READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved

of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); and The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of the NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30 day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8 and the administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office after which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. Southcentral Regional Office: Regional Water Management Program Manager; 909 Elmerton Avenue, Harrisburg, PA 17110-8200, (717) 705-4707.

PA0088595 Amendment No. 1, CAFO, Hostetter Management Co. (Wide Awake Farm), P. O. Box 526, Ephrata, PA 17522. Joe Gulick has submitted a permit amendment application for an Individual NPDES permit for an expanding CAFO known as Wide Awake Farm, 488 Jay Road, Monroe Township, **Bedford County**.

The CAFO is situated near West Branch Sideling Hill Creek in Watershed 13-B (EV). The CAFO will be designed to maintain an animal population of approximately 1,360.6 AEUs consisting of 336 sows with litter, 2,800 gestating sows, 15 boars, 320 nursery pigs and 450 finishing pigs. The animals will be housed in two existing animal husbandry buildings and two proposed animal husbandry buildings and also an existing isolation building. Manure will be collected beneath the slatted floors of the animal husbandry buildings and conveyed by gravity to the one existing and one proposed HDPE lined manure storage facilities. In addition, the manure from the isolation building is stored beneath the building in a concrete storage pit. The capacity of the manure storage facilities is as follows: existing HDPE lined lagoon (3.29 million gallons); existing isolation building pit (.0308 gallon); and proposed HDPE lined lagoon (2.3 million gallons). A Water Quality Management Part II application was submitted to the Department for the proposed HDPE lined lagoon. Prior to operation of the proposed manure storage facilities, the design engineer will be required to submit certification that the facilities were constructed in accord-

ance with appropriate Pennsylvania Technical Guide Standards. A release or discharge to waters of this Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 25-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

The Department has scheduled a public hearing to receive testimony and comments on the proposed CAFO NPDES permit. The hearing will be held on Wednesday, September 10, 2003, at 7 p.m. at the Monroe Township Municipal Building, 247 Rock Hill Church Road, Clearville, PA 15535.

All testimony should be to the point. Each individual will have between 5 and 10 minutes for the presentation, depending on the number of people registered. To ensure

that all speakers have a fair and equal opportunity to present their testimony, relinquishing of time will be prohibited. Further details relating to the procedures to be followed at the hearing will be outlined at the beginning of the proceedings.

Individuals may make an appointment to review the application and draft permit by calling Darla Guyer, (814) 623-7900, Ext. 3.

All comments received will be considered in formulating the Department's final determination regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the basis of the comment and the relevant facts upon which it is based.

Following the 30-day comment period, the water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time the determination may be appealed to the Environmental Hearing Board.

The EPA permit review waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

BUREAU OF DEEP MINE SAFETY

APPROVAL OF REQUEST FOR VARIANCE

The Bureau of Deep Mine Safety (Bureau) has approved T. J. S. Mining, Inc.'s request for a variance from the requirements of section 242(c) of the Pennsylvania Bituminous Coal Mine Act (act) at the Rossmoyne No. 1 Mine. This notification contains a summary of this request and the basis for the Department's approval. A complete copy of the variance request may be obtained from Allison Gaida by calling (724) 439-7469 or from the Bureau website at <http://www.dep.state.pa.us/dep/deputate/minres/dms/dms.htm>.

Summary of the Request. T. J. S. Mining, Inc. requested a variance from section 242(c) of the act to allow for the common ventilation of belt conveyor entry with other entries at the Rossmoyne No. 1 Mine. The proposal accords protections to persons and property substantially equal to or greater than the requirements set forth in the act.

The basis for the Bureau's approval is summarized as follows:

1. The Pyott-Boone 9500 CO Monitoring System will provide advance warning of a developing mine fire originating in the conveyor belt entry. When maintained and operating correctly, this system provides warnings much earlier than the point type heat sensors.
2. Common entries would permit the larger section mantrip and scoops access to belt entry for transportation of personnel and supplies.
3. The operator will maintain a separate isolated intake escapeway that is at a higher air pressure than the belt and common entries.
4. The plan provides for the common entries to serve as an alternate intake escapeway. There will be a total of three separate, isolated escape routes.

