READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Proposed Modifications to Rules 312 and 800

The Juvenile Court Procedural Rules Committee is planning to recommend to the Supreme Court of Pennsylvania that the modification of Rules 312 and 800 be adopted and prescribed. The proposed modified Rule 312 clarifies that informal adjustments may only occur prior to the filing of a petition. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the intent of this rule. Note that the Committee's Reports should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the Explanatory Reports.

We request that interested persons submit suggestions, comments or objections concerning this proposal to the Committee through counsel,

Annex A

TITLE 237. JUVENILE RULES

PART I. RULES

Subpart A. DELINQUENCY MATTERS

CHAPTER 3. PRE-ADJUDICATORY PROCEDURES

PART B. INTAKE AND INFORMAL ADJUSTMENT

Rule 312. Informal Adjustment.

A. *Participation.* At any time prior to the filing of a petition, the juvenile probation officer may informally adjust the allegation(s) if it appears:

1) an adjudication would not be in the best interest of the public and the juvenile;

2) the juvenile and the juvenile's guardian consent to informal adjustment with knowledge that consent is not obligatory; and

3) the admitted facts bring the case within the jurisdiction of the court.

B. *Completion.*

1) If the juvenile successfully completes the informal adjustment, the case shall be dismissed and prosecution is barred.

2) If the juvenile does not successfully complete the informal adjustment, a petition shall be filed.

Comment

[**Informal**] Pursuant to paragraph (A), informal adjustments may not occur after the filing of a petition. **See Rule 800(12), which suspends 42 Pa.C.S. § 6323(a) only to the extent that it conflicts with this rule. See also Commonwealth v. J.H.B., 760 A.2d 27 (Pa. Super. Ct. 2000). [See 42 Pa.C.S. § 6323(a).]**

In Com. v. C.L., 938 A.2d. 489 (Pa. Super. Ct. 2008), the Superior Court in dictum discusses whether informal adjustments may occur after the filing of the petition. Permitting an informal adjustment after the filing of a petition is inconsistent with this rule; therefore, Com. v. C.L., supra, is of no precedential value on this issue and is superseded by the suspension of 42 Pa.C.S. § 6323(a)(2) in Rule 800(12).

The juvenile probation officer or other agencies may give "counsel and advice" as to the informal adjustment. See 42 Pa.C.S. § 6323(b). "Counsel and advice" may include referral to a social service agency or other conditions as agreed to by the juvenile probation officer and the juvenile.

A juvenile's participation in an informal adjustment may not exceed six months, unless extended by order of the court for an additional period not to exceed three months. See 42 Pa.C.S. § 6323(c). Any incriminating statements made by the juvenile to the juvenile probation officer and in the discussions or conferences incident thereto are not to be used against the juvenile over objection in any criminal proceeding or hearing under the Juvenile Act. See 42 Pa.C.S. § 6323(e).

Prior to informally adjusting the written allegation, the juvenile probation officer is to give the victim an opportunity to comment. In addition, the victim is to be notified of the final outcome of the hearing. See Victim's Bill of Rights, 18 P. S. § 11.201 *et seq.*

If a petition is filed because the juvenile has not successfully completed the requirements of an informal adjustment, the procedures of Rule 330 are to be followed.

Official Note: Rule 312 adopted April 1, 2005, effective October 1, 2005.

Committee Explanatory Reports:

Final Report explaining the provisions of Rule 312 published with the Court's Order at 35 Pa.B. 2214 (April 16, 2005).

CHAPTER 8. SUSPENSIONS

Rule 800. Suspensions of Acts of Assembly.

This rule provides for the suspension of the following Acts of Assembly that apply to delinquency proceedings only:

1) The Act of November 21, 1990, P. L. 588, No. 138, § 1, 42 Pa.C.S. § 8934, which authorizes the sealing of search warrant affidavits, and which is implemented by Pa.R.Crim.P. Rule 211, through Pa.R.J.C.P. Rule 105 is suspended only insofar as the Act is inconsistent with Pa.R.Crim.P. Rules 205, 206 and 211.

2) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6335(c), which provides for the issuance of arrest warrants if the juvenile may abscond or may not attend or be brought to a hearing, is suspended only insofar as the Act is inconsistent with Rules 124 and 140, which requires a summoned person to fail to appear and the court to find that sufficient notice was given.

3) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6336(c), which provides that if a proceeding is not recorded, full minutes shall be kept by the court, is suspended only insofar as the Act is inconsistent with Rule 127(A), which requires all proceedings to be recorded, except for detention hearings.

4) The Public Defender Act, Act of December 2, 1968, P. L. 1144, No. 358, § 1 *et seq.* as amended through Act of December 10, 1974, P. L. 830, No. 277, § 1, 16 P. S. 9960.1 *et seq.*, which requires the Public Defender to represent all juveniles who for lack of sufficient funds are unable to employ counsel is suspended only insofar as the Act is inconsistent with Rules 150 and 151, which requires separate counsel if there is a conflict of interest.

5) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6337, which provides that counsel must be provided unless the guardian is present and waives counsel for the juvenile, is suspended only insofar as the Act is inconsistent with Rule 152, which does not allow a guardian to waive the juvenile's right to counsel.

6) The Act of July 9, 1976, P. Comment

The authority for suspension of Acts of Assembly is granted to the Supreme Court by Article V § 10(c) of the Pennsylvania Constitution. See also Rule 102.

Official Note: Rule 800 adopted April 1, 2005, effective October 1, 2005; Amended December 30, 2005, effective immediately, amended March 23, 2007, effective August 1, 2007, amended February 26, 2008, effective June 1, 2008.

Committee Explanatory Reports:

Final Report explaining the amendments to Rule 800 published with the Court's Order at 36 Pa.B. 187 (January 14, 2006).

Final Report explaining the amendments to Rule 800 published with the Court's Order at 37 Pa.B. 1485 (April 7, 2007).

Final Report explaining the amendments to Rule 800 published with the Court's Order at 38 Pa.B. 1142 (March 8, 2008).

Final Report explaining the amendments to Rule 800 published with the Court's Order at 39 Pa.B. 1619 (April 4, 2009).

EXPLANATORY REPORT

The addition to the *Comment* of Rule 312 and the amendment of Rule 800(12) clarifies that an informal adjustment may only occur prior to the filing of a petition. An informal adjustment is a diversionary process used to dispose of the cases that should not come before the court. If a case should go to court, a petition is filed and the normal procedures of a case will follow.

As drafted, the Juvenile Act provides that a delinquent child may be referred for an informal adjustment by a juvenile probation officer. See 42 Pa.C.S. § 6323(a)(2). A child is not delinquent until there has been an adjudication of delinquency, as reiterated in *Com. v. C.L.*, 938 A.2d 489 (Pa. Super. Ct. 2008). If a child is not delinquent until after the adjudication of delinquency, then an informal adjustment would occur after that determination. However, this is not the intent of the diversionary process or an informal adjustment.

The Juvenile Act at 42 Pa.C.S. § 6323(a)(2) is being suspended to clarify that **alleged** delinquents may be referred for an informal adjustment. Once a petition is filed, informal adjustment is precluded as provided in Rule 312. Because of this suspension, the holding in *Com. v. C.L.*, supra, is superseded by the rule addition. See Rule 800(12).

DELAWARE RIVER BASIN COMMISSION

Meeting and Public Hearing

The Delaware River Basin Commission (Commission) will hold a meeting and public hearing on Wednesday, July 15, 2009. The hearing will be part of the Commission's regular business meeting, which is open to the public. The meeting will be held at the Northampton Community College's Fowler Family Southside Center, 511 East 3rd Street, 6th Floor, Room 605, Bethlehem, PA.

No morning conference session is planned in connection with this meeting. The subjects of the public hearing to be held during the 1 p.m. business meeting include the dockets listed as follows:

1. *Borough of Ambler D-75-16 CP-3*. An application for the renewal of the Ambler Borough Wastewater Treatment Plant (WWTP). The existing WWTP will continue to discharge treated effluent at an annual average flow of 6.5 million gallons per day (mgd) and a maximum monthly flow of 8.0 mgd. The WWTP discharges to the Wissahickon Creek, a tributary to the Schuylkill River. The facility is located in Upper Dublin Township, Montgomery County, PA in the Southeastern Pennsylvania Ground Water Protected Area.

2. *Moon Nurseries D-88-28-3*. An application for the renewal of a groundwater withdrawal project to continue the withdrawal of 8 million gallons per thirty days (mg/30 days) to supply the applicant's irrigation supply from existing Well No. 1 in the Stockton Formation. The project is located in the Core Creek Watershed in Lower Makefield Township, Bucks County, PA within the Southeastern Pennsylvania Ground Water Protected Area.

3. *Solvay Solexis D-69-84-3*. An application to renew the withdrawal of water from two existing groundwater wells (Wells Nos. 417 and 418) and four existing groundwater remediation wells (Wells Nos. RW-1, RW-2, RW-3 and RW-4 will increase from 48 gallons per minute (gpm), 48 gpm, 141 gpm, and 98 gpm to 60 gpm, 60 gpm, 250 gpm and 250 gpm, respectively. The increased pump capacities for the remediation wells accompany an increase in the 30 day average withdrawal from 14.91 million (mg) to 18.84 mg for the four remediation wells. However, the overall 30 day average and yearly withdrawals will decrease from 74.91 mg and 476.68 mg to 60 mg and 301.13 mg, respectively. The project wells are located in the Upper and Lower Potomac-Raritan-Magothy (PRM) Formation, in the Delaware River Watershed, in West Deptford Township, Gloucester County, NJ.

