police agrees and has added various sections to the final-form regulations concerning limitation on liability, reasonable use of force, confidentiality of records, criminal penalties and civil actions.

(8) IRRC raised concerns regarding the use of various terms in the regulations which it believed to be vague or inconsistent. The State Police agrees and has incorporated the various changes in the final-form regulations suggested by IRRC or clarified their misinterpretation.

(9) In discussions, IRRC questioned the need for § 58.2 (relating to authority of law enforcement officers). The State Police believes it is important for this section to remain in the final-form regulations for a number of reasons, the most important of which is that the final-form regulations be interpreted to have sufficient flexibility and severability. The State Police does not want the possibility to exist wherein if the final-form regulations are deemed to be more strict than the act, current law or rules of evidence, that they will supersede the standards.

(10) IRRC recommended that the definition for DNA sample be consistent with the definition contained in the act. IRRC also recommended a definition be added for the acronym SID, State Identification Number. The State

Police agrees and has incorporated both recommendations into the final-form regulations.

E. *Compliance with Executive Order 1996-1*

In accordance with Executive Order 1996-1, in drafting and promulgating the final-form regulations, the State Police solicited input and suggestions from the regulated community. These final-form regulations address a compelling public interest as described in this Preamble and otherwise comply with Executive Order 1996-1.

F. *Benefits*

The benefits include the identification of repeat offenders by identification of their forensic DNA profile obtained from evidentiary material, the linking of serial offenders within this Commonwealth and across the country, the solving of cases of unidentified perpetrators in sexual assaults and homicides and the identification of missing persons and victims of mass disasters. These DNA profiles are from regions of the DNA that do not identify physical, sociological or psychological characteristics.

G. *Effect*

The final-form regulations will affect various criminal justice agencies. The effective date of the act was November 28, 1996. Training for the various criminal justice agencies concerning the requirements of the act and these final-form regulations are ongoing and continuous. The State Police regularly conducts training and informational forums for various agencies and groups. The full resources of the State Police are available at all times to any agency at any level.

H. *Paperwork Requirements and Fiscal Impact*

The final-form regulations will require the completion of additional forms, reports, kits and other paperwork as prescribed and provided by the State Police.

As policies are developed, the only costs incurred revolve around the drawing of the blood. The Department, wardens and juvenile facilities have been informed to make sure this is added to nursing contracts.

This is difficult to quantify since it will be correctional facilities who will be tasked with the drawing of the DNA samples, their packaging and subsequent mailing to the State Police. There will be man-hour costs attached to all levels of compliance which are unavoidable. In the long-term, cost savings to local governments may come from the fact that repeat offenders will have been identified and incarcerated. One cannot overlook the intangible savings to all communities by not having repeat offenders in communities.

Currently, there are approximately 14,000 incarcerated individuals to whom this act applies. Approximately 10,000 samples are expected to be received by the DNA Database Laboratory in the first year. Approximately 7,000 samples are expected the second year and approximately 3,000 samples are expected each year thereafter.

The State Police expect supply costs to be approximately \$300,000 a year. Each DNA Database Kit, which the State Police will provide to all appropriate agencies and facilities, will cost at least \$2.40 each. Postage, which the State Police will also provide, will be at least \$1.05 for each DNA Database Kit and 60¢ for each fingerprint card.

The act provides for a DNA Detection Fund to be established; however, it is not expected to generate significant revenue for the operation of the DNA Database Laboratory. A recovery rate of this court imposed fee of \$250 is expected to be a little more than 1%.

I. *Input*

These final-form regulations have been promulgated in consultation with the Department, Board of Probation and Parole and various other criminal justice agencies, and are in accordance with the FBI CODIS standards and procedures.

J. *Review*

Due to the sensitivity and emotion that crimes like these evoke in people and communities, every facet of the final-form regulations, and the program in general, will be continuously reviewed for effectiveness, clarity and whether they are serving the greater interests of the citizens of this Commonwealth. The State Police is committed to its success and has taken a proactive approach to soliciting comments from the regulated community and the public. This will be furthered by regularly scheduled training and regional meetings to which various elements of the criminal justice community and various private entities are invited.

K. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on November 2, 1998, the State Police submitted a copy of the notice of proposed rulemaking, published at 26 Pa.B. 5011, to IRRC and the Chairpersons of the House Judiciary Committee and the Senate Law and Justice Committee for review and comment.

In compliance with section 5(c) of the Regulatory Review Act, the State Police also provided IRRC and the Committees with copies of the comments received. A copy of the material is also available to the public upon request. In preparing these final-form regulations, the State Police considered the comments received from IRRC.

Under section 5.1(d) of the Regulatory Review Act (71 P. S. § 745.5a(d)), on November 22, 1998, these final-form regulations were deemed approved by the House and the Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on December 10, 1998, and approved these final-form regulations.

L. *Contact Person*

The contact person is Ronald E. Plesco, Jr., Esq., Policy Analyst, State Police, Legislative Affairs Office, 1800 Elmerton Avenue, Harrisburg, PA 17110, (717) 772-0905.

GENERAL PROVISIONS

§ 58.21. Procedures for regulating the collection, receipt and processing of DNA samples in the DNA database laboratory.

(a) The responsibility to ensure collection of DNA samples for the DNA Databank is as follows:

(1) DOC will have the responsibility when the offender is sentenced to incarceration within a State correctional facility.

(2) The director of the youth development center or juvenile detention facility will have the responsibility when the offender is sentenced to detainment within a State juvenile correctional facility.

(3) The warden or other official in charge of a county or local correctional facility or the administrator of a county juvenile detention center or other juvenile facility will have the responsibility when the offender is sentenced to incarceration within such correctional facilities.

(4) Individuals given a disposition, other than incarceration, will be the responsibility of the chief county adult or juvenile probation/parole officer. The chief county adult or juvenile probation/parole officer shall also be responsible for transportation of the individual to the prison, jail, juvenile detention facility, or another detention facility or institution. The DNA sample is to be drawn at a prison, jail unit, juvenile facility or other facility designated by the court before release.

(b) DNA samples shall be drawn by persons authorized to do so under Pennsylvania law.

(c) For individuals convicted or adjudicated delinquent prior to November 28, 1996, DNA samples shall be drawn prior to release. Collection of DNA samples shall be prioritized by release/parole date. These DNA samples are to be collected after scheduling a compatible time for receipt by the DNA Database Laboratory.

(d) For individuals convicted or adjudicated delinquent after November 28, 1996, DNA samples shall be drawn at time of intake. To prevent duplication of draw and to ensure a DNA sample is collected, a DNA Sample Tracking Sheet shall accompany the inmate and be placed into the inmate's file.

(e) Prior to collecting the DNA sample, the responsible persons designated under subsection (a) shall determine that the offender is subject to section 306 of the act (35 P. S. § 7651.306). The SID Number associated with an inmate's commitment and sentencing documentation will be used as a tracking number for this purpose. A copy of the DNA Sample Tracking Sheet will be retained by the facility responsible for collecting the DNA sample. A copy of the DNA Sample Tracking Sheet shall be transmitted to the Board of Probation and Parole at the time a recommendation is made for release consideration. A copy of the DNA Sample Tracking Sheet shall also be retained by the Board of Probation and Parole.

(f) DNA samples shall be collected using State Police provided DNA Database Kits. DNA samples will consist of an EDTA tube of blood unless a special written request to the DNA Database Laboratory is made for permission to submit a different tissue sample. Requests shall be in writing, specify good cause, and be subject to verification and approval by the DNA Database Laboratory prior to transmittal of the sample.

(g) The associated forms for the DNA Database Kit shall be completed in full prior to submission. The imprinting of the offender's left and right thumbs, by means of an inked impression in the spaces indicated on the DNA Database Collection Card, shall also be completed. Additionally, a Pennsylvania State Police Arrest and Institution Fingerprint card shall be completed.

(h) The completed kit, DNA Database Collection Card and the Pennsylvania State Police Arrest and Institution

Fingerprint Card shall be delivered to the State Police DNA Database Laboratory within 48 hours of collecting the DNA sample.

