READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 7—AGRICULTURE

MILK MARKETING BOARD

[7 PA. CODE CH. 143]

Transactions Between Dealers and Producers

The Milk Marketing Board (Board) amends Chapter 143 (relating to transactions between dealers and producers) by adding § 143.29 (relating to weighing and sampling of direct load milk) and amending § 143.46 (relating to producer receipt for farm bulk milk) under the authority of section 307 of the Milk Marketing Law (31 P. S. § 700j-307).

Notice of proposed rulemaking was published at 40 Pa.B. 3127 (June 12, 2010) with a 30-day public comment period. The Board did not receive comments during the public comment period. The Senate Committee on Agriculture and Rural Affairs and the House Agriculture and Rural Affairs Committee (House and Senate Committees) did not offer comments, suggestions or objections to the proposed rulemaking. The Independent Regulatory Review Commission (IRRC) did not offer recommendations, comments or objections to the proposed rulemaking. No changes have been made from the proposed rulemaking to this final-form rulemaking.

The Board considered this final-form rulemaking and its purpose under the directives of Executive Order 1996-1, "Regulatory Review and Promulgation."

Purpose

The purpose of the final-form rulemaking is to establish regulations to govern the weighing and sampling of milk when it is loaded directly from the milking parlor or milkhouse on a dairy farm into a movable bulk milk tanker for transportation. Most milk produced on dairy farms in this Commonwealth is pumped into bulk tanks on the farm for cooling and storage and picked up every day or every other day and loaded onto bulk milk tankers for transport to the processor. Current Board regulations establish procedures to ensure accurate weighing and sampling of this milk for purposes of payment to producers and require a receipt for the milk to be left with the producer at the time of pickup. While the number of dairy herds in this Commonwealth is decreasing, the average size of dairy herds is increasing. Many dairy herds in this Commonwealth now produce enough milk to fill a semi-trailer bulk milk tanker in 24 hours or less. In these cases it is more efficient and cost effective to rapidly cool the milk and pump it directly onto a bulk milk tanker rather than storing the milk in a bulk tank for later pickup and transport. The existing regulations rely upon bulk tank calibration charts to determine the volume of milk and require agitation by means of the bulk tank agitator prior to sampling of milk in a stationary on-farm bulk tank and therefore will not work for milk loaded directly into mobile bulk tankers. Currently, there are several farms in this Commonwealth direct-loading their milk, using a variety of methods for weighing and sampling that milk. The final-form rulemaking establishes uniform procedures to ensure the accurate weighing and sampling of this milk and also amends the requirements for the producer's receipt for direct load milk.

Comments

The Board did not receive comments during the public comment period. IRRC and the House and Senate Committees did not offer comments, suggestions or objections to the proposed rulemaking.

Paperwork Estimates

The final-form rulemaking requires additional information pertaining to the method of weighing and sampling to be included on the producer's receipt for milk picked up from farms, but relaxes the requirement that the receipt be left at the farm at the time of pick-up.

Fiscal Impact

The final-form rulemaking will not have fiscal impact on the majority of dairy producers who still store milk in bulk tanks, nor on the buyers or haulers of that milk. The final-form rulemaking should not have a negative fiscal impact on those few producers, haulers, weigher/samplers or dealers who will be affected by the regulations. These affected persons may see a positive fiscal impact in the form of time savings and increased efficiency by being able to eliminate the step of pumping milk from bulk tanks into tankers for transport.

Effective Date

The final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Sunset Date

There is not a sunset date.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on May 27, 2010, the Board submitted a copy of the notice of proposed rulemaking, published at 40 Pa.B. 3127, to IRRC and the Chairpersons of the House and Senate Committees for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the House and Senate Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on September 14, 2010, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5(g) of the Regulatory Review Act, this final-form rulemaking was deemed approved by IRRC, effective September 15, 2010.

Contact Person

The official responsible for information on this final-form rulemaking is Keith Bierly, Secretary, Milk Marketing Board, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 787-4194.

Findings

The Board finds that:

(1) Public notice of the intention to adopt the final-form rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law.

(3) The final-form rulemaking is necessary and appropriate for the administration of the act.

Order

The Board, acting under authorizing statute, orders that:

(a) The regulations of the Board, 7 Pa. Code Chapter 143, are amended by adding § 143.29 and by amending § 143.46 to read as set forth at 40 Pa.B. 3127.

(b) The Board will submit this order and 40 Pa.B. 3127 to the Office of Attorney General for review and approval as to legality and form as required by law.

(c) The Board shall certify this order and 40 Pa.B. 3127 and deposit them with the Legislative Reference Bureau as required by law.

(d) The order shall take effect upon final-form publication in the *Pennsylvania Bulletin*.

