READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

The objective of subsection (b) of this Rule is to ensure that an assigned Judge in a civil action who has presided over proceedings which would facilitate an evaluation of the facts and proposed settlement consider a petition under this Rule, petitions in other cases being presented to the Motions Judge of the Orphans' Court. The purpose of including item 6 in the form petition is to make clear potential involvement by the assigned Judge in a civil action so that a Motions Judge of the Orphans' Court to whom a petition is presented can, in his or her discretion, determine whether presentation and determination in Orphans' Court is appropriate in the facts of the case.

PURSUANT TO ERIE COUNTY ORPHANS' COURT RULE 14.2.1(d)(1)**

I, _____, am a licensed physician (psychologist). I have been licensed to practice in the Commonwealth of Pennsylvania. I do hereby swear or affirm that within a reasonable degree of medical certainty I believe that the above referred to alleged incapacitated person would not be furthered by his/her attendance at the Court hearing regarding his/her incapacity at the Erie County Court House because he/she is incapable of comprehending the nature of the proceedings or participating in any meaningful way in the proceedings. In my professional opinion his/her physical or mental condition would be harmed by the transportation to the Court Room and by his/her attendance at the Court hearing.

I have based my opinion on a personal examination of the individual and my records pertaining to his/her condition.

I verify that the statements made in this affidavit are true and correct. I understand that false statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.

Signature of physician or licensed psychologist

(c) The emergency guardian of the estate shall account to the Court for all funds it receives and expends during its appointment as emergency guardian.

(d) At the hearing for the appointment of emergency guardian the provisions of PEF Code § 5518, regarding medical testimony, shall apply.

(c) *Additional Assets.* If, upon the filing of the Inventory, or any time thereafter, it appears that the value of the estate which has, or is about to, come into the possession and/or control of the guardian, exceeds the amount set forth on the original petition by \$10,000 or more, the guardian shall notify the Court which may determine whether additional security is necessary.

(d) *Testamentary Writings, Living Wills and Advance Health Care Directives.* The original and a copy of the will or other testamentary writing and any living will or advance health care directive of the incapacitated person shall be submitted to the Court for inspection as soon as possible following the hearing or, in any event, no later than the date set for the filing of the Inventory. PROPOSED RULEMAKING

GAME COMMISSION

[58 PA. CODE CHS. 143 AND 147]

Hunting and Furtaker Licenses and Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, proposed the following rulemaking:

Rescind Chapter 143, Subchapter M (relating to mentored youth hunting program license exemption) and add Chapter 147, Subchapter X (relating to mentored youth hunting program permit) to implement a permitting process to gain authorization to participate in the program.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 27, 2009, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until April 17, 2009.

1. Purpose and Authority

Since the successful implementation of the Mentored Youth Hunting Program (MYHP) in the fall of 2006, the Commission has been striving to find ways to improve this innovative new program. In October this past fall, the Commission first improved the program with the addition of the coyotes to the list of species that may be lawfully pursued by mentored youth. The Commission is now proposing to further improve the MYHP by implementing a permitting process to gain authorization to participate in the program. The use of a permitting process will provide a two-fold benefit by providing the Commission with an accurate identification and count of participants in the program as well as provide participants with official big game tags appropriate for the species that may be taken by mentored youth.

When the MYHP was in its initial development, the steering committee recommended that a permit or a junior license be required. Unfortunately, the Commission did not have access to a financially feasible administrative process to issue the permit in this manner at that time. Now, with the advent of the Pennsylvania Automated License System (PALS), there is an economic and efficient mechanism to facilitate issuance of the permits and their big game tags. While functionality of the MYHP in the field will remain largely the same, participants will now be required to apply for and receive a permit through the PALS system at any of its issuing agent locations across this Commonwealth prior to participating in the program. Permit application will require participants to supply the required identification information and pay a nominal fee of \$1, plus any transactional and issuing agent fees.

Section 2701(a) of the code (relating to license requirements) states that "Except in defense of person or property or pursuant to exemptions authorized by the commission for implementing a mentored youth hunting program, every person, prior to engaging in any of the

privileges granted by this title, shall first obtain the applicable license subject to any conditions or other requirements imposed by this title." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The rescission of Chapter 143, Subchapter M and creation of Chapter 147, Subchapter X was adopted under this authority.