(i) Receipt of DNA samples in the DNA Databank will apply with the following.

(1) DNA samples received in person, by mail, by parcel post or by a bonded courier service will be accompanied by a DNA Database Sample Inventory and Receipt Form. When received in person, the DNA Database Laboratory will verify that the DNA samples delivered are the same DNA samples as listed on the DNA Database Sample Inventory and Receipt Form. The DNA Database Laboratory will sign and date the chain of custody portion of the form, indicate the manner of receipt and ensure that the correctional officer or courier signs in the appropriate space. The original of this form will be maintained in the DNA Database Laboratory and a copy will be given to the correctional officer or courier as a delivery receipt. A copy of the form will also be mailed to the submitting agency. After inventory of the DNA samples, each DNA sample will receive a unique DNA bar code number. The number will then be entered into a Sample Tracking System.

(2) Associated paperwork with the DNA Database Kit will receive the same bar code number and be placed into the DNA Sample File that is generated at this time.

(3) The DNA Sample File will not contain any sizing information or DNA typing data.

(4) Upon receipt and after assignment of a unique bar code number, the DNA Database Laboratory will break the seal and closely examine each individual DNA sample.

(5) The DNA sample and kit are further processed, and the kit is securely stored.

(6) The DNA Database Laboratory will ensure that the submitting agency is contacted and notified if a DNA sample must be redrawn. The DNA Database Laboratory will also track the DNA sample to ensure it is redrawn as requested.

(7) A DNA Sample Destruction Form will be completed if the DNA Database Laboratory determines that a DNA sample has been received from an individual not covered by the act, and the DNA sample destroyed.

(8) DNA samples in the DNA Databank will be retained in accordance with CODIS standards.

(9) Lab files will not contain offender names. The only identifier will be the unique bar code number.

§ 58.22. Access to data and information.

General operating procedures are as follows:

(1) Access to information in the DNA Database and DNA Databank (including personal identifying information) shall be made available under one of the following:

(i) To criminal justice agencies or approved crime laboratories which serve these agencies.

(ii) Upon written or electronic request and in furtherance of an official investigation of a criminal offense or offender or suspected offender.

(2) The identity of any person or agency making a request for information shall be verified prior to the release of any information. Requests made through CODIS will be deemed to have met this requirement. Verification shall be made by means of a return phone call to the requestor's supervisor to establish authority to receive the information and the purpose for the request.

(3) Requests for information will only be accepted, after verification, from criminal justice agencies, or approved governmental forensic science laboratories, and only upon written or electronic request and in furtherance of an official investigation of a criminal offense or offender or suspected offender.

(4) A request may be made by personal contact, mail or electronic means. A Request for Database Search Form shall be completed.

(5) The name of the requestor and the purpose for which the information is requested shall be maintained on file in the DNA Database Laboratory.

(6) Only when a DNA profile or sample supplied by the requestor satisfactorily matches a profile in CODIS will the existence of the data be confirmed, or identifying information be disseminated.

(7) The following will be denied:

(i) Requests that do not meet the criteria of paragraphs (1)–(6).

(ii) Requests from private forensic laboratories.

§ 58.23. Prohibition on disclosure.

Violations or suspected violations of disclosure of DNA Database information shall be reported to the Director of the Laboratory Division. Violations are as follows:

(1) *Disclosure.* A person who by virtue of employment or official position or any person contracting to carry out any functions under the act, including any officers, employees and agents of the contractor, who has possession of or access to individually identifiable DNA information contained in SDIS or in the State DNA Databank may not disclose it in any manner to any person or agency not authorized to receive it knowing that that person or agency is not authorized to receive it.

(2) *Obtaining Information.* A person may not obtain individually identifiable DNA information from SDIS or the State DNA Databank without authorization to do so.

§ 58.24. Criminal penalties.

(a) *Disclosure.* A person who by virtue of employment or official position or any person contracting to carry out any functions under the act, including any officers, employees and agents of the contractor, who has possession of or access to individually identifiable DNA information contained in SDIS or in the State DNA Databank and who for pecuniary gain for the person or for any other person discloses it in any manner to any person or agency not authorized to receive it commits a misdemeanor of the first degree.