Chairperson

Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE REAL ESTATE COMMISSION

[49 PA. CODE CH. 35]

Seller Property Disclosure Statement

The State Real Estate Commission (Commission) adopts §§ 35.284a and 35.335a (relating to disclosures

required by the Real Estate Seller Disclosure Law; and seller property disclosure statement) to read as set forth in Annex A.

Statutory Authority

This final-form rulemaking is authorized under 68 Pa.C.S. § 7304(a) (relating to disclosure form) and sections 404 and 604(a)(15.1) of the Real Estate Licensing and Registration Act (RELRA) (63 P. S. §§ 455.404 and 455.604(a)(15.1)).

Summary

Section 35.284a tracks the duties imposed on licensees who represent sellers and buyers as well as transaction licensees under 63 Pa.C.S. Chapter 73 (relating to Real Estate Seller Disclosure Law) (act). Section 35.335a sets forth the minimum property disclosure statement required under section 7304(b) of the act.

Response to Comments

Notice of proposed rulemaking was published at 40 Pa.B. 2281 (May 1, 2010). Publication was followed by a 30-day public comment period during which the Commission received a public comment from the Pennsylvania Association of Realtors (PAR) and comments from seven individual licensees: Frank Bartalotta, Diane M. LePera, Linda McKissick, Donna Olson, Anthony Rocchino, Terry Sutton and Robin Zellers. Following the close of the public comment period, the Commission received comments from the Independent Regulatory Review Commission (IRRC) and the House Professional Licensure Committee (HPLC). The Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) did not comment.

§ 35.284a(a)—*Seller's agents*

§ 35.284a(b)—*Buyer's agents*

IRRC questioned whether “seller’s agents” and “buyer’s agents” adequately cover all of the agency relationships wherein a real estate licensee is required to provide a seller/buyer with the disclosure statement. PAR recommended that the Commission consider “licensee working with the seller” and “licensee working with the buyer.” The Commission concurs with IRRC and PAR that “seller’s agents” and “buyer’s agents” are not inclusive enough, as these titles do not include transaction licensees who have entered into agreements with sellers and buyers for document preparation and do not include subagents who work on behalf of sellers. However, because “licensees working with the seller/buyer” is too broad, in this final-form rulemaking the Commission amended these titles to read “a licensee who represents sellers or a transaction licensee who has entered into an agreement with sellers” in subsection (a) and “a licensee who represents buyers or a transaction licensee who has entered into an agreement with buyers” in subsection (b). As part of this amendment, the Commission addressed the HPLC’s question as to whether the references to “seller’s agents” and “buyer’s agents” were grammatically correct by making the subject singular.

§ 35.284a(a)(1)—*Seller's agent shall advise sellers of duty to disclose known material defects by completing a property disclosure statement*

Terry Sutton and Robin Zellers questioned whether sellers of commercial, industrial or multifamily residential properties shall also complete the seller disclosure statements. Section 7302 of the act (relating to application of chapter) delineates that only residential properties are included in the seller disclosure requirement. “Resi-

dential real estate transfer” is defined in 68 Pa.C.S. § 7103(a) (relating to application of part) as consisting of “not less than one nor more than four residential dwelling units. . . .”

Anthony Rocchino and Donna Olsen questioned whether disclosure is required for new construction, estates or bank foreclosures. Eight exceptions to the requirement that the seller disclosure statement be provided for residential properties are listed in 68 Pa.C.S. § 7103(b) and two are listed in section 7302(a) of the act. Under those sections, transfers of estates, foreclosures and new residential construction are exempt.

Anthony Rocchino also questioned whether disclosures are required when the seller has not lived in the home or investment property or managed the property actively. These scenarios do not fall within the exceptions in 68 Pa.C.S. § 7103(b) and section 7302(a) of the act and a disclosure is required. However, under section 7306 of the act (relating to information unavailable to seller), if an item of information required to be disclosed is unknown or not available to the seller, the seller may make a disclosure based on the best information available to the seller.

§ 35.284a(a)(3)—*Seller shall deliver a completed disclosure statement or one marked “refused” to buyer/buyer’s agent*

PAR remarked that the act imposes the duty on the seller and not the licensee representing or working with the seller to deliver the disclosure statement. However, PAR acknowledged that in most cases licensees involved in the transaction assume this responsibility. The Commission concurs with PAR and therefore, under this paragraph, requires licensees who represent sellers or transaction licensees who have entered into agreements with sellers to deliver either the completed disclosure statement or one marked refused.

Linda McKissick commented that sellers should not be permitted to refuse to complete the seller disclosure statement. Further, PAR commented that requiring the delivery of refused-marked statements could potentially increase the number of sellers who refuse to complete seller disclosure statements and increase liability. IRRC requested that the Commission address the impact of requiring delivery of disclosure statements marked “refused.”