2. Regulatory Requirements

The proposed rulemaking will rescind Chapter 143, Subchapter M and add Chapter 147, Subchapter X to implement a permitting process to gain authorization to participate in the MYHP.

3. Persons Affected

Persons wishing to hunt or trap within this Commonwealth under the MYHP will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking may result in some additional cost and paperwork associated with the implementation of the MYHP permit within the Commission's new PALS system. However, the Commission has determined that if there is any additional expense associated with this effort, it will not be substantial and would be absorbed by the current budget.

5. Effective Date

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

§ 147.802. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

Lawful hunting device—Any firearm or implement that is lawful to be possessed during the current season and used to harvest the particular species hunted.

Mentor—A licensed person, 21 years of age or older who is serving as a guide to a mentored youth while engaged in hunting or related activities.

Mentored youth—An unlicensed person, under 12 years of age who is accompanied by a mentor while engaged in hunting or related activities.

§ 147.804. General.

(i) Spring gobbler season only for turkey.

(d) A mentored youth's hunting eligibility is further constrained by applicable hunting seasons, daily limits, field possession limits and season limits provided in § 139.4 (relating to seasons and bag limits for the license year).

(e) A mentored youth is eligible to hunt during any special youth hunting seasons that apply to any species specified in subsection (6).

(f) A mentored youth shall tag and report all big game harvested in the manner provided in section 2323 of the act (relating to tagging and reporting big game kills).

§ 147.805. Safety.

(2) A mentor may not accompany more than one youth, including junior hunters, at any given time.

(3) A mentor and mentored youth may not collectively possess more than one lawful hunting device at any given time.

§ 147.806. Liability.

A mentor is responsible and accountable for all actions of the mentored youth occurring while engaged in mentored youth hunting activities. A mentor who causes or allows a mentored youth to engage in an unlawful act shall be punishable as the principal offender as provided in section 924 of the act (relating to liability for actions of others).

§ 147.807. Violations.

It is unlawful for a mentor or mentored youth to fail to comply with any of the requirements, standards or limitations of this subchapter. A person violating this subchapter shall, upon conviction, be sentenced to pay the fine prescribed in the act. [58 PA. CODE CH. 131]
Preliminary Provisions

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, proposed the following rulemaking:

Amend § 131.8 (relating to replacement costs for wildlife killed) to provide a more comprehensive list of applicable costs for all of the various wildlife species found within this Commonwealth.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 27, 2009, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until April 17, 2009.

1. *Purpose and Authority*

Section 925(i) of the Code specifically states that "In addition to the fines and costs incurred by the Commission for the species involved in the violation shall be assessed by the magisterial district judges in the amount as is fixed by the regulation of the Commission." Despite the fact that the Commission has set replacement cost values for bear, elk and threatened or endangered species, it has never done so for any other species. Without clear authority or guidance on assessing replacement costs for these other species, the courts rarely assess replacement costs for the same resulting in unanswered losses to the Commonwealth. In an effort to avoid these losses, the Commission is proposing to amend § 131.8 to provide a more comprehensive list of applicable costs for all of the various wildlife species found within this Commonwealth.

Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 131.8 were proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend § 131.8 to provide a more comprehensive list of applicable costs for all of the various wildlife species found within this Commonwealth.

3. *Persons Affected*

Persons unlawfully killing game or wildlife within this Commonwealth may be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

CHAPTER 131. PRELIMINARY PROVISIONS

§ 131.8. Replacement costs for wildlife killed.

[In addition to the penalties provided for the violation of any of the provisions of the act or this title, every person who unlawfully kills or possesses wildlife shall be assessed the following replacement costs:

(1) Each elk, bear or threatened or endangered bird or mammal not less than \$800 nor more than \$5,000.

(2) Each elk with at least six points on one antler, not less than \$5,000 nor more than \$10,000.]

Under section 925(i) of the act (relating to fines and penalties for violations), in addition to any fines and costs imposed for violations of the act and this title, any person who unlawfully kills or possesses wildlife may be assessed replacement costs according to the following minimum cost scale:

**[58 PA. CODE CH. 139]
Seasons and Bag Limits**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009 meeting, proposed the following rulemaking:

Amend § 139.4 (relating to seasons and bag limits for the license year) to provide updated seasons and bag limits for the 2009-2010 hunting license year.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 27, 2009, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until April 17, 2009.