(b) *Obtaining information.* A person who violates section 501(b) of the act (35 P. S. § 7651.501(b)) commits a misdemeanor of the first degree.

§ 58.25. Civil actions.

(a) *Injunctions.* The State Police or any other aggrieved individual or agency may institute an action in a court of proper jurisdiction against any person, agency or organization to enjoin any criminal justice agency, noncriminal justice agency, organization or individual from violating the provisions of the act.

(b) *Action for damages.*

(1) A person aggrieved by a knowing violation of section 501 of the act (35 P. S. § 7651.501) shall have the substantive right to bring an action for damages by reason of the violation in a court of competent jurisdiction.

(2) A person found by the court to have been aggrieved by a knowing violation of section 501 of the act shall be entitled to actual and real damages of not less than \$100 for each violation and to reasonable costs of litigation and attorney fees. Exemplary and punitive damages of not less than \$1,000 nor more than \$10,000 shall be imposed for any violation of section 501 of the act.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person

identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Notice of Plan Approval and Operating Permit Applications

New Sources and Modifications

The Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that DEP has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act and regulations adopted under the Act.

Nitrogen Oxides (NOx) Allowance Program

Proposed State Only Operating Permit that includes Conditions relating to NOx Allowance Requirements in 25 Pa. Code §§ 123.101—123.120

The Department of Environmental Protection (Department) intends to issue an Operating Permit that includes allocations under the provisions of 25 Pa. Code §§ 123.101—123.120 (relating to NOx allowance requirements). These regulations establish a NOx budget and a NOx allowance trading program for NOx affected sources for the purpose of achieving the health-based ozone ambient air quality standard. A NOx affected source is defined as a fossil fuel fired indirect heat exchange combustion unit with a maximum rated heat input capacity of 250 MMBtu/hour or more and all fossil fuel fired electric generating facilities rated at 15 megawatts or greater or any other source that voluntarily opts to become a NOx affected source.

Specifically the Department proposes, under 25 Pa. Code § 123.115, to provide a NOx allowance allocations for Duquesne Light Company's Brunot Island facility (now owned and operated by Orion Power MidWest, L.P.).

These allowances will be allocated when the facility becomes fully operational and cannot be banked or traded.

The operating permit requires the owner or operator of each NOx affected source to hold a quantity of NOx allowances meeting the requirements of 25 Pa. Code § 123.110(a) by December 31, of each calendar year. One NOx Allowance is the limited authorization to emit one ton of NOx during the NOx Allowance Control Period, which begins May 1 of each year and ends September 30 of the same year. The NOx allowances held in the source's current year NOx Allowance Tracking System (NATS) account must be equal to or greater than the total NOx emitted from the source during the year's NOx allowance control period. The initial NOx allowance control period began on May 1, 1999.

The operating permit also includes emission monitoring, reporting and recordkeeping requirements for each NOx affected source. NOx emissions from each NOx affected source shall be monitored in accordance with 25 Pa. Code § 123.108 and the procedures contained in the document titled "Guidance for Implementation of Emission Monitoring Requirements for the NOx Budget Program."

Persons wishing to file protests or comments on the proposed revised operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed permits. Any comments or protests filed at the address must include a concise statement of the objections to the issuance of the permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation, where the facility is located, at least 30 days prior to the date of the hearing.

Copies of the proposed permits and other relevant information are available for review at the address given:

In order to ensure compliance with all applicable standards, the Department proposes to place the following requirements in the respective plan approval.

The synthetic fuel manufacturing facility is to be constructed in accordance with the plans submitted with the application.

This plan approval is issued for the construction of a 300 ton per hour synthetic fuel manufacturing facility. The subject facility is to be comprised of the following:

- underground vibrating hopper
- belt feeder conveyor
- 42" x 100' underground reclaim conveyor
- 36" x 150' plant feed conveyor
- double agitation mixer
- surge-blending bin
- (2) pellet mills
- 36" x 120' product conveyor
- 36" x 100' stacker conveyor
- (2) 15,000 gallon volatile organic liquid storage tanks
- million Btu per hour propane-fired boiler

- Under 25 Pa. Code §§ 127.1 and 127.12, all conveyors that are not located within an enclosed structure or located within an underground tunnel, shall be completely enclosed or covered. These enclosures or covers shall be in place upon any occasion that the conveyors are in use.
- Under 25 Pa. Code §§ 127.1 and 127.12, only those additives listed shall be used to manufacture synthetic fuel at this facility, unless prior Department approval has been granted to use alternative additives.