Section 7311 of the act (relating to failure to comply) permits sellers to refuse to provide the disclosure statement by stating that the transaction will not be invalidated because the seller fails to provide the disclosure statement. Thus, the ability to refuse is not new. Requiring sellers to mark the disclosure statements refused provides applicable licensees with documentary evidence that they satisfied their duties. Further, there is no empirical evidence to suggest that the number of refusals will increase simply because licensees shall deliver the refused-marked statement. To the contrary, it is not financially advantageous for sellers to refuse. First, section 7311 of the act subjects sellers who fail to complete disclosure statements to damages for failure to comply with the disclosure requirement. Second, because as PAR points out, it is commonplace for completed disclosure statements to be transmitted to the multiple listing service (MLS) and made available online. For marketing purposes, it would be highly noticeable for a seller not to include a completed disclosure statement with the listing.

The Commission is also not persuaded by the concern that liability for licensees will increase because they will

have more to disclose under the act, in that section 7310 of the act (relating to nonliability of agent) places an affirmative obligation of disclosure on agents for sellers and buyers who have actual knowledge of a material defect that was not disclosed to the buyer or of a misrepresentation regarding a material defect. Because this comment is premised on increased refusals and because the obligation on licensees to report known material defects is also not new, it is also only speculative that there will be an increase in liability. In this final-form rulemaking, the Commission did not amend this provision.

Both IRRC and PAR question what delivery method would be satisfactory under this provision. PAR recommended that the Commission add the clause “publishing the Seller’s Property Disclosure Statement at a location where selling agents have access.” While the Commission concurs with PAR that placement on the MLS is commonly used and would in fact favor this method, section 7305 of the act (relating to delivery of disclosure form) restricts the method of delivery to “personal delivery; first class mail; certified mail, return receipt requested; or facsimile transmission.” Until the act is amended, the Commission cannot permit online delivery to satisfy the statutory requirement. Accordingly, it has not incorporated the language recommended by PAR.

§ 35.284a(b)(1)—*Buyer’s agent shall advise buyers of seller’s duty*

In the event that the buyer is not represented, PAR recommended that the Commission should require that the licensee who has entered into a business relationship with the seller bear the responsibilities in § 35.284a(b)(1). While the Commission has chosen not to implement this affirmative duty, it believes that this conversation will occur when, under subsection (a)(3), licensees who represent sellers or transaction licensees who have entered into agreements with sellers deliver either the completed disclosure statement or one marked refused to the buyer when the buyer does not have representation.

§ 35.284a(b)(2)—*Buyer’s agent shall deliver a completed disclosure statement or one marked “refused” to buyer*

PAR commented that delivery of the completed/refused-marked disclosure statement by the buyer’s agent would be redundant if delivery had already been made under subsection (a). IRRC requested the Commission to clarify this issue. The Commission concurs with this comment and changed the requirement from delivery to assurance that delivery has been made.

§ 35.284a(c) and (d)—*Seller’s agents and buyers agents are required to disclose known defects but are not required to make independent inspection*

IRRC requested that the Commission address whether these subsections should apply to anyone involved in the transaction. Like its comment to subsections (a) and (b), PAR recommended that they do. The Commission concurs with PAR and revised these subsections consistent with the changes made to subsections (a) and (b).

Diane M. LePera questioned what are “known material defects.” Section 7102 of 68 Pa.C.S. (relating to definitions) defines “material defect” as “a problem with a residential real property or any portion of it that would have a significant adverse impact on the value of the property or that involves an unreasonable risk to people on the property. The fact that a structural element, system or subsystem is near, at or beyond the end of the normal useful life of such a structural element, system or

subsystem is not by itself a material defect.” When sellers, licensees representing sellers/buyers or transaction licensees who have entered into agreements with them know of these conditions it is a “known material defect.”

Linda McKissick questioned whether this section requires licensees to verify the information provided by seller on the disclosure statement. Under section 7310 of the act, licensees representing sellers/buyers or transaction licensees who have entered into agreements with them are not liable for a violation of the act unless the aforementioned licensee had actual knowledge of a material defect that was not disclosed to the buyer or of a misrepresentation regarding a material defect. In fact, while sellers are required to provide accurate information about known material defects under sections 7303 and 7308 of the act (relating to disclosure of material defects; and affirmative duty of seller), they are not required to conduct a specific investigation or inquiry in an effort to complete the property disclosure statement.

§ 35.335a—*Seller disclosure statement*

PAR commented that Question (12) on the disclosure statement should require a listing of items that are included in the sale and not just those in need of repair. In that 68 Pa.C.S. § 7103 only requires sellers to disclose material defects, the Commission believes that it is overly burdensome to require a listing of appliances that are included in the sale rather than simply those that are in need of repair.

The HPLC recommended that the Commission delete the address and telephone number in Question (13) so that the regulations would not have to be amended in the event that the Mine Subsidence Insurance Fund changes its address or telephone number. The Commission agrees with the HPLC and deleted this information.

