READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania* *Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701–1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the *Pennsylvania Consolidated Statutes* provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the *Laws of Pennsylvania* are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the *Laws of Pennsylvania* to each law judge of the courts, to every county and public library of this Commonwealth and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, PHMC, Commonwealth Keystone Building, 400 North Street, Harrisburg, PA 17120-0053, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania."

Title 225—RULES OF EVIDENCE

[225 PA. CODE ART. I]

Rule 101 Revision of Comment

The Committee on Rules of Evidence is planning to recommend that the Supreme Court of Pennsylvania approve the Comment Revision to Pa.R.E. 101. These changes are being proposed to eliminate inconsistencies with other rules and conflicts with certain statutes.

This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's consideration in formulating this proposal. Please note that the Committee Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Report.

The text of the proposed changes precede the Report.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel:

Annex A

TITLE 225. RULES OF EVIDENCE ARTICLE I. GENERAL PROVISIONS

Rule 101. Scope and Citation of the Rules.

* * Comment

* * *

These rules are applicable **[only to]** in the courts of the Commonwealth of Pennsylvania's unified judicial system. [They are applicable in all divisions of the Courts of Common Pleas including the Civil Division, Criminal Division, Trial Division, Orphans' Court Division and Family Division. They are not applicable to other tribunals, such as administrative agencies and arbitration panels, except as provided by law or unless the tribunal chooses to apply them. In some respects, these rules are applicable in administrative proceedings. See, e.g., *Gibson v. W.C.A.B.*, 861 A.2d 938 (Pa. 2004) (evidentiary rules 602, 701 and 702 applicable in agency proceedings in general, including workers' compensation proceedings). These rules are also applicable in compulsory arbitration hearings, with specific exceptions relating to the admissibility of certain written evidence and official documents. See, e.g., [Pa.C.R.P.] Pa.R.C.P. 1305 [(rules of evidence shall be followed in compulsory arbitration hearings, with specific provisions relating to the admissibility of certain written evidence and official documents)].

REPORT

Proposed Revision of Comment Pa.R.E. 101 Scope and Citation of the Rules

Changes

The Committee on Rules of Evidence proposes to revise the Comment to cite the opinion of *Gibson v. W.C.A.B.*, 861 A.2d 938 (Pa. 2004). In *Gibson*, the Pennsylvania Supreme Court holds that in some respects the rules of evidence apply to administrative proceedings. These rules are applicable also in compulsory arbitration proceedings.

Philadelphia Criminal Rules

Rule 406-1 Standards for Appointment in Homicide Cases

* * * * *

(B)(7) [Has attended and successfully completed within the last two years at least one training or educational program on criminal advocacy which focused on the trial of cases in which the death penalty is sought. (This requirement may be waived if the attorney has demonstrated outstanding performance as lead counsel in two or more death penalty trials within the preceding two years.)] Has complied with the educational requirements detailed in Pa.R.Crim.P. 801(2).

Rule 406-2 Appeals in Death Penalty Cases

 $\mathbf{\Psi}$

* * * * *

(B) Qualifications for Counsel Appointed on Appeal to Represent Appellants Under Sentence of Death

* * * *

(2) [Has had primary responsibility for at least five briefs submitted to any Appellate Court] Has had primary responsibility for at least five briefs in "significant cases," as defined in Pa.R.Crim.P. 801 (1)(c) and has represented clients in at least eight significant cases in appellate or post conviction matters;

Rule 406-4 Post Conviction Petitions by Prisoners Under Sentence of Death

* * * * *

(B) Qualifications for Counsel Appointed to Represent Prisoners Under Sentence of Death in Post-Conviction Petitions.

An attorney may be appointed to represent a postconviction petitioner under sentence of death only if that attorney:

* * * * *

(6) [Has taken at least one training or educational program, within the past two years, which focused on post-conviction litigation in death penalty cases. (This requirement may be waived if the attorney demonstrates to the Screening Committee knowledge of the principles of Pennsylvania and federal death penalty post-conviction litigation.] Has complied with the educational requirements detailed in Pa.R.Crim.P. 801(2).

Rule 406-6 Standards for Appointment in Felony Cases

(A) Qualifications for Counsel

An attorney may be appointed as counsel only if that attorney:

* * * * *

(7) Has prior experience as counsel in no fewer than five criminal trials which were tried to completion in this or any other jurisdiction. "Tried to completion" shall include trials in which the jury is discharged at the conclusion of the case without reaching a verdict. No more than two of the required five trials shall consist of major felony juvenile cases;

Rule 406-12 Experience Exception To Standards

A. If any applicant fails to meet any of the above specified standards, the Screening Committee, after conducting a personal interview with the applicant, may rate the applicant to be qualified if the applicant's experience, knowledge and training are clearly equivalent to the standards for the category in which applicant seeks qualification, **except as otherwise required by Pa.R.Crim.P. 801**.

B. Even if the applicant meets all of the specific standards in any category, but it appears to the Selection Committee that the applicant's experience, knowledge, training and/or past performance in specific cases, may show the need for more training or supervision, the Selection Committee may require the applicant to appear before the Committee for a personal interview, after which the Selection Committee may approve the applicant, or may require the applicant to undergo one of the remedial measures set forth in Rule 406-15 before being approved. If the applicant refused to undergo those measures, or if after completing the measures, the Selection Committee still rejects the application, then the applicant may appeal the disapproval as provided in Rule 406-14.

Rule 406-13 Experience Exception To Standards.

Rescinded in its entirety as not in compliance with Pa Rule 801.

Rule 406-14 Performance Standards; Processing Complaints:

A. General: The Screening Committee may refuse to approve applicants as provided in Rule 406-12.B, or may impose remedial measures, if the applicant fails to meet the performance standards set forth in this Rule.

B. Processing Complaints:

1. Any complaint about the performance of any court-appointed counsel shall first be transmitted to an official in the Court Administrator's office designated for the receipt of such complaints. The official shall forward the complaint to the Chair of the Screening Committee.

2. All such complaints, as well as the identity of the complainant, shall remain absolutely confidential, except as set forth herein.

3. When the Chair of the Screening Committee receives such a complaint, he or she should appoint three members of the Committee as a Panel, and submit the complaint to that Panel. The Panel should review the complaint to determine whether it requires action. If the Panel finds that the complaint requires further action it should notify the subject and afford the subject an opportunity to reply or produce evidence in response to the complaint. The identity of the complainant should not be disclosed, unless the complainant waives confidentiality, provided that the non disclosure of the identity of the complainant does not preclude the subject from being able to address the substance of the complaint. Anonymity of the complainant shall go to the weight, but is not a bar to processing of a complaint. If it so determines, the Panel should notify the complainant that his or her identity will be disclosed, unless the complainant decides to withdraw the complaint.

4. Once the subject has submitted a reply to the complaint and any evidence deemed appropriate, the Panel should promptly review the matter. The Panel may recommend that the subject voluntarily undergo remedial measures. The Panel may in itsdiscretion refer the matter to a Hearing Committee, as set out hereinafter. If the Panel decides that the matter does not require an immediate disposition, then the subject shall be notified that no remedial action will be taken at this time, but the matter shall be deferred for up to two years. If the subject does not receive two more complaints within that two five year period, then the matter will be closed and the complaint dismissed. If complaints of 2 additional incidents arising from separate proceedings arise during a two year period following the first complaint, all open complaints may be referred to a Hearing Committee as set out herein.

5. A Hearing Committee shall consist of three members of the Criminal Justice Section appointed by the Executive Committee of the Criminal Justice Section. The Executive Committee shall name one of the three as Chair. None should be members of the Screening Committee. Those members should be respected an prominent members of the Section, with outstanding reputations for ethical conduct and knowledge of criminal law.

6. When a matter is referred to the Hearing Committee, the Committee will schedule hearing dates as soon as possible. One member of the Panel shall present the evidence of the deficient performance or skills. The Committee may invite the Complainant to appear. The subject must be invited to appear and may present evidence, and may be represented by counsel. The subject may have a court reporter present at the subject's own expense; however, a copy of the transcribed notes must be provided to the Committee without cost to the Committee.

7. If a majority of the Hearing Committee finds that the charges have not been sustained by clear and convincing evidence, then the complaint should be dismissed with notice to the subject. If the Hearing Committee can impose any of the remedies set out in Rule 406-15 infra.

C. Appeals:

If the subject objects to any action of the Hearing Committee, then he or she may within 30 days appeal to the Court of Common Pleas. During the pendency of that appeal to the Court of Common Pleas, any remedies ordered shall be stayed. The President Judge of the Court of Common Pleas shall appoint three judges to hear such appeals. The scope of the hearing shall be de novo. One member of the Panel shall present the evidence concerning violation of the performance standard. The subject may also present any relevant evidence. The Court shall make any finding and impose any remedial measure authorized under Rule 406-15 infra.

D. Rule 427 excluded:

None of the actions of the Panel, the Hearing Committee, nor of the Court of Common Pleas shall relieve any attorney or judge from the right or obligation to make a proper report to the Disciplinary Board in accordance with local Rule of Criminal Procedure 427. **Rule 406-15 Remedial Measures:**

A. General: Once the Hearing Committee has determined that violation of these standards has been established, the Hearing Committee or reviewing court may impose any one or more of the following remedial measures. The purpose of these measures is not punitive, but remedial. Accordingly, the least onerous measure or measures should be imposed which is designed to remedy the type of violation adjudged.

B. Types of remedies:

1. Warning:

The subject should be warned of the nature of the deficiency, and that future complaints could be grounds for more serious sanctions.

2. Continuing legal education:

The subject could be urged, or required, to attend an appropriate legal education course.

3. Mentoring:

The subject could be urged, or require, to utilize the services of a mentor provided by the Screening Committee, for one or more court-appointed cases.

4. Second chair:

The subject could by urged, or required, to sit as second chair to an experienced attorney, selected by the Screening Committee, for a specified number of cases.

5. Probation:

The Subject could be placed on probation for a specified period of time or number of cases, during which the subject's right to receive appointments could be conditioned upon such remedial measures as the Hearing Committee believes necessary. One member of the Prima Facie Panel should be named to monitor the subject during the probationary period.

6. Suspension:

The subject can be suspended from receiving any appointments for a specified period of time or a number of cases, and can be required to undergo remedial measures during the period of suspension.

7. Decertification:

If the deficiencies are considered very serious, and/or other remedial measures have not resulted in improvement, then the subject can be decertified from receiving appointments in a specific category or from all appointments. Any attorney decertified under this Rule may not reapply for appointments until at least one year has elapsed from the date of decertification and proof of satisfactory remediation is shown.

Comment: The above are subject to the requirements of Pa.R.Crim.P. 801.

PHILADELPHIA COUNTY

Termination of Inactive Citations Issued Before January 1, 2000; Administrative Order No. 01 of 2005

Order

And Now, this 29th day of June, 2005, the Traffic Court having determined that approximately 116,036 citations issued between January 1, 1999 and December 31, 1999, have not resulted in a plea, payment, adjudication or judgment against the named Defendants; the Traffic Court having determined that there has been no activity on these citations for a period of two years or more, and that the citations are thus both legally and practically unenforceable; a Notice having been published in the *Legal Intelligencer* on May 10, 2005, informing interested parties that a full list of citations to be terminated was available for public inspection at the Philadelphia Traffic Court for thirty days, and further notifying interested parties that unless they petitioned the Court to show cause why any citation on the termination list should not be removed from that list, the citations would be terminated;

Now, Therefore, there having been no objection to the termination of the citations, upon compliance with the Procedure for Terminating Inactive Traffic Court Citations pursuant to Pa.R.J.A. No. 1901, and as provided in Administrative Docket No. 1 of 2001,

It Is Hereby Ordered, Adjudged and Decreed that all Traffic Court citations issued between January 1, 1999 and December 31, 1999, for which there has been no plea, adjudication or payment, and for which there has been a lack of activity for a period of two (2) years or more, shall be terminated effective immediately.

This Administrative Order shall be filed with the Prothonotary in a docket maintained for Administrative Orders issued by the Administrative Judge of the Philadelphia Traffic Court, and copies shall be submitted to the Administrative Office of Pennsylvania Courts, the Legislative Reference Bureau, the Criminal Procedural Rules Committee, and the Minor Court Rules Committee. Copies of the Order shall also be submitted to American Lawyer Media, *The Legal Intelligencer*, Jenkins Memorial Law Library and the Law Library for the First Judicial District of Pennsylvania.

PENNSYLVANIA BULLETIN, VOL. 35, NO. 31, JULY 30, 2005

RULES AND REGULATIONS

Title 61—REVENUE

DEPARTMENT OF REVENUE [61 PA. CODE CH. 874] Raffle Lottery Games

The Secretary of Revenue (Secretary), under the authority in section 303 of the State Lottery Law (72 P. S. § 3761-303), adds Chapter 874 (relating to raffle lottery games) to read as set forth in Annex A.

Because of time constraints associated with the establishment, operation and administration of lottery games, the Department of Revenue (Department), under section 204 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1204), known as the Commonwealth Documents Law (CDL), and the regulation thereunder, 1 Pa. Code § 7.4 (relating to omission of notice of proposed rulemaking), finds that notice of proposed rulemaking is under the circumstances impracticable and, therefore, may be omitted.

The Department's justification for utilizing the finalomitted rulemaking process is based upon the time constraints associated with the establishment, operation and administration of lottery games. The efficient and successful operation of the Lottery requires that the Lottery implement the latest innovations and trends in the lottery industry. The inability to adapt marketing strategies quickly may lead to a reduction in Lottery revenues. The necessity of the Lottery to react quickly to market forces has been recognized in the past as an appropriate justification for utilizing the final-omitted rulemaking process as evidenced by the approval of these types of regulations in the past.

Purpose of Regulation

The final-omitted rulemaking establishes and details the procedures that will be followed in operating and administering raffle lottery games.

Explanation of Regulatory Requirements

The addition of Chapter 874 establishes procedures for the creation of on-line raffle lottery games, sales of tickets, validation of winners and payment of prizes for on-line raffle lottery games conducted by the Pennsylvania State Lottery.

A "raffle lottery game" is a Lottery game that is of limited duration, having preestablished and announced beginning, end sale and drawing date. A limited number of tickets, each unique from all others, will be offered for the opportunity to win one of a number of predetermined and announced prizes. Prior to the beginning of sales of a raffle lottery game, the Department will publish a notice in the *Pennsylvania Bulletin* with information as outlined in this chapter.

Fiscal Impact

The Department has determined that the final-omitted rulemaking will have no adverse fiscal impact on the Commonwealth and that the game described by the regulations could increase revenues available to older Pennsylvanians.

Paperwork

The final-omitted rulemaking will not generate substantial paperwork for the public or the Commonwealth.

Effectiveness/Sunset Date

The final-omitted rulemaking will become effective upon publication in the *Pennsylvania Bulletin*. The finalomitted rulemaking is scheduled for review within 5 years of final publication. No sunset date has been assigned.

Contact Person

The contact person for an explanation of the finalomitted rulemaking is Mary R. Sprunk, Office of Chief Counsel, Department of Revenue, Dept. 281061, Harrisburg, PA 17128-1061.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P. S. § 745.5a(c)), on May 19, 2005, the Department submitted a copy of the final-omitted rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Finance and the Senate Committee on Finance. A copy of this material is available to the public upon request. On the same date, the final-omitted rulemaking was submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

Under section 5.1(j.1) of the Regulatory Review Act, on July 13, 2005, the final-omitted rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on July 14, 2005, and approved the final-omitted rulemaking.

Findings

The Department finds that the regulations are necessary and appropriate for the administration and enforcement of the authorizing statute. Under section 204 of the CDL, the Department also finds that the proposed rulemaking procedures in sections 201 and 202 of the CDL (45 P. S. §§ 1201 and 1202) are unnecessary because of the time constraints associated with the establishment, operation and administration of lottery games.

Order

The Department, acting under the authorizing statute, orders that:

(a) The regulations of the Department, 61 Pa. Code, are amended by adding §§ 874.1-874.17 to read as set forth in Annex A.

(b) The Secretary shall submit this order and Annex A to the Office of General Counsel and Office of Attorney General for approval as to form and legality as required by law.

(c) The Secretary shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin.*

GREGORY C. FAJT, Secretary

(*Editor's Note:* For the text of the order of the Independent Regulatory Review Commission, relating to this document, see 35 Pa.B. 4270 (July 30, 2005).)

Fiscal Note: Fiscal Note 15-428 remains valid for the final adoption of the subject regulations.

§ 874.1. Creation.

Under the act and this part, there is created a raffle game, called raffle lottery games, which will commence at the discretion of the Secretary, and will continue until the Secretary publicly announces a suspension or termination date.

§ 874.2. Purpose.

(a) A raffle lottery game is a lottery game that is of limited duration, having preestablished and announced beginning, end sale, and drawing dates. A limited number of tickets or chances, each unique from all others, will be offered for the opportunity to win one of a number of predetermined and announced prizes.

(b) This chapter establishes procedures for the creation of on-line raffle lottery games, sales of tickets, validation of winners, and payment of prizes for on-line raffle lottery games conducted by the Pennsylvania State Lottery.

§ 874.3. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Apparent winning ticket—A raffle lottery game ticket bearing a winning number, which has not yet been validated by the Lottery.

Chance-A unique multiple-digit number, computerselected from the range of numbers designated for a raffle Lottery drawing, also known as a play.

Drawing—The process of selecting the winning numbers that determine the winners for each designated prize for a particular raffle game.

On-line retailer or retailer—A person who is properly licensed by the Lottery to sell tickets.

