READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 525, 531, 535,
539, 549, 561 AND 563]

Table Game Amendments; Temporary Regulations

The Pennsylvania Gaming Control Board (Board), under its general authority in 4 Pa.C.S. § 13A03 (relating to temporary table game regulations) enacted by the act of January 7, 2010 (P.L. 1, No. 1) (Act 1) and the specific authority in 4 Pa.C.S. § 13A02(1) and (2) (relating to regulatory authority), amends temporary regulations in Chapters 525, 531, 535, 539, 549, 561 and 563 to read as set forth in Annex A. The Board's temporary regulations are codified in Part VII (relating to Gaming Control Board) as part of Subpart K (relating to table games).

Purpose of the Temporary Rulemaking

This temporary rulemaking amends the chapter on table game internal controls and amends the rules of Roulette, Pai Gow, Sic Bo, Blackjack, Pai Gow Poker and Texas Hold 'Em Bonus Poker for clarity, to add additional side wagers and in response to comments received from certificate holders.

Explanation of Chapters 525, 531, 535, 539, 549, 561 and 563

In § 525.6(c) (relating to personnel assigned to the operations and conduct of table games), language in subsection (c)(1), (3), (4), (6) and (10) was deleted as it referenced a dealing procedure in Midibaccarat that was deleted in a temporary rulemaking published at 40 Pa.B. 6943 (December 4, 2010). Therefore, the language is no longer applicable.

In Chapter 531 (relating to Roulette), operators may now offer a Five Adjacent Number Wager which allows patrons to place one wager on five adjacent positions on the Roulette wheel instead of placing five separate Straight Wagers on the layout.

In Chapter 535 (relating to Pai Gow), § 535.9 (relating to alternative dealing procedures) is amended to allow certificate holders to offer any of the traditional dealing styles in subsection (a)(1)—(9) instead of choosing only one alternative dealing style.

In § 539.1 (relating to Sic Bo table; Sic Bo shaker; physical characteristics), the requirement that a separate opaque cover on an automated Sic Bo shaker not be used is deleted since the cover is necessary to operate the automated shaker. Also, the requirement that the automated Sic Bo shaker have the name or logo of the certificate holder imprinted or impressed on it was deleted as it is not necessary for game protection on mounted automated shakers.

In § 549.20 (relating to the Royal Match 21 Wager), regarding Blackjack, Payout E has been deleted as this is not a pay table that will be utilized by a certificate holder.

In Chapter 561 (relating to Pai Gow Poker), an optional side bet, the Fortune Pai Gow Poker Progressive, was added to the game. The additional layout requirements and requirements for the progressive system were added to § 561.2 (relating to Pai Gow Poker table; Pai Gow Poker shaker; physical characteristics). The card rankings

for the Progressive Payout Wager were added in § 561.6(h) (relating to Pai Gow Poker rankings; cards; poker hands). The procedures for completion of each round of play were amended. Section 561.13d (relating to Progressive Payout Wager) is added to address the payout odds and reset amounts for the progressive payout.

In Chapter 563 (relating to Texas Hold 'Em Bonus Poker), the physical characteristics of the table in § 563.2 (relating to Texas Hold 'Em Bonus Poker table physical characteristics) previously required that the payout odds for all permissible wagers be posted on a sign. This amendment requires that the payout odds be either posted on a sign or inscribed on the table layout, which is consistent with the layout requirements for other authorized games.

Affected Parties

This temporary rulemaking will allow certificate holders additional options on how to conduct table games at their licensed facilities.

Fiscal Impact

Commonwealth. The Board does not expect that this temporary rulemaking will have fiscal impact on the Board or other Commonwealth agency. Internal control procedures submitted by certificate holders regarding table games rules submissions will be reviewed by existing Board staff.

Political subdivisions. This temporary rulemaking will not have direct fiscal impact on political subdivisions of this Commonwealth. Eventually, host municipalities and counties will benefit from the local share funding that is mandated by Act 1.

Private sector. This temporary rulemaking will give certificate holders some additional flexibility as to how they conduct table games.

General public. This temporary rulemaking will not have direct fiscal impact on the general public.

Paperwork Requirements

If a certificate holder selects different options for the play at table games, the certificate holder will be required to submit an updated rules submission reflecting the changes.

Effective Date

This temporary rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Public Comments

While this temporary rulemaking will be effective upon publication, the Board is seeking comments from the public and affected parties as to how these temporary regulations might be improved. Interested persons are invited to submit written comments, suggestions or objections regarding this temporary rulemaking within 30 days after the date of publication in the *Pennsylvania Bulletin* to Susan A. Yocum, Assistant Chief Counsel, Pennsylvania Gaming Control Board, P.O. Box 69060, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation #125-143.

Regulatory Review

Under 4 Pa.C.S. § 13A03, the Board is authorized to adopt temporary regulations which are not subject to sections 201—205 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. - (2) The temporary regulations are effective April 9, 2011.
- (3) The temporary regulations will be posted on the Board's web site and published in the *Pennsylvania Bulletin*.