FTH-100 from Accretion Technologies
Nalco 9838 from the Nalco Chemical Company
Latex DL 298NA from the Dow Chemical Company

- Under 25 Pa. Code §§ 127.1 and 127.12, the volatile organic compound emissions from this facility shall not exceed 2.70 tons during any 12 consecutive month period.
- The company shall maintain comprehensive and accurate records of the quantity of raw coal and the type and quantity of each additive used at the facility for each month. Additionally, the company shall also maintain comprehensive and accurate records of the quantity of synthetic fuel produced at the facility for each month. These records shall be retained on site for at least 5 years from the date of generation and shall be made available to Department personnel upon request.
- The two 15,000 gallon volatile organic liquid storage tanks are subject to Subpart Kb of the Federal Standards of Performance for New Stationary Sources, 40 CFR 60.110b—60.117b. The company shall comply with all applicable requirements of this Subpart as well as any other applicable Subpart of the Standards of Performance, including any recordkeeping and reporting requirements. Under 40 CFR 60.4 of the Standards of Performance, the submission of all requests, reports, applications, submittals and other communications required by the Standards of Performance must be made to both the Department of Environmental Protection and the Environmental Protection Agency.

The information provided by the applicant indicates that the tanks will emit .0000936 ton of particulate matter per year following the installation of the conservation vents and diffusion filter. A preliminary review of the information submitted by the applicant indicates that all applicable air quality requirements will be met. Based on this finding, the Department proposes to approve the application and issue a plan approval for the installations.

In order to ensure compliance with all applicable standards, the Department proposes to place the following requirements in the respective plan approval:

- The conservation vents and diffusion filter are to be installed in accordance with the plans submitted with the application.
- The diffusion filter shall be cleaned on a frequent enough basis to ensure proper operation.
- Opacity readings shall be conducted at least once during each 8-hour shift on the filter stack and vent manifold.
- The air contaminant emission from the tanks shall comply with the provisions of Sections 123.1, 123.13 and 123.41 of Chapter 123 of Article III of the Rules and Regulations of the Department of Environmental Protection.

S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a

statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Land Recycling and Environmental Remediation Standards Act. Plans and reports required by provisions of the Act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office

listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Laboratories Approved to Determine Blood Alcohol Content Under the Clinical Laboratory Act, the Vehicle Code, the Fish and Boat Code and the Game and Wildlife Code

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and are currently approved by the Department under 28 Pa. Code §§ 5.50 and 5.103 (relating to approval to provide special analytical services; and blood tests for blood alcohol content) to perform alcohol analyses of blood and/or serum and plasma. This approval is based on demonstrated proficiency in periodic tests conducted by the Department's Bureau of Laboratories. Since procedures for determining the alcohol content of serum and plasma are identical and results obtained from serum or plasma derived from a blood sample are the same, laboratories that demonstrate reliability in the analysis of serum proficiency testing specimens are approved to analyze both serum and plasma. These laboratories are also approved and designated under the provisions of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to hunting or furtaking under the influence of alcohol or controlled substance) as qualified to perform the types of specialized services which will reflect the presence of alcohol in blood and/or serum and plasma. Laboratories located outside this Commonwealth may not provide blood and/or serum and plasma alcohol testing services in this Commonwealth unless they are specifically licensed by the Department under the Clinical Laboratory Act.

Persons seeking forensic blood and/or serum and plasma analysis services from the following designated laboratories should determine that the laboratory employs techniques and procedures acceptable for forensic purposes, and that the director of the facility is agreeable to performing determinations for this purpose. The list of approved laboratories will be revised approximately semi-annually and published in the *Pennsylvania Bulletin*.