Prize—The item or money that can be won as specified by the notice for each raffle lottery game as published under § 874.4 (relating to notice of raffle lottery game rules).

Raffle lottery game-A lottery game for which a chance or play will be sold for a limited announced period of time, and in which a maximum designated number of chances or plays will be offered, and the winning chances or plays will be selected from only those chances or plays actually sold.

Ticket—A raffle lottery ticket produced by the Lottery and sold by a licensed retailer in an authorized manner containing at a minimum a unique multiple-digit number constituting a single play or chance, the drawing date and validation data.

Winning number—The unique multiple-digit number selected in a particular raffle lottery game drawing, which has been subsequently validated by the Lottery, and which shall be used to determine the winning plays in that particular raffle lottery game.

§ 874.4. Notice of raffle lottery game rules.

Prior to the commencement of sales of a raffle lottery game, the Department will publish a notice in the Pennsylvania Bulletin containing, at a minimum, the following information about the particular raffle game:

(1) The name of the raffle lottery game.

(2) The purchase price of a raffle lottery game chance or play.

(3) The date after which sales of chances or plays can be made.

(4) The date after which sales of chances or plays cannot be made.

(5) The manner in which the selection of winning chances or plays will be made.

(6) The date and time for the selection of the winning chances or plays.

(7) The maximum odds of the game and prizes that can be won.

(8) The maximum number of chances or plays that can be sold in that raffle lottery game.

(9) The number and description of prizes available to be awarded in that raffle.

(10) The existence of a finalist, grand prize, second chance or other offering, if applicable, and the procedure for conducting the same, if applicable.

(11) The existence of retailer bonus programs, if any, and the rules for determining awards under the program.

(12) Other information necessary for the conduct of that lottery raffle game.

§ 874.5. Price.

The Secretary in conformance with the law will prescribe the purchase price of a raffle lottery game chance or play. The purchase price for each raffle chance or play shall be published in the notice provided by § 874.4 (relating to notice of raffle lottery game rules).

§ 874.6. Ticket sales retailers.

(a) Raffle lottery game ticket sales may only be made through licensed retailers the Director will appoint and contract with as provided in § 815.42 (relating to ticket sales agents).

(b) The Lottery may terminate sales by a retailer without prior notice to the retailer if the retailer becomes delinquent in payment of proceeds due the Lottery, or fails to handle Lottery funds in the prescribed manner, or if the retailer fails to follow the contract or any addendum thereof, this part or procedures established governing the sale of tickets or if the Lottery deems it to be in the best interest of the Commonwealth.

§ 874.7. Determination of prize winning tickets.

(a) Raffle lottery game prize winning chances or plays will be determined under this part and specific raffle lottery game notifications published in the *Pennsylvania Bulletin* under § 874.4 (relating to notice of raffle lottery game rules).

(b) A prize shall be paid only if the ticket meets the criteria established in § 874.10 (relating to ticket validation and requirements).

§ 874.8. Lottery raffle game purchase and ticket characteristics.

(a) To purchase a ticket, a player shall request an on-line retailer to issue a ticket. The ticket, at a minimum, will contain one chance or play which shall consist of one unique, computer-generated, multiple-digit number from the range of numbers published in the *Pennsylvania Bulletin* for that particular raffle, the drawing date, amount bet and validation data. The ticket shall be the only valid proof of the bet placed, and the only valid receipt for claiming a prize. The ticket shall only be valid for the drawing date printed on the ticket.

(b) A raffle lottery game ticket may not be canceled or voided once printed by the Lottery terminal, even if the ticket is printed in error.

(c) It is the sole responsibility of the ticket holder to verify the accuracy and condition of data printed on the ticket. The placing of plays through the on-line retailer, who is acting on behalf of the player in entering the chance or plays, is done at the player's own risk.

§ 874.9. Raffle ticket responsibility.

(a) A raffle lottery game ticket is a bearer document deemed to be owned by the person holding the ticket, except that if a name is contained on the back of the ticket, the person so named will, for all purposes, be considered the owner of the ticket.

(b) The purchaser of a ticket has the sole responsibility for checking the accuracy and condition of the data printed on the ticket.

(c) The Commonwealth will not be responsible for a lost or stolen raffle lottery game ticket.

(d) The Commonwealth will not be responsible for a ticket redeemed by a player in error.

(e) A prize shall be claimed within 1 year of the date of the raffle for which the ticket was entered.

§ 874.10. Ticket validation and requirements.

(a) *Valid tickets*. To be a valid raffle lottery game ticket, the presented ticket must meet the following conditions:

(1) The ticket validation numbers must be present in their entirety and correspond, using the computer validation file, to the selected numbers printed on the ticket for the date printed on the ticket.

(2) The ticket must be intact.

(3) The ticket may not be mutilated, altered, reconstituted or tampered with.

(4) The ticket may not be counterfeit or an exact duplicate of a winning ticket.

(5) The ticket shall have been issued by the Lottery through a licensed retailer.

(6) The ticket may not have been stolen.

(7) The ticket shall be validated in accordance with § 874.11 (relating to procedures for claiming and payment of prizes).

(8) The ticket data shall have been recorded on the Lottery's central computer system prior to the drawing and the ticket data must match this computer record in every respect.

(9) The computer-assigned numbers, the validation data and the drawing date of an apparent winning ticket must appear on the official file of winning tickets. A ticket with that exact data may not have been previously paid.

(10) The ticket may not be misregistered, defectively printed, or printed or produced in error to an extent that it cannot be processed by the Lottery.

(11) The ticket shall pass other confidential security checks of the Lottery.

(12) By submitting a ticket for validation, the player agrees to abide by this chapter as determined by the Secretary.

(13) There may not be another breach of this part in relation to the ticket which, in the opinion of the Secretary, justifies disqualification.

(b) *Invalid or defective tickets/disputes.* A ticket not passing the validation checks in subsection (a) will be considered invalid and will not be paid.

(1) In cases of doubt, the determination of the Secretary is final and binding. The Secretary may replace an invalid ticket with a ticket of equivalent sale price from a current Lottery game.

(2) If a defective ticket is purchased or if the Secretary determines to adjust an error, the sole and exclusive remedy will be the replacement of the defective or erroneous ticket with a ticket of equivalent sale price from a current Lottery game.

(3) If a ticket is not paid by the Lottery and a dispute occurs as to whether the ticket is a winning ticket, the Lottery may replace the ticket as provided in paragraph (2). This is the sole and exclusive remedy of the holder of the ticket.

§ 874.11. Procedures for claiming and payment of prizes.

(a) A prize shall be claimed only through a licensed on-line retailer as soon as that drawing is placed in pay status by the Lottery.

(b) An on-line retailer is authorized and required to make payment of a prize of \$2,500 or less, if the ticket is presented within a designated time period as announced by the Secretary, on an individual winning ticket, if the retailer has sufficient funds available for payment.

(c) The holder of an apparent winning ticket representing a prize of \$2,500 or less will be paid by participating on-line retailers as provided in subsection (b), if the ticket validation requirements in § 874.10. (relating to ticket validation and requirements) have been met, a proper validation pay ticket has been issued by the retailer's computer terminal and other retailer procedures have been met.

(d) The holder of an apparent winning ticket representing a prize in excess of \$2,500, with the exception of the first prize, shall present the winning ticket to an on-line retailer or authorized claim center under Chapter 811 (relating to prizes).

(e) The holder of an apparent winning ticket representing a first tier prize shall present, in person, the apparent winning ticket to Lottery Headquarters or a Lottery area office under Chapter 811. (f) The payment of a prize to a person who dies before receiving a particular prize or to a person under 18 years of age will be paid under §§ 811.16 and 811.27 (relating to prizes payable after death of prize winner; and payment of prizes to persons under 18 years of age).

(g) The Commonwealth will be discharged of liability after payment of prizes as provided in § 811.26 (relating to discharge of State liability upon payment).

§ 874.12. Prizes.

(a) Moneys shall be drawn from the Lottery Fund, to the extent necessary, to fund the payment of prizes under this subsection.

(b) If the raffle lottery game is terminated for any cause, prize moneys remaining undistributed will be paid out of the State Lottery Fund and used for purposes otherwise provided for by law.

(c) A winning raffle lottery game ticket is entitled only to the highest prize won by the number on each play or chance.

§ 874.13. Unclaimed prize money.

Unclaimed prize money on winning raffle lottery game tickets will be retained by the Secretary for payment to the persons entitled thereto for 1 year from the announced close of the raffle lottery game. If no claim is made within 1 year of the announced close of the raffle lottery game conducted by the State Lottery under this chapter, the right of a ticket holder to claim the prize represented by that ticket, if any, expires and the prize money will be paid into the State Lottery Fund and used for purposes otherwise provided for by statute.

§ 874.14. Withholding.

Federal withholding taxes will be withheld by the Lottery for prize payments in amounts required in accordance with applicable provisions of law.

§ 874.15. Purchase and prize restrictions.

A ticket may not be purchased by, and a prize will not be paid to, an officer or employee of the Lottery, Lottery professional services contractors or subcontractors, who are involved in the operation of the on-line lottery games system or its associated drawings, or to a spouse, child, brother, sister or parent residing in the same household of the officer, employee, contractor or subcontractor.

§ 874.16. Governing law.

(a) In purchasing a ticket, the purchaser agrees to comply with and abide by applicable laws, this part, instructions, conditions and final decisions of the Secretary, and procedures established by the Secretary for the conduct of the raffle lottery game.

(b) Decisions made by the Secretary including the declaration of prizes and the payment thereof in interpretation of this part are final and binding on players and persons making a claim in respect thereof.

§ 874.17. Retailer promotion programs.

Retailer incentive and marketing promotion programs, including the use of unfunded free tickets, may be implemented at the discretion of the Secretary. Funds for the programs, if needed, will be drawn from the Lottery Fund.

PROPOSED RULEMAKING

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CH. 1187]

Nursing Facility Services; Preadmission Requirements and Civil Rights Compliance for Nursing Facilities

The Department of Public Welfare (Department), under the authority of sections 201(2), 206(2) and 403(b) of the Public Welfare Code (62 P. S. §§ 201(2), 206(2) and 403(b)), proposes to amend Chapter 1187 (relating to nursing facility services) to read set forth in Annex A.

Purpose

The proposed rulemaking requires a nursing facility to have applicants evaluated by the Department or its independent assessor for the need for nursing facility services prior to admission to the facility. The clinical evaluation is intended not only to determine an individual's need for nursing facility services, but also to educate the individual regarding other available long-term care service options. The Department expects that when given the information necessary to make an informed choice, more individuals will choose to receive home and community-based services (HCBS) as opposed to institutional services.

The proposed rulemaking also requires a nursing facility to maintain civil rights compliance information on each applicant who has applied for admission. Through review of this information, the Department can ensure that the nursing facility is operating in conformity to applicable laws that prohibit discrimination on the basis of race, color, national origin and disability.

Need for the Proposed Rulemaking

A. Background

In 1965, Congress authorized the Medicaid Program by adding Title XIX to the Social Security Act. See 42 U.S.C.A. §§ 1396-1396r. Medicaid is a grant-in-aid program in which the Federal government provides financial assistance to participating states that furnish various health care services to persons who are poor and needy. State participation in the Medicaid Program is voluntary. If a state chooses to participate in the Medicaid Program, it must comply with Title XIX and the implementing Federal regulation. In addition, the state must administer its Medicaid Program in conformity with Title VI of the Civil Rights Act of 1964 (42 U.S.C.A. §§ 2000d-2000d-7) which prohibits discrimination on the basis of race, color or national origin, section 504 of the Rehabilitation Act of 1973 (29 U.S.Č.A. § 794) and Title II of the Americans with Disabilities Act (ADA) (42 U.S.C.A. §§ 12131-12165), which prohibits discrimination on the basis of disability.

States that choose to participate in the Medicaid Program must designate a single state agency responsible for the administration of the state's Medicaid Program. The single state agency must prepare a State Plan for Medicaid (State Plan) and submit it to the Centers for Medicare and Medicaid Services (CMS) of the United States Department of Health and Human Services for approval. See section 1902 of the Social Security Act (42 U.S.C.A. § 1396a) regarding state plans for medical assistance). In administering the state Medicaid Program, the state Medicaid agency enrolls qualified individuals, practitioners and medical facilities as providers in the state's Medicaid Program. These Medicaid providers render health care services to eligible Medicaid recipients. If the services are covered by the State Plan and the provider otherwise complies with applicable requirements, the provider may bill and receive payment for the services from the state Medicaid agency. The state Medicaid agency submits claims to the CMS for Federal financial participation in these payments.

In some instances, the conditions for provider participation in a state Medicaid Program are specified in Federal law and regulation. See section 1919 of the Social Security Act (42 U.S.C.A. § 1396r) and 42 CFR Part 483 (relating to requirements for long term care facilities). The state Medicaid agency may also impose its own additional requirements of participation for providers. See 42 CFR 431.51(c) (relating to free choice of providers). Medicaid providers must comply with civil rights requirements, including Title VI of the Civil Rights Act and the ADA (as applicable) as an ongoing condition of participation in the Medicaid Program.

In 1999, the United States Supreme Court issued its decision in *Olmstead v. L.C.*, 527 U. S. 581 (1999) interpreting Title II of the ADA and its implementing Federal regulation. The Supreme Court held in Olmstead that the unjustified institutional isolation of persons with disabilities is a form of discrimination prohibited by the ADA. Id., at 597. Following the Supreme Court's decision in Olmstead, the CMS sent a series of letters to the State Medicaid Directors discussing the implications of the Court's ruling. In a letter dated January 14, 2000,1 the CMS suggested, among other things, that states should ensure that "individuals who may be eligible to receive services in more integrated community-based settings ... are given the opportunity to make informed choices regarding whether-and how-their needs can best be met." The CMS also recommended that states consider "what information, education and referral systems would be useful to ensure that people with disabilities receive the information necessary to make informed choices.'

The Commonwealth participates in the Title XIX Medicaid Program. The Department is the designated single State agency responsible for administration of the Commonwealth's Medicaid Program, which is known as the Medical Assistance (MA) Program. The MA Program provides coverage for a wide array of medical services, including nursing facility services, for needy residents of this Commonwealth. Currently, there are 643 licensed nursing facilities in this Commonwealth that are certified MA nursing facility providers.

B. Preadmission Assessments

The Department's case-mix regulation in § 1187.22(2) (relating to ongoing responsibilities of nursing facilities) requires MA nursing facility providers to "[a]ssure that every individual who receives MA, who is eligible for MA or who is applying for MA, is reviewed and assessed by the Department or [its] independent assessor and found to need nursing facility services prior to admission to the nursing facility, or in the case of a resident, before authorization for MA payment."

 $^{^{1}\,\}mathrm{The}\,$ CMS' letter is available online at www.cms.hhs.gov/states/letters/ smd1140a.asp.

The assessments required by this regulation are made by the local area agencies on aging (AAA) through their OPTIONS programs. In making the assessments, an AAA not only determines whether an individual needs nursing facility services, but also whether the individual can be appropriately served in a noninstitutional setting with HCBS.² The AAA advises the individual of the available HCBS alternatives that are appropriate to the individual's needs and that will allow the individual to remain in his own home or community.

Consistent with the CMS' recommendation, the Department has examined whether additional information, education and referral systems would be useful to permit consumers to receive the information necessary to make informed choices. The Department has determined that both consumers and the MA Program could benefit by expanding the Department's current requirement for full preadmission OPTIONS assessment to a wider population; namely, individuals who are likely to use MA as a payer source within 12 months of admission. The Department is concerned that, because these individuals might not be aware of the wide variety of service options available to meet their long-term care needs, they might seek placement in an institutional setting without knowing that other alternatives exist. In some instances, these individuals may vacate their apartments, sell their homes or deplete their assets in anticipation of qualifying for MA or to meet their private-pay long-term care expenses in an institutional setting. As a result, after admission to a nursing home, their ability to transition back to the community would be more difficult.

Consumers have advised the Department that they want a broader array of services, the reallocation of public funds away from institutional (nursing facility) services and into HCBS, and that "nursing facilities should not be the primary or only option when long-term care and services are needed." See Pennsylvania Intra-Governmental Council on Long-Term Care, Long-Term *Care and Services, Discussion Session Findings*, Fall 1997, pp. 5.³ The proposed rulemaking responds to these consumer wishes. By requiring more nursing facility applicants to be evaluated for the need for nursing facility services prior to admission to a facility, more consumers will be advised of other long-term care service options available in their service areas, particularly HCBS, and will have the opportunity to make better informed decisions on the course of action most desirable and appropriate to their particular long-term care needs.

When consumers are given the information necessary to make a truly informed choice, the Department expects that more consumers will choose to receive HCBS, thereby decreasing the MA Program reliance on the more expensive institutional services and effectively making available a greater share of public funds to home and community-based care. Since most people who are admitted to nursing facilities will eventually become eligible for MA nursing facility services, costs to the MA Program are higher than if even a few of those individuals could be diverted to less expensive HCBS.⁴

C. Civil Rights Data

MA nursing facility providers must comply with both Federal and Štate laws that, among other things, prohibit discrimination on the basis of race, color, national origin and disability as a condition of participation in the MA Program. See § 107.3(d) (relating to requirements).

The Department is aware that discrimination can occur through subtle rather than overt means. In whatever form it takes, discrimination on the basis of race, color, national origin or disability is illegal and intolerable.