The HPLC questioned whether it would be useful to list another reason for easements other than utility service in Question (13)(vi). The Commission appreciates that in addition to utility service easements may be granted for flag-lots, walking trails and shared driveways. Nonetheless, because the act only lists utility service and the Commission chose not to amend the former disclosure statement in another area aside from removing an address and a telephone number at the HPLC’s urging, the Commission has not amended this question.

Frank Bartakotta recommended that the Commission include specific questions about lead-based paint and mold on the disclosure statement. These conditions are currently included within Question (14) on the disclosure form. A further amendment is not required.

The HPLC questioned why there was an asterisk in Question (15) following “condominium.” The Commission removed this typographical error in this final-form rulemaking.

Fiscal Impact and Paperwork Requirements

The final-form rulemaking will not have adverse fiscal impact or paperwork requirements on the Commission, licensees, the Commonwealth, its political subdivisions or the public sector.

Sunset Date

The Commission continually monitors the effectiveness of its regulations through communication with the regulated population; accordingly, a sunset date has not been set.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 21, 2010, the Commission submitted a copy of the notice of proposed rulemaking, published at 40 Pa.B. 2281, to IRRC and the Chairpersons of the HPLC and the SCP/PLC for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC, the HPLC and the SCP/PLC were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Commission has considered all comments from IRRC, the HPLC, the SCP/PLC and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on September 28, 2010, the final-form rulemaking was approved by the HPLC. On October 20, 2010, the final-form rulemaking was deemed approved by the SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on October 21, 2010, and approved the final-form rulemaking.

A seller must disclose to a buyer all known material defects about property being sold that are not readily observable. This disclosure statement is designed to assist the seller in complying with disclosure requirements and to assist the buyer in evaluating the property being considered.

This statement discloses the seller's knowledge of the condition of the property as of the date signed by the seller and is not a substitute for any inspections or warranties that the buyer may wish to obtain. Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 523, 541, 543, 549 AND 565]

Table Game Equipment, Minibaccarat, Midibaccarat, Blackjack and Three Card Poker Amendments; Temporary Regulations

The Pennsylvania Gaming Control Board (Board), under its general authority in 4 Pa.C.S. § 1303A (relating to temporary table game regulations) enacted by the act of January 7, 2010 (P.L. 1, No. 1) (Act 1) and the specific authority in 4 Pa.C.S. § 1302A(1) and (2) (relating to regulatory authority), amends temporary regulations in Chapters 523, 541, 543, 549 and 565 to read as set forth in Annex A. The Board's temporary regulations will be added to Part VII (relating to Gaming Control Board) as part of Subpart K (relating to table games).

Purpose of the Temporary Rulemaking

This temporary rulemaking amends Chapter 523 (relating to table game equipment) to clarify a previous amendment and amends the rules of Minibaccarat, Midibaccarat and Three Card Poker in response to requests received from certificate holders.

Explanation of Chapters 523, 541, 543, 549 and 565

The Board has received numerous requests for optional side wagers on games that are currently approved for play.

In the temporary rulemaking published at 40 Pa.B. 6095 (October 23, 2010) (Fiscal Note 125-133), the Board amended § 523.10(l) (relating to exchange and redemption of gaming chips and plaques) regarding the acceptance of value chips as personal gratuities to allow for the acceptance of value chips in exchange for food and beverage served on the gaming floor. In § 523.10(l), language was added to clarify that only cocktail servers who are serving on the gaming floor from nonfixed locations may accept value chips in exchange for food or beverage served to patrons on the gaming floor. Nonfixed locations would be the gaming floor but would not include the bars, restaurants or grab-and-go locations.

In Chapters 541 and 543 (relating to Minibaccarat; and Midibaccarat), the Dragon Bonus Wager was added as an optional side wager. The requirements for table layouts were added in §§ 541.2(c)(6) and 543.2(c)(6) (relating to Minibaccarat table physical characteristics; and Midibaccarat table physical characteristics). The rules of the side wager were added in §§ 541.8(a)(4) and 543.8(a)(4) (relating to wagers) with the payout odds added in §§ 541.13(d) and 543.13(d) (relating to payout odds; vigorous).

Also in Chapter 543, § 543.9 (relating to hands of player and banker; procedure for dealing initial two cards to each hand) has been amended to eliminate a dealing inconsistency between Minibaccarat and Midibaccarat. This temporary rulemaking clarifies players in Midibaccarat do touch the cards, which is unlike Minibaccarat where players are not permitted to touch cards. The language regarding dealing procedures when players are not allowed to touch the cards was therefore removed.

In the temporary rulemaking published at 40 Pa.B. 6520 (November 13, 2010) (Fiscal Note 125-134), the Board amended § 549.20 (relating to Royal Match 21 Wager), regarding Blackjack. In § 549.20(g), a pay table was added to accommodate the Royal Match 21 Wager on

electronic Blackjack which pays out on the Crown Treasure Bonus at odds of 1,000 for 1.

