READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Amendment of Rule 220.1 Governing Voir Dire; No. 490 Civil Procedural Rules; Doc. No. 5

Order

Per Curiam:

And Now, this 11th day of March, 2008, Pennsylvania Rule of Civil Procedure 220.1 is amended to read as follows.

This Order shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective June 1, 2008.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 200. BUSINESS OF COURTS

Rule 220.1. Voir Dire.

(a) Voir dire shall be conducted to provide the opportunity to obtain at a minimum a full description of the following information, where relevant, concerning the prospective jurors and their households:

* * * * *

(16) Such other pertinent information as may be appropriate to the particular case to achieve a competent, fair and impartial jury.

Official Note: For example, under presently prevailing law as established by the Superior Court, voir dire should have been allowed with respect to the effect of pre-trial publicity on prospective jurors' "attitudes regarding medical malpractice and tort reform." *Capoferri v. Children's Hosp. of Phila.*, 893 A.2d 133 (Pa. Super. 2006) (en banc).

* * * * *

Explanatory Comment

Rule 220.1 governing voir dire has been amended with the addition of a note to subdivision (a)(16). Subdivision (a) lists the information to which parties are entitled to obtain during voir dire, concluding with a catch-all provision in subparagraph (16). The note cites *Capoferri v. Children's Hospital of Philadelphia*, 893 A.2d 133 (Pa. Super. 2006) (en banc), as an example of the type of information that may be sought from potential jurors pursuant to subparagraph (16) to achieve a competent, fair and impartial jury in a particular case.

Title 237—JUVENILE RULES

PART I. RULES

[237 PA. CODE CHS. 1 AND 11]

Proposed Modifications of Rules 121 and 1121

The Juvenile Court Procedural Rules Committee is planning to recommend to the Supreme Court of Pennsylvania that the modifications of Rules 121 and 1121 be adopted and prescribed. The proposed modified Rules provide that a local rule shall be submitted to the Juvenile Court Procedural Rules Committee to ensure that there are no inconsistencies with the Statewide rules prior to adoption of the local rule and a reorganization of the rule to emphasize the intent of this proposed change. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the intent of the rules. Please note that the Committee's Reports should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Reports.

We request that interested persons submit suggestions, comments or objections concerning this proposal to the Committee through counsel,

A. Christine Riscili, Esq.
Staff Counsel

F. Publication of Local Rules. All local rules shall be published in the *Pennsylvania Bulletin* to be effective and enforceable.

[G. The Juvenile Court Procedural Rules Committee may at any time recommend that the Supreme Court suspend, vacate, or require amendment of a local rule and may suspend that local rule pending action by the Court on that recommendation.]

Comment

The purpose of this rule is to further the policy of the Supreme Court to implement the unified judicial system under the Constitution of 1968, to facilitate the statewide practice of law under this Court's general rules, and to promote the further policy that a general rule of juvenile court procedure normally preempts the subject covered. It is intended that local rules should not repeat general rules or statutory provisions verbatim or substantially verbatim nor should local rules make it difficult for attorneys to practice law in several counties.

The caption or other words used as a label or designation [shall] is not to determine whether something is or establishes a local rule; if the definition in paragraph (A) of this rule is satisfied, the matter is a local rule regardless of what it may be called. The provisions of this

rule also are intended to apply to any amendments to a "local rule." Nothing in this rule is intended to apply to case-specific orders.

Paragraph (B) [**vacates**] **vacated** all current local rules on October 1, 2005, the **original** effective date of this rule. The local rules are to be repromulgated to comply with this rule. This includes rekeying pursuant to paragraph (C) [**(2)**] and meeting the appropriate filing requirements under [**paragraph**] **paragraphs** [**(D)**] **(F) & (G)**.

To simplify the use of local rules, local juvenile delinquency procedural rules are required to be given numbers that are keyed to the number of the general juvenile delinquency procedural rules to which the local rules correspond **pursuant to paragraph (C)**. This requirement is not intended to apply to local rules that govern the general business of the court and which do not correspond to a general juvenile delinquency procedural rule.

Paragraph (D), added in 2008, requires that, before publishing the local rule or proceeding with any of the other requirements in paragraphs (F) and (G), the adopting court must submit all proposed local delinquency rules or rule amendments to the Juvenile Court Procedural Rules Committee for review.

[**The purpose of paragraph (D) is to**] **The 2008 amendments** emphasize that the adopting authority [**shall**] **is to** comply with all the provisions of [**paragraph (D)**] **this rule** before any local rule, or any amendment to local rules, will be effective and enforceable.

Paragraph (F) requires the local rule to be published in the *Pennsylvania Bulletin* to be effective. Pursuant to 1 Pa. Code § 13.11(b)—(f), any documents that are submitted for publication must be accompanied by a diskette or CD-ROM formatted in MS-DOS, ASCII, Microsoft Word, or WordPerfect or in lieu of a diskette or CD-ROM, an electronic copy may be submitted to Legislative Reference Bureau at pabsupreme@palrb.us. The diskette, CD-ROM, or email cover sheet must be labeled with the court's name and address and the local rule's computer file name. In addition, a copy of the written notification, received from the Juvenile Court Procedural Rules Committee, that the local rule is not inconsistent with the Rules of Juvenile Court Procedure is to be submitted.

[**Paragraph (D)(5) requires that a separate consolidated set of local rules be maintained in the clerk's office.**

The Administrative Office of Pennsylvania Courts maintains a web-page containing the text of local rules. That web-page is located at: <http://www.courts.state.pa.us/judicial-council/local-rules/index.htm>.]

Pursuant to paragraph (F)(2), an electronic copy is a document sent via email to the *Pennsylvania Bulletin*.

Although under paragraph [**(E)**] **(F)(3)** a local rule [**shall**] **is not to** be effective until at least thirty days after the date of publication in the *Pennsylvania Bulletin*, when a situation arises that requires immediate action,

the local court may act by specific orders governing particular cases in the interim before an applicable local rule becomes effective.

The Administrative Office of Pennsylvania Courts maintains a web-page containing the text of local rules. That web-page is located at: <http://www.courts.state.pa.us/judicial-council/local-rules/index.htm>.