1. Purpose and Authority

The Commission is required to set hunting and furtaking seasons and bag limits on an annual basis. Although the 2009-2010 seasons and daily season and possession limits are similar to those set in 2008-2009, the 2009-2010 seasons and bag limits have been amended to conform to current available scientific data, population and harvest records, field surveys and professional staff observations, as well as recommendations received from staff, organized sporting groups, members of the agricultural community and others interested in the wildlife resources of this Commonwealth. Some notable proposed changes for hunters next season will be closures to all pheasant hunting in any area designated as a wild pheasant area within any WMU, (WMU) reduced wild turkey hunting opportunities in WMUs 2D, 5C and 5D, expanded wild turkey hunting opportunities in WMU 2F, and finally expanded flintlock muzzleloader deer hunting opportunities in WMUs 2B, 5C and 5D. As the next license year is fast approaching, the Commission is proposing to amend § 139.4 to provide updated seasons and bag limits for the 2009-2010 license year.

Section 322(c)(1) of the code (relating to powers and duties of the commission) specifically empowers the Commission to “fix seasons, daily shooting or taking hours,

and any modification thereof, and daily, season and possession limits for any species of game or wildlife.” Section 2102(b)(1) of the code authorizes the Commission to “promulgate regulations relating to seasons and bag limits for hunting or furtaking . . .” The amendment to § 139.4 was proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 139.4 by establishing when and where it is lawful to hunt and trap various game species and also place limits on the numbers that can be legally taken during the 2009-2010 license year.

3. Persons Affected

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2009-2010 license year will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in any additional cost or paperwork.

5. Effective Date

The effective dates of the proposed rulemaking are July 1, 2009, to June 30, 2010.

6. Contact Person

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

CARL G. ROE,
Executive Director

Fiscal Note: 48-278. No fiscal impact; (8) recommends adoption.

(Editor’s Note: As part of this proposed rulemaking, the Commission is proposing to delete the text of § 139.4 which appears in 58 Pa. Code pages 139-3—139-14, serial pages (335309)—(335318) and (341021) and (341022) and replace it with the following text.)

DEPARTMENT OF AGRICULTURE

Order of Quarantine; Tuberculosis Testing Requirements for Importation of Cattle, Bison, Goats or Camelids

Recitals

A. Tuberculosis is an infectious disease of animals. It can infect a variety of animal species, including cattle, water buffalo, bison, elk, deer, pigs, elephants, camelids, nonhuman primates, goats, sheep, dogs, cats, equines and humans.

B. The Domestic Animal Law (3 Pa.C.S.A. § 2321(38)) designates Tuberculosis a "dangerous transmissible disease."

C. The Department of Agriculture (Department) has broad authority under the Domestic Animal Law to regulate the keeping and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases.

D. Tuberculosis has infected cattle and deer in four states including California, Michigan, Minnesota and New Mexico. These states have lost their "Accredited-Free" status that had been assigned them by the United States Department of Agriculture (USDA). States that lose this status are subject to more rigorous testing requirements; and the market for Tuberculosis-susceptible animals (and the products of these animals) originating from these states is limited.

E. Tuberculosis can be transmitted by exposure of infected animals to noninfected animals. The presence of Tuberculosis in wild animals threatens the domestic animal population.

F. Tuberculosis is of particular concern to this Commonwealth's animal industry, in that its presence would severely limit the market for Tuberculosis-susceptible animals originating from this Commonwealth, and for Pennsylvania-produced meat, milk and milk products. In addition, Tuberculosis has the potential to be transmitted to humans under some circumstances.

G. There is no economical treatment or vaccine for Tuberculosis. There are live animal tests available for Tuberculosis.

H. Although the Department has current regulations that impose adequate importation testing and documentation requirements on most Tuberculosis-susceptible species, cattle, bison, camelid and goat species are not addressed (or are not adequately addressed) in these requirements—making it necessary for the Department to establish these importation and documentation requirements by a Quarantine Order.