4. *Waste Management Disposal Services of Pennsylvania, Inc. D-88-54-5*. An application to replace a 0.1 mgd landfill leachate treatment plant (LTP) with a 0.3 mgd treatment facility, which will discharge to the tidal Delaware River by means of a new outfall in Water Quality Zone 2 at River Mile 125.64. The LTP serves the GROWS and Tullytown Sanitary Landfills and is located off Bordertown Road in Falls Township, Bucks County, PA.

5. *BP Oil Company D-91-32-5*. An application for renewal of a groundwater withdrawal project that will decrease the total monthly average and yearly withdrawals of 30 mg/30 days and 365 million gallons per year (mpy), respectively, to 21.6 mg/30 days and 207 mgy, respectively. Withdrawals will occur from existing Wells Nos. R-3, MW-R5, R-4A, R-5A, R-6A, R-8, R-9, R-10, R-11 and R-12. Additionally, this docket will approve the renewal of a discharge of treated remediation water from the docket holder's 1.0 mgd groundwater treatment plant (GWTP). The project wells are located in the Mantua Creek and the Delaware River Watersheds within the PRM Formation, in Paulsboro Borough, Gloucester County, NJ. The contaminated groundwater is treated and discharged to the Delaware River, approximately 2,000 feet downstream of the Mantua Creek confluence, by means of Outfall No. 003A located at River Mile 89.3 in Commission Basin Water Quality Zone 4.

6. *Shoemakersville D-93-74 CP-2*. The purpose of this project is to recognize the increase in capacity of the Shoemakersville WWTP's hydraulic load from 0.60 mgd to 0.75 mgd. Additionally, a TDS determination was submitted, requesting approval of monthly average and instantaneous maximum concentration values of 3,300 mg/l and 4,000 mg/l, respectively. The project also includes the transfer of ownership from Upper Dublin Township to the BCWSA and the rerate of the average annual daily flow rate of the existing WWTP from 0.85 mgd to 1.10 mgd. The WWTP will continue to discharge to Pine Run, a tributary to the Wissahickon Creek, which is a tributary to the Schuylkill River. The facility is located in Upper Dublin Township, Montgomery County, PA.

8. *Richland Township Water Authority D-96-44 CP-3*. An application for approval of a ground water withdrawal project to supply up to 15 mg/30 days of water to the applicant's public water supply from new Well No. QCS-1 and to increase the maximum combined withdrawal from all wells from 31.55 mg/30 days to 46.55 mg/30 days. The project is located in the Brunswick Formation in the Morgan Creek Watershed in Richland Township, Bucks County, PA, in the Southeastern Pennsylvania Ground Water Protected Area. This withdrawal project is located within the drainage area to the section of the nontidal Delaware River known as the Lower Delaware, which is designated as Special Protection Waters.

9. *Borough of Portland D-2003-9 CP-3*. An application to modify the service area of the existing 0.105 mgd Portland WWTP. The project proposes to add the 12.4-acre "Gary Gray parcel" to the Portland Industrial Park. The Gary Gray parcel, located in Upper Mount Bethel Township, will be developed with the Voltaix Land Development project. This project does not propose an increase in allocation of flow due to the development, and all wastewater generated by the development discharged to the WWTP for treatment will be sanitary waste. The

facility will discharge directly to the section of the nontidal Delaware River known as the Lower Delaware, which is designated as Special Protection Waters. The project is located in the Borough of Portland, Northampton County, PA.

10. *Penn Estate Utilities, Inc. D-2003-36 CP-2.* An application for approval of a groundwater withdrawal project to supply up to 1.642 mg/30 days of water to the applicant's public water supply system from new Well No. 8 and to increase the existing withdrawal from all wells from 10.80 mg/30 days to 12.025 mg/30 days. The increased allocation is requested to meet current needs in service area demand. The project is located in the Trimmers Rock Formation in the Brodhead Creek Watershed in Stroud Township, Monroe County, PA. The site is located within the drainage area to the section of the nontidal Delaware River known as the Middle Delaware, which is designated as Special Protection Waters.

11. *Diamond Sand and Gravel Inc. D-2007-27-2.* An application for a docket modification to include surface water withdrawals from the onsite washing/settling pond. Water withdrawals from the pond are used to process sand and gravel, and the closed loop operation allows the water to flow back to the pond for reuse. The applicant has requested a surface water withdrawal allocation consisting in part of 22.32 mg/30 days for withdrawals from the pond and in part of the existing 3.0 mg/30 days for withdrawals from onsite groundwater wells, for a combined total water withdrawal allocation of 23.47 mg/30 days. The project wells are constructed in the Hardyston Formation. The project is located in the Paulins Kill Watershed in Sparta Township, Sussex County, NJ. The site is located within the drainage area to the section of the nontidal Delaware River known as the Lower Delaware, which is designated as Special Protection Waters.

12. *CBH20 LP D-2008-26-1.* An application for approval of a ground water withdrawal project to supply up to 5.71 mg/30 days of water to the applicant's public water supply system from existing Well No. PWS-4 and new Wells Nos. PWS-2 and PWS-3. The project is located in the Devonian-age, Long Run Member of the Catskill Formation in the Pocono Creek Watershed in Pocono Township, Monroe County, PA. The site is located within the drainage area to the section of the nontidal Delaware River known as the Middle Delaware, which is designated as Special Protection Waters.