The Department's blood alcohol and serum/plasma alcohol proficiency testing programs are approved by the

United States Department of Health and Human Services in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 CFR 493.901 and 493.937) which are administered by the Health Care Financing Administration. Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and State statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464, ext. 3229.

Persons with a disability who require auxiliary aid service should contact Dr. Shoemaker at V/TT: (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT&T Relay Service at (800) 654-5984 [TT].

The symbols S and B indicate the following:

S = approved for serum and plasma analyses

B = approved for blood analyses

SB = approved for serum, plasma and blood analyses

B. Additional Disproportionate Share Payments

Additional disproportionate share payments are made to inpatient facilities, with a Medicaid inpatient utilization rate of not less than 1%, which have provided services to persons who have been determined to be low income by meeting the income and resource standards for the State's general assistance program.

The payment adjustments are paid directly proportional to the payment received for either general assistance recipients for all hospital services or Title XIX recipients 21—64 years of age for services rendered by institutions for mental diseases under the fee-for-service and capitation programs.

The following hospitals are eligible for this payment adjustment:

C. Additional Class Of Disproportionate Share Payments

Effective March 1, 1998, the Department established a new class of disproportionate share payments to hospitals which render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of Medical Assistance program revisions under Act No. 1996-35.

Effective January 15, 1999, the Department revised its previously established new class of disproportionate share payments to include a Charity Care component of the Community Access Fund. A disproportionate share payment will be made to qualifying hospitals based on each hospital's percentage of charity care cost to the total charity care costs of all qualifying hospitals. The Department also established a disproportionate share payment for those hospitals which the Department has determined advanced its goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth.

The following hospitals qualify for this payment:

Abington Memorial
 A.I. Dupont
 Albert Einstein
 Allegheny General
 Altoona
 Children's Hospital of Philadelphia
 City Avenue Hospital
 Crozer Chester Medical Center

Support Liens Against Real Property

The Department of Public Welfare (Department) intends to implement the support lien requirements of 23 Pa.C.S. § 4352(d) in light of the promulgation of the Supreme Court rule on the same subject at Pa.R.C.P. 1910.22 (Rule 1910.22).

Under 23 Pa.C.S. § 4352(d), the Department is charged with developing a system for providing notice to the public of liens arising out of overdue support obligations. Thirty days after a notice of establishment of such a system is published in the *Pennsylvania Bulletin*, any lien on record with this system constitutes a lien by operation of law against all real property owned by a support

obligor, and also has the effect of a perfected security interest in personal property owned by the obligor.

The Pennsylvania Constitution allows the Supreme Court to promulgate rules of civil procedure and to suspend statutes that are inconsistent with those rules. The Supreme Court promulgated Rule 1910.22 under its Constitutional rulemaking authority and it suspended 23 Pa.C.S. § 4352(d) and (d.1) to the extent inconsistent with the new rule. Rule 1910.22 makes overdue support obligations a lien against all real estate owned by an obligor within this Commonwealth. Accordingly, overdue support obligations constitute liens on real estate owned by an obligor throughout this Commonwealth even though the Department has not published the notice contemplated by 23 Pa.C.S. § 4352(d).

The Department retains the authority under 23 Pa.C.S. § 4352(d) to publish a notice that makes support obligations a lien against personal property. However, the Department has not yet resolved the practical issues associated with personal property liens, such as how the liens will integrate with other personalty liens under the Uniform Commercial Code. Accordingly, the Department will defer publishing the notice specified under 23 Pa.C.S. § 4352(d) until these issues are resolved.

Pending promulgation of the Department's notice under 23 Pa.C.S. § 4352(d), support obligations remain a lien against real estate by virtue of the Supreme Court's rule. Information regarding the amount of overdue support owed by an obligor under a court order to pay support in this Commonwealth may be obtained by accessing the Department's internet website www.pachildsupport.com or by contacting the State Collection and Disbursement Unit at (877) 676-9580. Hearing impaired persons can contact the State Collection and Disbursement Unit by calling (877) 676-9582. The Customer Support Unit is available Monday through Friday from 8 a.m. to 5 p.m. Support liens have priority over all liens and encumbrances with the exception of Federal and State income taxes. Certification of the arrearage amount under 23 Pa.C.S. § 4352(d.1)(3) must be obtained from the appropriate county Domestic Relations Section.