Current Departmental regulation in § 107.3(d) specifies that MA nursing facility providers "shall admit persons without regard to race, color, national origin or handicap and shall provide care and treatment without discrimina-tion based upon these factors." The regulation, however, does not require nursing facilities to maintain any record of who has applied for admission and how the facilities have acted on those applications. This gap in recordkeeping requirements can result in adverse consequences to the public and to providers. For example, the alleged absence of applications to a nursing facility could be a facile excuse for a facility's homogeneous resident population. Alternatively, the demographics of a facility's resident population might subject a facility to an unfair charge of discrimination simply because the demographics are at variance with those of the community in which the facility is located.

The Department has determined that the maintenance of certain limited data on applicants would help both to deter discrimination as well as to rebut unsubstantiated charges of discrimination.

Requirements

§ 1187.2. Definitions.

The Department is proposing to add the following definitions.

Admission-This definition is intended to identify the circumstances in which a facility's obligations under § 1187.22 and § 1187.31 (relating to admission or MA conversion requirements) arise. The definition follows the Federal Resident Assessment Instrument (RAI) Manual, which specifies when a facility must submit certain Minimum Data Set tracking forms. Under the RAI Manual, a nursing facility must submit certain assessment forms when an individual is admitted to, reenters or is discharged from the facility. Like the RAI Manual, the proposed definition considers an admission to be both the initial entry of an individual and the reentry of an individual who previously had been formally discharged. Like the RAI Manual, the definition also specifies that the reentry of an individual to a facility following a temporary discharge with the intent to return is not considered an admission. A reentry does not trigger requirements such as those in § 1187.31(2). An example of a situation in which a resident would be discharged with an anticipated return is when a resident is on therapeutic leave or in a hospital, but expected to return to the nursing facility. An example of a situation in which a resident would be discharged with no return anticipated is when a resident is discharged to a different nursing facility or to another setting where the individual's needs may be met.

² The Department provides HCBS to individuals who would otherwise be clinically eligible for nursing facility services through programs like the PDA Waiver and the Bridge Program, which are jointly administered by the Department of Aging and the Department's Long Term Care Capitated Assistance Program. ³See, also Pennsylvania Intra-Governmental Council on Long-Term Care, Assisted Living Long-Term Care and Services, Discussion Session Findings, February 1999, pp. 17. Both reports are available at www.longtermcare.state.pa.us/Index.asp?id=119& fc=2>

^{17.} Both reports are avalance. In the second secon

services under the PDA Waiver is \$105.78. In contrast, the Statewide average MA nursing facility per diem rate is \$132.23, or three times greater than the average MA for HCBS.

Clinical evaluation—This definition is intended to identify the evaluation that is required under §§ 1187.22 and 1187.31. Currently, OPTIONS staffs of the local AAAs conduct clinical evaluations.

MA applicant—This definition is intended to identify an individual who is considered by the Department to be an MA applicant and must receive a preadmission clinical evaluation under § 1187.31(2). The definition specifies that an individual who has an application for MA nursing facility services pending before the Department or is likely to become an MA conversion resident within 12 months of the date of admission is an MA applicant. "MA conversion resident" is currently defined in § 1187.2.

MA conversion date—This definition identifies the point in time at which an individual becomes an MA conversion resident.

MA recipient—This definition incorporates the definition of "MA recipient" in § 1101.21 (relating to definitions), except that this definition deletes reference to "family" since it is inapplicable in the context of an MA resident of a nursing facility.

Nursing facility applicant and nursing facility application—These definitions identify the circumstances in which a facility has obligations under § 1187.22(1) and (18). The definitions make clear that both oral and written requests for admission, as defined in this proposed rulemaking, must be considered "applications" for civil rights data reporting requirements. The definitions also specify that a casual inquiry for information about a facility should not be considered an application.

§ 1187.22. Ongoing responsibilities of nursing facilities.

Section 1187.22 delineates conditions of participation for MA nursing facility providers in addition to those specified in Chapter 1101 (relating to general provisions). The proposed rulemaking makes three changes to this section. First, the Department is revising § 1187.22(1) to substitute "nursing facility applicant," which is the new defined term, for "every individual applying for admission to the facility." This amendment reaffirms the existing requirement that all nursing facility applicants must receive a preadmission screening in accordance with the Department's preadmission screening program.

Second, the Department is revising § 1187.22(2). As originally promulgated, this section required that every individual who received MA, was eligible for MA or was applying for MA had to be assessed by the Department or an independent assessor prior to admission to a nursing facility. This section also required that a resident of a nursing facility be assessed before authorizing MA. The Department is revising this provision to use the defined terms "MA applicant," "MA recipient," "MA conversion resident" and "clinical evaluation" and to make clear that compliance with § 1187.31(2) and (4) is a condition of participation in the MA Program.

Third, the Department is adding § 1187.22(18), which imposes certain civil rights data collection and reporting requirements as an additional condition of participation for nursing facility providers. Under this paragraph, a nursing facility shall collect and maintain basic demographic and other data for each nursing facility applicant for a 4-year period. In addition to this data, this paragraph permits a nursing facility to request other information from each applicant as a condition of admission to the facility, unless otherwise precluded by law, so long as the facility uniformly requests the additional information from all applicants and the facility keeps written records of all requests and responses. Finally, the provision requires nursing facilities to keep a copy of the application data for 4 years and to periodically report the data to the Department in a format and at intervals specified by the Department.

§ 1187.31. Admission or MA conversion requirements.

As originally promulgated, § 1187.31(2) sets forth the requirement for preadmission and MA conversion evaluation and determination. The Department is proposing to amend § 1187.31 by placing the preadmission and the MA conversion requirements in separate provisions and by clarifying the circumstances in which a nursing facility is required to ensure that nursing facility applicants and residents receive clinical evaluations.

Preadmission requirements

Section 1187.31(2)(i) requires that every MA applicant and MA recipient receive a clinical evaluation prior to admission, unless one or more of the exceptions in subparagraph (ii) apply. This provision also specifies that a nursing facility may not admit an MA applicant or MA recipient if a preadmission clinical evaluation finds that the applicant or recipient does not need nursing facility services. This provision serves two purposes. It ensures that MA applicants and MA recipients are given information about service alternatives prior to admission so they can make better informed choices about their service delivery and it ensures that the existing supply of MA certified nursing facility beds is efficiently and effectively utilized.

Section 1187.31(2)(ii) identifies the circumstances in which a facility may admit an MA applicant or MA recipient even though the individual has not received a clinical evaluation. These circumstances include instances when an individual's health or safety is at risk because of the abuse, neglect or absence of a responsible caretaker; when the Department or its independent assessor fails to complete an assessment that has been requested in a timely manner; when it is unlikely that an individual will remain a resident of the facility for more than 30 days; when it is unlikely that a resident will use MA as a payment source within 12 months from the individual's admission to a nursing facility; or when an individual is eligible for Medicare skilled nursing facility services when admitted to the nursing facility and the facility contacts the Department or its independent assessor to request an assessment by the close of the next business day.

Section 1187.31(2)(iii) sets forth civil money penalties for nursing facilities that fail to comply with the preadmission assessment requirements. The provision allows for graduated fines and penalties and is intended to motivate facilities to comply with the new preadmission requirements.

Section 1187.31(2)(iv) requires nursing facilities to keep a copy of each preadmission clinical evaluation for 4 years.

MA conversion requirements

Section 1187.31(4)(i) requires a nursing facility to ensure that a resident who submits an MA application after admission receives a clinical evaluation and is determined to be eligible to receive MA nursing facility services before the facility submits a claim for or receives MA payment for services provided to the resident. Section 1187.31(4)(ii) identifies the circumstances in which a new clinical evaluation for an MA conversion resident is not required.

Affected Organizations

This proposed rulemaking would affect nursing facilities enrolled in the MA Program and local AAAs in their role as the Department's independent assessor.

Accomplishments and Benefits

By requiring preadmission assessments for nursing facility applicants who expect to use MA as a payment source within 12 months of admission, the proposed rulemaking will ensure that more consumers are advised of the long-term care service options available in their service areas, particularly HCBS. Knowing the service care options will enable consumers to make better decisions on the course of action most desirable and appropriate to their particular long-term care needs. When given the information necessary to make a truly informed choice, the Department expects that more consumers will choose to receive HCBS, thereby decreasing the MA Program reliance on the more expensive institutional services.

By requiring nursing facilities to maintain and report minimal civil rights information on individuals who have applied for admission, the proposed rulemaking will deter nursing facilities from illegally discriminating in making admissions and will assist facilities that comply with the law to rebut unsubstantiated charges of discrimination.

Fiscal Impact

A. Public Sector

Commonwealth

The Department of Aging will incur increased costs to conduct 11,000 preadmission assessments in the first year of implementation of this proposed rulemaking and 6,900 each year thereafter. The approximate cost in the first year is \$2.471 million (\$1.372 million in Federal funds and \$1.099 million in augmentations from the Intergovernmental Transfers). Out year funding is estimated at \$1.505 million (\$827,750 Federal and \$677,250 State Lottery Funds.)

The Department will experience savings in the MA— Long Term Care appropriation to the extent that individuals choose HCBS as opposed to placements in nursing facilities. The savings are estimated at \$1.3 million (\$718,674 Federal and \$594,000 State) in the first year of implementation and roughly \$6.3 million (\$3.4 Federal and \$2.9 million State) each year thereafter.

Political Subdivisions

No fiscal impact is anticipated. Although the proposed rulemaking would cause an initial temporary acceleration in the need for assessments, the vast majority of individuals who are admitted to nursing facilities eventually become eligible for MA nursing facility services, and thus, the total number of assessments that would have normally been conducted in a fiscal year would remain the same.

B. Private Sector

Additional costs may be incurred by nursing facilities. The amount of the costs will depend upon each individual facility's current practices and methods relating to the recording of civil rights data and financial assessments.

C. General Public

Consumers of long-term care services will experience no adverse fiscal impact. This proposed rulemaking will make it possible for consumers to avail themselves of the wide range of long-term care options to best meet their individual needs.

Paperwork Requirements

Nursing facilities will be required to maintain written records for all nursing facility applicants relating to the individual's clinical evaluation and civil rights data.

Effective Date

This proposed rulemaking shall take effect 60 days after final-form publication in the *Pennsylvania Bulletin*. *Sunset Date*

There is no sunset date for these regulations. The Department will review the effectiveness of these regulations on an ongoing basis and evaluate the need for further amendments.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to the Department of Public Welfare, Office of Medical Assistance Programs, Attention: Regulations Coordinator, Room 515 Health and Welfare Building, Harrisburg, PA 17105 within 30 calendar days after the date of publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

Persons with a disability may use the AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 19, 2005, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Health and Human Services and the Senate Committee on Public Health and Welfare. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Annex A

TITLE 55. PUBLIC WELFARE

PART III. MEDICAL ASSISTANCE MANUAL CHAPTER 1187. NURSING FACILITY SERVICES Subchapter A. GENERAL PROVISIONS

§ 1187.2. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise: * * * *

Admission—The initial entry of an individual to a nursing facility as a resident of the facility, or the reentry of an individual to a nursing facility as a resident following a discharge when no return was anticipated. The reentry of an individual to a nursing facility as a resident following a discharge with an anticipated return is not an admission.

* * *

Clinical evaluation—A comprehensive assessment by the Department or its independent assessor of an individual's need for nursing facility services and whether the individual's needs may be met in a setting other than a nursing facility.

* * *

MA applicant—An individual who meets one of the following conditions:

(i) Has submitted an application for MA nursing facility services which is pending before the Department.

(ii) Based upon information provided by the individual or person making a nursing facility application on behalf of the individual, is likely to be an MA conversion resident within 12 months from the date of admission.

MA conversion date—The date specified on the Department's notice authorizing MA nursing facility services for an MA conversion resident.

MA recipient—An individual who is eligible for MA benefits.

* * * *

Nursing facility applicant—An individual who makes a nursing facility application or on whose behalf a nursing facility application is made.

Nursing facility application—A request made orally or in writing, by or on behalf of an individual, to a nursing facility asking the facility to consider the individual for admission; or if the individual is hospitalized, asking the nursing facility to consider the individual for admission upon discharge from the hospital. The request must be made to the nursing facility's administrator, admissions officer or other person with real or apparent authority regarding admissions to the nursing facility to be considered an application. A casual inquiry or a request for information regarding a nursing facility, without expressing the intent to be considered for admission, is not an application.

Subchapter C. NURSING FACILITY PARTICIPATION

§ 1187.22. Ongoing responsibilities of nursing facilities.

In addition to meeting the ongoing responsibilities established in Chapter 1101 (relating to general provisions), a nursing facility shall, as a condition of participation:

(1) **[Assure] Ensure** that every **[individual applying for admission to the facility] nursing facility applicant** is prescreened by the Department as required by section 1919 of the Social Security Act (42 U.S.C.A. § 1396r(e)(7)) and 42 CFR Part 483, Subpart C (relating to preadmission screening and annual review of mentally ill and mentally retarded individuals).

(2) [Assure] Ensure that every [individual who receives MA, who is eligible for MA or who is applying for MA, is reviewed and assessed by the Department or an independent assessor and found to need nursing facility services prior to admission to the nursing facility, or in the case of a resident, before authorization for MA payment.] MA applicant, MA recipient and MA conversion resident receives a clinical evaluation and that every admission to the facility and MA conversion are made in accordance with § 1187.31(2) and (4) (relating to admission or MA conversion requirements).

* * *

(18) Meet the following civil rights data collection and reporting requirements:

(i) The nursing facility shall collect the following data for each nursing facility applicant:

(A) Name and address including zip code.

(B) The date of application.

(C) Age.

- (D) Race or ethnicity.
- (E) Gender.
- (F) Primary and secondary diagnoses.
- (G) Social Security number.

(H) Religion, if volunteered and used as a factor for admission.

(I) Whether the applicant is ventilator dependent.

(J) The date of disposition of the application.

(K) The disposition of the application.

(L) The reason for disposition.

(M) The nursing facility's occupancy rate on the date of disposition of the application.

(ii) The nursing facility shall maintain the data required by subparagraph (i) for 4 years from the date of the applicant's nursing facility application.

(iii) Unless otherwise prohibited by law, nothing in this paragraph precludes the nursing facility from uniformly requesting a nursing facility applicant to provide information in addition to the data required by this paragraph to be considered for admission. If the nursing facility requires a nursing facility applicant to provide any additional information, the facility shall maintain a written record of the additional information requested and received from each nursing facility applicant for 4 years from the date of the applicant's nursing facility application.

(iv) The nursing facility shall submit reports to the Department on the data collected under this paragraph in a format and at intervals specified by the Department.

Subchapter D. DATA REQUIREMENTS FOR NURSING FACILITY APPLICANTS AND RESIDENTS

§ 1187.31. Admission or MA conversion requirements.

To receive payment for nursing facility services, a nursing facility shall meet the following admission or MA conversion requirements:

* * * * *

(2) Preadmission [or MA conversion evaluation and determination] requirements.

(i) Evaluation and determination. The nursing facility shall ensure that [before an MA applicant or recipient is admitted to a nursing facility, or before authorization for MA payment for nursing facility services in the case of a resident, the MA applicant, recipient or resident has been evaluated by the Department or an independent assessor and found to] the MA applicant and MA recipient who has submitted a nursing facility application to the facility receives a clinical evaluation prior to admission unless one or more of the exceptions in subparagraph (ii) apply. The nursing facility may not admit an MA applicant or MA recipient whose preadmission clinical evaluation found that the individual does not need nursing facility services.

(ii) [The nursing facility shall maintain a copy of the Department's or the independent assessor's notification of eligibility in the business office.] *Exceptions.*

(A) The nursing facility may admit an MA applicant or MA recipient who did not receive a clinical evaluation prior to admission if any of the following apply:

(I) A physician certifies in writing that it is unlikely that the individual will remain a resident of the facility for more than 30 days and payment for the nursing facility services provided to the individual will be made by a payer other than the MA Program.

(II) There is reasonable cause to believe that the individual was abused or neglected as defined in the Older Adult Protective Services Law (35 P. S. §§ 10225.101—10225.5102); the individual's health or safety is at risk because of abuse, neglect or the absence of a responsible caretaker; the nursing facility immediately files a report regarding the individual with the local older adult protective services agency; and the local older adult protective services agency determines that the individual should be admitted to the nursing facility on an emergency basis.

(III) The nursing facility determines that the individual is eligible for Medicare skilled nursing facility services and contacts the Department or its independent assessor to request a clinical evaluation by the close of the next business day following the day on which the individual is admitted to the facility.

(B) The nursing facility may admit an MA applicant who did not receive a clinical evaluation prior to admission if the following conditions are met:

(I) The nursing facility refers the applicant for a clinical evaluation prior to admission.

(II) The applicant provides the Department or its independent assessor with the information necessary to conduct the evaluation.

(III) The Department or its independent assessor notifies the referring nursing facility that it received the information necessary to conduct the evaluation.

(IV) The Department or its independent assessor does not complete the evaluation after receipt of the information within the following time frames:

(-a-) Three working days if the individual is a patient in a hospital at the time the evaluation is requested

(-b-) Five working days if the individual is residing in a community setting, including a personal care home, at the time the evaluation is requested.

(-c-) Ten working days if the individual is a resident of a nursing facility, other than the admitting facility, at the time the evaluation is requested.

(iii) Penalties.

(A) In addition to any other remedies, penalties or sanctions authorized by law and regulation, including, but not limited to, those in Chapter 1101 (relating to general provisions), the Department may impose a civil money penalty if it determines that a nursing facility has admitted an MA applicant or MA recipient who did not receive a clinical evaluation prior to admission, or if it determines that a nursing facility admitted an MA applicant or MA recipient who received a clinical evaluation prior to admission which found that the individual did not need nursing facility services.