13. *Sunny Side Farms, Inc. D-2008-31-1.* A groundwater withdrawal project to supply a maximum of 61.7 mg/30 days of water for the irrigation of approximately 275 acres of vegetable crops from three wells—Pizzo Farm Well, Pipitone Toni Well and Tedesco Well. The wells are located in the Cohansey Formation in the Maurice River Watershed in Deerfield Township, Cumberland County, NJ.

14. *Exelon Generation Company, LLC D-2008-38-1.* An application for approval of an existing surface water withdrawal project to continue to supply up to 44,064 mg/30 days of water to the applicant's Eddystone Power Generating Station from existing Intakes Nos. 1—4. The project is located on the Delaware River at River Mile 84.42 in Water Quality Zone 4, in Eddystone Borough, Delaware County, PA.

15. *Ag-Mart Produce D-2008-39-1.* A combined surface water and groundwater withdrawal project to supply a maximum of 15.7 mg/30 days of water for the irrigation of approximately 70 acres of tomato plants. Water is withdrawn from an existing groundwater fed pond (Fairton Pond) and an existing groundwater well (Fairton Well). The project intake and well are located in the Cedar Creek Watershed, in the Kirkwood-Cohansey Aquifer in Fairfield Township, Cumberland County, NJ.

16. *City of Wildwood Water Utility D-2008-42 CP-1.* An application for approval of an existing groundwater withdrawal project to supply up to 313.1 mg/30 days of water to the applicant's public water supply system from 13 of 17 total existing wells. Thirteen of the 17 existing wells are located within the Delaware River Basin; the remaining wells are Aquifer Storage and Recovery wells (ASR) located in the Atlantic Basin. The applicant states that approximately 10.096 mgd (302.88 mg/30 days) of water is transferred from the Delaware River Basin into the Atlantic River Basin from the wells located in the Delaware River Basin. Consumptive loss of this water is 100% of the total water withdrawn as wastewater generated from the area served by these wells is discharged entirely to the Atlantic Basin. The existing water withdrawal and interbasin transfer was not previously docketed by the Delaware River Basin Commission. The project withdrawals are located in the Estuarine Sand, Cohansey, Rio Grande and Holly Beach Aquifers in the Cape May West Watershed in Middle Township, Cape May County, NJ.

17. *Buck Hill Falls Co. D-2009-1-1.* An application for renewed approval to discharge 0.20 mgd of treated effluent from the existing Buck Hill Falls WWTP, located at River Mile 213.00—21.11—0.50 (Delaware River—Brodhead Creek—Buck Hill Creek). The project is located within the drainage area to the section of the nontidal Delaware River known as the Middle Delaware, which is designated Special Protection Waters with the classification Outstanding Basin Waters. The project is located in Barrett Township, Monroe County, PA.

The project discharges to Jordan Creek, a Migrating Fish/Trout Stocking Fishery (MF/TSF) that flows to the Lehigh River at River Mile 183.66—16.25—11.4 (Delaware River—Lehigh River—Jordan Creek). The WWTP is located within the drainage area of the section of the nontidal Delaware River known as the Lower Delaware, which is designated as Special Protection Waters.

19. *Lower Milford Township D-2009-10 CP-1.* An application for approval to construct and operate a new 0.035 mgd WWTP. The WWTP is located in Lower Milford Township, Lehigh County, PA within the drainage area of the section of the nontidal Delaware River known as the Lower Delaware, which is designated as Special Protection Waters. The facility will discharge to Saucon Creek, a High Quality-Cold Water Fishery that flows to the Lehigh River at River Mile 183.66—9.43—14.64 (Delaware River—Lehigh River—Saucon Creek).

20. *Chesapeake Appalachia, LLC D-2009-20-1.* A surface water withdrawal project to supply a maximum of 29.99 mg/30 days of water for the applicant's exploration and development of natural gas wells in the State of New York and PA. Surface water will be withdrawn from the

West Branch of the Delaware River at a location known as the Curtone site in Buckingham Township, Wayne County, PA. This withdrawal project is located in the Delaware River Watershed within the drainage area of the section of the nontidal Delaware River known as the Upper Delaware, which is designated as Special Protection Waters.

The business meeting also will include adoption of the Minutes of the Commission's May 6, 2009, business meeting; announcements of upcoming advisory committee meetings and other events; a report on hydrologic conditions in the basin; a report by the Executive Director; and a report by the Commission's General Counsel. An opportunity for public dialogue will be provided at the end of the meeting.

Draft dockets scheduled for public hearing on July 15, 2009, will be posted on the Commission's web site at <http://www.drbc.net>, when they can be accessed through the Notice of Commission Meeting and Public Hearing. Additional documents relating to the dockets and other items may be examined at the Commission's offices. Contact William Muszynski at (609) 883-9500, Ext. 221, with any docket-related questions.