Order

The Department of Agriculture enters an Interstate Quarantine Order, incorporating the foregoing recitals. This order is entered under authority of the Domestic Animal Law and establishes the following restrictions and conditions:

1. No animal of the cattle or bison species shall be imported into this Commonwealth unless it:

a. originates from a state or zone that is designated "Accredited Free" with respect to Tuberculosis by the USDA in accordance with that agency's regulations and Uniform Methods and Rules; or

b. originates from a state or zone that is designated "Modified Accredited Advanced" with respect to Tuberculosis by USDA and—without regard to the age of the animal—it has been tested for Tuberculosis within 60 days preceding importation and been classified test-negative for Tuberculosis; or

c. originates from a state or zone that is designated "Modified Accredited" with respect to Tuberculosis by USDA and;

i. all animals in the herd that are 12 months of age and older have been tested for the presence of Tuberculosis within 12 months preceding importation and have been classified test-negative for Tuberculosis; and

ii. the animal (regardless of its age) has—within 60 days preceding importation and at least 60 days after the whole herd test was completed—been tested for the presence of Tuberculosis and been classified test-negative for Tuberculosis; or

d. is imported directly to a slaughter facility inspected by the United States Department of Agriculture Food Safety Inspection Service, for slaughter within 10 days of importation.

2. No animal of the goat species shall be imported into this Commonwealth unless it:

a. originates from a state that is designated "Accredited—Free" with respect to Tuberculosis by USDA; or

b. originates from a state or zone that is designated "Modified Accredited Advanced" with respect to Tuberculosis by USDA and—without regard to the age of the animal—it has been tested for the presence of Tuberculosis within 60 days preceding importation and been classified test-negative for Tuberculosis; or

c. originates from a state or zone that is designated "Modified Accredited" with respect to Tuberculosis by USDA and:

i. all animals in the herd that are 12 months of age and older have been tested for the presence of Tuberculosis within 12 months preceding importation and been classified test-negative for Tuberculosis; and

ii. the animal (regardless of its age) has within 60 days preceding importation and at least 60 days after the whole herd test was completed been tested for the presence of Tuberculosis and been classified test-negative for Tuberculosis; or

d. is imported directly to a slaughter facility inspected by the United States Department of Agriculture Food Safety Inspection Service, for slaughter within 10 days of importation.

3. No animal of the camelid species shall be imported into this Commonwealth unless it:

a. originates from a state that is designated Accredited-Free" with respect to tuberculosis by the USDA in accordance with that agency's regulations and Uniform Methods and Rules; or

b. originates from a state or zone that is designated "Modified Accredited Advanced" with respect to Tuberculosis by USDA and—without regard to the age of the animal—it has been tested for the presence of tuberculosis within 60 days preceding importation and been classified test-negative for Tuberculosis; or

c. originates from a state or zone that is designated "Modified Accredited" with respect to Tuberculosis by USDA and:

i. all animals in the herd that are 12 months of age and older have been tested for the presence of Tuberculosis within 12 months preceding importation and been classified test-negative for Tuberculosis; and

ii. the animal (regardless of its age) has within 60 days preceding importation and at least 60 days after the entire herd test was completed been tested for the presence of Tuberculosis and been classified test-negative for Tuberculosis; or

d. is imported directly to a slaughter facility inspected by the United States Department of Agriculture Food Safety Inspection Service, for slaughter within 10 days of importation.

4. No animal of the cattle, bison, goat or camelid species shall be imported into this Commonwealth if it has been exposed to Tuberculosis test-positive animals or animals that have clinical signs consistent with Tuberculosis.

5. The requirements of paragraphs (1)—(3) shall not apply to cattle, bison, goats or camelids that are being transported through this Commonwealth to a destination outside this Commonwealth, without being exposed to other Tuberculosis-susceptible animals.

6. This Order supplants any inconsistent regulation of the Department on the same subject matter to the extent of the inconsistency.

7. Any person violating the requirements of this Order shall be subject to criminal prosecution and/or civil penalties of up to \$10,000 per violation.

8. This Order shall not be construed as limiting the Department's authority to establish additional quarantine or testing requirements relating to Tuberculosis.

9. This Order is immediately effective on March 28, 2009, and shall remain in effect unless rescinded or modified by subsequent order.

Secretary

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of

the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

This is a State-only facility.