Paragraph (H) requires that a separate consolidated set of local rules be maintained in the clerk's office.

The purpose of paragraph [**(F)**] **(I)** is to: **1) require that all documents presented for filing are accepted by the clerk of court, also see Rule 345 (A)(2); and 2) prevent the dismissal of cases, or the granting or denial of requested relief, because a party has failed to comply with a local rule. In addition, paragraph [(F)] (I) requires that the party be alerted to the local rule, and be given a reasonable amount of time to comply with the local rule.**

After the court has alerted the party to the local rule pursuant to paragraph [**(F)**] **(I)**, the court may impose a sanction for subsequent noncompliance either on the attorney or the juvenile if proceeding pro se, but may not dismiss the case, or grant or deny relief because of non-compliance.

Paragraph (B) [**vacates**] **vacated** all current local rules on **February 1, 2007**, the **original** effective date of this rule. The local rules are to be repromulgated to comply with this rule. This includes rekeying pursuant to paragraph (C)[(2)] and meeting the appropriate filing requirements under paragraphs [(D)](F) & (G).

To simplify the use of local rules, local juvenile dependency procedural rules are required to be given numbers that are keyed to the number of the general juvenile dependency procedural rules to which the local rules correspond pursuant to paragraph (C). This requirement is not intended to apply to local rules that govern the general business of the court and which do not correspond to a general juvenile dependency procedural rule.

Paragraph (D), added in 2008, requires that, before publishing the local rule or proceeding with any of the other requirements in paragraphs (F) and (G), the adopting court must submit all proposed local delinquency rules or rule amendments to the Juvenile Court Procedural Rules Committee for review.

[The purpose of paragraph (D) is to] The 2008 amendments emphasize that the adopting authority is to comply with all the provisions of [paragraph (D)] this rule before any local rule, or any amendment to local rules, will be effective and enforceable.

Paragraph (F) requires the local rule to be published in the *Pennsylvania Bulletin* to be effective.

Pursuant to 1 Pa. Code § 13.11(b)—(f), any documents that are submitted for publication must be accompanied by a diskette or CD-ROM formatted in MS-DOS, ASCII, Microsoft Word, or WordPerfect or in lieu of a diskette or CD-ROM, an electronic copy may be submitted to Legislative Reference Bureau at pabsupreme@palrb.us. The diskette, CD-ROM, or email cover sheet must be labeled with the court's name and address and the local rule's computer file name. In addition, a copy of the written notification, received from the Juvenile Court Procedural Rules Committee, that the local rule is not inconsistent with the Rules of Juvenile Court Procedure is to be submitted.

[Paragraph (D)(5) requires that a separate consolidated set of local rules be maintained in the clerk's office.

The Administrative Office of Pennsylvania Courts maintains a web-page containing the text of local rules. That web-page is located at: <http://www.courts.state.pa.us/judicial-council/local-rules/index.htm>.]

Pursuant to paragraph (F)(2), an electronic copy is a document sent via email to the *Pennsylvania Bulletin*.

Although under paragraph [(E)](F)(3) a local rule is not to be effective until at least thirty days after the date of publication in the *Pennsylvania Bulletin*, when a situation arises that requires immediate action, the local court may act by specific orders governing particular cases in the interim before an applicable local rule becomes effective.

The Administrative Office of Pennsylvania Courts maintains a web-page containing the text of local rules. That web-page is located at: <http://www.courts.state.pa.us/judicial-council/local-rules/index.htm>.

Paragraph (H) requires that a separate consolidated set of local rules be maintained in the clerk's office.

The purpose of paragraph [(F)](I) is to: 1) require that all documents presented for filing are accepted by the clerk of court, also see Rule 345 (A)(2); and 2) prevent the dismissal of cases, or the granting or denial of requested relief, because a party has failed to comply with a local rule. In addition, paragraph [(F)](I) requires that the party be alerted to the local rule, and be given a reasonable amount of time to comply with the local rule.

After the court has alerted the party to the local rule pursuant to paragraph [(F)](I), the court may impose a sanction for subsequent noncompliance either on the attorney or the party if unrepresented, but may not dismiss the case, or grant or deny relief because of non-compliance.

EXPLANATORY REPORT

I. BACKGROUND

Rule of Juvenile Court Procedure 121 was adopted in 2005 and Rule of Juvenile Court Procedure 1121 was adopted in 2007 "to facilitate the statewide practice of law under this Court's general rules, and to promote the further policy that a general rule of juvenile court procedure normally preempts the subject covered." The

Juvenile Rules were modeled after Pa.R.Crim.P. 105 and Pa.R.C.P. 239, which were both adopted in 1983. To provide consistency among the Court's rules, changes are proposed to mirror the new language and intent of the Pa.R.Crim.P. 105 adopted January 25, 2008.

The new proposed rules will provide a uniform definition of local rules, prerequisites to effectiveness and effective dates, procedures for accessibility and distribution, and for the suspension of inconsistent local rules.

When Pa.Rs.J.C.P. 121 and 1121 were adopted, all local rules were vacated. Each judicial district could promulgate new local rules that did not conflict with the Rules of Juvenile Court Procedure and each judicial district may continue to promulgate new consistent local rules.

Because judicial districts have continued to enact local rules that fail to comply with the provisions of Rules 121 or 1121, this proposal is requesting several additional amendments that are intended to make the requirements for local rules absolutely clear. Judicial districts continue to enact local rules by calling them something other than a local rule, even though the practices and procedures are local rules within the definitions of Rules 121 or 1121. In addition, some judicial districts' "local rules" still are not being published or are not being made available to the members of the Bar. Finally, in many cases, these local practices and procedures conflict with the statewide rules.

Because of this failure to comply with the requirements of these rules by some judicial districts and to provide procedure uniformity with the Rules of Juvenile Court Procedure, the Committee agreed to recommend that the only recourse to ensure compliance with Rules 121 or 1121 is to require that before a judicial district may enact or amend a local rule, the local rule or local rule amendments must be submitted in writing to the Committee for review. Unless the local adopting court receives a written notification from the Committee that the local rule is not inconsistent, the local rule will not be effective and enforceable. This requirement and some additional proposed clarifying amendments are discussed below.