STATE CONSERVATION COMMISSION

NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS FOR CONCENTRATED ANIMAL FEEDING OPERATIONS (CAFO)

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under the act of July 6, 2005 (Act 38 of 2005, 3 Pa.C.S. §§ 501—522) (hereinafter referred to as Act 38), and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92. This notice is provided in accordance with 25 Pa. Code Chapter 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC), or County Conservation Districts (CCD) working under a delegation agreement with the SCC, have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at www.pacd.org/districts/directory.htm or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based.

The address for the SCC is Agriculture Building, Room 407, 2301 North Cameron Street, Harrisburg, PA 17110.

Persons with a disability who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information should contact the SCC through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is pub-

lished in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Apollo Metals, 1001 14th Avenue, Bethlehem City, **Lehigh County**. Jeremy Bolyn and Charles McGuth, Environmental Maintenance Company, Inc., 1420 East Mermaid Lane, Glenside, PA 19038 have submitted a Notice of Intent to Remediate (on behalf of their client, Apollo Metals, Ltd. (Corus Group), 1001 14th Avenue, Bethlehem, PA 18018), concerning the remediation of soil and groundwater found to have been impacted by metals as a result of historical operations at this metal plating facility and a VOC, potentially as a background contaminant. The applicant proposes to remediate the site to meet the Site-Specific Standard. The future use of the property and the immediately adjacent properties is expected to remain commercial and industrial. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

Northwest Region: Environmental Cleanup Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

Former Wolf's Head Prop North Parcel, Sugar Creek Borough, **Venango County**. URS Corporation, Foster Plaza 4, 501 Holiday Drive, Suite 300, Pittsburgh, PA 15220 on behalf of Pennzoil-Quaker State Company, d/b/a SOPUS Products, 12700 Northborough, Suite 300 E11, Houston, TX 77067 has submitted a Notice of Intent to Remediate. This property functioned primarily as a petroleum product storage facility, storing such materials as crude oil, natural lube oil, fuel oil and kerosene. The property use is currently vacant but nonresidential and is expected to be nonresidential into the foreseeable future. The Notice of Intent to Remediate was published in *The News-Herald* on April 18, 2009.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable

requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Under 25 Pa. Code §§ 127.44(a) and 127.424(b), the Department of Environmental Protection (Department) intends to issue a Plan Approval for their plant in Port Allegany, **McKean County**. This plan approval will authorize the applicant to install three new dust collection systems and reconfigure an existing dust collection system to vent exhaust outdoors for the Batch House Feed (Source 104) as described in the applicant's application of April 9, 2009. The Plan Approval will subsequently be incorporated into the facility's Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

The control units shall not exceed the PM emissions of 0.02 gr/dscf. Each unit has an estimated removal efficiency of 99.9%. The individual source is not considered major precontrolled, therefore, CAM is not applicable. The facility will demonstrate compliance with the restrictions by performing weekly visible observation and preventative maintenance.

Copies of the application, the Department's analysis, and other documents used in the evaluation are available for public inspection between 8 a.m. and 4 p.m. weekdays at the address shown. To make an appointment, contact Records Management at (814) 332-6340, for an appointment.

1. Name, address and telephone number of the person submitting comments.

2. Identification of the proposed Plan Approval; No. 42-028C.

3. Concise statement regarding the relevancy of the information or any objections to issuance of the Plan Approval.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted on the comments received during the public comment period. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in a local newspaper of general circulation or the *Pennsylvania Bulletin* or by telephone, where the Department determines such notification is sufficient. Written comments or requests for a public hearing should be directed to John Guth, Regional Air Quality Manager, Department of Environmental Protection, Northwest Regional Office, 230 Chestnut Street, Meadville, PA 16335, (814) 332-6940.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a

tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Coal Applications Received

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential

remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Measures Under Consideration by the Ozone Transport Commission; Public Meetings and Comment Period

The Department of Environmental Protection (Department) is seeking comments on potential control measures under consideration by the Ozone Transport Commission (OTC). The Department has scheduled three public meetings to present an overview of the Federal Clean Air Act (CAA) requirements, the need for Pennsylvania to adopt additional measures for the achievement and maintenance of the ozone and fine particulate standards, and the potential control measures under consideration by the OTC. The Department will also be accepting public comments for 30 days, consistent with the requirements of section 7.4 of the Pennsylvania Air Pollution Control Act (35 P. S. § 4007.4).

The OTC is a multi-state organization created under the CAA that is responsible for advising the United States Environmental Protection Agency (EPA) on pollution transport issues and for developing and implementing regional solutions to the ground-level ozone problem in the Northeast and Mid-Atlantic regions. The Commonwealth is a member of the OTC. The OTC intends to take action on the adoption of a model rule for control of emissions from automobile repair and refinishing; therefore, the Department is asking for comment on this model

rule. The OTC may also take action at its November 2009 meeting to approve a list of stationary and area control measures for evaluation by the organization and eventual consideration for adoption by its member states.