The Department of Environment Protection's (Department) review of the information contained in the application submitted by GTP indicates that the calciner controlled by the proposed fabric collector will comply with all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the fugitive air contaminant emission requirement of 25 Pa. Based upon this finding, the Department proposes to issue a plan approval for the installation of the fabric collector to control PM emissions from the calciner. The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

1. Source ID P161 is a 24" Harper, model RFQ7181, Calciner A, fired on natural gas (1.8 mmBtu/hr). The air contaminant emissions from Source ID P161 during operation shall be controlled by a CPE Filters, model 36-MS-30-SS, fabric collector (ID C161A) and a company manufactured packed bed ammonia scrubber (ID C161B).

2. No person may permit the emission into the outdoor atmosphere of PM from the exhaust of ID C161B associated with Source ID P161 in a manner that the concentration in the effluent gas exceeds 0.04 gpd standard cubic foot.

3. Under BAT requirements of 25 Pa. Code §§ 127.1 and 127.12, cleaning (initiated by the shaker) of the CPE Filters, model 36-MS-30-SS, fabric collector (ID C161A) shall only occur when the associated Calciner A (Source ID P161) is between lots.

4. Under BAT requirements of 25 Pa. Code §§ 127.1 and 127.12, the ammonia scrubber (ID C161B) associated with Calciner A (Source ID P161) shall only utilize water on a once through basis as a scrubbing medium and shall use it as a flow rate of at least 50 gph.

5. Under BAT requirements of 25 Pa. Code §§ 127.1 and 127.12, the CPE Filters, model 36-MS-30-SS, fabric collector (ID C161A) shall be equipped with monitors or gauges that will accurately monitor the pressure drop across the respective air cleaning devices. The company shall record the readings from these monitors at least once per shift during anytime the respective sources are being operated during the respective shift.

The pressure drop across the collector and absolute filter records shall be retained on site for a minimum of 5 years.

6. Under BAT requirements of 25 Pa. Code §§ 127.1 and 127.12, the scrubbing solution, scrubber cooling water and heat exchanger water flow rates from the ammonia scrubber (ID C161B) and heat exchanger associated with Calciner A (Source ID P161) shall be monitored using a monitor or gauge that will accurately monitor the respective flow rates. The company shall record the readings from these monitors at least once per shift during any time the respective sources are operating during the respective shift.

7. The company shall keep on hand sufficient quantity of spare fabric collector bags and filters for the fabric collector (ID C161A) with Source ID P161 to be able to immediately replace any bags requiring replacement due to deterioration resulting from routine operation of the source and fabric collector.

8. The Department reserves the right to establish a pressure drop range for the CPE Filters, model 36-MS-30-SS, fabric collector (ID C161A) upon the issuance of an operating permit.

9. Conditions contained in operating permit 08-399-050A remain in effect unless superseded or amended by conditions contained herein. If there is a conflict between a condition and requirement contained in this plan approval and a condition contained in operating permit 08-399-050A, the permittee shall comply with the condition or requirement contained in this plan approval rather than the conflicting condition or requirement contained in operating permit 08-399-050A.

A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at (570) 327-3693. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Manager, Facilities Permitting Section, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, (570) 327-0512.

The Department of Environmental Protection's (Department) review of the information contained in the application submitted by Columbia indicates that the engine will

comply with all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including BAT requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department intends to issue a plan approval for the construction of the new Caterpillar G3512LE engine (Source ID P109, Engine No. 6). Additionally, if the Department determines that the respective engine is operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into Title V operating permit 18-00001 by means of an administrative amendment under 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam

Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in

Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as

provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published

in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. The facility's existing treatment process will be converted to a tertiary treatment process to meet the more stringent total nitrogen and total phosphorus effluent discharge and loading limits. The proposed project will not increase the NPDES permitted discharge flow from the Authority's wastewater treatment facility. The proposed project also includes the rehabilitation of the Authority's four existing pumping stations, commonly known as the Gashouse, Locust Street, Diamond Avenue and Cranberry Pumping Stations. Nutrient and Sediment Reduction Credit Trading Program

The Department of Environmental Protection (Department) provides notice of the following actions regarding the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These actions were taken in relation to the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID No. 392-0900-001) (see 36 Pa.B. 7999 (December 30, 2006)). The Policy called for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

The actions described in this notice relate to: (1) submitted proposals; (2) approved proposals; and (3) registered credits, through March 13, 2009.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed. First, the credit or offset proposal must be approved, second, it must be verified and third, it must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of proposed or implemented activities to generate credits (in some cases the person generating the credits is not permitted to transfer them to another person, in which case they are called "offsets"). Certifications are based on at least: (1) a credit or offset proposal to be submitted describing the qualifying activities that will reduce the nutrient loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying nutrient reduction activities have taken place. All of the proposals, certifications and registrations described in this Notice apply to the Chesapeake Bay Watershed.