To clarify the reorganization and discussion of paragraphs, the "proposed new" paragraph refers to the renumbered proposed new paragraph that the Committee is suggesting be changed. The "current" paragraph refers to the current language of the Rule.

II. DISCUSSION

The proposed new procedural requirement that all new local rules and local rule amendments must be submitted to the Committee for the Committee's review before the local rule may be published and before the rule or amendments will be effective and enforceable is set forth in new proposed paragraph (D). Pursuant to this new proposed procedure, the adopting court is required to submit in writing to the Committee for the Committee's review any proposal that governs juvenile court practice and procedure. This pre-adoption review is narrow in scope. The Committee will merely determine whether the proposed local rule provisions comply with the requirements of Rule 121 or 1121. Specifically, the Committee will be considering whether the local rule change is consistent with the general rules of the Supreme Court as required in new proposed Rule 121(E) or 1121(E). The Committee will not be passing judgment on the wisdom of the local rule or the substantive validity of the provisions of the local rule or on the merits of the local rule.

Following this review, the Committee will communicate in writing with the adopting court. The adopting court will be prohibited from proceeding with the local rule

proposal until receiving written notification from the Committee that the proposed local rule satisfies the requirements of Rule 121 or 1121 and is not inconsistent with the statewide rules. In addition, new proposed paragraph (F)(2)(c) will require the adopting court to send a copy of the written statement received from the Committee to the Legislative Reference Bureau when publishing a new local rule.

Rules 121 and 1121 also have been reorganized to emphasize more clearly the essential requirements of the rule. Paragraph (A), which sets forth the "definition" of local rule, remains mostly the same. The term "administrative order" has been added to the list of things in this paragraph that are considered "local rules." In our experience, many local enactments labeled "administrative orders" are in fact "local rules" that should comply with Rule 121 or 1121 requirements. Because some judicial districts continue to ignore the clear mandate of Rule 121 or 1121 by, for example, designating as "administrative orders" various directives that actually govern practice and procedure in juvenile court cases, and by failing to publish or provide copies of these administrative orders to the Committee, the Committee agreed that "administrative order" should be added to paragraph (A). As has been intended since the inception of Rule 121 or 1121, only administrative orders that govern juvenile court practice and procedure in some way would be subject to Rule 121 or 1121. This change is not intended to affect administrative orders that govern other aspects of court operations, such as administrative orders that establish local court calendars.

In addition, the Committee is requesting the phrase "which requires a party or party's attorney to do or refrain from doing something" to be removed from paragraph (A) because these same non-compliant judicial districts fail to send in a local rule rationalizing that it is not a local rule because it does not meet the definition of a party or party's attorney doing or refraining from doing something.

Paragraph (B) has been reworded to show that all local rules promulgated before October 1, 2005 were vacated at the time of adoption of these Rules and moved to paragraph (B)(1). Current paragraph (C)(1) was moved to new proposed paragraph (B)(2), which provides that each judicial district may adopt new local rules that are not in conflict with the Rules of Juvenile Court Procedure.

Current paragraph (C)(2) will become paragraph (C), which requires that local rules be given numbers keyed to the statewide rules to add emphasis to this requirement.

Current paragraph (G) will be retained as new proposed paragraph (E)(1) & (2). The requirements are now separated to show and emphasize that the Committee may recommend to the Supreme Court the suspension, vacation, and amendment of local rules that are not in compliance with Rule 121 or 1121. Pending that action, the Committee may suspend a local rule.

New proposed paragraph (F) sets forth the provisions related to publishing proposed local rules in the *Pennsylvania Bulletin*, making it clear that to be effective and enforceable, the local rule must be published, but not until the Committee has provided written notification that the local rule is not inconsistent as required by new proposed paragraph (D). In addition, current paragraph (D)(3) that explains what must be sent to the *Pennsylvania Bulletin* is now new proposed paragraph (F)(2), and current paragraph (E) that requires the effective date of new local rules and amended local rules be not less than 30 days after publishing in the *Pennsylvania Bulletin* is now new proposed paragraph (F)(3).

New proposed paragraph (G) is taken from current paragraph (D)(2); however, new proposed paragraph (G) requires that, contemporaneously with publishing in the *Pennsylvania Bulletin*, the adopting court must file one copy of the local rule with the AOPC. Current paragraph (D)(2) requires that seven copies be sent to the AOPC.

Because new proposed paragraph (D) requires that the adopting court submit a written copy of the proposed local rule to the Committee for prior approval, current paragraphs (D)(1) and (D)(4) will no longer be necessary.

Current paragraph (D)(5) has been moved to new proposed paragraph (H).

New proposed paragraph (I) incorporates current paragraph (F), and includes as a first sentence the requirement that the clerk of courts accept all pleadings and other legal papers for filing even if the document does not satisfy the requirements of a local rule. This new proposal is comparable to Pa.R.C.P. 205.2, Pa.Rs.Crim.P. 105 and 576(A), and complies with the requirements in Pa.R.J.C.P. 345(A).

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DEPARTMENT OF ENVIRONMENTAL PROTECTION

[25 PA. CODE CH. 93]

Corrective Amendment to 25 Pa. Code § 93.9x

The Department of Environmental Protection has discovered a discrepancy between the agency text of 25 Pa. Code § 93.9x (relating to Drainage List X) as deposited with the Legislative Reference Bureau and the official text published at 30 Pa.B. 6059, 6106 (November 18, 2000), and the text published in the *Pennsylvania Code Reporter* (Master Transmittal Sheet No. 315) (February 2001), and as currently appearing in the *Pennsylvania Code*. The text which appeared at 30 Pa.B. 6106 inaccurately reflected the description of the zone for Lake Erie (Outer Erie Harbor and Presque Isle Bay).

Therefore, under 45 Pa.C.S. § 901: The Department of Environmental Protection has deposited with the Legislative Reference Bureau a corrective amendment to 25 Pa. Code § 93.9x. The corrective amendment to 25 Pa. Code § 93.9x is effective as of November 18, 2000, the date the defective official text appeared in the *Pennsylvania Bulletin*.

The correct version of 25 Pa. Code § 93.9x appears in Annex A, with ellipses referring to the existing text of the drainage list.