The EPA has the responsibility to establish National Ambient Air Quality Standards (NAAQS) to protect human health and the environment. When the EPA establishes a NAAQS, States must submit State Implementation Plans (SIPs) to demonstrate attainment of the NAAQS in a timely fashion. In October 2006, the EPA promulgated a revised fine particulate standard and, in March 2008, a revised ozone standard. This Commonwealth is likely to have a number of areas that do not meet these revised standards, so the Department will likely have to submit SIPs to EPA to meet the Commonwealth's CAA obligations. Pennsylvania will work cooperatively with OTC and other regional organizations to develop cost-effective strategies for attaining the NAAQS and to develop the necessary air quality attainment demonstrations.

OTC has adopted resolutions setting forth the process and schedules for developing these strategies and attainment demonstrations, including work by modeling, stationary and area source, and modeling committees. The OTC held a public meeting for stakeholders on February 4, 2009, on potential control measures and intends to continue consultation with stakeholders as it develops its inventory, modeling and potential control measures. The resolutions, materials describing the potential control measures, and the text of the model motor vehicle and mobile equipment refinishing and recoating rule can be found on the Department's web site at www.depweb.state.pa.us, choose Air Quality. Additional materials can be found at the OTC web site, www.otcair.org, choose "Meetings."

Potential Federal and State control measures are being discussed from stationary and area sources to help achieve and maintain the ozone and fine particulate NAAQS, including the following:

- Additional reductions of volatile organic compound (VOC) emissions from motor vehicle and mobile equipment refinishing and recoating (model rule available)
- Additional controls on boilers serving electric generating units
- Controls based on ultra-low nitrogen oxides burners for natural gas boilers
- Additional controls on municipal waste incinerators
- Stationary distributed generator regulation
- Additional reductions of VOC emissions from:
 - architectural and industrial maintenance coatings
 - solvents and degreasers
 - gasoline refueling stations
 - large gasoline storage tanks

The OTC is also evaluating and quantifying the emission effects of a number of Federal, regional and state mobile source sector measures. For information on these measures, see the papers posted for the OTC February 4, 2009, stakeholders meeting.

Adoption by the OTC of any of these measures as a model rule, or agreement by any state to consider promulgation of any of these measures as a state regulation, is not a Pennsylvania rulemaking. Any control measure considered by Pennsylvania for promulgation as a state regulation would be subject to the Commonwealth's notice

and comment rulemaking process under sections 201 and 202 of the act of July 31, 1968 (45 P.S. §§ 1201 and 1202) known as the Commonwealth Documents Law, the Regulatory Review Act (71 P.S. §§ 745.1—745.12) and Commonwealth Attorneys Act (71 P.S. §§ 732-101—732-506).

The public meetings will be held as follows:

August 11, 2009, 1 p.m., Waterfront A,
DEP Southwest Regional Office,
400 Waterfront Drive, Pittsburgh, PA.

August 12, 2009, 1 p.m., Susquehanna A,
DEP Southcentral Regional Office,
909 Elmerton Avenue, Harrisburg, PA.

August 13, 2009, 1 p.m., Delaware River Room,
Southeast Regional Office,
2 East Main Street, Norristown, PA 19401

Written comments should be sent by August 14, 2009, to Arleen Shulman, Chief, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468 or ashulman@state.pa.us. The Department will consider and retain all comments, but will not prepare a comment and response document.

Persons with a disability who wish to attend a meeting and require an auxiliary aid, service or other accommodation to participate in the meeting should contact Yvette House at (717) 787-9495 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

DEPARTMENT OF PUBLIC WELFARE

Payment for Nursing Facility Services Provided by County Nursing Facilities; Medicaid Day One Incentive Payments to County Nursing Facilities for Fiscal Years 2009-2010 and 2010-2011

Purpose

This announcement is to provide advance notice that the Department of Public Welfare (Department) intends to make changes in its methods and standards for payment of Medical Assistance (MA) nursing facility services for qualified county nursing facilities for Fiscal Years (FY) 2009-2010 and 2010-2011.

Background

On October 22, 2008, the Department entered into an agreement with the County Commissioners Association of Pennsylvania that authorizes the transfer of funds to the Commonwealth from several counties as authorized under 42 U.S.C.A. § 1396b(w)(6)(A) (relating to payment to States) and 42 CFR 433.51(b) (relating to funds from units of government as the State share of financial participation). Funds from the intergovernmental transfer (IGT) will be used as the State share for a portion of the Medicaid Day One Incentive Payments (MDOI) to qualified county nursing facilities during FYs 2009-2010 and 2010-2011.

For FYs 2006-2007 through 2008-2009 the Department provided MDOI payments to qualified county nursing facilities. The qualifying criteria and formula used to determine these payments, as set forth in the Commonwealth's approved State Plan, are:

To qualify for MDOI payments the nursing facility must be a county nursing facility both during the entire quarter for which the MDOI installment payment is being made and at the time the MDOI installment payment is made.