(B) A separate civil money penalty may be assessed for each individual admitted in violation of subparagraph (i). The civil money penalty may range from \$150—\$3,000 per day but the civil money penalty may not be less than the nursing facility's total aggregate charges to the individual for services rendered during the period of noncompliance. In determining the amount of the civil money penalty, the Department will consider the facility's history of compliance with subparagraph (i).

(C) The period of noncompliance begins on the date of the individual's admission to the facility and ends on the date the individual receives a clinical evaluation which finds that the individual needs nursing facility services, or the date the individual is discharged from the facility with no intent to return, whichever date is earlier.

(D) The Department will not assess civil money penalties if the nursing facility establishes that at the time the individual was admitted, one or more of the exceptions of subparagraph (ii) applied.

(iv) *Maintaining clinical evaluation reports.* The nursing facility shall maintain a copy of the report of each MA applicant's or MA recipient's clinical evaluation for 4 years from the date the clinical evaluation is received.

(3) MA conversion requirements.

(i) The nursing facility shall ensure that a resident who submits an application for MA nursing facility services after admission to the facility, has received a clinical evaluation and has been determined by the Department to be clinically and financially eligible for MA nursing facility services before the facility submits a claim for or receives MA payment for nursing facility services provided to the individual.

(ii) A resident of a facility is not required to receive a new clinical evaluation as a result of the resident's application for MA nursing facility services if the following conditions are met: (A) The resident received a clinical evaluation prior to admission and was determined to need nursing facility services.

(B) The clinical evaluation was conducted within 12 months of the resident's MA conversion date.

(C) The MA conversion date falls within the time period specified on the physician's original written certification determining the resident's need for nursing facility services.

DEPARTMENT OF EDUCATION

Application of Zachary Burwell for Reinstatement of Teaching Certificate; Doc. No. RE 05-01

Hearing

Under the Professional Educator Discipline Act (act) (24 P. S. §§ 2070.1–2070.18a), the Professional Standards and Practices Commission (Commission) has initiated hearing procedures to consider the application of Zachary Burwell for reinstatement of his teaching certificate.

On or about December 19, 2004, Zachary Burwell filed an application for reinstatement of his teaching certificate under section 16 of the act (24 P. S. § 2070.16), 1 Pa. Code §§ 35.1 and 35.2 (relating to applications) and 22 Pa. Code § 233.14 (relating to reinstatement). Under section 16 of the act, the Department of Education, on July 18, 2005, recommended to the Commission that the application be denied. In accordance with the act and 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure), the Commission will appoint a hearing examiner to serve as presiding officer to conduct the proceedings and hearings as might be necessary and to prepare a proposed report to the Commission containing findings of fact, conclusions of law and a recommended decision on the application.

Interested parties wishing to participate in these hearing procedures must file a notice of intervention or a petition to intervene in accordance with 1 Pa. Code §§ 35.27—35.32 (relating to intervention) within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Persons objecting to the approval of the application may also, within 30 days after publication of this notice in the *Pennsylvania Bulletin*, file a protest in accordance with 1 Pa. Code § 35.23 (relating to protest generally).

Notices and petitions to intervene and protest shall be filed by 4 p.m. on the due date prescribed by this notice with Carolyn Angelo, Executive Director, Professional Standards and Practices Commission, 333 Market Street, Harrisburg, PA 17126-0333. Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate should

Application of Amy Sue Hesselgesser for Reinstatement of Teaching Certificate; Doc. No. RE 05-03

Hearing

Under the Professional Educator Discipline Act (act) (24 P. S. §§ 2070.1—2070.18a), the Professional Standards and Practices Commission (Commission) has initiated hearing procedures to consider the application of Amy Sue Hesselgesser for reinstatement of her teaching certificate.

On or about June 28, 2005, Amy Sue Hesselgesser filed an application for reinstatement of her teaching certificate under section 16 of the act (24 P. S. § 2070.16), 1 Pa. Code §§ 35.1 and 35.2 (relating to applications) and 22 Pa. Code § 233.14 (relating to reinstatement). Under section 16 of the act, the Department of Education, on July 11, 2005, recommended to the Commission that the application be approved. In accordance with the act and 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure), the Commission will appoint a hearing examiner to serve as presiding officer to conduct the proceedings and hearings as might be necessary and to prepare a proposed report to the Commission containing findings of fact, conclusions of law and a recommended decision on the application.

Interested parties wishing to participate in these hearing procedures must file a notice of intervention or a petition to intervene in accordance with 1 Pa. Code §§ 35.27—35.32 (relating to intervention) within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Persons objecting to the approval of the application may also, within 30 days after publication of this notice in the *Pennsylvania Bulletin*, file a protest in accordance with 1 Pa. Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a

general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Location	Permit Authority	Application Type or Category
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

II. Applications for New or Expanded Facility Permits, Renewal of Major Permits and EPA Nonwaived Permit Applications

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

WQM Permit No. 1504201, Industrial Waste, **Rick's Mushroom Service**, P. O. Box 797, Avondale, PA 19311. This existing facility is located in New Garden Township, **Chester County**.

Description of Proposed Draft Permit: This draft Water Quality Management Part II Permit is for the authorization to operate an existing storage and disposal facility for spent mushroom substrate stormwater runoff. The permit authorizes the operation of a lagoon storage system and 4 acres of spray irrigation fields for disposal. The permit will authorize a maximum application of 500,000 gallons per acre for a total of 2 million gallons per year.

The proposed effluent limits for the spray system are as follows:

Parameter	Limitation	Sampling Frequency	Sample Type
Flow (mgy)^	2.0	Continuous	Measured
BOD ₅	Monitor and Report	Quarterly	Grab
TSS	Monitor and Report	Quarterly	Grab
* Total Nitrogen (mg/l)	Monitor and Report	Quarterly	Grab
pH	Monitor and Report	Quarterly	Grab
Calcium	Monitor and Report	Yearly	Grab
Sodium	Monitor and Report	Yearly	Grab
Magnesium	Monitor and Report	Yearly	Grab

^mgy = million gallons per year

*Total Nitrogen = Total Kjeldahl Nitrogen + Nitrite (NO₂) Nitrogen + Nitrate (NO₃) Nitrogen. Total Kjeldahl Nitrogen = NH₃ + Organic Nitrogen

In addition to the effluent limits, the permit contains the following major special conditions:

- 1. Discharge Limitations and Monitoring Requirements.
- 2. Spray Irrigation Rates.
- 3. Spray Field Requirements.
- 4. Groundwater Monitoring.
- 5. Reporting Requirements.
- 6. Additional Testing.
- 7. Recording of Results.
- 8. Recordkeeping and Retention.
- 9. Laboratory Certification.
- 10. Permit Evaluation.
- 11. Permit Expiration/Renewal.

PA0057720, Industrial Waste, SIC 2033, **Sunny Dell Foods, Inc.**, 214 South Mill Road, Kennett Square, PA 19348. This facility is located in Kennett Township, **Chester County**.

Description of Proposed Activity: This is a second notice for an application that requests approval of a renewal NPDES permit. Revisions are included for a proposed increase in flow from 0.05 to 0.072 mgd for outfall 001, that discharges treated process wastewater from mushroom washing, blanching and cleanup. Outfall 002 continues the existing discharge flow of 0.09 mgd of cooling water from can cooling.

Waste Load Allocations (WLA) for CBOD₅, ammonia, phosphorus, dissolved oxygen and total nitrogen for these discharges were included by the Environmental Protection Ageny (EPA) in the Christina River Basin Low-Flow TMDL in 2001-2002. In response to the Department of Environmental Protection's recent request, the EPA had the TMDL water quality model rerun with a flow of 0.072 mgd for outfall 001 and the existing permit limit of 10 mg/l CBOD₅ for outfall 002, in place of an assumed value of 2 mg/l. The results of the model rerun revised the TMDL WLAs for Sunny Dell Foods and indicated that water quality criteria will be protected. The revised draft permit limits are consistent with the TMDL revisions.

The receiving stream, West Branch Red Clay Creek, is in the State Water Plan watershed 3I and is classified for TSF, aquatic life, water supply and recreation. No downstream public water supply intakes are in this Commonwealth. The State line is 3 miles downstream and a public water supply intake is located approximately 7 miles downstream from the State line in Delaware (Stanton Plant Delaware Waterworks).

The proposed effluent limits for Outfall 001 are, based on a discharge flow of 0.072 mgd, as follows:

	Mass (lb/day)			Concentration (mg/l)		
Parameters	Average Monthly	Maximum Daily	Average Monthly	Maximum Daily	Instantaneous Maximum (mg/l)

In addition to the effluent limits, the permit contains the following major other conditions:

- Notification of Designation of Operator. 1.
- Effective Disinfection. 2.
- 3. Remedial Measures if Unsatisfactory Effluent.
- 4. Discharge to Small Stream.
- 5. BAT/ELG Reopener.

Description of Proposed Activity: The facility is generally characterized as a petroleum refinery having the following **Operations:**

- Crude Oil Processing
- Fluid catalytic Cracking
- Hydrogen Desulfurization
- Catalytical Reforming

The receiving stream, Schuylkill River, is in the State Water Plan watershed 3F and is classified for WWF and migratory fishery. There are no public water supply intake in this Commonwealth.

The proposed effluent limits for Outfalls 001, 003 and 004 solely consist of contaminated stormwater runoff are as follows:

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the

writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302-305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the Pennsylvania Bulletin an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup

PENNSYLVANIA BULLETIN, VOL. 35, NO. 31, JULY 30, 2005

standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Permit ID No. 301071. MAX Environmental Technologies, Inc., Yukon Facility, South Huntingdon Township, **Westmoreland County**. MAX submitted a revised closure plan to Department of Environmental Protection on May 24, 2005, for Yukon Impoundments 1—3 proposing to rebuild the intermediate covers with residual waste then cap the structures. A public meeting to discuss this plan will be held at the Yukon Fire Hall at 7 p.m. on July 27, 2005. Comments on the closure plan will be accepted until August 26, 2005.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the Pennsylvania Bulletin, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the Pennsylvania Bulletin at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001-4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

06-03124: James Hardie Building Products, Inc. (Excelsior Industrial Park, 318 June Avenue, Blandon, PA 19510) to install a surface coating (painting) line in their Maidencreek Township, **Berks County** facility.

28-05020B: T. B. Woods, Inc. (440 North Fifth Avenue, Chambersburg, PA 17201) for installation of a fabric collector to control particulate matter emissions from two coreless furnaces at their iron foundry in Chambersburg Borough, **Franklin County**.

36-05136A: Granger Energy of Honeybrook, LLC (481 South Churchtown Road, Narvon, PA 17555) for construction of an internal combustion engine/generator set at the landfill gas treatment plant at the Lanchester Landfill in Caernarvon Township, **Lancaster County**. The facility is subject to 40 CFR Part 60, Subpart WWW, Standards of Performance for Municipal Solid Waste Landfills.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, George Monasky, New Source Review Chief, (814) 332-6940.

37-051E: Remacor, Inc. (Route 168, PA 16160) for modification and construction of magnesium grinding lines at their West Pittsburg Plant in the Township of Taylor, **Lawrence County**.

61-185C: Heath Oil Co. (SR 8, Barkeyville, PA 16038) for postconstruction approval of the bulk storage terminal, tank wagon loading rack and vapor balancing and burn off system in Barkeyville Borough, **Venango County**. This is a State-only facility.

24-123E: Onyx Greentree Landfill, LLC (635 Toby Road, Kersey, PA 15846) for installation of an additional enclosed ground flare (6,000 cfm) similar in design to the existing flares in Fox Township, **Elk County**. This is a Title V facility.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit. Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Thomas McGinley, New Source Review Chief, (484) 250-5920.

15-0060C: Southeastern Chester County Refuse Authority (P. O. Box 221, Kennett Square, PA 19342) for installation of an LFGTE System comprising of an IC Engine/Generator to control landfill gas generated from the North and South Cells of the SECCRA Landfill, London Grove Township, **Chester County**. The facility is a minor facility. The IC Engine is rated at 1,188 BHP. It will replace an open flare currently operated at the landfill. The open flare would be kept onsite as a back-up flare. The allowed fugitive emission of VOC from the landfill is 3.38 TPY as a 12-month rolling sum. Allowable emissions from the IC Engine are: 0.5 g/BHP-hr and 5.72 TPY of VOC, 0.7 g/BHP-hr and 8.01 TPY of NOx, 3.4 g/BHP-hr 38.92 TPY of CO. The proposed Plan Approval also requires the company to perform stack tests for the emission rate of NOx, CO, VOC and the destruction efficiency for VOC. The company shall keep records of landfill gas flow and emissions of VOC, NOx and CO on a monthly basis

09-0185: Bucks County Roses, Inc. (1235 Buck Road, Holland, PA 18966-2609) for a 16.74 mmBtu/hr boiler at an existing facility that operates on waste oil, Nos. 4—6 fuel oil. The facility has proposed placing a limit of 24.9 tons per 12-month rolling period on emissions of NOx. There are limits on the sulfur content of each of the commercial fuel oils used, and there are limits to the amount of arsenic, cadmium, chromium, lead and total halides content of the waste oil. Testing, monitoring and recordkeeping requirements were applied to demonstrate compliance with the applicable limits for this source. The facility is in Northampton Township, **Bucks County**.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702

36-03155: L and S Sweeteners (388 East Main Street, Leola, PA 17540) for use of treated landfill gas in two facility boilers in West Earl Township, Lancaster County. The plant is a non-Title V State-only facility. The use of treated landfill gas in the facility's two boilers is not expected to increase the facility's overall emissions. The plan approval and permit will include emission restrictions, monitoring, testing, work practice, recordkeeping and reporting requirements designed to keep the plant operating within all applicable air quality requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

18-00009C: Clinton County Solid Waste Authority (264 Landfill Lane, McElhattan, PA 17748) for modification of a municipal waste landfill and construction of a landfill gas flare in Wayne Township, **Clinton County**.

A Title V operating permit (No. 18-00009) has been issued for this facility.

The proposed modification is an increase in the average daily waste volume the landfill is permitted to receive from 725 tons per day to 1,200 tons per day. To accommodate the expected increase in the rate of landfill gas generation associated with the proposed modification, the Clinton County Solid Waste Authority proposes to either construct an additional landfill gas flare to supplement the flare currently existing onsite or replace the currently-existing flare with a larger flare. Assuming worst-case conditions (a year-round daily average daily waste volume of 1,200 tons per day), the air contaminant emission increases associated with the proposed landfill modification and flare construction are not expected to exceed 1.1 tons of nonmethane organic compounds, 6.92 tons of NOx, 37.65 tons of CO, 1.05 tons of SOx, .52 ton of hydrogen chloride, .46 ton of volatile hazardous air pollutants, 80.51 tons of particulate matter and 18.51 tons of PM10. Most of the particulate matter and PM10 emission increases are attributed to the increased truck traffic and increased need for daily landfill cover which will be associated with the increase in average daily waste volume.

The Department of Environmental Protection's (Department) review of the information submitted by the Clinton County Solid Waste Authority indicates that the proposed landfill modification and proposed flare should comply with applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including the fugitive air contaminant emission requirements of 25 Pa. Code §§ 123.1 and 123.2, the malodorous air contaminant emission requirement of 25 Pa. Code § 123.31 and the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue plan approval for the proposed modification of the landfill and the proposed construction of the flare.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable regulatory requirements.

1. Conditions contained in Title V Operating Permit 18-00009 remain in effect unless amended or superseded by a condition contained herein. If there is a conflict between a condition contained in Title V Operating Permit 18-00009 and a condition contained in this notice, the permittee shall comply with the condition contained herein rather than with the conflicting condition contained in Title V Operating Permit 18-00009.

2. The total amount of waste disposed of shall not exceed 438,000 tons in any 12-consecutive month period.

3. At no time shall more than 2,000 standard cubic feet of landfill gas per minute be burned in the flare currently existing at this site.

4. At a time as the landfill gas collection rate reaches a sustained rate of 1,800 standard cubic feet per minute, the permittee shall, within 6 months thereafter, either replace the existing landfill gas flare with a new flare with a capacity of at least 2,850 standard cubic feet of landfill gas per minute or construct an additional flare with a capacity of least 850 standard cubic feet of landfill gas per minute to supplement the existing flare. For the purpose of complying with this requirement, the sustained rate is the arithmetic average of all existing flare inlet landfill gas volumetric flow rate measurements taken over a 24-hour period.

If, however, the construction of a flare is not commenced within 18 months of the date of issuance of this plan approval, the authorization to construct a flare granted by this plan approval, as well as the best available technology determination reflected in the conditions of this plan approval (as they pertain to the flare), are null and void. In that case, the permittee shall immediately submit a new application for plan approval to construct a flare. 5. Any flare, the construction of which is commenced within 18 months of the issuance of this plan approval, shall incorporate the following design features and/or meet the following criteria:

• The flare shall be equipped with a natural gas enrichment system to allow natural gas to be bled into the landfill gas to enhance its heat content.

• The flare shall be equipped with a continuous pilot ignition source using natural gas as fuel.

• The flare shall be equipped with instrumentation which shall measure and record the landfill gas flow rate to the flare every 15 minutes.

• The flare shall be equipped with a low fire burner assembly to fire landfill gas at flow rates as low as 50 standard cubic feet per minute.

• A sufficient flow of natural gas shall be fed to the flare during startup or restart so that a flame is supported and unburned landfill gas is not emitted to the atmosphere.

• There shall be no visible flame from the exhaust of the flare.