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CHS. 271, 279, 287 AND 293]

Notification of Proximity to Airports

The Environmental Quality Board (Board) by this order amends Chapters 271, 279, 287 and 293. The amendments are based on a petition submitted by the Department of Defense (DOD), requesting that the Department of Environmental Protection (Department) address the potential hazards posed to military aircraft from bird strikes near waste landfill and transfer facilities. The amendments would broaden the definition of "airport" to include military airports, extend existing airport notification requirements for waste landfills to military airports and impose an airport notification requirement on waste transfer facilities.

This order was adopted by the Board at its meeting of October 16, 2007.

A. Effective Date

These amendments will go into effect upon publication in the *Pennsylvania Bulletin* as final rulemaking.

B. Contact Persons

For further information, contact Stephen Socash, Chief, Division of Municipal and Residual Waste, P. O. Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This final-form rulemaking is available electronically through the Department's web site (www.depweb.state.pa.us).

C. Statutory Authority

The final-form rulemaking is being made under the authority of the following:

The Solid Waste Management Act (SWMA) (35 P. S. §§ 6018.101—6018.1003), as amended which in section 105(a) (35 P. S. § 6018.105 (a)) grants the Board the power and the duty to adopt the rules and regulations of the Department to accomplish the purposes and carry out the provisions of the SWMA. Sections 102(4) and 104(6) of SWMA (35 P. S. §§ 6018.102(4) and 6018.104(6)) provide the Department with the power and duty to regulate the storage, collection, transportation, processing, treatment and disposal of solid waste to protect the public health, safety and welfare.

The Municipal Waste Planning, Recycling and Waste Reduction Act (Act 101) (53 P. S. §§ 4000.101—4000.1904), which in section 302 of Act 101 (53 P. S. § 4000.302) gives the Board the power and duty to adopt the regulations of the Department to accomplish the purposes and carry out the provisions of Act 101. Sections 102(b)(3) and 301(6) of Act 101 (53 P. S. §§ 102(b)(3) and 301(6)) state the intent of protecting the public health, safety and welfare from the dangers associated with transportation, processing, treatment, storage and disposal of municipal waste and provide the Department with the power and duty to abate public nuisances.

Section 1917-A of The Administrative Code of 1929 (71 P. S. §§ 510-17) authorizes and requires the Department to protect the citizens of this Commonwealth from unsanitary conditions and other nuisances, including any condition that is declared to be a nuisance by any law administered by the Department. Section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-20) grants the Board the power and the duty to formulate, adopt and promulgate rules and regulations as determined by the Board for the proper performance of the work of the Department.

D. Background of the Amendments

Current municipal and residual waste regulations require applicants for municipal and residual waste landfills, construction and demolition waste landfills and residual waste disposal impoundments to notify public airports if a new or expanded facility is proposed within 6 miles of an airport runway. There is no similar notification requirement for municipal or residual waste transfer facilities because these operations are primarily conducted in enclosed structures. The DOD maintains and the Department concurs, that there is a concern that waste transfer activities, such as waste loading, unloading and storage, may still occur outside of an enclosed building and pose a risk to aircraft approaching or departing from nearby airports. This is a risk to public health and safety and includes military personnel and people living in the area. The risk of bird strikes to aircraft becomes negligible when the airport runway is greater than 6 miles from the waste transfer facility. Accordingly, the DOD petitioned the Department on July 28, 2004, to require an airport notification from waste transfer facilities. Furthermore, since the current definition of "airport" in §§ 271.1 and 287.1 (relating to definitions) does not include the term "military airports," the petition also requested that the Department include this term in the definition.

The Board accepted the petition for further study on October 19, 2004. The Department agreed with the petition and submitted a Petition Report to the Board on

April 19, 2005, recommending that the municipal and residual waste regulations be amended as requested by the DOD.

Adding the term "military airport" to the definition of "airport" in §§ 271.1 and 287.1 will broaden the definition to address DOD airfields as well as public airports. With the exception of two strictly military airports in this Commonwealth, many public airports also serve as military airports. New §§ 279.112 and 293.112 (relating to notification of proximity to airport) will require a new or expanding waste transfer facility to provide notification to airports, including military airports, if the facility is within 6 miles of the airport runway. By including military airports in the definition of "airport," the notification requirements are also being extended to military airports for new or expanded landfills.

The proposed amendments were presented to the Solid Waste Advisory Committee (SWAC) on July 14, 2005. Some members of the SWAC, primarily representing the interests of the waste industry, opposed these amendments. These members asserted that, unlike landfills, waste transfer facilities do not attract birds as the activities are primarily conducted in enclosed structures. Another industry concern was the potential lack of a timely response to the notice from the airport, which might delay permit issuance. Other concerns expressed included: the intent of the petition; the additional notification burden imposed on the waste industry; the airport not commenting on nontechnical issues; and this requirement applying to a large number of facilities.

The Department, in agreement with the petition filed by the DOD, maintained that these amendments, as proposed, would provide for increased safety for both military and nonmilitary personnel operating aircraft from airports in the vicinity of waste transfer facilities and landfills. The Department further discussed its position with the SWAC on May 11, 2006, but the SWAC voted against the proposed amendments. However, the Department decided to proceed with the amendments in light of the reasoning advanced by DOD.

The proposed rulemaking was adopted by the Board at its meeting of October 17, 2006, and published in the *Pennsylvania Bulletin* on December 23, 2006. During the 30-day public comment period that followed, the agency received comments from three commentators: Tim O'Donnell, President, Pennsylvania Waste Industries Association; Elam M. Herr, Assistant Executive Director, Pennsylvania State Association of Township Supervisors; and the Independent Regulatory Review Commission.

The following major issues were raised: whether transfer operations in an enclosed building present an increased risk of bird strikes; whether inclusion of military airports retroactively imposes setback restrictions on existing, permitted facilities; and whether a lack of response from FAA or the Bureau of Aviation would result in a determination that an application was incomplete. These issues and the Department's responses were incorporated into the Comment and Response Document. No changes were made to the final amendments as a result of the comments.