Once the credits or offsets are certified, they must be verified. Verification means implementation of the verification plan contained in a certified credit or offset proposal as required by the Department. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying nutrient reduction activities have taken place for the applicable compliance year.

The credits or offsets also need to be registered by the Department before they can be used in an NPDES permit. Registration occurs only after credits or offsets have been certified and verified, and a trading contract for credits has been submitted to the Department. For the Chesapeake Bay Watershed, the Department will register credits on an annual basis for use during the compliance year in which the qualifying nutrient reduction activities have taken place and will provide such credits with an annual registry number for reporting and tracking purposes.

The Department has received 66 proposals that have been submitted for review to generate nutrient reduction credits in the Chesapeake Bay Watershed. Of those, 44 have been approved, two are in review, one has been withdrawn and the remaining need additional clarification prior to certification.

Proposals under Review

The following proposals are being reviewed by the Department. Comments will be received on these projects for 30 days.

1. Lancaster County Conservation District

Proposal Description

DEPARTMENT OF PUBLIC WELFARE

Additional Class of Disproportionate Share Payments for Critical Access Hospitals and Qualifying Rural Hospitals

The Department of Public Welfare (Department) is announcing its intent to establish an additional class of disproportionate share hospital (DSH) payments for qualifying hospitals based on the designation as a Critical Access Hospital (CAH) or as a qualifying rural hospital.

The Commonwealth is dedicated to ensuring the availability of quality care to recipients in rural areas across this Commonwealth. To maintain the system for rural health services, the Department will establish this additional class of DSH payments for CAHs and qualifying rural hospitals.

The Department will consider hospitals that have been designated as a CAH to be eligible for this additional class of DSH payments. CAHs are defined as any hospital that has qualified under section 1861(mm)(1) of the Social Security Act (42 U.S.C. § 1395x(mm)(1)) (relating to definitions) as a "critical access hospital" under Medicare. The Department will distribute payments to CAHs to reimburse at 101% of the allowable inpatient and outpatient Medical Assistance (MA) costs for services provided to eligible MA recipients, after deducting all other MA payments, including payments for services rendered, DSH payments or other supplemental payments.

The Department will distribute any remaining program funds to rural hospitals that are an acute care general hospital that is licensed as a hospital under the Health Care Facilities Act (35 P. S. §§ 448.101—448.904b), and meets all of the following:

- (a) Located in a county of the 6th, 7th or 8th class that has no more than two MA-enrolled acute care general hospitals.
- (b) Located in a county that has greater than 17% of its population that are eligible for MA or has greater than 10,000 persons eligible for MA.
- (c) Has no more than 200 licensed and staffed beds.
- (d) Does not qualify as a CAH under section 1861(mm)(1) of the Social Security Act (42 U.S.C. § 1395x(mm)(1)).

The Department will distribute any remaining funds to qualifying rural hospitals as follows:

- (a) 50% will be shared equally among the eligible hospitals.
- (b) 50% will be distributed based on each hospital's percent of total MA Fee-for-Service discharges compared to all eligible hospitals total MA Fee-for-Service discharges.

Fiscal Impact

The Fiscal Year 2008-2009 fiscal impact, as a result of this additional class of DSH payments is \$10.748 million (\$4.888 million in State General Funds and \$5.860 million in Federal Funds upon approval by the Centers for Medicare and Medicaid Services).

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public

Welfare, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Payment for State Veterans' Homes; Notice of Change in Methods and Standards of Setting Payment Rates

The purpose of this notice is to announce that the Department of Public Welfare (Department) is proposing to amend the Commonwealth's Title XIX State Plan provisions to change the methods and standards for payments to State veterans' homes for Medical Assistance (MA) nursing facility services beginning April 1, 2009.

Currently, the Department determines the MA allowable costs and MA payment rates for State veterans' homes in accordance with the same provisions in the Commonwealth's approved State Plan that apply to State aftercare facilities operated by the Department. The Department receives Federal matching funds to cover a portion of the MA payments made to State veterans' homes.