• There shall be no visible air contaminant emissions from the flare except during periods not to exceed a total of 5 minutes in any 2-consecutive hour period and the emissions during those periods shall not exceed 10% opacity.

• The flare shall, at all times landfill gas is being ducted to it, either achieve a nonmethane organic compound destruction efficiency of at least 98%, by weight, or a nonmethane organic compound outlet concentration (expressed as hexane) of no greater than 20 parts per million, dry volume basis, corrected to 3% oxygen.

• The flare shall maintain a temperature of at least 1,500°F at any time landfill gas is ducted to the flare and the landfill gas shall be held at this temperature within the flare for at least .89 second by the time the gas temperature is monitored.

• The flare shall be equipped with a continuous temperature monitoring and recording system having an accuracy of plus or minus $1^{\circ}F$ which shall log the temperature of the effluent gas from the flare at all times it is in use. The temperature sensor incorporated in this system shall be positioned at a location within the flare such that the landfill gas being burned will have been in the flare for at least .89 second by the time the gas temperature is monitored.

• The flare shall be equipped with an ultraviolet (heat-sensing) flame scanner.

• If the ultraviolet (heat-sensing) flame scanner does not detect a flame or the flare is not operating at a temperature equal to or in excess of 1,500°F, an automatic shutoff device shall immediately stop the flow of landfill gas to the flare and the flare shall be automatically shut down while sounding or signaling an alarm.

• The flare (in combination with the currently-existing flare, if applicable) shall at any point in time be capable of accommodating the maximum landfill gas collection rate which will exist at that respective point in time.

• The emission of NOx from the flare shall not exceed .068 pound per million Btu of heat input.

• The emission of CO from the flare shall not exceed .37 pound per million Btu of heat input.

The permittee shall not, however, commence the construction of any flare until specifications for the specific flare the permittee intends to construct have first been submitted to the Department and the Department has subsequently informed the permittee that it has determined that the respective flare is capable of complying with requirements specified in this notice.

6. The permittee shall notify the Department within 1 week of achieving a sustained landfill gas collection rate of 1,800 standard cubic feet per minute.

7. The permittee shall notify the Department within 15 days of selecting any specific flare intended for construction at this site and shall provide detailed specifications for the respective flare at the same time.

8. The permittee shall conduct stack testing for NOx, CO, SOx, hydrogen chloride and particulate matter on any flare installed under this plan approval within 180 days of commencement of flare use.

9. The area of exposed waste at the active working face of the landfill shall be kept to a minimum at all times.

10. The Department reserves the right to require the permittee to make any or all of the following modifications or improvements to the landfill gas collection system and/or practices in use at this site should the Department determine that the modifications or improvements are needed for the landfill to comply with the malodorous air contaminant emission requirement of 25 Pa. Code § 123.31 or the requirements specified in any other applicable rule or regulation of the Department or any applicable requirement specified in, or established under, Subpart Cc of the Federal Standards of Performance for New Stationary Sources, 40 CFR 60.30c— 60.36c:

• The use of a cementitious material identified as "Posi-Shell" (or an alternate material determined by the Department of Environmental Protection to be equivalent to "Posi-Shell") for alternate daily cover.

• The use of a temporary geomembrane cover over the intermediate cover.

• The use of temporary landfill gas collection lines beneath the temporary geomembrane cover.

• The construction of horizontal and vertical landfill gas extraction wells beyond those currently required by Title V Operating Permit 18-00009.

• The use of leachate recirculation lines as landfill gas collection lines.

The permittee may voluntarily make any of the previously listed modifications or improvements at any time without obtaining plan approval from the Department.

11. An operable water truck equipped with a pressurized spray bar and pressurized hose or nozzle connection shall be maintained onsite at all times and shall be used as needed to control fugitive dust from plant roadways and landfill activities.

12. A truck wash station shall be maintained onsite at all times and shall be used, as needed, to remove dirt and debris from truck wheels and undercarriages.

13. Trucks entering or exiting the facility by means of a public roadway shall be completely tarped or otherwise covered unless empty. This requirement shall be posted in readily visible locations throughout the site.

14. The speed limit onsite roadways shall be no greater than 10 miles per hour. This limit shall be posted in readily visible locations throughout the site. 15. The emission of hydrogen chloride from any flare constructed under this plan approval shall not exceed .005 pound per million Btu of heat input.

16. The total combined VOC emissions from this facility shall not at any time equal or exceed 50 tons in any 12-consecutive month period, the total combined NOx emissions shall not equal or exceed 100 tons in any 12-consecutive month period, the total combined SO emissions shall not equal or exceed 100 tons in any 12-consecutive month period, the total combined carbon monoxide emissions shall not equal or exceed 100 tons in any 12-consecutive month period, the total combined emission of PM10 shall not equal or exceed 100 tons in any 12-consecutive month period, the total combined emission of PM10 shall not equal or exceed 100 tons in any 12-consecutive month period, the total combined amount of any single hazardous air pollutant shall not equal or exceed 10 tons in any 12-consecutive month period and the total combined amount of all hazardous air pollutants shall not equal or exceed 25 tons in any 12-consecutive month period.

17. The permittee shall maintain accurate and comprehensive records of the number of tons of waste disposed of each month. Records, as well as temperature records generated by the continuous flare temperature monitoring and recording system and all landfill gas flow rate records generated by the flare inlet landfill gas flow rate monitoring and recording system, shall be retained for at least 5 years and shall be shown to the Department upon request.

18. This plan approval does not authorize the construction, installation, reactivation or operation of any gasoline, natural gas, propane, diesel or landfill gas-fired stationary engines, generators or engine-generator sets.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001-4015) and 25 Pa. Code Chapter 127, Subchapter G.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Edward Jurdones Brown, Facilities Permitting Chief, (484) 250-5920.

23-00011: Sunoco Partners Marketing and Terminals, LP (Calcon Hook Road and Hook Road, Darby, PA 19036) for renewal of a Title V facility in Darby Township, **Delaware County**. The facility's sources include 23 external floating roof tanks, one fixed roof tank and a wastewater separator. The permittee does have the potential to emit 24.9 tons/year for VOC and NOx and is therefore characterized as a Title V, Major Facility. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

36-05001: Armstrong World Industries, Inc. (1507 River Road, Marietta, PA 17547) for operation of their ceiling tiles plant in East Donegal Township, **Lancaster County**. This action is a renewal of the Title V Operating Permit issued in 2000. This facility is a Title V facility due to its emissions of VOC's from its finishing operations. The Title V operating permit contains restrictions, monitoring, testing, work practice standards, recordkeeping and reporting conditions designed to keep the facility operating within applicable air quality requirements.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, Mark Wayner, Facilities Permitting Chief, (412) 442-4174. **26-00413: Texas Eastern Transmission** (P. O. Box 1642, Houston, TX 77251) for operation of Uniontown Station 21-A in North Union Township, **Fayette County**. This is a Title IV renewal.

Intent to Issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001-4015) and 25 Pa. Code Chapter 127, Subchapter F.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

35-00052: Haines and Kibblehouse, Inc. (P. O. Box 196, Skippack, PA 19474) for an asphalt plant and associated air pollution control devices in Dunmore Borough, Lackawanna County.

39-00073: Fairview Crematory (855 Lehigh Street, Allentown, PA 18103) for a human crematory in the City of Allentown, **Lehigh County**.

39-00078: Gateway Industrial Services (805 Harrison Street, Allentown, PA 18103) for two paint spray booths in the City of Allentown, **Lehigh County**.

39-00080: Muhlenberg College (2400 Chew Street, Allentown, PA 18104-5586) for two boilers and miscellaneous small combustion units in the City of Allentown, **Lehigh County**.

40-00084: Lacey Memorial (R 1000 S. Church Street, Hazleton, PA 18201) for a human crematory in the City of Hazleton, **Luzerne County**.

40-00093: Fabri-Kal Corp. (150 Lions Drive, Hazleton, PA 18201) for nine plastic forming line and associated air pollution control devices in Hazle Township, **Luzerne County**.

40-00094: Weir Hazleton, Inc. (225 North Cedar Street, Hazleton, PA 18201) for a sand blasting operation and associated air pollution control device in Hazle Township, **Luzerne County**.

40-00095: Polyglass USA, Inc. (555 Oakridge Drive, Hazleton, PA 18201-5586) for rolled roofing manufacturing processes and associated air pollution control devices in Hazle Township, **Luzerne County**.

48-00070: Lamson and Sessions (25701 Science Park Drive, Cleveland, OH 44122) for processes and associated air pollution control devices in Upper Nazareth Township, **Northampton County**.

48-00075: Binney and Smith, Inc. (P. O. Box 431, Easton, PA 18044-0431) for manufacturing processes and associated air pollution control device in Bethlehem Township, **Northampton County**.

54-00078: World Resources Co. (170 Walnut Lane, Pottsville, PA 17901) for processes and associated air pollution control devices in Norwegian Township, **Schuyl-kill County**.

54-00080: U.S.S. Achey, Inc. (355 East Second Mountain Road, Schulkill Haven, PA 17972) for an automobile shredder and associated air pollution control devices in North Manheim Township, Schuylkill County.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

07-03017: Juniata Packing Co. (P. O. Box 276, Tyrone, PA 16686) for operation of a meat processing plant at their facility in Snyder Township, **Blair County**. The State-only operating permit shall contain additional

testing, monitoring, recordkeeping and reporting requirements, emission restrictions and work practice standards designed to keep the facility operating within applicable air quality requirements.

67-03126: Yorkshire Animal Hospital (3434 East Market Street York, PA 17402) for operation of an animal crematory at their facility in Springettsbury Township, York County. The State-only operating permit shall contain additional testing, monitoring, recordkeeping and reporting requirements, emission restrictions and work practice standards designed to keep the facility operating within applicable air quality requirements.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, Eric Gustafson Facilities Permitting Chief, (814) 332-6940.

43-00305: Champion Carrier Corp. (2755 Kirila Boulevard, Hermitage, PA 16148) Natural Minor operating permit for surface coating of truck subframes and truck bodies in the City of Hermitage, **Mercer County**.

16-00141: Kahles Kitchens, Inc. (7488 Route 36 Leeper, PA 16233) for a Natural Minor Permit for wooden cabinetry manufacturing and surface coating operations in Farmington Township, **Clarion County**.

10-00168: Suburban Heating Oil Partners LLC (601 Hansen Avenue, Butler, PA 16001) Natural Minor operating permit for concrete batching and delivery in the City of Butler, **Butler County**.

20-00295: Baillie Lumber Co. (45529 Route 27E, Titusville, PA 16354) for a Natural Minor Operating Permit for a wood-fired boiler and lumber processing operations in Oil Creek Township, **Crawford County**.

37-00266: Shenango Area School District (2501 Old Pittsburgh Rd., New Castle, PA 16101) intends to issue a State-only operating permit for the operation of a high school located in Shenango Township, **Lawrence County**. The air pollution sources at the school include two 16 mmBtu/hr trifuel boilers and natural gas fired hot water heaters.

37-00145: Ellwood City Area School District (501 Crescent Ave., Ellwood City, PA 16117) located in Ellwood City, **Lawrence County** for a State-only operating permit to continue to operate two natural gas fired boilers, several small miscellaneous gas fired water heaters and a back up emergency generator.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1— 693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits—The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

Parameter	30-Day	Daily	Instantaneous
	Average	Maximum	Maximum
Iron (total) Manganese (total) Suspended solids pH* Alkalinity greater than acidity*	3.0 mg/l 2.0 mg/l 35 mg/l	6.0 mg/l 4.0 mg/l 70 mg/l greater than 6	7.0 mg/l 5.0 mg/l 90 mg/l .0; less than 9.0

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to: (1) surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas, active areas disturbed by coal refuse disposal activities and mined areas backfilled and revegetated; and (2) drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

California District Mining Office: 25 Technology Drive, Coal Center, PA 15423, (724) 769-1100.

30841316. Consol Pennsylvania Coal Company (P. O. Box J, 1525 Pleasant Grove Road, Claysville, PA 15323), to revise the permit for the Bailey Mine and Prep Plant in Richhill Township, **Greene County** and West Finley Township, **Washington County**, ACOE Pittsburgh District. (Wind Ridge, PA, N: 14.9 inches; W: 12.8 inches to N: 15.5 inches; W: 13.4 inches and N: 15.6 inches; W: 12.5 inches to N: 15.7 inches: W: 12.9 inches.

This is a Chapter 105 Water Obstruction and Encroachment permit application (Stream Module 15) and 401 Water Quality Certification request, if applicable, submitted as part of the mining permit revision application to authorize stream restoration in two portions of Enlow Fork of Wheeling Creek within State Game Land No. 302.

Written comments or objections on the request for Section 401 Water Quality Certification or to the issuance of the Water Obstruction and Encroachment Permit, (Stream Module 15) may be submitted to the Department of Environmental Protection within 30 days of the date of this notice to the District Mining Office previously identified. Comments should contain the name, address and telephone number of the person commenting, identification of the request for 401 Water Quality Certification and Chapter 105 permit application, (Stream Module 15) to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including relevant facts upon which they are based.

The Water Obstruction and Encroachment permit application is available for review at the California District Mining Office, by appointment, at the address listed previously.

Noncoal Applications Received

Effluent Limits

The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

Parameter	30-day Average	Daily Maximum	Instantaneous Maximum
suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity ¹ pH ¹		greater than 6	6.0; less than 9.0

¹ The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

PENNSYLVANIA BULLETIN, VOL. 35, NO. 31, JULY 30, 2005

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301-303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311-1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the FWPCA (33 U.S.C.A. § 1341(a)).

E47-081. PPL Montour Reserve, 700 Preserve Road, Danville PA 17821. Chillisquaque Creek Restoration Project, in Anthony Township, **Montour County**, ACOE Baltimore District (Washingtonville, PA Quadrangle N: 17 inches; W: 5.5 inches).

The applicant is proposing to restore 2,300 linear of Chillisquaque Creek (WWF) by means of natural channel design techniques. The restoration project intends to reduce the slope of the existing embankments, incorporate instream rock and log structures to direct high velocities away from the stream banks, narrow the bank-full channel to improve sediment transport and improve the pool-rifle sequence. The completed project is intended to improve stream stability, reduce near-bank velocities, reduce sediment supply and provide improved instream and riparian habitat.

ACTIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Location	Permit Authority	Application Type or Category
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501-508 and 701-704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101— 6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the Pennsylvania Bulletin a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the Pennsylvania Bulletin. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site

investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release

of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the

applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501-508 and 701-704(relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

Alternative Fuels Incentive Program Grant Opportunity

The Department of Environmental Protection (Department), Bureau of Energy, Innovations and Technology Deployment announces an opportunity to apply for grants under the Alternative Fuels Incentive Program to promote and expand the use of alternative transportation fuels and fuel systems such as compressed natural gas (CNG), liquefied natural gas, liquid propane gas, ethanol (E85), methanol, hydrogen, hydrogen/CNG blends such as Hythane[®], electricity, biofuels such as biodiesel, coal-derived liquid fuels and fuels derived from biological materials. Grant funds can be used to pay a portion of the added costs to purchase alternative fuel or hybrid vehicles, to convert an existing gasoline vehicle to operate on an alternative fuel, to purchase and install refueling or recharging equipment, to install idle reduction technologies on heavy duty trucks that use batteries or electricity during long periods of idling or to develop and demonstrate next phase advanced vehicle technologies such as hydrogen fuel cells.

Eligible applicants for incentive grants are schools and vocational school districts, municipal authorities, counties, cities, boroughs, incorporated towns, townships, county institution districts, nonprofit entities and corporations or partnerships incorporated or registered in this Commonwealth. Grants awarded in this opportunity will cover up to 50% of the applicants' eligible costs. Some applicants may be eligible for a higher percentage. To stimulate the use of biofuels such as biodiesel and E85, grants to cover the added cost to purchase these fuels will be available to tax-exempt entities such as school districts, local government agencies, transit authorities, colleges and universities or nonprofits.

Grant applications can be requested by contacting Cleo Arp, Department of Environmental Protection, Bureau of Energy, Innovations and Technology Deployment, P. O. Box 8772, Harrisburg, PA 17105-8772, (717) 772-8912, fax (717) 773-2703, carp@state.pa.us. Specify the project type when requesting an application package. The application package is available on the Department's website at www.dep.state.pa.us (DEP Keyword: Alternative Fuels). The deadline for submitting an application to the Department is 4 p.m. on October 3, 2005.

DEPARTMENT OF HEALTH

Availability of Draft Preventive Health and Health Services Block Grant Application for Federal Fiscal Year 2006; Public Hearing

The Department of Health (Department) is making copies available of the Draft Preventive Health and Health Services Block Grant Application (draft block grant application) for Federal Fiscal Year 2006 under 42 U.S.C.A. § 300w-4. This draft block grant application is the Commonwealth's draft request to the United States Department of Health and Human Services for block grant funding to address the Healthy People 2010 Health Status Objectives.

The draft block grant application describing proposed services, program goals and objectives and activities will be available on or after August 12, 2005, and can be obtained by calling Terry L. Walker, Administrative Officer, Bureau of Chronic Diseases and Injury Prevention at (717) 787-6214.

A public hearing will be conducted by the Department for the purpose of receiving testimony on the draft block grant application in accordance with 42 U.S.C.A. § 300w-4. Comments and suggestions from the public should relate to the priorities and program plans included in the draft block grant application.