§ 561.13. Procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish.

(a) After the cards have been dealt, each player shall set his hands by arranging the cards into a High hand

and a Low hand. When setting the two hands, the five-card High hand must be equal to or higher in rank than the two-card Low hand. For example, if the two-card hand contains a pair of sevens, the five-card hand must contain at least a pair of sevens and the three remaining cards.

(b) Each player at the table shall be responsible for setting his own hands and no other person except the dealer may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands of the dealer to be set in accordance with its Rules of the Games Submission under § 521.2 (relating to table games Rules Submissions). Each player shall be required to keep the seven cards in full view of the dealer at all times. Once each player has set a High and Low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards into a High and Low hand. The dealer shall then place the two hands face up on the appropriate area of the layout.

(d) Each certificate holder shall submit to the Bureau of Gaming Operations in its Rules Submission under § 521.2, the manner in which it will require the hands of the dealer to be set.

(e) Unless a player has placed a Progress Payout Wager, a player may announce that he wishes to surrender his wager prior to the dealer exposing either of the two hands of that player as required under subsection (f). Once the player has announced his intention to surrender, the dealer shall immediately collect the wager from that player and collect the seven cards dealt to that player without exposing the cards to anyone at the table. The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(f) After the dealer has set a High hand and a Low hand, the dealer shall expose both hands of each player, starting from the right and proceeding counterclockwise around the table. The dealer shall compare the High and Low hand of each player to the High and Low hand of the dealer and shall announce if the Pai Gow Poker wager of that player wins, loses or is a tie. If a player has placed a Progressive Payout Wager, the dealer shall also examine the seven cards of the player and announce if the Progressive Payout Wager of that player wins or loses.

(g) A Pai Gow Poker wager loses if:

(1) The High hand of the player is lower in rank than the High hand of the dealer and the Low hand of the player is lower in rank than the Low hand of the dealer.

(2) The High hand of the player is identical in rank to the High hand of the dealer or the Low hand of the player is identical in rank to the Low hand of the dealer and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer.

(3) The High hand of the player was not set so as to rank equal to or higher than the Low hand of that player.

(4) The two hands of the player were not otherwise set correctly in accordance with this chapter.

(h) All losing Pai Gow Poker wagers shall be immediately collected by the dealer and put in the table inventory container. All losing Pai Gow Poker hands shall also be collected.

(i) A Pai Gow Poker wager is a tie if:

(1) The High hand of the player is higher in rank than the High hand of the dealer, but the Low hand of the player is identical in rank to the Low hand of the dealer or lower in rank than the Low hand of the dealer.

(2) The High hand of the player is identical in rank to the High hand of the dealer or lower in rank than the High hand of the dealer, but the Low hand of the player is higher in rank than the Low hand of the dealer.

(j) If a Pai Gow Poker wager is a tie the dealer shall return the Pai Gow Poker wager to the player. Unless the player has a winning Progressive Payout Wager, the dealer shall immediately collect the cards of that player.

(k) A Pai Gow Poker wager wins if the High hand of the player is higher in rank than the High hand of the dealer and the Low hand of the player is higher in rank than the Low hand of the dealer. If a player has a winning Pai Gow Poker wager and a winning Progressive Payout Wager, the Pai Gow Poker wager shall be paid first.

(l) All hands that resulted in a winning Pai Gow Poker wager or winning Progressive Payout Wager shall remain face up on the layout. Winning wagers shall be paid after all hands are exposed. The dealer shall pay winning wagers beginning with the player farthest to the right of the dealer and continuing counterclockwise around the table.

(m) A winning Pai Gow Poker wager shall be paid off by a certificate holder at odds of 1 to 1, except that the certificate holder shall extract a vigorish, from the winning player in an amount equal to 5% of the amount won; provided, however, that when collecting the vigorish, the certificate holder may round off the vigorish to 25 cents or the next highest multiple of 25 cents. A certificate holder shall collect the vigorish from a player at the time the winning payout is made. After a winning Pai Gow Poker wager has been paid and the vigorish collected, the dealer shall then, if applicable, pay the winning Progressive Payout Wager of that player. Before paying a winning Progressive Payout Wager, the dealer shall, if necessary, reset the player's high hand and low hand to form the hand type yielding the highest progressive wager payout to which the player is entitled. Except as required in subsection (o), the dealer shall then collect the cards from that player.

(n) All cards collected by the dealer shall be picked up in order and placed in the discard rack in such a way that they can be readily arranged to reconstruct each hand in case of a question or dispute.

(o) If a player has won a Progressive Payout Wager that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

§ 561.13d. Progressive Payout Wager.

(a) A certificate holder may, if specified in its Rules Submission under § 521.2 (relating to table games Rules Submissions), offer a player the option of placing a Progressive Payout Wager on whether the player will be dealt a hand type as set forth in subsection (f).

(b) Prior to the first card being dealt for each round of play, each player who has placed a wager in accordance with § 561.7 (relating to wagers) may make a Progressive Payout Wager by placing a value chip onto the separate area designated for that player.