The Department intends to establish a separate payment methodology for State veterans' homes effective April 1, 2009. This methodology will recognize the costs incurred by State veterans' homes to provide nursing facility services to MA eligible residents as MA Program expenditures, so long as the costs are allowable under the Department's approved State Plan and the costs are reported and certified by the State veterans' home in a form and manner specified by the Department.

To identify allowable costs, State veterans' homes will use the Medicare Provider Reimbursement Manual (CMS Pub. 15-1). The Department may specify additional allowable costs for state veterans' homes that are not allowable under the CMS Pub. 15-1, but are allowable in Attachment 4.19D, Part Ia, of the Commonwealth's State Plan.

After the close of the State veterans' home cost report period, each State veterans' home will submit a Pennsylvania specific cost report in accordance with cost reporting instructions. The State veterans' home's Pennsylvania specific cost report will be audited and the facility's audited MA allowable costs will be certified by the Department as MA allowable expenditures to the Federal

Centers for Medicare & Medicaid Services (CMS) as qualifying for Federal matching funds. The Department will compare each State veterans' home's total audited allowable MA rate year costs with each State veterans' home's interim MA payments for the rate year and reconcile the costs and payments based on the method agreed upon by the Department and the State veterans' homes.

To authorize this payment methodology for State veterans' homes the Department will submit a State Plan Amendment (SPA) to the CMS. Implementation of the proposed changes is contingent upon approval of the SPA by CMS.

Fiscal Impact

No fiscal impact will result from the establishment of the revised payment methodology for State veterans' homes.

Payments to County Nursing Facilities; Final Rates for State Fiscal Year 2008-2009

The purpose of this notice is to announce the Department of Public Welfare's (Department) final annual rates for State Fiscal Year (FY) 2008-2009, for county nursing facilities that participate in the Medical Assistance (MA) Program.

The rates are calculated in accordance with 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting). As stated at 55 Pa. Code § 1189.91(b) (relating to per diem rates for county nursing facilities), for each rate year beginning on or after July 1, 2007, the per diem rate paid to a county nursing facility for a rate year will be the facility's prior rate year per diem rate multiplied by a budget adjustment factor (BAF).

As required by § 1189.91(d), the Department followed the formula set forth in the Commonwealth's approved State Plan to determine that the BAF for FY 2008-2009 for county nursing facilities is 1.00. The Federal Centers for Medicare and Medicaid Services (CMS) approved State Plan Amendment 08-008 on December 12, 2008.

SPA 08-008 states that for rate setting year 2008-2009, the BAF shall limit the estimated aggregate increase in the Statewide day-weighted average payment rate for MA nursing facility services for county and nonpublic nursing facilities so that the aggregate percentage rate of increase for the period that begins July 1, 2005, and ends on June 30, 2009, is limited to the amount permitted by the funds

appropriated by the General Appropriations Act of 2008 (Act 38A). The formula for this BAF as it applies to county nursing facilities is $BAF=1.00+0.01$.

The final FY 2008-2009 annual per diem rates are available on the web site for the Department of Public Welfare at: www.dpw.state.pa.us/PartnersProviders/LongTermLiving/ and at local county assistance offices throughout the Commonwealth or by contacting Gail Weidman, Office of Long-Term Living at (717) 705-3705.

Public Process

The Department published a notice in the *Pennsylvania Bulletin* announcing its proposed county per diem payment rates for FY 2008-2009 at 38 Pa.B. 6342 (November 15, 2008) and invited interested persons to submit comments. No comments were received by the Department in response to the proposed rate notice.

Appeals

Following publication of this notice, the Department will send rate letters to each county MA nursing facility to notify the facilities of their final rates for FY 2008-2009. The rate letter will also advise the facility that it may file an administrative appeal if the facility believes that the Department made any errors or otherwise disagrees with its final rates for FY 2008-2009. A provider's appeal must be in writing and filed with the Department's Bureau of Hearings and Appeals, P. O. Box 2675, Harrisburg, PA 17105, within 33 days of the date of the Department's letter notifying the facility of its final rates. Facilities should refer to 67 Pa.C.S. Chapter 11 (relating to medical assistance hearings and appeals), and to the Department's regulations at 55 Pa. Code Chapter 41 (relating to medical assistance provider appeal procedures), for more detail regarding their appeal rights and the requirements related to their written appeals.