The hearing will be held from 10 a.m. until 1 p.m. on September 15, 2005, in Conference Room 1000, Health and Welfare Building, 7th and Forster Streets, Harrisburg, PA. Persons wishing to testify are requested to preregister by contacting the Bureau of Chronic Diseases and Injury Prevention at (717) 787-6214. Registration will be accepted on the day of the hearing. Persons will be allotted a maximum of 15 minutes to testify. Persons intending to testify should provide the Department with two copies of their testimony at the time of the hearing.

Written comments will be accepted and should be sent by 4 p.m. on September 15, 2005, to the Bureau of Chronic Diseases and Injury Prevention, Room 1000, Health and Welfare Building, P. O. Box 90, Harrisburg, PA 17108.

Persons with a disability who require an alternative format (for example, large print, audio tape or Braille) should contact Terry L. Walker, Administrative Officer, Bureau of Chronic Diseases and Injury Prevention at (717) 787-6214 or for speech and/or hearing impaired persons, V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Services at (800) 654-5984.

This meeting is subject to cancellation without notice. CALVIN B. JOHNSON, M.D., M.P.H., Secretary

Laboratories Approved to Determine Analyses of Blood and/or Serum for Controlled Substances

The following laboratories are licensed by the Department of Health (Department) under The Clinical Laboratory Act (35 P.S. §§ 2151-2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood and/or serum for the determination of controlled substances. This approval is based on demonstrated proficiency in tests conducted by the Department's Bureau of Laboratories. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to chemical test to determine amount of alcohol) as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in blood and/or serum.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory analyses on blood and/or serum. Laboratories approved to perform screening analyses are designated on the approval list by an "S" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to screen both blood and serum would therefore have "SBSe" listed after their laboratory name. Laboratories approved to offer confirmatory analyses will be designated on the approval list by a "C" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to perform confirmatory analyses on both serum and blood would therefore have "CBSe" listed after the name of their laboratory.

Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic blood and/or serum analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the medicolegal purposes. They should also determine that the director of the facility is agreeable to performing analyses for forensic purposes. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

The name of a laboratory is sometimes changed but the location, personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the clinical laboratory permit number does not change. If questions arise about the identity of a laboratory due to a name change, the clinical laboratory permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name of the facility changed, the clinical laboratory permit numbers of the facilities are included in the lists of approved laboratories above the name of the laboratory at the time the list was prepared.

The list of approved laboratories will be revised approximately semiannually and published in the *Pennsylvania Bulletin*. Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

Persons with a disability who require an alternative format of this notice (for example, large print, audiotape or Braille) should contact Dr. Shoemaker at the previously referenced address or phone number. Persons who are speech or hearing impaired may use V/TT: (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

DEPARTMENT OF PUBLIC WELFARE

Pharmacy Services

By notice published at 35 Pa.B. 3268 (June 4, 2005), the Department of Public Welfare (Department) announced its intent to revise its payment methodology for brand name and generic drugs dispensed on and after July 1, 2005, and invited public comment to the proposed revisions. The purpose of this notice is to respond to the comments received and to advise providers of the changes made to the payment methodology since publication of the previous notice. The Department is also soliciting additional comment to the proposed methodology to determine the State maximum allowable cost (MAC) for multisource drugs dispensed on and after August 22, 2005. These revisions will affect providers enrolled in the Medical Assistance (MA) Program that dispense drugs in the fee-for-service delivery system.

Changes Effective August 10, 2005

Having considered the comments received in response to the notice published at 35 Pa.B. 3268, the Department will change its payment methodology for brand name and generic pharmaceuticals dispensed in the MA fee-forservice delivery system on and after August 10, 2005, as follows:

(1) For brand name drugs. The lower of the following:

(i)(A) The lowest wholesale acquisition cost (WAC) listed for the drug in available Nationally recognized pricing services plus 7%.

(B) If WAC data is not available from the Nationally recognized pricing services, the lowest average wholesale price (AWP) listed for the drug in available Nationally recognized pricing services minus 14%.

(C) If both WAC and AWP cost data are available for the drug, the lower of the two amounts.

(ii) The State MAC as set forth in 55 Pa. Code § 1121.56(d) (relating to drug cost determination).

(2) *For generic drugs*. The lower of the following:

(i)(A) The lowest WAC listed for the drug in available Nationally recognized pricing services plus 66%.

(B) If WAC data is not available from the Nationally recognized pricing services, the lowest AWP listed for the drug in available Nationally recognized pricing services minus 25%.

(C) If both WAC and AWP cost data are available for the drug, the lower of the two amounts.

(ii) The State maximum allowable cost as set forth in 55 Pa. Code § 1121.56(d).

Changes Proposed to Take Effect on August 22, 2005

The Department proposes to change its methodology for determining the State MAC for multisource pharmaceuticals dispensed in the fee-for-service delivery system on and after August 22, 2005, to the lower of the following:

(1) The upper payment limit established by the Centers for Medicare and Medicaid Services (CMS).

(2) Provided that the generic product is available at the price established by the Department from at least two wholesalers:

(i) If the generic product is available from more than one manufacturer, the base price of 150% of the lowest acquisition cost for the generic product, unless 150% of the lowest acquisition cost is not at least 120% of the second lowest acquisition cost, in which case the base price will be set at 120% of the second lowest acquisition cost.

(ii) If the generic product is available from only one manufacturer, the base price of 120% of the acquisition cost.

For both brand name and generic drugs, the current \$4 dispensing fee will not change.

The Nationally recognized pricing services include First Data Bank, Medi-Span and Micromedix. These services provide drug-specific information such as actual AWP and actual WAC pricing to the Department.

The Department has not changed its pharmacy payment rates since 1995. Since then, payment rates both Nationally and within this Commonwealth have continued to fall. The change in payment methodology for both brand name and generic drugs will align the Department's payment methodology with those of other thirdparty payors, including the Department's contracted managed care organizations.

The WAC is the cost at which a wholesaler purchases drugs from the manufacturer, as opposed to the AWP, which is the price assigned to a drug by its manufacturer. By basing the payment methodology on WAC, when available, rather than AWP, the Department expects that its drug pricing will more accurately reflect actual drug costs.

In a report issued in September 2002, the United States Office of Inspector General concluded that the cost to pharmacies of multisource drugs ranged from AWP minus 44.2% to AWP minus 72.1%. The revised method for determining the State MAC will likewise bring the Department's pricing methodology in line with actual drug costs.

Fiscal Impact

These changes, in total, are estimated to result in savings totaling \$57.608 million (\$26.492 million in State funds) in the MA Outpatient Program in Fiscal Year (FY) 2005-2006. Savings are estimated to be \$54.518 million (\$25.134 million in State funds) in FY 2006-2007. The State MAC list for multisource drugs proposed to be effective August 22, 2005, is estimated to save \$22.353 million (\$10.279 million in State Funds) in the MA Qutpatient Program in FY 2005-2006. Savings are estimated at \$21.838 million (\$10.068 million in State Funds) in FY 2006-2007.

Public Comment

A copy of this notice is available at the local county assistance office. Interested persons are invited to submit written comments regarding the proposed methodology to determine the State MAC for multisource drugs. Comments should be submitted to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Deputy Secretary's Office, Attention: Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120, dyearsley@state.pa.us. Comments received by August 5, 2005, will be considered before establishing the final methodology for determining the State MAC for multisource drugs is established. Persons with a disability who require an auxiliary aid or service may submit comments using the AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

> ESTELLE B. RICHMAN, Secretary

Fiscal Note: 14-NOT-436. No fiscal impact; (8) recommends adoption. As a result of this change, the General Fund will realize a savings of approximately \$26.49 million in 2005-2006 and \$25.13 million in 2006-2007.

DEPARTMENT OF TRANSPORTATION

Disadvantaged Business Enterprise Participation in Federal Aviation Administration Funded Contracts

Under the authority contained in the Transportation Act for the 21st Century, act of June 9, 1998, Pub. L. No 105-178, 112 Stat. 113 (23 U.S.C.A. § 101) and in keeping with the requirements of 49 CFR Part 26 (relating to participation by disadvantaged business enterprises in Department of Transportation financial assistance programs) the Department of Transportation (Department) provided public notice at 35 Pa.B. 3629 (June 25, 2005) of its overall goal for participation by Disadvantaged Business Enterprises (DBEs) in its Federally assisted contracts.

In accordance with the public participation requirement in 49 CFR 26.45 (relating to how do recipients set overall goals), the Department completed its consultation with minority, women, general contractor groups, community organizations and other officials expected to have information concerning the availability of disadvantaged and nondisadvantaged businesses and identification of barriers to contracting opportunities in an effort to establish a level playing field for the participation of DBEs.

The Department's methodology reflects an overall goal of 11.8% for DBE participation in Department contracts funded in whole or in part with Federal moneys.

Consistent with the public participation requirement for this process, the Department is making the methodology and goal available for inspection and comment for 45 days from the date of this notice. To review the DBE goal document, contact any of the following locations:

Finding

Armstrong County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration makes the following written finding:

The Department of Transportation (Department) is planning to repair a section of SR 1031 in Bogg's Township, Armstrong County, which sustained landslide damage. The project will require the acquisition of approximately 0.26 hectare (0.65 acre) from State Game Lands No. 287, which is a Section 2002 resource.

An Environmental Document and Section 2002 Evaluation have been prepared to evaluate the potential environmental impacts caused by the subject project.

It has been determined that there is no feasible and prudent alternative to the use of the resource and that necessary planning has been incorporated into the project to minimize harm to the resource.

Mitigation measures will be taken to minimize harm as stipulated in the Environmental Document and the Section 2002 Evaluation including providing replacement land for State Game Lands of equal or greater acreage.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize effects.

HOUSING FINANCE AGENCY

Request For Proposals; 2006 Tax Exempt Qualified Residential Rental Facilities Seeking Private Activity Bond Allocations

Private activity bonds to finance qualified residential rental facilities are subject to the limitations imposed through the Statewide unified private activity bond cap (volume cap). The Department of Community and Economic Development (Department) provides for the allocation of volume cap to issue private activity bonds among the various qualified issuers in this Commonwealth. Each year, the Department provides certain allocations to the Housing Finance Agency (Agency) for the issuance of private activity bonds for housing purposes.

The Agency encourages the development of quality affordable rental housing in this Commonwealth. This Request for Proposals (RFP) has been designed to establish a process for inviting, evaluating and selecting qualified tax exempt residential rental facilities seeking allocations of volume cap in 2006.

The Agency encourages applications from multifamily developments and will use its best efforts to provide volume cap to as many qualified properties as are reasonably feasible, subject to continued availability of volume cap for these purposes. Based upon current demand, the Agency expects that volume cap will be readily available for multifamily developments, and the Agency encourages applicants to seek volume cap financing for developments using 4% Low Income Housing Tax Credits rather than more competitive 9% Low Income Housing Tax Credits.

Program Deadlines

Time deadlines have been established for processing and reviewing applications. Developers are advised to evaluate their financing goals and development preparedness prior to applying for volume cap. Developments not meeting the minimum qualifications or otherwise failing to evidence an ability to meet each of the deadlines set forth as follows may be rejected at any time by the Agency.

The time frame for the process is as follows:

• July 14, 2005	The Agency's Board announces RFP/posts on website
• July 29, 2005	Applications and Letters of Instructions are available
• October 7, 2005	Applications, with all fees and exhibits, will be accepted
• November 17, 2006	Preclosing packets are due by 3 p.m. at the Agency
• December 13, 2006	Bond and development financings must be completed
• December 14, 2006	The Agency recaptures any preliminary volume cap not used

Applications will be accepted on a first come, first served basis on or after October 7, 2005, and may be accepted up to August 1, 2006. The Agency may extend this deadline based upon availability and the ability to process and meet appropriate time frames. Applicants are urged to submit complete applications as early as possible to ensure adequate processing time for consideration and to best ensure that all financing activity will be completed prior the aforementioned deadlines.

The Agency will attempt to complete its review of applications in a timely manner and to provide preliminary allocations within 3 months from the date of application. Once the Agency provides a preliminary allocation of volume cap for a housing facility, the developer and its bond issuer must issue bonds and begin construction within the time frames set forth previously. Failure to finalize all aspects of development and bond financings within this time period and to submit all required preclosing and closing documentation to the Agency will result in recapture of the volume cap. Developers and issuers are advised to review funding sources, commitments and financing structures to ensure they can meet these deadlines for year 2006 submission.

The Agency will not approve carryforwards of unused volume cap for local bond issuers. In addition, the Agency requires that an actual construction loan closing occur on or before the end of 2006. Development funding must be in place and actual construction or property rehabilitation contracts must be completed, without condition. Escrow or construction bridge loan closings will not satisfy the Agency's closing requirement.

Developments using Federal Low Income Housing Tax Credits (Tax Credits) in their financing plan must meet section 42 of the Internal Revenue Code of 1986 (Code), as amended, and the year 2006 PHFA Tax Credit Allocation Plan, Processing Guide and program submission deadlines. These documents are available on the Agency's website at www.phfa.org.

Request for Proposals Summary

This RFP announces the availability of year 2006 housing bond volume cap for the funding of multifamily developments on a first come, first served basis. Depending on the total volume cap available in this Commonwealth for housing bonds, the Agency may determine to fund the multifamily developments as meet the minimum qualifications set forth in this notice.

The Agency encourages applications from multifamily developers and will use its best efforts to fund as many qualified projects as are reasonably feasible. Sponsors are advised to submit applications early to maximize their potential to be funded out of available resources and to allow sufficient processing time.

Eligibility for tax exempt financing does not ensure qualification or eligibility under the year 2006 PHFA Tax Credit Allocation Plan for developments seeking Tax Credits for a portion of their financing. Allow adequate time for the review of the Tax Credit application and for any necessary processing by other State or Federal funding sources.

To qualify for private activity volume cap, residential rental facilities must meet all qualifications of the Code. Facilities may involve the rehabilitation of existing rental facilities, new construction of facilities, modernization of public housing facilities and construction of qualified assisted living housing. Evidence of qualification must be provided through a narrative description of the financing structure at the time of application and prior to closing, through the submission of a qualifying opinion from a bond counsel specializing in matters relating to private activity bond financings. The Agency reserves the right to reject any application not providing adequate assurance of any of these qualifications.

Application Requirements

The owner, general partner or sponsor and the proposed bond issuer must jointly submit a completed application (one original and two copies) to the Agency for consideration. Applications seeking volume cap in the amount of \$5 million or more may be required to utilize Agency bond financing for the development. (If Agency financing is requested, provide notice to the Agency prior to application submission.)

Each application for tax exempt issuing authority must be prepared in accordance with the 2006 Multifamily Housing Application Package and Guidelines and must include the following:

A. Brief Narrative Description of the Development

A brief narrative must outline how the development meets each of the following criteria:

• Qualification under the relevant bond financing sections of the Code.

• Qualification under section 42 (Tax Credits) of the Code, if applicable, and a supporting letter from counsel or an accountant experienced in the Low Income Housing Tax Credit Program.

• Qualification of the development team and the bond financing team.

• Evidence of financial feasibility of the facility and description of bond financing structure.

• Demonstrable evidence of commitment of all necessary financing sources.

• Ability to support a 30-year minimum affordability period for low income tenants or a demonstrable feasible plan to convert the development to affordable homeownership at the end of the qualified development period.

• A market study, in a form acceptable to the Agency, demonstrating an adequate market for the units without adversely affecting or impairing existing or proposed rental properties in the proposed development locale.

B. Letter Outlining Bond Financing Structure and Identifying Financing Team

A letter must be included with the application, addressed to the Agency, signed by both the owner, general partner or sponsor and the proposed bond issuer outlining the bond financing structure and identifying each of the following (with names, addresses and phone numbers): 1) the proposed bond issuer (if other than the Agency); 2) development ownership entity and principal partners or guarantors; 3) bond counsel to the issuer; 4) underwriters or placement agents, if any; 5) underwriter's counsel, if any; and 6) all other entities involved in the financing (that is, rating agencies, bond insurer, letter of credit bank and credit enhancement entity).

In the event the Agency is not the bond issuer, the bonds must receive an investment quality rating from one of the Nationally recognized rating agencies (or otherwise meet Agency criteria to ensure that the bonds are maximizing and reasonably achieving market opportunities).

In the event the Agency is the bond issuer, all the Agency financing and processing requirements must be met and a complete Agency financing application must be submitted with the tax exempt financing application. Contact the Agency for the applicable instructions.

C. Submission of Application Fees Identified in the Multifamily Housing Program Guidelines

Upon submission of an application, the applicant is required to pay one application fee equal to the lesser of \$25 per unit or \$1,000. This is a nonrefundable fee. For facilities intending to use and qualify for Tax Credits, the Agency will assess additional tax credit fees for allocation and compliance monitoring as identified in the 2006 Multifamily Housing Program Guidelines. Costs incurred in this application process are the sole responsibility of the applicant.

Minimum Criteria for Agency Review

For Agency consideration, developments must meet the minimum qualifications set forth as follows:

• May not apply for more volume cap than will reasonably support the financing structure. (The Agency may disallow applications for volume cap for construction financing if the applicant has another source of permanent financing, such as PennHOMES, which reduces the financing on a dollar for dollar basis. The disallowance is not intended to discourage leveraging HOPE VI and other public housing funds.)

• Evidence of qualification under the relevant bond financing sections of the Code.

• Evidence of qualification for Tax Credits, if applicable.

• Evidence of qualification of development team and bond financing team.

• Evidence of financial feasibility of facility and cost efficiency of bond financing structure—the Agency reserves the right to impose a cap on any volume cap requests.

• Evidence of commitment of all long-term development financing sources.

• Evidence of ability to support a 30-year minimum low income set aside period or a feasible financial conversion to affordable homeownership at the end of the qualified project period.