On April 11, 2007, the Department presented the final amendments and Comment and Response Document to the Solid Waste Advisory Committee for their consideration. Again, the Committee voted to disapprove the rulemaking. For the same reasons discussed previously,

the Department has chosen to proceed to final rule with the package as originally presented to the Board as proposed.

E. Summary of Changes to the Proposed Rulemaking

No changes were made to the final-form rulemaking as a result of comments received during the public comment period.

F. Summary of Comments and Responses on the Proposed Rulemaking

Notice of proposed rulemaking was published at 36 Pa.B. 7867 (December 23, 2006). The proposal set forth a 30-day comment period. No public meetings or hearings were held.

During the public comment period, the Board and the Department received written comments from three individuals or groups. The Board and the Department considered the comments received and have prepared a comment and response document that addresses each comment on the proposed amendments. The following is a summary of the comments and the Board's responses.

Chapter 271. Municipal Waste Management—General Provisions

Chapter 287. Residual Waste Management—General Provisions

§§ 271.1. and 287.1. Definitions.

The Board amended the term "airport" in these sections to include the term "military airport" in the definition. By including this term, all regulatory requirements that relate to airports, current and proposed, will apply to military airports.

Two commentators objected to the retroactive application of the airport exclusionary criteria that would result from the proposed definitional change. The comments asserted that inclusion of military airports within the definition of airport retroactively imposes setback restrictions on existing, permitted facilities and raises the potential for a confiscatory scenario. The commentators suggested that existing permitted municipal waste landfills be given a grandfathering provision from these requirements. The Board declined to change the relevant exclusionary criteria, since currently there are no existing military airports either within or outside the borders of this Commonwealth that would trigger the existing setback criteria for municipal waste landfills, residual waste landfills or residual waste disposal impoundments. The regulation does not create any potential for confiscatory scenarios and therefore does not need to be amended to include only prospective provisions or grandfathering provisions for existing facilities.

Chapter 279. Transfer Facilities.

Subchapter B. Application Requirements for Transfer Facilities.

Chapter 293. Transfer Facilities for Residual Waste.

Subchapter B. Application Requirements for Transfer Facilities.

§§ 279.112 and 293.112. Notification of Proximity to Airport.

The new sections require applicants to notify the Bureau of Aviation (Bureau) of the Department of Transportation, the Federal Aviation Agency (FAA) and the applicable airport if the proposed new or expanding municipal or residual waste transfer facility will be located within 6 miles of the airport runway. These

amendments would also require the applicant to include copies of these notifications in the permit application. The amendments would not affect most existing transfer facilities; they would apply only to new facilities and expansions of existing facilities.

Two commentators objected to requiring transfer facilities to provide the applicable notice, stating that transfer operations occur within an enclosed building and do not present a realistic increase in the risk of bird strikes. The Board disagreed, stating that although municipal and residual waste transfer operations are primarily conducted in enclosed structures, some waste transfer activities may occur outside of an enclosed building and attract birds, which potentially pose a risk to aircraft approaching or departing from nearby airports.

One commentator questioned whether municipal recycling centers are transfer facilities that need to comply with the regulations. The Board took no action regarding this comment, since the definition of a municipal waste transfer facility specifically excludes a collecting or processing center that is only for source-separated recyclable materials.

One commentator suggested that the Board refrain from enacting any regulatory changes until the results of an FAA-sponsored study on birds associated with waste transfer stations is complete. The Board declined to act on this suggestion to delay the regulation and believes it is appropriate to move forward with the rulemaking, since no new information has been provided at the time of the rulemaking to substantiate the claim that transfer stations do not pose an increased risk to aircraft from nearby airports. This action, however, does not preclude the Board from making further regulatory changes in the future as a result of the FAA study.

One commentator stated that this new subsection does not adequately guide new waste transfer facilities since it does not provide a time frame under which the notification must be delivered or how long the notified parties have to respond. The Board declined to modify this subsection, since there are similar existing notification and contact provisions in the Department's Form D, Environmental Assessment for Municipal and Residual Waste Management Facilities. Applicants typically send notice to affected agencies with a response request of 30 to 60 days. If no response is received, the applicant may solicit the assistance of the Department to verify that the agency or airport, or both, receiving notification has no comment.

One commentator suggested that an exemption be granted to transfer facilities that do not accept putrescible waste. The Board declined to grant such an exemption, since there is no certainty that the waste will not attract birds or that putrescible waste will not be accepted sometime during the operational life of the transfer facility.

G. Benefits, Costs and Compliance Benefits

The final-form amendments will benefit both military and nonmilitary personnel operating and traveling in aircraft near waste landfill and transfer facilities, as they either approach or depart the airport runway, by reducing the potential risk of bird strikes to their aircraft, which can cause hazards to surrounding communities, as well.

Compliance Costs

The final-form amendments will minimally increase the application cost, by means of the notification requirement, only for a new or expanding waste landfill or transfer

facility and in these cases, only for those facilities that are proposed within 6 miles of an airport runway. As applications for new or expanding landfills are estimated at less than ten, and new and expanding transfer facilities at a frequency of two or three per year, this minimal application cost increase will not affect the several hundred municipal and residual waste transfer facilities that are currently permitted in this Commonwealth. The applicant will be required to notify the relevant airport, the Bureau and the FAA. The cost of each notice, sent by certified mail including a request for a return receipt, is estimated to be no more than \$50 current value, with the total cost of notification for each applicant estimated at \$150. The total cost per year, therefore, for up to 12 applicants sending notification to the two agencies and the airport is estimated at \$1,800.

There are no additional permit fees associated with these amendments and no indirect cost to the regulated community or the Department.

Compliance Assistance Plan

Since the amendments would impose notification requirements only, a compliance assistance plan is not required.

Paperwork Requirements

As part of its permit application, an applicant for a new or expanding waste landfill or transfer facility will be required to send to the Department copies of responses received from the two agencies and airport in response to the notices. This is not expected to increase compliance costs.

H. *Pollution Prevention*

Not applicable.

I. *Sunset Review*

These regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulation effectively fulfills the goals for which it was intended.

J. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on December 7, 2006, the Department submitted a copy of the notice of proposed rulemaking, published at 36 Pa.B. 7867, to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House and Senate Environmental Resources and Energy Committees for review and comment. Under section 5(e) of the Regulatory Review Act, the Department resubmitted the proposed rulemaking to IRRC and the Chairpersons of the House and Senate Environmental Resources and Energy Committees on January 31, 2007.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing these final-form regulations, the Department has considered all comments from IRRC, the Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act, on January 30, 2008, these final-form regulations were deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on January 31, 2008, and approved the final-form regulations.

K. *Findings of the Board*

The Board finds that:

(1) Public notice of proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (Pub. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and regulations promulgated thereunder at 1 Pa. Code §§ 7.1 and 7.2.

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995
PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Stan-

dard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Christopher Candela, ATC Associates, Inc., 920 Germantown Pike, Suite 200, Plymouth Meeting, PA 19462 on behalf of John Young, John R. Yong Company, Inc. has submitted a Notice of Intent to Remediate. Soil and groundwater at the site has been impacted by release PAHs. The intended future use of the site is for a parking lot and trail head that will accompany the Perkiomen trail located immediately adjacent to the site.

Southwest Region: Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

Union Railroad Company Monongahela Junction Yard (Former), City of Duquesne, **Allegheny County**. Nicholas Palumbo, KU Resources, Inc., 22 South Linden Street, Duquesne, PA 15110 on behalf of Tom Besselman, Union Railroad Company, 1200 Penn Avenue, Suite 300, Pittsburgh, PA 15222-4207, and Jerome Gibas, General

Manager, Kennywood Entertainment Partners, LP, 4800 Kennywood Boulevard, West Mifflin, PA 15122 has submitted a Notice of Intent to Remediate. Site contamination is likely associated with long-term use of the property as a railcar repair facility, and the historical use of slag fill in portions of the site. Arsenic, lead and chromium have been identified in site soils in concentrations above their respective MSCs for residential use, manganese, iron and the VOC, chloromethane, have been identified in site groundwater above their respective MSCs for residential, used aquifers. The future use of the property is currently anticipated to be amusement park-related maintenance and/or support activities.

West Penn Hat & Cap Site, East Deer Township, **Allegheny County**. Christopher D. Tower, C. D. Tower & Associates, Inc., P. O. Box 307, Export, PA 15632 on behalf of F. Lynn Thompson, 1000 Treadway Trust, P. O. Box 428, Tarentum, PA 15084 has submitted a Notice of Intent to Remediate. The Act 2 site occupies about 8 acres of a larger tract within an industrialized area adjacent to the Allegheny River in East Deer Township. Groundwater beneath the site contains low levels of chlorinated VOCs of unknown origin. Localized surface spills of diesel fuel have already been remediated. 1000 Treadway Trust is seeking a release of liability for site groundwater. A Site-Specific and Statewide Health Standards will be applied where applicable. The site will remain nonresidential.

Fourth and Main Site, City of Greensburg, **Westmoreland County**. John R. Thatcher, BL Companies, Inc., 213 Market Street, 6th Floor, Harrisburg, PA 17101 on behalf of Lori Foust, CFO, Inland American CFG Pennsylvania Portfolio DST, 2901 Butterfield Road, Oak Brook, IL 60523, and Karen Kautz, Representative of Owner, Inland Real Estate Acquisitions, Inc., 2901 Butterfield Road, Oak Brook, IL 60523 has submitted a Notice of Intent to Remediate. The site is currently a Citizens Bank branch location but was formerly an automotive repair garage/gasoline service station with four associated underground storage tanks. A geophysical survey conducted in 2001 did not identify any abandoned USTs onsite. Recent groundwater and soil investigations indicated VOCs and PAHs above residential MSCs but below nonresidential MSCs. A risk-based, Site-Specific approach with pathway elimination, and Engineering and Institutional Controls will be used to attain an Act 2 relief of liability. A post remediation care plan will be enacted to maintain the controls. The site will remain nonresidential.

Gilmour Manufacturing, as subsidiary of Robert Bosch Tool Corporation, Somerset Borough, **Somerset County**. Raymond Orloski, MACTEC Engineering and Consulting, Inc., 700 North Bell Avenue, Suite 200, Carnegie, PA 15106 on behalf of David Luepke, Robert Bosch Tool Corporation, 1800 West Central Road, Mt. Prospect, IL 60056 and John Young, Robert Bosch, LLC, 401 North Bendix Drive, South Bend, IN 46628 has submitted a Notice of Intent to Remediate. Three areas of concern were identified at the Gilmour Manufacturing Facility in Somerset County. Site investigations have identified the presence of chlorinated solvents in the soil and groundwater under and near the former concrete catch basin. Benzene and ethylbenzene from an up gradient offsite petroleum release and free phase hydraulic oil under the former injection molding area. A combination of Background and Site-Specific Standards, as well as Institutional Controls will be used to achieve an Act 2 relief of liability. The site will remain nonresidential.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

PA Nos. 66-315-049 and 66-315-051: The Procter & Gamble Paper Products Co. (P. O. Box 31, Mehoopany, PA 18692) for addition of a new vacuum based dewatering system for the 6M paper machine and for addition of three new paper fiber filtration systems for paper machines Nos. 2M, 5M and 6M in Washington Township, Wyoming County.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue Plan Approval Nos. 66-315-049 and 66-315-051 to The Procter & Gamble Paper Products Co., P. O. Box 31, Mehoopany, PA 18692, for their plant in Washington Township, Wyoming County. The facility currently has Title V Permit No. 66-00001. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 66-315-049 is for the addition of a new vacuum based dewatering system for the 6M paper machine. All emissions will be fugitive. The increased drying will allow the paper machine to process more paper and thus use more chemical additives with their associated VOC emissions. This is approximately a 15% increase in paper capacity. This project does not impact emissions from other sources at the site. The VOC emissions increase due to this modification will be limited to 1.3 tpy, based on a 12-month rolling sum.