Fiscal Impact

These changes will result in an estimated cost of \$7.775 million (\$3.545 million in State funds) for county nursing facilities in 2008-2009 compared to the final April 1, 2008 rates. Funding for these changes has been included in the MA Long-Term Care appropriation.

Public Comment

Interested persons are invited to submit written comments regarding the final rates for FY 2008-2009 to the Department at the following address: Department of Public Welfare, Office of Long-Term Living, Attention: Gail Weidman, P. O. Box 2675, Harrisburg, PA 17105. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Payments to Nonpublic Nursing Facilities; Final Rates for State Fiscal Year 2008-2009

The purpose of this notice is to announce the Department of Public Welfare's (Department) final annual case-mix per diem payment rates for State Fiscal Year (FY) 2008-2009 for nonpublic nursing facilities that participate in the Medical Assistance (MA) Program.

As required by the case-mix payment methodology set forth in 55 Pa. Code Chapter 1187, Subchapter G (relating to rate setting), the Department annually sets a new MA per diem rate for each nonpublic nursing facility. Each facility's annual per diem rate is comprised of four components: resident care; other resident related; administrative; and capital.

The act of July 4, 2008 (P. L. 31, No. 44) (Act 44), among other things, directed the Department for FY 2008-2009 to apply a budget adjustment factor (BAF) to nonpublic nursing facility payment rates and continue to include the costs incurred by county nursing facilities in the rate-setting database used for the purpose of calculating nonpublic nursing facility payment rates.

The Federal Centers for Medicare and Medicaid Services (CMS) approved State Plan Amendment (SPA) 08-007 on December 12, 2008. SPA 08-007 states that the BAF for rate setting year 2008-2009 shall limit the estimated aggregate increase in the Statewide day-weighted average payment rate for MA nursing facility services for county and nonpublic nursing facilities so that the aggregate percentage rate of increase for the period that begins July 1, 2005, and ends on June 30, 2009, is limited to the amount permitted by the funds appropriated by the General Appropriations Act of 2008 (Act 38A). For the rate setting year beginning July 1, 2008, and ending June 30, 2009, the BAF for nonpublic nursing facilities is equal to .90891.

CMS approved SPA 08-015 on October 30, 2008. SPA 08-015 authorizes the Department to continue the inclusion of county nursing facility costs in the process of computing the peer group prices used to set per diem rates for nonpublic nursing facilities for FY 2008-2009.

The final FY 2008-2009 annual per diem rates are available on the web site for the Department of Public Welfare at www.dpw.state.pa.us/PartnersProviders/LongTermLiving/. As they become available, the adjusted quarterly rates for the October, January and April quarters of FY 2008-2009 will be accessible on the Department's web site, at local county assistance offices throughout this Commonwealth or by contacting Gail Weidman, Office of Long-Term Living at (717) 705-3705.

Public Process

The Department published a notice in the *Pennsylvania Bulletin* announcing its proposed case-mix per diem payment rates for FY 2008-2009 at 38 Pa.B. 6343 (November 15, 2008) and invited interested persons to submit comments. No comments were received by the Department in response to the proposed rate notice.

Appeals

Following publication of this notice, the Department will send rate letters to each MA nursing facility to notify the facilities of their final rates for FY 2008-2009. The rate letter will also advise each facility that it may file an administrative appeal if the facility believes that the Department made any errors or otherwise disagrees with its final rates for FY 2008-2009. A provider's appeal must be in writing and filed with the Department's Bureau of Hearings and Appeals, P. O. Box 2675, Harrisburg, PA 17105, within 33 days of the date of the Department's letter notifying the facility of its final rates. Facilities should refer to 67 Pa.C.S. Chapter 11 (relating to medical assistance hearings and appeals), and to the Department's regulations at 55 Pa. Code Chapter 41 (relating to medical assistance provider appeal procedures), for more detail regarding their appeal rights and the requirements related to their written appeals.

Fiscal Impact

The change in payment rates, effective July 1, 2008, will result in an estimated cost of \$32.302 million (\$14.726 million in State funds) for nonpublic nursing facilities in 2008-2009 compared to the final April 1, 2008 rates. Funding for these changes has been included in the MA Long-Term Care appropriation.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Long-Term Living, Attention Gail Weidman, P. O.