• Evidence and support of adequate market for the units.

• Demonstration that the development will not adversely impact other affordable housing properties in the identified market area.

• Evidence of accessibility or VisitAbility design features, or both, in the development to the greatest extent economically feasible.

Funding Priorities of the Program

The Agency will give priority to developments that best demonstrate the following characteristics:

• Ability to quickly and efficiently close their financing, begin and complete construction.

• Maximum efficiency of all financing resources and structure.

• Provision of quality housing within the community for persons with greatest need.

- Affordability of development's rents.
- Reasonableness of costs for financing structure.
- · Reasonableness of construction costs.
- Reasonableness of third-party fees.

The Agency may consider additional criteria it deems necessary in its discretion to achieve maximum benefit of the resources available to it for financing low and moderate residential rental facilities. Additional factors include, inter alia, consideration of geographic and regional representation and resource allocation, community and economic impact and achieving the most qualified developments with the scarce resources through the imposition of a maximum per development allocation of volume cap. The Agency may disallow developments with identity of interest between any of the principal parties.

The Agency reserves the right to discontinue, modify, suspend or amend this program at any time, with or without further notice to any interested party. Decisions of the Agency are subject to additional conditions, restrictions and requirements as determined by the Agency in its sole discretion. In addition, the Agency's selection of developments for possible allocation of volume cap is subject to final allocation approval by the Department. The Agency also reserves the right to impose any conditions on the financing that it deems reasonable in its discretion.

To provide a resource for households seeking affordable housing throughout this Commonwealth, the Agency will require developments financed with volume cap to participate in its interactive database for affordable housing units. Developments will be required to provide information including unit amenities, household size, household income and move-in information and any ongoing unit vacancies in a secure and timely manner to the Agency throughout the project affordability and compliance period.

Application Submission/Contact Information

Copies of this RFP and the required 2006 Multifamily Housing Application Package and Guidelines are available from the Development Division, Housing Finance Agency, 211 North Front Street, Harrisburg, PA 17101, (717) 780-3882, fax (717) 780-3905. Additional information or guidance may be published from time to time on the Agency's website at www.phfa.org.

Applications for year 2006 volume cap will be accepted on or after October 7, 2005. Fees, signed narratives and required exhibits and attachments must be included with the application. Applications must be signed and may not be submitted by means of facsimile or e-mail. Information submitted by the applicant or gathered by the Agency in the review of the application is the sole property of the Agency and may be made public.

The Agency is committed to a policy which prohibits discrimination against persons based upon race, religion, gender, national origin, handicap, familial status or age in its programs and employment.

Department of Revenue—Raffle Lottery Games; Regulation No. 15-428

On May 19, 2005, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Revenue (Department). This rulemaking adds 61 Pa. Code Chapter 874. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

This final-omitted regulation adds a chapter to establish procedures for creating and administering on-line raffle lottery games.

We have determined this regulation is consistent with the statutory authority of the Department (72 P. S. § 3761-303(a)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Pennsylvania Public Utility Commission—Changing Local Service Providers; Regulation No. 57-230

On March 18, 2004, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking adds Subchapter M to 52 Pa. Code Chapter 63. The proposed regulation was published in the April 3, 2004 *Pennsylvania Bulletin* with a

45-day public comment period. The final-form regulation was submitted to the Commission on May 23, 2005.

This regulation establishes procedures for local telephone service providers to follow when a customer switches to a new local service provider. This regulation will apply to all local service providers and network service providers operating in Pennsylvania.

We have determined this regulation is consistent with the statutory authority of the PUC (66 Pa.C.S.A. §§ 501(b) and 1501) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

State Registration Board for Professional Engineers, Land Surveyors and Geologists—Biennial Renewal Fees and Examination Fees; Regulation No. 16A-478

On December 22, 2004, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Registration Board for Professional Engineers, Land Surveyors and Geologists. This rulemaking amends 49 Pa. Code Section 37.17. The proposed regulation was published in the January 8, 2005 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on June 10, 2005.

This regulation raises the biennial license renewal fee from \$25 to \$50 for professional engineers, professional land surveyors and professional geologists effective for the October 1, 2005 license renewal. It also deletes the examination fees for all three license classes since these fees are now established by contract with independent testing organizations and are paid directly to the testing organizations.

We have determined this regulation is consistent with the statutory authority of the State Registration Board for Professional Engineers, Land Surveyors and Geologists (63 P. S. §§ 151(e) and 156(a)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Approval Order

Public Meeting held July 14, 2005

State Real Estate Commission—Reciprocal License; Regulation No. 16A-5610

On August 23, 2004, the Independent Regulatory Review Commission (Commission) received this proposed

regulation from the State Real Estate Commission. This rulemaking amends 49 Pa. Code Chapter 35. The proposed regulation was published in the September 4, 2004 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on June 10, 2005.

This final-form regulation implements Act 58 of 2003 which gave the State Real Estate Commission the authority to enter into reciprocal licensure agreements with other states. Any person who holds a current real estate license in a state whose licensure standards are substantially comparable to Pennsylvania's or is from a state that has agreed to grant licensure to Pennsylvania applicants without restriction is eligible for a reciprocal license.

We have determined this regulation is consistent with the statutory authority of the State Real Estate Commission (63 P. S. § 455.404) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party. In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend an administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Kathryn Culbertson, Agency Coordinator, (717) 705-4194.

Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Insurance Commissioner (Commissioner) will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend an administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Kathryn Culbertson, Agency Coordinator, (717) 705-4194.

MUNICIPAL POLICE OFFICERS' EDUCATION AND TRAINING COMMISSION

Standards for Visual Acuity

Under 37 Pa. Code § 203.11(a)(6)(v) (relating to qualifications), persons to be employed as municipal police officers in this Commonwealth must have visual acuity of at least 20/70 uncorrected in the stronger eye, correctable to at least 20/20, and at least 20/200 uncorrected in the weaker eye, correctable to at least 20/40. In addition, they must have normal depth and color perception and be free of any other significant visual abnormality. Section 203.11(a)(6)(v) was suspended pending resolution of a lawsuit filed against the State Police, *Wilson v. Pennsylvania State Police, et al.*, No. 94-6547 U. S. District Court—Eastern District of Pennsylvania. See 28 Pa.B. 2924 (June 27, 1998). That lawsuit has concluded with a court order granting the defendant's motion for summary judgment. Consequently, the suspension of 37 Pa. Code § 203.11(a)(6)(v) is lifted and its requirements reinstated effective immediately.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Default Orders

Public Meeting held July 14, 2005

Commissioners Present: Wendell F. Holland, Chairperson; James H. Cawley, Vice Chairperson; Bill Shane; Kim Pizzingrilli; Terrance J. Fitzpatrick

Pennsylvania Public Utility Commission Law Bureau Prosecutory Staff v. Wally Gas Co. (2004.0267.00); C-20044078; A-123350

Default Order

By the Commission:

On December 23, 2004, the Law Bureau Prosecutory Staff filed a Formal Complaint against Wally Gas Co. (the Respondent), a gas utility certificated at A-123350. In the Complaint, Prosecutory Staff alleged that the Commission sent by certified mail prior written notices to the Respondent that pursuant to 66 Pa.C.S. § 504 its 2003 Annual Report was due. The Complaint charged that the Respondent violated 66 Pa.C.S. § 504 by failing to file its 2003 Annual Report. The Complaint requested that the Commission issue an order imposing a civil penalty in the amount of \$1,000 for failure to file its 2003 Annual Report.

According to the United States Postal Service return receipt, the Complaint was served on December 24, 2004. To date, more than 20 days later, no answer has been filed to the Complaint and the 2003 Annual Report has not been filed.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506, and 3301. Based on Respondent's failure to file an answer to the Complaint or file its 2003 Annual Report, we conclude that a civil penalty in the amount of \$1,000 is in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of further penalties under Section 3301, if Respondent seeks relief from this Default Order; *Therefore*,

It Is Ordered That:

1. The allegations in the Law Bureau Prosecutory Staff's Complaint are deemed admitted and the Complaint is thereby sustained.

2. Wally Gas Co. is hereby directed to file its 2003 Annual Report and pay a civil penalty in the amount of \$1,000 within 30 days of the entry date of this order.

3. The Secretary serve a copy of this Default Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Office of Trial Staff, and the Attorney General's Bureau of Consumer Protection, and also cause a copy of this Default Order to be published in the *Pennsylvania Bulletin* with a 20-day comment period.

Pennsylvania Public Utility Commission Law Bureau Prosecutory Staff v. Conneaut Lake Park, Inc. (2004.0267.00); C-20044104; A-210096

Default Order

On December 28, 2004, the Law Bureau Prosecutory Staff filed a Formal Complaint against Conneaut Lake Park, Inc. (the Respondent), a water utility certificated at A-210096. In the Complaint, Prosecutory Staff alleged that the Commission sent by certified mail prior written notices to the Respondent that pursuant to 66 Pa.C.S. § 504 its 2003 Annual Report was due. The Complaint charged that the Respondent violated 66 Pa.C.S. § 504 by failing to file its 2003 Annual Report. The Complaint requested that the Commission issue an order imposing a civil penalty in the amount of \$1,000 for failure to file its 2003 Annual Report.

According to the United States Postal Service return receipt, the Complaint was served on December 31, 2004. To date, more than 20 days later, no answer has been filed to the Complaint and the 2003 Annual Report has not been filed.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506, and 3301. Based on Respondent's failure to file an answer to the Complaint or file its 2003 Annual Report, we conclude that a civil penalty in the amount of \$1,000 is in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of further penalties under Section 3301, if Respondent seeks relief from this Default Order; *Therefore*,

It Is Ordered That:

By the Commission:

1. The allegations in the Law Bureau Prosecutory Staff's Complaint are deemed admitted and the Complaint is thereby sustained.

2. Conneaut Lake Park, Inc. is hereby directed to file its 2003 Annual Report and pay a civil penalty in the amount of \$1,000 within 30 days of the entry date of this order.

3. The Secretary serve a copy of this Default Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Office of Trial Staff, and the Attorney General's Bureau of Consumer Protection, and also cause a copy of this Default Order to be published in the *Pennsylvania Bulletin* with a 20-day comment period.

Implementation of the Alternative Energy Portfolio Standards Act of 2004; Doc. No. M-00051865

Public Meeting held July 14, 2005

Commissioners Present: Wendell F. Holland, Chairperson; James H. Cawley, Vice-Chairperson; Bill Shane; Kim Pizzingrilli; Terrance J. Fitzpatrick

Implementation Order II

By the Commission:

The Commission has been charged by the Pennsylvania General Assembly ("General Assembly") with carrying out the provisions of the Alternative Energy Portfolio Standards Act of 2004 (the "Act" or "Act 213"). 73 P.S. §§ 1648.1—1648.8. Accordingly, the Commission has opened a proceeding at this docket to implement the provisions of the Act. The Commission recently issued an order that established a timetable for compliance with the provisions of Act 213 and referred certain matters to the Alternative Energy Portfolio Standards Working Group ("AEPS WG") for consideration. *Implementation of the Alternative Energy Portfolio Standards Act of 2004*, Docket No. M-00051865 (Order entered March 25, 2005) ("Implementation Order"). In this second implementation order, we address comments filed in response to the Implementation Order, solicit comments on a number of other issues, and refer one new matter to the AEPS WG for consideration.

Background and History of this Proceeding

The Act was signed into law on November 30, 2004, and took effect on February 28, 2005. The Commission and the Pennsylvania Department of Environmental Protection ("DEP") hosted a technical conference on January 19, 2005, in order to provide a forum to discuss the implementation of the Act. Interested parties were given the opportunity to file comments and reply comments on various aspects of the Act's implementation at that time. The Commission then convened the first meeting of the AEPS WG on March 3, 2005. The AEPS WG was intended to serve as a forum in which various issues relevant to the implementation of the Act could be addressed, and if possible, consensus recommendations for necessary rules and regulations could be developed.

The AEPS WG initially focused on developing standards for the participation of demand side management resources in this market. The Commission released its initial proposal for these standards at the last Public Meeting. *Implementation of the Alternative Energy Portfolio Standards Act of 2004: Standards for the Participation of Demand Side Management Resources*, Docket No. M-00051865 (Order entered June 24, 2005). Interested parties have sixty days in which to file comments on this proposal. The Commission will issue final standards later this year after the conclusion of this public comment period.

The AEPS WG is also working to develop net metering and interconnection rules to enable distributed generation resources to participate in this new market. The AEPS WG has solicited comments on net metering and interconnection issues and has met several times to discuss these matters. The Commission will issue proposed rulemaking orders for net metering and interconnection standards by November 30, 2005. 73 P. S. § 1648.5.

Discussion

In this section, the Commission will first identify certain appropriate revisions to the Implementation Order. We will then review a series of legal and policy questions presented by Act 213 that have been identified by the Commission, DEP and the participants in this proceeding as requiring resolution. Some of these questions were previously addressed in comments filed at the time of the January 19, 2005, technical conference. The Commission recognizes that, given the relatively short notice afforded in advance of the technical conference, all interested parties may not have had the chance to participate or sufficient time to fully address various issues. Accordingly, we will use this Order to offer interested parties another opportunity to comment on certain Act 213 implementation issues. We will also refer one new matter to the AEPS WG for consideration and recommendations for rules necessary to implement the provisions of the Act.

A. Amendments to the March 23, 2005 Implementation Order

1. Act 213 Compliance Schedule

The Citizens Electric Company ("Citizens") and the Wellsboro Electric Company ("Wellsboro") filed comments regarding their compliance exemption period. In the Implementation Order the Commission had determined that these electric distribution companies' ("EDCs") exemptions would expire on February 28, 2006. This date was derived from the most recent approval of provider of last resort rates ("POLR") for these two EDCs from March 1, 2005 through February 28, 2006. *Citizens Electric Company Generation Supply Service Rates Effective March 1, 2005; Wellsboro Electric Company Generation Supply Service Rates Effective March 1, 2005; Wellsboro Electric Company Generation Supply Service Rates Effective March 1, 2005; Docket Nos. R-00050266, R-00050278 (Final Secretarial Letters entered March 3, 2005). Act 213 exempts EDCs from compliance for the duration of either their approved generation rate cap or a POLR plan approved prior to February 28, 2006. 73 P. S. § 1648.2.*

Under this interpretation of the Act, Citizens and Wellsboro would need to begin compliance with Act 213 on February 28, 2007. Citizens and Wellsboro note that while specific rates have been set only through February 28, 2006, they have entered into full requirements contracts with wholesale suppliers to satisfy their POLR obligations that are in effect through December 31, 2007. Petition of Citizens' Electric Company of Lewisburg, Inc., to Modify Electric Restructuring Settlement and Proposed Provider of Last Resort Supply Offering, Docket No. R-00016999 (Order entered June 13, 2002); Citizens' Electric Company Generation Supply Rate Effective March 1, 2004, Docket No. R-00049161 (Final Secretarial Letter entered March 5, 2004); Pennsylvania Public Utility Commission v. Wellsboro Electric Company, Docket No. R-00027909 (Order entered December 19, 2002); Pennsylvania Public Utility Commission v. Wellsboro Electric Company, Docket No. R-00027380 (Order entered December 19, 2002). Citizens and Wellsboro therefore ask that their compliance exemption period be extended to December 31, 2007. No other party has objected to this request in the reply comments filed with the Commission in response to the Implementation Order.

The Commission finds that the public interest is served by a broader reading of the Act than its initial interpretation on this point. We recognize that EDCs may face significant challenges in participating in this new alternative energy market. Citizens, Wellsboro and their respective customers may therefore benefit from additional time to develop strategies to meet the compliance obligations. Accordingly, we will amend the Implementation Order to find that the compliance exemption period for the Citizens and Wellsboro service territories runs through December 31, 2007. Beginning January 1, 2008, the Tier I and Tier II requirements in effect at that time will apply to all sales of electricity in these two service territories.

2. Banking of Alternative Energy Credits

The Commission received a number of comments and reply comments that addressed the banking of alternative energy credits during the cost-recovery period. Act 213 provides, relevantly:

An electric distribution company or an electric generation supplier with sales that are exempted under subsection (d) may bank credits for retail sales of electricity generated from Tier I and Tier II sources made prior to the end of the cost-recovery period and after the effective date of this act. Bankable credits shall be limited to credits associated with electricity sold from Tier I and Tier II sources during a reporting year which exceeds the volume of sales from such sources by an electric distribution company or electric generation supplier during the 12-month period immediately preceding the effective date of this act. All credits banked under this subsection shall be available for compliance with subsections (b) and (c) for no more than two reporting years following the conclusion of the cost-recovery period.

73 P. S. § 1648.3(e)(7) (Emphasis added)

The statutory reporting period is defined as the 12 month period from June 1 through May 31. 73 P.S. § 1648.2. The banking of credits is therefore complicated by the fact that the cost-recovery periods for the EDCs are set to expire on December 31 of various calendar years as identified in the Implementation Order. The Commission has interpreted the Act to find that the first reporting year in which banked credits may be used is the same reporting year in which these cost-recovery periods expire. Credits banked during the cost-recovery periods would therefore only be available for compliance purposes for a seventeen month period.

Various parties have asked the Commission to reconsider this interpretation. Specifically, they believe that the intent of the Act was to provide for a full two years in which to use any credits banked during the cost-recovery period. By providing for a full two year period the Commission will be encouraging greater development of the alternative energy market in Pennsylvania and allowing for greater flexibility in meeting the compliance obligation. This view was shared by multiple parties, including the Energy Association of Pennsylvania ("Energy Association"), DEP, and various EDCs.