Plan Approval No. 66-315-051 is for the addition of three new paper fiber filtration systems for paper machines No. 2M, 5M and 6M. The new vacuum drying system being added to the paper machine requires high pressure showers to keep the system clean. These showers require clean water in order not to clog. Filtration is being added to achieve the improved water quality needed for these new showers. There is no increased production associated with these filters. These water filters are fugitive sources of emissions. The VOC emissions increase due to this modification will be limited to 1.3 tpy, based on a 12-month rolling sum.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any persons wishing to provide the Department with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No.: 66-315-049 and 66-315-051

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the comments received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where the Department determines the notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2531 within 30 days after publication date.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, M. Gorog and B. Hatch, Environmental Engineer Managers, (412) 442-4163/5226.

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an applica-

tion is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with

water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. Proposed Revision to the State Implementation Plan for the Clearfield-Indiana 8-Hour Ozone Nonattainment Area; Public Hearing

Ground-level ozone concentrations above the Federal health-based standard are a serious human health threat and can cause damage to crops, forests and wildlife. Ozone is not emitted directly to the atmosphere, but is formed by photochemical reactions between volatile organic compounds (VOCs) and oxides of nitrogen (NOx) in the presence of sunlight. Stationary point sources are one of the major sources of NOx for Clearfield and Indiana Counties (Clearfield-Indiana Area). The Department of Environmental Protection (Department) has reexamined the methodology used to predict future emissions from stationary point sources and found that the methodology used for the June 14, 2007, State Implementation Plan (SIP) revision submitted to the United States Environmental Protection Agency (EPA) for Clearfield-Indiana Area over-predicted future emissions of NOx from electric generating units (EGUs). Department is proposing a SIP revision that explains why the methodology was changed, what new methodology is being used for evaluation, and what the revised emission predictions are.

Motor vehicles contribute significantly to the precursors of ozone formation. Federal transportation conformity regulations require that transportation planning activities take into account the potential impact on air quality. The maintenance plan portion of the June 14, 2007, SIP revision establishes motor vehicle emission budgets (MVEBs) for purposes of transportation conformity for the entire two-county area. The Department of Transportation has requested separate MVEBs for the separate transportation planning organizations in Clearfield-Indiana Area, which is allowed by Federal regulations. The total of the subarea budgets is the same as the MVEB in the June 14, 2007, SIP revision for the two counties as a whole. The Department is proposing a SIP revision that establishes separate MVEBs for Clearfield-Indiana Area.

The Department is seeking comment only on the portions of the SIP that pertain to the methodology used to project future emissions from stationary point sources and the separation of MVEBs for Clearfield-Indiana Area. The SIP revision is available on the Department's web site at www.depweb.state.pa.us (DEP Keywords: Air Plans) or through the contact persons listed as follows.

The Department will hold a public hearing to receive comments on the proposed SIP revision only if a request for a public hearing is received from a member of the public. A request for a public hearing must be received by 4 p.m. on Monday, April 21, 2008. If a request for a public hearing is received by 4 p.m. on Monday, April 21, 2008, the public hearing will be held on Wednesday, April 23, 2008, at 1 p.m., at the Indiana County Courthouse Annex Building, 1st Floor Conference Room, 827 Water Street, Indiana, PA 15701. If the Department does not receive a request for a public hearing by 4 p.m. on Monday, April 21, 2008, the hearing will be cancelled and notice of the cancellation will be published on Tuesday, April 22, 2008, at 12 p.m. at noon, on the Department's web site at www.depweb.state.pa.us (DEP Keywords: Air Plans). Interested parties may also call (717) 787-9495 to find out if the hearing has been cancelled.

Persons wishing to request a hearing or who wish to present testimony at a scheduled hearing should contact Yvette House, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495, yhouse@state.pa.us. The Department will con-

sider a request to present testimony at a scheduled hearing to be a request for a public hearing. Persons who do not reserve a time will be able to testify as time allows. Witnesses should keep testimony to 10 minutes and should provide two written copies of their statement at the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Yvette House at (717) 787-9495 or yhouse@state.pa.us. TDD users may contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Persons interested in this proposed SIP revision are invited to submit written comments on the proposed SIP revision. Written comments must be received by the Department no later than April 25, 2008. Written comments should be sent to the attention of Arleen Shulman, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468, ashulman@state.pa.us. Proposed Revision to the State Implementation Plan for the York-Adams 8-Hour Ozone Nonattainment Area; Public Hearing

Ground-level ozone concentrations above the Federal health-based standard are a serious human health threat and can cause damage to crops, forests and wildlife. Motor vehicles contribute significantly to the precursors of ozone formation. Federal transportation conformity regulations require that transportation planning activities take into account the potential impact on air quality. On January 14, 2008, the United States Environmental Protection Agency (EPA) approved a State Implementation Plan (SIP) revision submitted by the Department of Environmental Protection (Department) on June 14, 2007, for the York-Adams 8-Hour Ozone Attainment Area (York and Adams Counties). The maintenance plan portion of the approved SIP revision establishes motor vehicle emission budgets (MVEBs) for purposes of transportation conformity for the entire area. The Department is seeking comments on a revision to the SIP for the York-Adams area. The Department of Transportation has requested a separate MVEB for each of the two transportation planning organizations in the area, which is allowed by Federal regulations. The total of the two subarea budgets is the same as the currently the EPA-approved MVEBs for the two counties as a whole. The proposed SIP revision is available on the Department's web site at www.depweb.state.pa.us (DEP Keywords: Air Plans) or through the contact persons listed as follows.

The Department will hold a public hearing to receive comments on the proposed SIP revision only if a request for a public hearing is received from a member of the public. If a request for a public hearing is received by 4 p.m. on Monday, April 21, 2008, the public hearing will be held on Wednesday, April 23, 2008, at 1 p.m. at the Department's York District Office,

Conference Room, 150 Roosevelt Avenue, York, PA 17404. If the Department does not receive a request for a public hearing by 4 p.m. on Monday, April 21, 2008, the hearing will be cancelled and notice of the cancellation will be published on Tuesday, April 22, 2008, at 12 p.m., on the Department's web site at www.depweb.state.pa.us (DEP Keywords: Air Plans). DEPARTMENT OF PUBLIC WELFARE

Intention to Establish an Additional Class of Disproportionate Share Payments for Obstetrical and Neonatal Intensive Care Services

The purpose of this notice is to announce the Department of Public Welfare's (Department) intends to establish a one-time additional class of disproportionate share hospital (DSH) payments for certain qualifying hospitals based on obstetrical and neonatal intensive care cases.