This approval is limited to a variance from the requirements in section 242(c) of the act requiring that the belt entry is isolated from other entries. All other terms and requirements of section 242(c) of the act shall remain in effect. Continued authorization for operation under the approval is contingent upon compliance with the measures described in the plan and the following conditions:

1. All mine employees shall be task trained in the Pyott Boone Model 9500 CO monitoring system alert and alarm response procedures. These procedures shall also be included in the 8-hour annual retraining.
2. A test button shall be installed to allow a daily function check of the outside surface alarm system. A competent person shall make this daily function test and a record of this test maintained.
3. As part of the requirements of section 228 of the act, all belt entries, common entries and unfenced roadways shall be preshifted in their entirety.
4. A preshift date board should be placed at each CO sensor location.
5. Designated areas shall be established a strategic locations along the belt entry and common entry to determine whether the air is traveling in the proper course and normal volume. This air reading shall be taken by a scientific means (anemometer, chemical smoke tube, velometer).

Department of Public Welfare—Income; Regulation No. 14-471

On July 23, 2001, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Public Welfare (Department). This rulemaking amends 55 Pa. Code § 183.105. The proposed regulation was published in the August 4, 2001, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on June 23, 2003.

The regulation modifies the consideration of lump sum payments in the Temporary Assistance for Needy Families and General Assistance Programs. Currently, lump sum payments may make recipients ineligible for assistance for an extended period of time. Under this regulation, a family may be ineligible just in the month of receipt if the lump sum payment exceeds the monthly assistance grant. The family may be eligible in subsequent months if the money remaining from the lump sum payment is below their resource limit.

We have determined this regulation is consistent with the statutory authority of the Department (62 P. S. §§ 201(2) and 403(b)) and the intention of the General Assembly. Having considered all of the other criteria of

the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Drug and Alcohol Use and Dependency Coverage; Notice 2003-06

This notice is issued to advise all entities subject to Act 106 of 1989 (act) (40 P.S. §§ 908-1—908-8) of their obligations under Commonwealth law in the provision of coverage for alcohol or other drug abuse and dependency benefits. The act requires specific coverage of drug and alcohol treatment services in certain group insurance policies or contracts. Drug and alcohol use and dependency are recognized in this Commonwealth as public health problems with serious workplace, health care,

community and criminal justice ramifications. The Insurance Department (Department) releases the following guidance concerning the provision of benefits under the act.

The act specifies that all group policies, contracts and certificates subject to the act providing hospital or medical/surgical coverage shall include within that coverage certain benefits for alcohol or other drug abuse and dependency. Under the act, the only lawful prerequisite before an insured obtains nonhospital residential and outpatient coverage for alcohol and drug dependency treatment is a certification and referral from a licensed physician or licensed psychologist. It is the Department's determination that the same prerequisite applies for inpatient detoxification coverage. The certification and referral in all instances controls both the nature and duration of treatment. The location of treatment is subject to the insuring entity's requirements regarding the use of participating providers.

Act 68 of 1998 (40 P. S. §§ 991.2101—991.2193), governing quality health care accountability and protection, does not change the requirements under the act and should be read in conjunction with these existing requirements. Thus, an entity subject to Act 68 may utilize precertification or utilization reviews, provided, however, that the decision of the precertification or utilization review does not limit the act certification and referral by the licensed physician or licensed psychologist.

Questions regarding this notice should be addressed to Ronald A. Gallagher, Jr., P.E., Deputy Commissioner, Office of Consumer and Producer Services, Insurance Department, 13th Floor, Strawberry Square, Harrisburg, PA 17120, ra-in-Act106@state.pa.us.

A-00118618

Dear Sirs:

On January 7, 2003, the Bureau of Transportation and Safety instituted a complaint against Sky Courier, Inc., respondent, alleging respondent failed to achieve a satisfactory evaluation of their safety fitness review and, for failure to maintain adequate, efficient and safe service and facilities and that respondent failed to submit a letter to this Commission containing a statement that the service is no longer being rendered.

The complaint specified that, if the respondent failed to answer the complaint within twenty (20) days from the date on which it was served, then the Bureau of Transportation and Safety would request the Commission to impose a penalty including suspension or cancellation of any certificate or permit the respondent may hold.

The complaint was served on respondent on January 7, 2003, and returned unclaimed on January 27, 2003. On February 6, 2003, the complaint and notice were sent first class mail; and, to date, more than thirty (30) days later, no response has been received from respondent.

Therefore, the allegations in the complaint are admitted and the complaint is sustained.

Code § 1.1, et seq. In view of the cancellation of respondent's certificate of public convenience, it is specifically prohibited from rendering service as a common carrier by motor vehicle in intrastate commerce in the Commonwealth of Pennsylvania.

Should respondent wish to again provide Pennsylvania intrastate transportation, the filing of a new application and the payment of a \$100 fee is required. The application and fee shall be filed with the Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, and Harrisburg, PA 17105-3265.