The Department will calculate each qualified county nursing facility's MDOI quarterly installment payment based on the following formula:

(i) The total funds allocated for the MDOI payments for the rate year will be divided by the total MA days for all county nursing facilities to determine the MDOI per diem for the rate year. The total MA days used for each county nursing facility will be the MA days identified on the most recent PROMISE data file used to determine the facility's eligibility for disproportionate share incentive payments.

(ii) The MDOI per diem for the rate year will be multiplied by each qualified county nursing facility's paid MA days identified on the most recent PROMISE data file used to determine eligibility for disproportionate share incentive payments, to determine its annual MDOI amount.

(iii) Each qualified county nursing facility's annual MDOI amount will be divided by four to determine the facility's MDOI quarterly installment payments for the rate year.

The MDOI installment payments for each quarter of the rate year will be paid in the first month of the following quarter.

In accordance with the IGT agreement of October 22, 2008, the MDOI payments for FYs 2009-2010 and 2010-2011 will continue to be made based on the formula in the Commonwealth's currently approved State Plan. In addition, for FY 2009-2010, the Department will use a portion of the revenues generated from the FY 2009-2010 Nursing Facility Assessment Program (The Act of June 30, 2007, P. L. 49 No. 16 (Act 16)) to increase the funding level for the county nursing facility MDOI.

To authorize the continuance of the MDOI payments for FYs 2009-2010 and 2010-2011, and the increase in the funding level for the MDOI payments for FY 2009-2010, the Department will submit a State Plan Amendment (SPA) to the Federal Centers for Medicare and Medicaid Services (CMS).

If CMS approves the SPA the Department will have the authority to continue to make MDOI payments to county nursing facilities for FYs 2009-2010 and 2010-2011, and increase the funding level for the MDOI for FY 2009-2010.

The MDOI payments to county nursing facilities will provide incentives to county nursing facilities to admit individuals who are MA eligible on the day of admission. Nursing facilities are often reluctant to admit residents whose only source of coverage for nursing facility services is MA. County nursing facilities have traditionally acted as the safety net for those residents who have been denied admission to other nursing facilities. The MDOI payments are intended to assure that county nursing facilities continue to provide access to care for these individuals. These payments provide an incentive to county nursing facilities to continue to operate as safety net providers for the poor and indigent citizens of Pennsylvania.

Fiscal Impact

The estimated increase in annual aggregate expenditures during FY 2009-2010 is \$13.916 million in State funds and during FY 2010-2011 is \$14.701 million in State funds.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Long-Term Living, Attention Tom Jayson, P. O. Persons with a disability who require an auxiliary aid or service may submit comments using Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

INSURANCE DEPARTMENT

Autism Review Process; Insurance Department Notice 2009-06

This notice is issued to all persons and entities impacted by section 635.2 of the act of Insurance Company Law of 1921 (P. L. 682, No. 284), added by section 2 of Act 62 of 2008 (40 P. S. § 764h) concerning the review process for any "denial or partial denial by an insurer of a claim for diagnostic assessment of autism spectrum disorders or a claim for treatment of autism spectrum disorders" ("autism related issues"). As specified in Act 62, "a covered individual or an authorized representative [a "challenger"] shall be entitled to an expedited internal review process pursuant to the procedures set forth in Article XXI, followed by an expedited independent external review process established and administered by the Insurance Department."

Unless Act 62 regulations are promulgated, the Insurance Department intends to utilize procedures for internal review and independent external review parallel to those set forth in Article XXI (specified in 40 P. S. § 991.2101 and 28 Pa. Code Ch. 9, Subch. I (relating to complaints and grievances)). However, therewill be two

exceptions with respect to requests for an expedited independent external review. First, there will be no provision for direct access by a plan to a Certified Utilization Review Entity (CRE) on weekends and State holidays. Second, the Insurance Department will assign a CRE within 2 business days of receiving the request for an expedited review.

Further, the Insurance Department interprets Act 62 to entitle the challenger to an expedited review process for autism related issues, but not to preclude the challenger from a nonexpedited review process. A nonexpedited review process will be used if the challenger does not meet the expedited time frames or if the challenger opts for a nonexpedited review. For purposes of autism related issues, the Insurance Department will oversee both nonexpedited and expedited reviews.

Requests for external reviews for autism related issues, whether expedited or nonexpedited, should be submitted to Office of Consumer Liaison, Attn: Autism Review, Insurance Department, 13th Floor, Strawberry Square, Harrisburg, PA 17120 by letter or ra-in-consumer liaison@state.pa.us.