Secretary

Finding Monroe County

Pursuant to the provisions of 71 P. S. Section 2002(b), the Secretary of Transportation makes the following written finding:

The Department of Transportation plans to replace the existing Mount Pocono Bridge over the Delaware, Lackawanna and Western Railroad in the Borough of Mount Pocono, Monroe County. The project consists of replacing the steel pony truss bridge and the reconstruction of roadway approaches. The Mount Pocono Bridge and the Delaware, Lackawanna and Western Railroad have been determined eligible for listing in the National Register of Historic Places. In addition to the removal of the bridge, the project will require the acquisition of land from the Delaware, Lackawanna and Western Railroad.

The effects of the project on the Historic resources will be mitigated by a HABS/HAER recordation prior to demolition and the design and specifications for the project will be developed in consultation with the SHPO as outlined in a Memorandum of Agreement (MOA) for the proposed action which has been signed by all appropriate agencies.

I have considered the environmental, economic, social, and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code, and have concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize such effect.

Secretary

Pennsylvania Public Utility Commission; Licensing Requirements for Natural Gas Suppliers; Regulation No. 57-217

On June 2, 2000, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking amends 52 Pa. Code § 3.551 and adds a new Chapter 62 (52 Pa. Code §§ 62.101—62.114). The proposed regulation was published in the June 17, 2000, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on May 3, 2001.

This final-form regulation implements the Natural Gas Choice and Competition Act of 1999 by establishing the application and performance requirements for an entity to be licensed as a natural gas supplier (NGS). Any entity seeking to become a licensed NGS in this Commonwealth must comply with this regulation.

We have determined this regulation is consistent with the statutory authority of the PUC (66 Pa.C.S. §§ 501, 2203(12) and 2208) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Department of Health; Head Injury Program; Regulation No. 10-129

On April 27, 1999, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Health (Department). This rulemaking adds Chapter 4 to 28 Pa. Code. The proposed regulation was published in the May 22, 1999, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on May 3, 2001. On May 22, 2001, the Commission received a request from the Department to toll consideration of this final-form regulation to make minor clarifications. On May 24, 2001, the Department submitted its revisions to the final-form regulation to the Commission.

This final regulation sets forth rules governing the Department's Head Injury Program (HIP). It describes the type of services available, duration of services and eligibility criteria for applicants. Each individual who qualifies for the HIP will receive up to 1 year of rehabilitation services and 18 months of case management services.

We have determined this regulation is consistent with the statutory authority of the Department (35 P.S. § 6934(e)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Notice of Comments Issued

Section 5(d) and (g) of the Regulatory Review Act (71 P.S. § 745.5(d) and (g)) provides that the designated standing committees may issue comments within 20 days of the close of the public comment period, and the Commission may issue comments within 10 days of the close of the committees' comment period. The Commission's Comments are based upon the criteria contained in section 5.1(h) and (i) of the Regulatory Review Act (71 P.S. § 745.5a(h) and (i)).

The Commission issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted by the date indicated.

State Board of Podiatry Regulation No. 16A-444 Fees June 8, 2001

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P.S. § 745.5a(h) and (i)) which have not been met. The State Board of Podiatry (Board) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by May 7, 2003, the regulation will be deemed withdrawn.

1. Section 29.12. Adoption of National Board Examination.—Clarity

Subsection (a) uses the phrase "National Board of Podiatric Medical Examiners." However, §§ 29.12(b) and 29.11 use the phrase "National Board." The Board should consider defining National Board in § 29.1 (definitions) and use the phrase consistently in each section.

2. Section 29.13(a). Fees.—Clarity.

Section 29.13(a) establishes a new fee for application for authorization to perform radiologic procedures. The last paragraph of section C of the Preamble states that the new fee is paid in advance for providing an authorization form after a person passes the radiology technician

examination. Please explain the disposition of the advance fee if the applicant does not pass the examination and ultimately decides not to retake it. Is there a mechanism in place to provide a refund?