In Chapter 565 (relating to Three Card Poker), the Six Card Bonus Wager was added to Three Card Poker. The requirements for table layouts were added in § 565.2 (relating to Three Card Poker table physical characteristics), the card rankings for the wager were added in § 565.6(d) (relating to Three Card Poker rankings) and the procedures for the completion of play when a player places a Six Card Bonus Wager were added in § 565.11 (relating to Procedures for completion of each round of play). Section 565.11b (relating to Six Card Bonus Wager) is added to provide the dealing procedure for the wager. The payout odds were added to § 565.12 (relating to payout odds; Envy Bonus; rate of progression; payout limitation).

Affected Parties

This temporary rulemaking will allow certificate holders additional options on how to conduct table games at their licensed facilities.

Fiscal Impact

Commonwealth

The Board does not expect that the amendments in this temporary rulemaking will have fiscal impact on the Board or other Commonwealth agencies. Internal control procedures submitted by certificate holders regarding table games rules submissions will be reviewed by existing Board staff.

Political subdivisions

This temporary rulemaking will not have direct fiscal impact on political subdivisions of this Commonwealth. Eventually, host municipalities and counties will benefit from the local share funding that is mandated by Act 1.

Private sector

This temporary rulemaking will give certificate holders some additional flexibility as to how they conduct table games. The addition of an optional side wager may increase the wagers in Minibaccarat, Midibaccarat, Blackjack and Three Card Poker.

General public

This temporary rulemaking will not have direct fiscal impact on the general public.

Paperwork Requirements

If a certificate holder elects to offer additional side wagers, it will have to submit updated rules submissions for approval and update gaming guides offered to the public to reflect the additional wagers available.

Effective Date

This temporary rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Public Comments

While this temporary rulemaking will be effective upon publication, the Board is seeking comments from the public and affected parties as to how these temporary regulations might be improved. Interested persons are invited to submit written comments, suggestions or objections regarding this temporary rulemaking within 30 days after the date of publication in the *Pennsylvania Bulletin* to Susan A. Yocum, Assistant Chief Counsel, Pennsylvania Gaming Control Board, P.O. Box 69060, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation #125-136.

Contact Person

The contact person for questions about this temporary rulemaking is Susan A. Yocum, Assistant Chief Counsel, at (717) 265-8356.

Regulatory Review

Under 4 Pa.C.S. § 1303A, the Board is authorized to adopt temporary regulations which are not subject to sections 201—205 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201—1208), known as the Commonwealth Documents Law (CDL), the Regulatory Review Act (71 P. S. §§ 745.1—745.12) and sections 204(b) and 301(10) of the Commonwealth Attorneys Act (71 P. S. §§ 732-204(b) and 732-301(10)). These temporary regulations expire 2 years after publication in the Pennsylvania Bulletin.

Findings

The Board finds that:

(1) Under 4 Pa.C.S. § 1303A, the temporary regulations are exempt from the requirements of the Regulatory Review Act, sections 201—205 of the CDL and sections 204(b) and 301(10) of the Commonwealth Attorneys Act.

(2) The adoption of the temporary regulations is necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

(1) The regulations of the Board, 58 Pa. Code Chapters 523, 541, 543, 549 and 565, are amended by adding § 565.11b and by amending §§ 523.10, 541.2, 541.8, 541.13, 543.2, 543.8—543.10, 543.13, 543.14, 549.20, 565.1, 565.2, 565.6, 565.7, 565.11 and 565.12 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(2) The temporary regulations are effective December 4, 2010.

(3) The temporary regulations will be posted on the Board's web site and published in the Pennsylvania Bulletin.

(4) The temporary regulations are subject to amendment as deemed necessary by the Board.

(5) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the

intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northcentral Region: Environmental Cleanup Program Manager, 208 West Third Street, Williamsport, PA 17701

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

06-05069: East Penn Mfg. Co., Inc. (PO Box 147, Deka Road, Lyon Station, PA 19536-0147) for control of NO_x and VOC emissions from the various lead/acid storage battery manufacturing operations at their facility in Richmond Township, **Berks County**.

In accordance with 25 Pa. Code Chapter 127 and 40 CFR Part 51.102 (State Implementation Plan) the Department of Environmental Protection (DEP) intends to issue an Operating Permit to East Penn Mfg Co, Inc (PO Box 147, Deka Road, Lyon Station, PA 19536-0147) to approve their RACT Plan for the control of NO_x and VOC emissions from the various lead/acid storage battery manufacturing operations at their facility in Richmond Township, Berks County. The conditions of this RACT approval may be included in the pending Title V Permit No. 06-05069, or may be issued as a separate permit to be incorporated into the Title V permit at a later date. In the event that a separate RACT permit is issued, it will be designated as 06-01069R. The conditions of the RACT approval would be submitted to EPA as a revision to the State Implementation Plan.