TURNPIKE COMMISSION

Retention of an Engineering Firm I-95/I-276 (Pennsylvania Turnpike) Interchange Project Bucks County

The Turnpike Commission (Commission) notices for the I-95/I-276 (Pennsylvania Turnpike) Interchange Project have been revised. The following notices contain revisions: Reference No. 4-062 (33 Pa.B. 3925 (August 2, 2003)), Reference No. 4-063 (33 Pa.B. 3927 (August 2, 2003)) and Reference No. 4-064 (33 Pa.B. 3926 (August 2, 2003)). The Evaluation Criteria, Disadvantaged Business Enterprises (DBE) goals and General Requirements and Information sections have been changed for all three notices as follows.

The Commission will consider the following factors during the evaluation of the statements of interest for these projects:

- a. Specialized experience and technical competence of the prime consultant and subconsultants. The team must clearly demonstrate experience and competence on design of large-scale public works projects.
- b. Past record of performance with respect to cost control, work quality ability to meet schedules and previous experience on design projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project and the client.
- c. The specific experience and number of individuals who constitute the firm.
- d. Location of consultant's office where the work will be performed.
- e. Workload of the prime consultant and subconsultants for all Department of Transportation (Department) and Commission projects.
- f. Other factors, if any, specific to the project.

Address these items and any necessary further details in a brief yet comprehensive manner in the statement of interest.

Firms expressing interest in these projects must agree to ensure that DBE firms as defined in the Transportation Equity Act for the 21st Century (act) and currently certified by the Department shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of DBE. The goal of DBE participation in this contract will be 12%. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they are defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the statement of interest. If the selected firm fails to meet the established goal, it shall be required to demonstrate its good faith efforts to attain the goal.

General Requirements and Information

Firms interested in providing the work and services are invited to submit a statement of interest with the required information for each reference number listed. The statements of interest must include the following:

1. One-page transmittal letter clearly identifying the project reference number, brief description of the project

from the advertisement, the firm's Federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified.)

2. A three-page statement of interest on the advertised project. Each firm should demonstrate their ability to perform the specific requirements indicated for the project and provide explanation of the technical approach, stressing the team has successfully completed similar type projects of the same magnitude.

3. An organization chart for the project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultants listed in the statement of interest will require written approval from the Commission. The organization chart is not limited to an 8 1/2" x 11" page size.

4. Tabulation or listing of workload for the prime consultant and all subconsultants for all Department and Commission projects. Do not graphically represent the firm's workload.

5. A Consultant Qualification Package similar to the one submitted to the Department for the current year or one that is best suited for this project. A copy of the Consultant Qualification Package printed directly from the Department's ECMS website is acceptable.

The Consultant Qualification Package should contain at a minimum the following information for the prime consultant and all subconsultants and is to be attached to the back of the statement of interest (subs to follow primes). The Consultant Qualification Packages should be kept as brief as possible. Only include pertinent information as it relates to the following:

- ECMS General Information and Project Experience Forms or Standard Form (SF) 254—Architect-Engineer and Related Services Questionnaire, either not more than 1 year old as of the date of the advertisement.
- Resumes of key personnel expected to be involved in the project (limit to two 8 1/2" x 11" pages, per person). Only resumes of key personnel need to be included. Do not include resumes of all employees.
- Copy of the firm's registration to do business in this Commonwealth as provided by the Department of State for firms with out-of-State headquarters or corporations not incorporated in this Commonwealth.
- A copy of the Department's DBE/WBE Certification, if applicable.

If a Joint Venture responds to a project advertisement, the Commission will not accept separate statements of interest from joint venture constituents. A firm will not be permitted to submit a statement of interest on more than one joint venture for the same project reference number. Also, a firm that responds to a project as a prime may not be included as a designated subconsultant to another firm that responds to the same project advertisement. This does not preclude a firm from being set forth as a designated subconsultant to more than one prime consultant responding to the project advertisement.

Firms interested in performing the services are invited to submit a statement of interest and required information to George M. Hatalowich, Manager, Contract Administration, Turnpike Commission Administration Building, 700 South Eisenhower Boulevard, Middletown, PA 17057 (Street address). The Commission mailing address is P. O. Box 67676, Harrisburg, PA 17106-7676.

The statement of interest and required information must be received by 12 p.m. on Friday, August 22, 2003. Statements of interest received after this date and time will be time-stamped and returned.

Based on an evaluation of acceptable statements of interest received in response to these solicitations, a minimum of three firms will be shortlisted for each project advertisement (reference number). Technical proposals will be requested from the shortlisted firms prior to the establishment of the final ranking. STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.