SECURITIES COMMISSION

Designation of an Investment Adviser Registration Depository for Applicants for Initial Registration as an Investment Adviser under the Pennsylvania Securities Act of 1972

Whereas, Section 303(a) of the Pennsylvania Securities Act of 1972 (1972 Act) requires a person applying for registration as an investment adviser to file an application with the Securities Commission (Commission); and

Whereas, Sections 602(d.1) and 602.1(a)(4) of the 1972 Act require an applicant for registration as an investment adviser to pay a filing fee and a compliance assessment (Filing Fees); and

Whereas, Commission Regulation 303.012 (64 Pa. Code § 303.012) provides that the application required by Section 303(a) of the 1972 Act shall be the Uniform Application for Investment Adviser Registration (Form ADV); and

Whereas, Form ADV requires filing of an annual updating amendment to Form ADV within 90 days after the

end of the investment adviser's fiscal year end and the prompt filing of an amendment to Form ADV if certain information on Form ADV becomes inaccurate or if any information on Form ADV becomes materially inaccurate (Form ADV Amendment); and

Whereas, Commission Regulation 303.012 authorizes the Commission, by order, to designate an investment adviser registration depository for the receipt of Form ADV, Form ADV Amendments and Filing Fees; and

Whereas, Section 203A(d) of the Investment Adviser Act of 1940, as enacted by the National Securities Markets Improvement Act of 1996, mandated creation of a filing depository for investment advisers; and

Whereas, The United States Securities and Exchange Commission and state securities regulators have entered into a joint venture to create a filing depository known as the Investment Adviser Registration Depository (IARD); and

Whereas, IARD eventually will provide electronic filing for registration applications and notice filings for all Federally covered advisers, State-registered advisers and investment adviser representatives; and

Whereas, Filing requirements with IARD will be phased-in as the IARD computer system develops filing capabilities for different types of filers and different types of filing information; and

Whereas, Information concerning IARD and how it works is available through the Internet at www.iard.com and www.sec.gov/iard; and

Whereas, Until IARD becomes fully operational, certain filings relating to initial applications for registration as an investment adviser still will need to be made with the Commission as further described in this Order; and

Whereas, the Commission, finds it necessary and appropriate in the public interest and for the protection of investors and consistent with the purposes fairly intended by the policy and provisions of the 1972 Act to issue the following Order:

Now, Therefore, the Commission on this, the 5th day of June 2001, under Commission Regulation 303.012, orders the following:

ii. Evidence of passage of any examination required under Commission Regulation 303.032.

iii. The filing fee set forth in Section 602(d.1) and the compliance assessment set forth in Section 602.1(a)(1) of the 1972 Act.

F. Other information which the Commission may require to be filed under Section 303(a)(i) of the 1972 Act.

3. As provided by Commission Regulation 603.011 (64 Pa. Code § 603.011), an application for registration as an investment adviser is not deemed complete until all the required documents, filing fees and compliance assessments have been received by the Commission.

STATE TAX EQUALIZATION BOARD

Common Level Ratios

The State Tax Equalization Board (Board) has established a Common Level Ratio for each county in the

Commonwealth for the calendar year 2000. The ratios were mandated by Act 267-1982.

The law requires the Board to use statistically acceptable techniques, to make the methodology for computing ratios public and to certify, prior to July 1, the ratio to the Chief Assessor of each county each year.

The statistical technique which the Board used for the 2000 Common Level Ratio is to determine the arithmetic mean of the individual sales ratios for every valid sale received from the county for the calendar year 2000.

The methodology used is to include every valid sale with a ratio from 1% to 100% and compute a mean. Using this mean as a base, the Board has defined high and low

limits by multiplying and dividing this computed mean by four. Using these computed limits, the Board has utilized the valid sales, rejecting those sales, which exceed the limits. The resulting arithmetic mean ratio is the ratio which the Board is certifying as the Common Level Ratio for each county for 2000.

There is one exception to this procedure. The original mean ratio for those counties which have a predetermined assessment ratio for 2000 of 100% will utilize valid sales from 1% to 200%.