Based on the information provided by East Penn, and the Department's analysis, this plan complies with the requirements of 25 Pa. Code Sections 129.91 and 129.92. The plan involves the restriction in emissions of NO_x and VOC by imposing emission caps, and/or by requiring the operation of the various sources in a manner that limits the amount of emissions generated by their use. These restrictions will be incorporated in an Operating Permit. Included with the restrictions will be record keeping, work practices, monitoring and reporting requirements. The existing affected small combustion sources from the company's 12/00 RACT application are subject to the presumptive RACT requirements in 25 Pa. Code Section 129.93(c)(1). The potential emissions from these sources are presently limited, for non-RACT purposes, to 80.1 tpy of NO_x in an existing permit, via a fuel usage cap. The equivalent VOC PTE based on the fuel usage cap is 3.7 tpy. The existing affected non-combustion operations from the company's 12/00 RACT application, and their proposed restricted potential emissions are battery finishing (VOC 15 tpy), concasting (VOC 4.5 tpy), gasoline and diesel handling (VOC 2.0 tpy), spraypainting (VOC 7.6 tpy) and miscellaneous chemical usage (VOC 27.2 tpy).

All of the pertinent documents are available for public review at DEP's Southcentral Regional Office. Reviews may be scheduled by contacting Mr. Thomas Hanlon at (717) 705-4862 between 8:30 A.M. and 3:30 P.M. Monday through Friday, except holidays.

One public hearing will be held for the purpose of receiving comments or protests on the proposal. COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law; the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). Mining

activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4014); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1002).

The following permit applications to conduct mining activities have been received by the Department. A copy of an application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference or a public hearing, as applicable, on a mining permit application may be submitted by a person or an officer or head of Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of the person submitting comments or objections, the application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are in Table 2. Discharges from noncoal mines located in some

geologic settings (for example, in coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads.

Persons wishing to comment on NPDES permit applications should submit statements to the Department at the address of the district mining office indicated before each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. A comment must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. PUBLIC WATER SUPPLY (PWS) PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Interim Response Everbrite Industries Site

Lansford Borough, Carbon County

The Commonwealth of Pennsylvania, Department of Environmental Protection ("Department"), under the authority of the Hazardous Sites Cleanup Act, 35 P.S. § 6020.101 et seq. ("HSCA"), has initiated a prompt interim response action at the Everbrite Industries Site ("Site"). This response has been undertaken pursuant to Sections 505(b) & (c) of HSCA, 35 P.S. § 6020.505(b) & (c). The Site is located at 401 West Bertsch Street in Lansford Borough, Carbon County, Pennsylvania.

The Site contains abandoned chemical containers within a large, deteriorating brick building. The Panther Valley School District purchased the property through a tax sale and contacted the Department concerning the hazardous substances on the property. A site visit was conducted by the Department on August 26, 2010. Between 50–100 55-gallon drums and numerous labeled and unlabeled smaller containers of hazardous substances were observed within the building. The following chemical classes were documented as observed from labels on the drums: Acids (70% Hydrofluoric Acid), Bases (19% Ammonium Hydroxide), Amines (85% Triethanolamine), Oxidizers (35% Hydrogen Peroxide), and Flammable Liquids (Ethyl and Isopropyl Alcohols).

These containers were stored in proximity to each other without any secondary containment to prevent the mixing of incompatible chemicals should they leak. Mixing of incompatible chemical could cause a fire and/or an air release that could pose a threat to nearby residential occupants and recreational area users. Although the building has been secured by the School District, the abandoned chemicals present a potential threat and pose a risk to human health and the environment. Sections of the roof of the building have collapsed and further collapse could cause a release of the chemicals and the potential for mixing of incompatible chemicals. Some of the chemical pose threats from direct contact, toxicity, flammability, or reactivity.

The Department has determined that the following hazardous substances as defined by HSCA have been abandoned and therefore, released as defined by HSCA, or present a threat of release at the Site: Hydrochloric Acid, Hydrofluoric Acid, Sulfuric Acid (Acids) and Ammonium Hydroxide (Base)—(Corrosive Hazardous Waste—D002), Hydrogen Peroxide (Oxidizer and Reactive Hazardous Waste—D003), and Ethyl Alcohol, Isopropyl Alcohol (Flammable Liquids and Ignitable Hazardous Waste—D001).

Based upon the fact that a release of a hazardous substance as defined by HSCA has occurred and that the threat of a release of hazardous substances exists and that an ongoing release is likely if no actions are taken, the Department is authorized to undertake a response action at this Site under Section 501(a) of HSCA, 35 P.S. § 6020.501(a).

A Prompt Interim Response is justified at this Site for the following reasons: Characterization and removal of the hazardous substances and wastes is needed in a time frame that prohibits developing and closing an administrative record prior to response initiation given the condition of the building and the potential threats to public health and the environment. This prompt interim response action will cost less than \$1 million and take less than 1 year to implement.