Questions regarding this notice may be addressed to Cynthia Fillman, Director, Office of Consumer Liaison, Insurance Department, 13th Floor, Strawberry Square, Harrisburg, PA 17120 by letter or ra-in-consumer liaison@state.pa.us.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Order

Public Meeting held
June 18, 2009

Commissioners Present: James H. Cawley, Chairperson;
Tyrone J. Christy, Vice-Chairperson, Kim Pizzigrilli;
Wayne E. Gardner; Robert F. Powelson

Extension of the Fuel Cost Recovery Surcharge;
R-2009-2108518; S.P. 28209

Order

By the Commission:

The Pennsylvania Public Utility Commission (Commission) by its Fuel Cost Recovery Surcharge Order at Special Permission Number 28209, ratified June 1, 2006, authorized call or demand, paratransit, and airport transfer carriers under the jurisdiction of this Commission to adjust rates and fares to offset significant increases in the cost of fuel. The fuel surcharge became effective on July 1, 2006, and was extended on June 24, 2008. It is currently scheduled to terminate on June 30, 2009.

In a letter dated May 14, 2009, the Pennsylvania Taxicab and Paratransit Association (PTPA), on behalf of its members, has requested that this Commission extend the fuel cost recovery surcharge for a period of 1 year. PTPA cites the ongoing instability of retail gasoline prices as the reason for this request.

Initially, all call or demand, paratransit and airport transfer carriers were authorized to collect the surcharge found on the Fuel Surcharge page of the Commission's web site. The average price of fuel was posted on the third Friday of each month, with the effective date of the surcharge being the first day of the subsequent month. The Commission determined the average cost of unleaded regular gasoline based upon gasoline prices in the index of the Energy Information Administration of the United States Department of Energy (Department). The amount of the fuel surcharge was determined by locating the average price of gasoline on a chart, also displayed on that page, and selecting the corresponding fuel surcharge in the column for the respective type of transportation.

Determination of the amounts to be charged was based on the cost of gasoline per trip. The constants used for calculations were those based upon statistics from the

Taxicab, Limousine and Paratransit Association: The average trip length of 6.8 miles for call or demand carriers and 13.61 miles for paratransit and airport transfer carriers; the average miles per gallon per vehicle of 15.04 for call or demand carriers and 13.01 for paratransit and airport transfer carriers; and \$1.35 per gallon of unleaded regular gasoline (the average cost in 2002 according to Energy Information Administration of the Department). The cost per trip was calculated by multiplying the price of gasoline by the ratio of miles per trip to miles per gallon. The cost per trip at \$1.35 per gallon would serve as the base line. The results are tabulated in the chart to follow.

* The amount is per trip.

** The amount is per paying passenger per trip.

The Commission's intention was to create flexibility for both the carriers and the Commission. By establishing gasoline prices which would "trigger" a change in the surcharge, it would no longer be necessary to monitor the surcharge at different intervals. This flexibility would also aid in eliminating the need for emergency petitions, as was the case following Hurricane Katrina in 2005.

In the process of considering this request, the Commission has analyzed current information available from the Energy Information Administration of the Department, the American Automobile Association and OPIS Energy Group. Data from these groups indicate that the retail price of gasoline will continue to increase throughout the summer months and even beyond, due to increased demand and the uncertainty of supply.

Many refineries have failed to return from unplanned outages and maintenance. Should more unplanned outages occur, there will be a significant impact on the future path of prices. Several analysts expect to see refinery maintenance remain relatively high even into June. High import volumes also play a part in keeping supplies adequate. Additionally, there remain many trouble spots across the globe that could affect the crude oil supply, prices and gasoline prices (such as, Venezuela, Nigeria, Iran, and the like). Projections such as this indicate that the cost of gasoline will remain a problem for the transportation industry.

Based on our review, it appears that an extension of the Fuel Cost Recovery is an appropriate way to address the high costs and instability of gasoline prices at the present time. However, the industry should not continue to rely on this measure as a means of relief. Members of the industry will have the responsibility of taking appropriate measures.

After due consideration, we have determined that fuel costs are not likely to decrease. Based upon the evidence available, we are of the opinion that the passenger motor carrier industry continues to have a need for the Fuel Cost Recovery Surcharge to permit the recovery of fuel expenditures; *Therefore,*

It Is Ordered that:

1. The Fuel Cost Recovery Surcharge established at Special Permission No. 28209 be and is hereby extended until June 30, 2010, unless changed, cancelled or extended by the Commission.

2. On the third Friday of every month, the Commission shall post on its web site at www.puc.state.pa.us/transport/motor/fuel_surcharge.aspx the average cost of un-

led regular gasoline upon which the surcharge will be determined.

3. Call or demand, paratransit, and airport transfer carriers rendering transportation service under the jurisdiction of the Pennsylvania Public Utility Commission shall notify the public by placing a notice in all vehicles, which shall read: "The PA Public Utility Commission has authorized a fuel surcharge under Special Permission No. 28209. The surcharge has been extended and shall terminate on June 30, 2010. The current surcharge is (**insert current charge here**) per trip for each paying passenger."

4. The Fuel Cost Recovery Surcharge established at Special Permission No. 28209 be continued until midnight, June 30, 2010, at which time it will expire.

5. The Secretary of this Commission shall duly certify this order and deposit same with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.