Given the plain language of the Act regarding the use of "two reporting years," the Commission cannot support the application of banked credits for a consecutive twenty four month period commencing with the expiration of an exemption period. Such an interpretation would result in banked credits being used in three different reporting years, which the express language of the Act prohibits. However, the Commission finds merit in a proposal suggested by the Energy Association in its comments to the Implementation Order.

Specifically, the Energy Association proposes letting an EDC or electric generation supplier ("EGS") choose which two reporting years it intends to use any credits banked during the cost-recovery period. Under this proposal, an EDC could therefore delay the use of these credits to the first full reporting year after its exemption period expires. This would provide for a full two years in which to use credits, without violating the prohibition on using credits

in more than two reporting periods. No party objected to this proposal in the reply comments filed with the Commission.

We find that such an interpretation comports with the intent of the General Assembly. Therefore, we will allow EDCs and EGSs to defer the application of banked energy credits until the first two full, consecutive, reporting years after the conclusion of their respective exemption periods. For example, PECO's exemption period expires on December 31, 2010, during Year 5 of the compliance schedule. See Implementation Order. Under our initial interpretation of the Act, PECO would have had to use any banked credits during Years 5 or 6. With our revised interpretation, PECO may now elect to use any banked credits for up to two consecutive compliance years within Years 5, 6 and 7. We find that this revision serves the public interest by providing EDCs and EGSs with more incentives to take advantage of reasonable procurement opportunities that might present themselves during their respective exemption periods.

We wish to emphasize though that we will not require EDCs or EGSs to defer the application of banked credits until after the completion of a partial compliance year. For example, if PECO only banked enough credits to satisfy its compliance obligation for seventeen months or less, it could choose to apply them towards its obligations in Years 5 and 6. As our discussion indicates, we are also placing some limitations on this deferral option. First, banked credits must be used in two consecutive compliance periods. Second, application cannot be deferred beyond the first reporting year in which an EDC or EGS must meet the compliance thresholds for all twelve months. We interpret the Act as intending that banked credits be used soon after an exemption period expires. Therefore, in our example PECO may not delay the application of banked credits to Year 8 of the compliance schedule.

B. General Compliance and Cost-Recovery

1. Cost-Recovery Process for Act 213 Compliance

EDCs may fully recover the reasonable and prudently incurred costs of complying with Act 213 from ratepayers. This includes the costs for purchases of alternative energy or alternative energy credits, payments to credit program administrators, and costs levied by regional transmission organizations to ensure that alternative resources are reliable. 73 P.S. § 1648.3(a)(3). These costs are to be recovered through an automatic adjustment clause pursuant to 66 Pa.C.S. § 1307, and are to be considered a cost of generation supply under 66 Pa.C.S. § 2807. Section 2807 of the Electricity Generation Customer Choice and Competition Act ("Competition Act"), 66 Pa.C.S. §§ 2801-2812, addresses the obligations of EDCs to retail customers after the conclusion of the transition period. This role has commonly been described as the provider of last resort." Most importantly, Section 2807(e)(3) identifies a standard governing the acquisition of electric generation supply for those retail customers not receiving this service from a competitive supplier. Specifically, Section 2807(e)(3) provides that an EDC shall acquire generation supply at "prevailing market prices to serve that customer and shall recover fully all reasonable costs" of providing this service. 66 Pa.C.S. § 2807(e)(3).

The Commission issued a Notice of Proposed Rulemaking in late 2004 regarding the provision of generation service by EDCs after the conclusion of the transition period, which we have identified as "default service." *Rulemaking Re Electric Distribution Companies' Obliga*-

tion to Serve Retail Customers at the Conclusion of the Transition Period Pursuant to 66 Pa.C.S. § 2807(e)(2); Docket No. L-00040169 (Order entered December 16, 2004) ("Default Service Order"). Given that Act 213 identifies its compliance costs as generation supply costs within the meaning of Section 2807, the Commission concluded that alternative energy must be procured con-sistent with the legal standard found at Section 2807(e)(3). However, the Commission understood that this rulemaking would need to include special provisions for alternative energy cost-recovery, consistent with the standard identified at Section 1648.3(a)(3). As Act 213 had just been signed into law on November 30, 2004, the Commission briefly noted in the Default Service Order and the proposed regulations that an EDC must comply with the cost-recovery provisions of Act 213 in procuring alternative energy for default service customers. The Commission recognized that rules for alternative energy procurement and cost-recovery would have to be more fully developed in the default service final rulemaking order.

The Default Service Order was published in the *Penn-sylvania Bulletin* on February 28, 2005. The public comment period concluded on June 27, 2005. The Independent Regulatory Review Commission ("IRRC") will provide its comments to the Commission by July 27, 2005. After receiving IRRC's comments, the Commission's next step will be to prepare the final default service rulemaking order.

We note that the Commission convened a POLR Roundtable in early 2004 to provide a forum for interested stakeholders to offer input on the development of default service rules. The Commission found this process to be very helpful in its development of proposed default service regulations. The Commission wishes to extend to interested stakeholders the same opportunity for participation in the development of alternative energy procurement and cost-recovery rules in the context of default service. Therefore, we will refer these issues to the AEPS WG for study. After the AEPS WG completes its review of these issues, the Commission will issue a final default service rulemaking order. The Commission will announce at a later date a schedule for the AEPS WG's consideration of these matters.

2. Alternative Energy Credits Program

Act 213 authorizes the Commission to establish an alternative energy credits trading program and retain a program administrator:

The commission shall establish an alternative energy credits program as needed to implement this act. This provision of services pursuant to this section shall be exempt from the competitive procurement procedures of 62 Pa.C.S. (relating to procurement).

73 P. S. § 1648.3(e)(1)

The commission shall approve an independent entity to serve as the alternative energy credits program administrator. The administrator shall have those powers and duties assigned by commission regulations.

73 P. S. § 1648.3(e)(2). These powers include the administration of an alternative energy credits certification, tracking and reporting program that includes a process for qualifying alternative energy systems and determining the manner of credit creation, accounting, and transfer. 73 P. S. § 1648.3(e)(2)(i). The Act identifies the alternative energy credit as the unit of measure to be used by this program in tracking compliance, and states that the credit may be separable from the energy commodity:

An electric distribution company of electric generation supplier shall comply with the applicable requirements of this section by purchasing sufficient alternative energy credits and submitting documentation of compliance to the program administrator.

73 P. S. § 1648.3(e)(4)(i)

For purposes of this subsection, one alternative energy credit shall represent one megawatt hour of qualified alternative electric generation, whether selfgenerated, purchased along with the electric commodity or separately through a tradable instrument and otherwise meeting the requirements of a commission regulations and the program administrator.

73 P. S. § 1648.3(e)(4)(ii)

Section 1648.3(e) also includes provisions addressing the banking of alternative energy credits, both during and after the compliance exemption period, the development and use of a credits registry, and a mechanism for recovering the costs of the alternative energy credits program. The Commission recognizes that the development of rules to implement the above cited provisions represents one of the more technically complex aspects of the implementation of Act 213. As we alluded to in the Implementation Order, we believe all these issues warrant close examination by Commission staff and interested stakeholders. The Commission will announce its intentions to the AEPS WG and other interested parties in the near future on the process for developing and implementing these rules.

3. Force Majeure

Act 213 provides that the Commission, upon its own initiative or upon the request of an EDC or EGS, can find that force majeure exists that would allow modification of the compliance obligation within a particular reporting year. This will occur if alternative energy resources are not "reasonably available in the marketplace in sufficient quantities" for EDCs and EGSs to meet their obligations. 73 P. S. § 1648.2. Such determinations shall be made by the Commission within sixty days of a request by an EDC or EGS. Obstacles to compliance over longer terms may warrant a recommendation to the General Assembly that the obligation be eliminated. In comments previously filed at this docket, several parties offered suggestions on the process to be used and the standards to be applied in a force majeure proceeding. The Commission continues to closely study this issue, and will provide guidance to stakeholders and other interested parties in the near future on its plans for developing and implementing rules for a force majeure mechanism.

4. Alternative Compliance Payments

Section 1648.3(f)(2) of the Act provides that EDCs and EGSs who fail to meet the Tier I and Tier II obligations for a given reporting year shall be assessed an "alternative compliance payment." Payments are generally set at \$45 times the number of additional credits needed for compliance. 73 P. S. § 1648.3(f)(3). The solar photovoltaic compliance payment is set at 200% of the average market price of these credits sold during the reporting year in the applicable regional transmission organization service territory. 73 P. S. § 1648.3(f)(4). These payments are to be paid into a special fund of the Pennsylvania Sustainable Energy Board and made available to the regional sustainable energy funds for projects that would increase the quantity of electricity generated from alternative energy sources. 73 P. S. § 1648.3(g).

Section 1648.3(f) is silent on whether the costs of alternative compliance payments may be recovered from ratepayers. Various parties have argued for and against the recovery of these payments in comments previously filed at this docket. Those opposed argue that the recovery of these costs would discourage the acquisition of alternative energy resources, particularly when the cost of these resources approached the \$45 per credit price. In such a situation it would be easier for an EDC to make an alternative compliance payment and recover the associated costs through an automatic adjustment clause. The policy objectives of the Act that have been identified by interested stakeholders, including economic development and emissions reductions, would clearly be frustrated by such conduct.

Those in favor of allowing some degree of recovery point to the financial exposure of EDCs from very high alternative energy costs. If alternative energy credits were not available in sufficient quantities to meet the compliance obligation, EDCs could suffer significant financial harm from having to make these payments. This harm could have some impact on the reliable provision of utility service to retail customers. The OCA noted in its comments the potentially negative impact on ratepayers from high prices for credits. For example, the public interest might be better served by allowing an EDC to make an alternative compliance payment of \$45 per credit, which could be recovered, rather than requiring ratepayers to cover the costs of alternative energy credits acquired on the market at \$60 per credit.

The Act identifies the categories of costs recoverable from ratepayers in Section 1648.3(a)(3). During the compliance exemption period, an EDC may recover all costs for:

(i) the purchase of electricity generated from alternative energy sources, including the costs of the regional transmission organization, in excess of the regional transmission organization real-time locational marginal pricing, or its successor, at the delivery point of the alternative energy source for the electrical production of the alternative energy sources; and

(ii) payments for alternative energy credits,

in both cases that are voluntarily acquired by an electric distribution company during the cost recovery period on behalf of its customers shall be deferred as a regulatory asset by the electric distribution company and fully recovered, with a return on the unamortized balance, pursuant to an automatic energy adjustment clause under 66 Pa.C.S. § 1307 (relating to sliding scale of rates; adjustments) as a cost of generation supply under 66 Pa.C.S. § 2807 (relating to duties of electric distribution companies), in the first year after the expiration of its cost recovery period.

After the exemption period ends, the following standard applies:

After the cost recovery period, any direct or indirect costs for the purchase by electric distribution of resources to comply with this section, including, but not limited to, the purchase of electricity generated from alternative energy sources, payments for alternative energy credits, cost of credits banked, payments to any third party administrators for performance under this act and costs levied by a regional transmission organization to ensure that alternative energy sources are reliable, shall be recovered on a full and current basis pursuant to an automatic energy adjustment clause under 66 Pa.C.S. § 1307 as a cost of generation supply under 66 Pa.C.S. § 2807.

73 P. S. § 1648.3(a)(3). Alternative compliance payments are not included in the list of cost categories in Section 1648.3(a)(3). They are not the purchase of alternative energy, the purchase of alternative energy credits, costs of credits banked, payments to a credit program administrator for performance, or a cost levied by a regional transmission organization. The alternative compliance payment appears to be intended to serve as a penalty provision that will encourage compliance with the Act.

The Commission is sensitive to the concerns raised by those who have advocated for the recovery of alternative compliance payments from ratepayers. The Commission finds that these concerns are best addressed through the force majeure mechanism. As suggested earlier in this Order, the Commission will continue to study the application of the force majeure provision. We tentatively find that the force majeure mechanism will serve to provide adequate financial protection to EDCs and that alternative compliance payments are therefore not recoverable from ratepayers.

C. Miscellaneous Issues for Public Comment

1. Voluntary Alternative Energy Purchases

A number of participants in this implementation proceeding have expressed concern regarding the impact of Act 213 on the voluntary alternative energy market. Since the passage of the Competition Act, some retail customers have chosen to purchase electricity generated from renewable sources. The price of this energy typically included a certain premium reflecting the incremental cost of the renewable attributes of this energy. A prime example of this is the "PECO Wind" option offered by the PECO Energy Company to those retail customers not already taking generation service from a competitive supplier.

Participants in this market fear that the implementation of Act 213 may create disincentives that lead to the elimination of these voluntary renewable purchases by retail customers. They assert that if these voluntary purchases are counted towards an EDC's compliance threshold, and the Act 213 cost-recovery provisions are then applied, that retail customers will cease to make these purchases. Essentially, these retail customers would be paying twice for these alternative energy attributes. Once through the premium on this energy, and a second time when the costs associated with this energy are recovered from them and other ratepayers through the automatic adjustment clause.

This issue has been addressed already in several other jurisdictions. For example, the Maryland Public Service Commission's proposed renewable portfolio standard regulations would exclude from an EDC's compliance calculation sales of energy to retail customers that are marketed as having renewable characteristics. The State of Rhode Island recently adopted a "Renewable Energy Standard" that excludes voluntary purchases from the compliance calculation of affected entities. Community Energy, Inc. proposed the following language to resolve this issue in comments previously filed at this docket:

Any and all Alternative Energy Credits sold at retail or used to track or supply a voluntary purchase of electricity by a retail customer outside of the requirements of the AEPS shall not be sold, retired, claimed or represented as compliance under the AEPS. Alternative Energy Credits used to support a sale of electricity with a claim of alternative energy generation shall be tracked and counted separately from Alternative Energy Credits used to support compliance under the AEPS.

The Commission finds that the preservation of the market for voluntary renewable energy purchases serves the public interest by effectuating the provisions of both Act 213 and the Competition Act as it relates to customer choice. Accordingly, we welcome comments on the approaches taken by Maryland and Rhode Island, the comments of Community Energy, and any other suggestions for resolving this question.

Those filing comments should be cognizant of the different treatment afforded to EDCs and EGSs under the Act. Specifically, EGSs are not afforded cost-recovery for Act 213 compliance through a regulatory process. This fact would appear to dictate that at least some portion of the voluntary alternative energy purchases made by retail customers from an EGS should be counted towards that EGS's compliance obligation.

2. Solar thermal energy

"Solar thermal energy" is included among the "alternative energy sources" identified in the Act. 73 P. S. § 1648.2. However, the Act does not assign solar thermal energy to either the Tier I or Tier II alternative energy source definition. We intend to remove any uncertainty on this point by expressly finding that solar thermal energy belongs to the Tier I category. We note that "solar photovoltaic energy" has been assigned to Tier I, and that solar thermal energy, a similar resource, is therefore most appropriately assigned to Tier I as well.

D. Future Organization of this Implementation Proceeding

As is readily apparent, this is a large and complex implementation proceeding. The Commission has already issued several Orders and requested a number of comments at this public docket. The Commission will be issuing additional orders, and requesting additional comments in the future. Accordingly, we find that the assignment of certain subjects to specific subdockets would help in the organization and efficient administration of this implementation proceeding. The Commission will inform the participants in this implementation proceeding when these subdockets have been created and are ready for use; *Therefore*,

It Is Ordered That:

1. Interested persons may submit an original and 15 copies of written comments on the issues discussed in this Order to the Office of the Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265, within 60 days from the date this Order is published in the *Pennsylvania Bulletin*. A copy of all filed comments should also be sent through electronic mail to Carrie Beale and Shane Rooney at cbeale@state.pa.us and srooney@state.pa.us.

2. This Order be published in the *Pennsylvania Bulletin* and served on the Office of Consumer Advocate, Office of Small Business Advocate, Office of Trial Staff, the Pennsylvania Department of Environmental Protection, all jurisdictional electric distribution companies, and all licensed electric generation suppliers.

Complaint

Pennsylvania Public Utility Commission, Bureau of Transportation and Safety v. Chemlogic Transportation Services LLC, 8 Reservoir Circle, Suite 204, Baltimore, MD 21208; Doc. No. A-00119107C

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That Chemlogic Transportation Services, LLC, respondent, maintains its principal place of business at 6 Reservoir Circle, Suite 204, Baltimore, MD 21208.

2. That respondent was issued a certificate of public convenience by this Commission on February 20, 2003, at Application Docket No. A-00119107, F.2.

3. That respondent, by Commission Secretarial letter dated December 4, 2002, was informed to submit a copy of a current satisfactory safety rating from the U. S. Department of Transportation or another state, within 180 days, or complete a safety fitness review by a Commission enforcement officer. Respondent failed to submit its company to a safety fitness review. A satisfactory safety fitness rating must be achieved by respondent in order to maintain a certificate of public convenience to operate as a common carrier of property between points in the Commonwealth of Pennsylvania.

4. That respondent, by failing to obey and comply with a Commission Secretarial letter directing respondent to submit its company to a safety fitness review, violated 66 Pa.C.S. § 501(c) and, for failure to maintain adequate, efficient and safe service and facilities, violated 66 Pa.C.S. § 1501.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission revoke Chemlogic Transportation Services, LLC's certificate of public convenience at A-00119107, F.2.

Respectfully submitted,

Wendy J. Keezel, Chief of Enforcement Motor Carrier Services & Enforcement Division Bureau of Transportation and Safety P. O. Box 3265 Harrisburg, PA 17105-3265

VERIFICATION

I, Wendy J. Keezel, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at any hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.