The Commonwealth is dedicated to ensuring the availability of quality care to low-income pregnant woman and children. Special programs exist within the Medical Assistance (MA) Program to provide benefits for pregnant woman and as a result, approximately one of every three births within this Commonwealth is covered by MA.

Access to obstetrical and neonatal health care services across this Commonwealth is necessary for all MA recipients and is crucial to ensure a positive prenatal experience for the mother and the best outcome for the infant. Maintaining the system for obstetrical and neonatal health care services, the Department will make a one-time additional type of disproportionate share payment to hospitals that meet certain qualifying criteria.

A rural hospital, which is defined as being located in a county outside a Metropolitan Statistical Area (MSA) established by the United States Office of Management and Budget or is the only hospital licensed by the Department of Health (DOH) to provide obstetrical services located in a county of the 6th, 7th or 8th class, must meet one of the following qualifying criteria to be eligible for the DSH payments:

(a) The hospital is licensed to provide neonatal intensive care services;

(b) The hospital is licensed to provide obstetrical services and ranks in the top 1/3 of rural hospitals in terms of volume of obstetrical cases for Pennsylvania (PA) MA recipients during the most recent fiscal year with available data;

(c) The hospital is licensed to provide obstetrical services and has greater than 50% of all of its obstetrical cases for PA MA recipients during the most recent fiscal year with available data; or

(d) The hospital is the only hospital licensed to provide obstetrical services within the county.

A nonrural hospital must be licensed to provide obstetrical and/or neonatal intensive care services and must meet one of the following qualifying criteria to be eligible for the DSH payments:

(a) The hospital ranks in the top 1/3 of nonrural hospitals in terms of volume of obstetrical cases for PA MA recipients during the most recent fiscal year with available data;

(b) The hospital has greater than 50% of all of its obstetrical cases for PA MA recipients during the most recent fiscal year with available data;

(c) The hospital provides obstetrical care services and is located within 5 miles of any hospital that closed its obstetrical service during the previous 3 years;

(d) The hospital ranks in the top 1/3 of nonrural hospitals in terms of volume of neonatal intensive care cases for PA MA recipients during the most recent fiscal year with available data;

(e) The hospital has greater than 50% of all of its neonatal intensive care cases for PA MA recipients during the most recent fiscal year with available data; or

(f) A children's hospital with greater than 40% of all of its cases for PA MA recipients during the most recent fiscal year with available data.

The Department will make a one-time additional class of DSH payments to those hospitals that meet the qualifying criteria using the following payment methodology:

(a) 15% of the total amount available will be paid to qualified rural hospitals as follows:

(i) Of the amount available for distribution to rural hospitals, 75% will be distributed to qualified rural hospitals with obstetrical cases for PA MA recipients using the following formula:

(A) For each hospital, determine the ratio of the hospital's obstetrical cases for PA MA recipients to all obstetrical cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's obstetrical cases for PA MA recipients.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to rural hospitals, by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(ii) Of the amount available for distribution to rural hospitals, 10% will be distributed to qualified rural hospitals with neonatal intensive care cases for PA MA recipients using the following formula:

(A) For each hospital, determine the ratio of the hospital's neonatal intensive care cases for PA MA recipients to all neonatal intensive care cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's neonatal intensive care cases for PA MA recipients.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to rural hospitals by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(iii) 15% of the funds available for rural hospitals will be distributed equally among qualified rural hospitals with obstetrical cases for PA MA recipients.

(b) 85% of the total amount available will be paid to qualified nonrural hospitals as follows:

(i) Of the 85%, 52.5% will be distributed to qualified nonrural hospitals with obstetrical cases for PA MA recipients covered by medical assistance using the following formula:

(A) For each hospital, determine the ratio of the hospital's obstetrical cases for PA MA recipients to all obstetrical cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's obstetrical cases for PA MA recipients.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to nonrural hospitals by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(ii) Of the amount available for distribution to nonrural hospitals, 32.5% will be distributed to qualified nonrural hospitals with neonatal intensive care cases for PA MA recipients using the following formula:

(A) For each hospital, determine the ratio of the hospital's neonatal intensive care cases for PA MA recipients to all neonatal intensive care cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's neonatal intensive care cases for PA MA recipients.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to nonrural hospitals by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(iii) Of the amount available for distribution to nonrural hospitals, 15% will be distributed equally among qualified nonrural hospitals with obstetrical cases for PA MA recipients.

Fiscal Impact

The Fiscal Year 2007-2008 fiscal impact, as a result of this one-time additional class of DSH payments is \$10,888,502 (\$5.0 million in State General Funds and \$5,888,502 in Federal Funds upon approval by the Centers for Medicare and Medicaid Services). Additional future payments will be based on continued funding appropriation to the MA Program for this additional class of DSH payments.

GOVERNOR'S OFFICE

Pennsylvania State Data Center; Pennsylvania Population Projections; Public Review

The Pennsylvania State Data Center at the Pennsylvania State University consulting with a Statewide advisory committee comprised of State agencies, regional planning agencies and academic representatives have produced preliminary State and county population projections for the Commonwealth. These preliminary projections are detailed by age, sex and race (race projections are only for counties with a 2,000 nonwhite population over 5,000). Presented are county totals from the 2000 Census and projections for 2010 to 2030.

The method of projection is a cohort-component demographic projection model. That is, the base population is survived 5 years in the iteration of the projection cycle, and births are projected by applying fertility rates to survived females of childbearing age to determine the population due to natural increase. The survived population for each group is then adjusted for projected net migration by age, sex and race.

The detailed population projections and preliminary working papers relating to assumptions are on file and may be inspected and arrangements made for copying at the Pennsylvania State Data Center as indicated.

Persons wishing to comment on these preliminary population projections are invited to submit a statement to the Pennsylvania State Data Center, Penn State Harrisburg, Room 224 Church Hall, 777 West Harrisburg Pike, Middletown, PA 17057, (717) 948-6427, pasdc@psu.edu, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final preliminary population projections. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Pennsylvania State Data Center of the exact basis of any comment and the relevant facts upon which it is based.