The Department is undertaking a prompt interim response at the Site pursuant to its authority under Section 501(a) of HSCA, 35 P.S. § 6020.501(a). Prompt action is necessary to protect the public health, safety, and the environment from the release and threat of release of hazardous substances from the Site. The Department evaluated two alternatives for this proposed interim response which include:

- 1) No Action
- 2) Waste Removal and Off-Site Reuse, Recycling, or Disposal: This alternative includes the testing and classification of abandoned wastes and other materials in drums and smaller containers. After classification and lab-packing or consolidation of these chemicals, the containers will be prepared for shipment and staged and stored properly until they can be removed for reuse, recycling, or disposal at facilities approved by the Department.

Based upon an evaluation of the Alternatives using criteria including protection of human health and the environment, compliance with applicable and relevant and appropriate requirements (ARARs), feasibility, permanence, and cost-effectiveness, the Department has selected Alternative 2 as the proposed interim response for the Site.

This notice is being provided pursuant to Section 506(b) of HSCA 35 P.S. § 6020.501(b). The administrative record, which contains the information that forms the basis and documents the selection of the response action, is available for public review and comment. The administrative record is located at the Lansford Borough Municipal Office, 26 East Patterson Street, Lansford, Pennsylvania and is available for review Monday through Friday from 9am to 3pm. The administrative record will be open for comment from December 4, 2010 through March 4, 2011. Persons may submit written comments into the record during this time only, by sending them to Jeremy Miller, Compliance Specialist, at the Department's Northeast Regional Office at 2 Public Square, Wilkes-Barre, PA 18701, or by delivering them to that office in person.

In addition, persons may present oral comments, for inclusion in the administrative record, at a public hearing. The Department has scheduled the hearing for January 11, 2011 at 10 AM at the Panther Valley School District Office, 1 Panther Way, Lansford. The testimony at the public hearing will be limited to the prompt interim response, which involves removal and off-site reuse, recycling, and/or disposal of the hazardous substances and waste. An informal public meeting will be held after the public hearing is concluded. Persons wishing to present testimony at the January 11, 2011 hearing

regarding this prompt interim response should register with Jeremy Miller before January 04, 2011 by telephone at (570) 826-2511, or in writing to Jeremy Miller at the Department's Northeast Regional Office. If no person registers to present oral comments by the date specified above, the hearing will not be held.

Persons with a disability who wish to attend the January 11, 2011 hearing and require auxiliary aid, service or other accommodations to participate in the proceedings, should contact Jeremy Miller or the Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment

report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110

Contact: Thomas J. Hanlon, Chief, East Permitting Section—Telephone: 717-705-4862 or Daniel Husted, Chief, West Permitting Section—Telephone: 717-949-7935

06-05069: East Penn Mfg. Co., Inc. (PO Box 147, Deka Road, Lyon Station, PA 19536-0147) for control of NOx and VOC emissions from the various lead/acid storage battery manufacturing operations at their facility in Richmond Township, **Berks County**.

In accordance with 25 Pa. Code Chapter 127 and 40 CFR Part 51.102 (State Implementation Plan) the Department of Environmental Protection (DEP) intends to issue an Operating Permit to East Penn Mfg Co, Inc (PO Box 147, Deka Road, Lyon Station, PA 19536-0147) to approve their RACT Plan for the control of NOx and VOC emissions from the various lead/acid storage battery manufacturing operations at their facility in Richmond Township, Berks County. The conditions of this RACT approval may be included in the pending Title V Permit No. 06-05069, or may be issued as a separate permit to be incorporated into the Title V permit at a later date. In the event that a separate RACT permit is issued, it will be designated as 06-01069R. The conditions of the RACT approval would be submitted to EPA as a revision to the State Implementation Plan.

Based on the information provided by East Penn, and the Department's analysis, this plan complies with the requirements of 25 Pa. Code Sections 129.91 and 129.92. The plan involves the restriction in emissions of NOx and VOC by imposing emission caps, and/or by requiring the operation of the various sources in a manner that limits the amount of emissions generated by their use. These restrictions will be incorporated in an Operating Permit. Included with the restrictions will be record keeping, work practices, monitoring and reporting requirements. The existing affected small combustion sources from the company's 12/00 RACT application are subject to the presumptive RACT requirements in 25 Pa. Code Section 129.93(c)(1). The potential emissions from these sources are presently limited, for non-RACT purposes, to 80.1 tpy of NOx in an existing permit, via a fuel usage cap. The equivalent VOC PTE based on the fuel usage cap is 3.7 tpy. The existing affected non-combustion operations from the company's 12/00 RACT application, and their proposed restricted potential emissions are battery finishing (VOC 15 tpy), concasting (VOC 4.5 tpy), gasoline and diesel handling (VOC 2.0 tpy), spraypainting (VOC 7.6 tpy) and miscellaneous chemical usage (VOC 27.2 tpy).

All of the pertinent documents are available for public review at DEP's Southcentral Regional Office. Reviews may be scheduled by contacting Mr. Thomas Hanlon at

(717) 705-4862 between 8:30 A.M. and 3:30 P.M. Monday through Friday, except holidays.

One public hearing will be held for the purpose of receiving comments or protests on the proposal. The hearing will be held at DEP's Southcentral Regional Office on January 12, 2011 from 9:00 AM until all scheduled comments on the proposal are received. The public is invited to present testimony at the hearing and should contact Mr. Thomas Hanlon at (717) 705-4862 to reserve a time to present testimony. Oral testimony will be limited to ten minutes for each presenter. Each group or organization is requested to designate one witness to present testimony on its behalf. Commenters shall provide two written copies of their remarks at the time of the hearings. A person may oppose the proposed RACT approval by filing a written protest with the Department. Persons interested in submitting written comments should send their comments to Mr. Thomas Hanlon, East Permitting Section Chief, Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, postmarked no later than the public hearing date.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501–508 and 701–704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1–693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

There are several changes to this General Permit compared to the one that will expire on December 4, 2010. The key changes are:

- Some new words: Exposed salt storage and distribution piles, Discharge, Significant spills, have been added and defined to make the permit clearer.

- Several parameters have been removed from monitoring requirements in Appendices A, B, C, D and J as a result of the Tetra Tech study report and agreement with ALCOA, while Appendix L (Petroleum Marketing Terminals) was revised to include 15/30mg/L oil and grease limitations. A new Appendix M (Non-Classified Facilities) was added. Facilities cannot choose coverage under this section, but can only be so assigned by the Director.
- The Notice of Intent (NOI) form now has some new blocks to get more useful information from the permittees. Examples include applicable appendix which the industrial activity falls under, SARA Title 3 questions about reportable quantities are now much clearer.
- The NOI filing fees have changed from \$100 to \$750.
- All Discharge Monitoring Reports have added space for naming the watershed where the monitoring took place, and the certification language has been corrected and standardized.
- A new paragraph has been included to clarify what constitutes no exposure, making it possible for more facilities to qualify for "No Exposure Certification," while the No Exposure Certification questions have included a question about the development of a comprehensive PPC (Preparedness, Prevention and Contingency) plan, which every permittee, intent on using this option must now have.

The permit documents package will be available at the Department's central and regional offices and can still be accessed at the Department's web site at www.depweb.state.pa.us by selecting: Permits, Licensing & Certification; Program-Specific Permit/Authorization Packages; Water Management; NPDES; General Permits; PAG-03; Discharges of Stormwater Associated with Industrial Activities.

Before adjusting the assessment percentage, the Secretary must publish a notice in the *Pennsylvania Bulletin* that specifies the proposed assessment percentage and identifies the aggregate impact on covered hospitals subject to the assessment and allow interested parties a 30-day period in which to comment. After consideration of any comments received during the 30-day period, the Secretary must publish a second notice announcing the assessment percentage. An adjustment to the assessment percentage must also be approved by the Governor. See 62 P. S. § 803-G(c).

Implementation of the Alternative Energy Portfolio Standards Act of 2004: Standards for the Participation of Demand Side Management Resources—Technical Reference Manual Update; Doc. No. M-00051865

The Pennsylvania Public Utility Commission (Commission) seeks comments on the proposed 2011 update to the Technical Reference Manual. In implementing the Alternative Energy Portfolio Standards Act, 73 P. S. §§ 1648.1—1648.8, this Commission had previously adopted an *Energy-Efficiency and DSM Rules for Pennsylvania's Alternative Energy Portfolio Standard, Technical Reference Manual* (TRM), entered October 3, 2005. In adopting the original version of the TRM, this Commission directed the Bureau of Conservation, Economics and Energy Planning (CEEP) to oversee the implementation, maintenance and periodic updating of the TRM.

Additionally, in the Energy Efficiency and Conservation Program Implementation Order, entered on January 16, 2009, at Docket No. M-2008-2069887, this Commission adopted the TRM as a component of the Energy Efficiency and Conservation Program evaluation process. Soon thereafter, Commission staff initiated a collaborative process to update the TRM that culminated with the adoption of the 2009 version of the TRM, on June 1, 2009.

The Commission, in adopting the 2009 version of the TRM, directed CEEP to update the TRM on an annual basis. In furtherance of this directive, the Commission, on November 19, 2010, adopted a Tentative Order issuing a proposed 2011 version of the TRM for comment. The Tentative Order and the proposed 2011 TRM update, along with associated Appendixes, can be found on the Commission's web site at <http://www.puc.state.pa.us/electric/Act129/TRM.aspx>. Interested parties have 20 days from the date of the publication of this Notice to file written comments and 10 days thereafter to file written reply comments referencing Docket No. M-00051865 with the Secretary of the Commission.