(c) The dealer shall then announce “no more bets” and use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container and deal the cards in accordance with the dealing procedures in § 561.9, § 561.10 or § 561.11 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards by hand; and procedures for dealing the cards from an automated dealing shoe).

(d) A winning Progressive Payout Wager shall be paid in accordance with the payout table in subsection (f) prior to the collection of the winning player’s cards by the dealer. A winning Progressive Payout Wager shall be paid irrespective of the outcome of the player’s Pai Gow Poker wager. Prior to making a payout for a Progressive Payout Wager, the dealer shall:

- (1) Verify that the hand is a winning hand.
- (2) Verify that the appropriate light on the progressive table game system has been illuminated.
- (3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder’s approved internal control procedures.

(e) If a player has won the progressive payout that is 10% or greater of the jackpot amount on the progressive meter, the progressive payout shall not be paid from the table inventory container. Other winning Progressive Payout Wagers shall be paid from the table inventory container.

(f) The certificate holder shall pay out winning Progressive Payout Wagers at the amounts contained in the following payout table:

<i>Hand</i>	<i>Payout</i>
7 card Straight Flush	100%
5 Aces	10%
Royal Flush	500 for 1
Straight Flush	100 for 1
Four-of-a-Kind	75 for 1
Full House	4 for 1

(g) The initial and reset amounts must be contained in the certificate holder’s Rules Submission filed in accordance with § 521.2 and shall be at least \$2,000.

(h) Winning Progressive Payout Wagers shall be paid in accordance with the amount on the meter when it is the player’s turn to be paid, irrespective of the amount that was on the meter when the player placed the wager or when the dealer dealt the player’s cards.

PROPOSED RULEMAKING

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 423a, 433a, 435a,
436a AND 513a]

Employee and Horsemen's Organization Revisions

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(14) and (30) (relating to general and specific powers) and specific authority in 4 Pa.C.S. §§ 1308, 1311, 1311.1, 1311.2, 1317.2, 1321, 1406 and 1518(a)(13), proposes to amend Chapters 423a, 433a, 435a, 436a and 513a to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking amends provisions regarding horsemen's organizations and employees to improve the clarity and effectiveness of the Board's regulations.

Explanation of Amendments to Chapters 423a, 433a, 435a, 436a and 513a

In Chapter 423a (relating to applications), proposed amendments to § 423a.4 (relating to deficient and abandoned applications) clarify that Board staff notifies applicants and establishes time periods to cure deficiencies. Subsection (c) would be added to allow the Bureau of Licensing to close an application that has not been completed but that is not recommended for denial. The applications referenced in subsection (c) are most commonly gaming employees who have decided not to accept employment with a licensee. The Board currently has over 200 applications that are stale—in open status but not recommended for denial. The Bureau of Licensing would send notice in accordance with subsection (a). If the applicant did not respond or no longer wished to complete the application process, the application would be closed.

Proposed § 423a.4(d), currently subsection (c), references only applications that have been denied by the Board. The reference to abandoned applications is in proposed subsection (c).

In Chapter 433a (relating to principal licenses), the definition of "publicly traded" is proposed in § 433a.1 (relating to definitions) to include classes of securities that are listed on a foreign exchange. There is an inconsistency between the definition of "controlling interest" in § 401a.3 (relating to definitions) which acknowledges both domestic and foreign corporations and the definition of "publicly traded" which addresses only securities regulated under the Securities Exchange Act of 1934 (15 U.S.C.A. §§ 78a—78nn). This results in different treatment for foreign versus domestically held, publicly traded stock. For instance, if a person passively owns more than 1% but less than 5% of an entity that is required to be licensed and that entity is publicly traded on a domestic exchange, that person would not be required to be licensed. However, if the person had the same interest in a security listed on a foreign exchange, that person would currently be required to be licensed as a principal. This presents practical problems because of the nature of publicly traded stock which is exchanged daily. This amendment will treat domestic and foreign stock exchanges equally, provided that the Bureau of

Licensing determines that the foreign exchange has similar listing and reporting requirements as those exchanges regulated under the Securities Exchange Act of 1934. The Bureau of Licensing has reviewed and determined that exchanges in Canada, Australia and Japan have similar listing and reporting requirements as those regulated under the Securities Exchange Act of 1934.

Section 433a.9(b) (relating to principal license term and renewal) is amended so only principals of manufacturers and suppliers, which are eligible for initial licensure, are required to complete an initial annual renewal. Unlike slot machine licensees, licensed manufacturers and suppliers are subject to an initial 1-year renewal. The manufacturer or supplier license, however, can only be renewed if the principals, including the affiliates, intermediaries, subsidiaries, holding companies, officers, directors and owners also apply for renewal and are investigated. If, however, a person is applying for a principal license with a manufacturer or supplier that has already completed that initial 1-year renewal, the principal would not be subject to an initial annual renewal.

In § 435a.1 (relating to general provisions), a number of amendments have been proposed to clarify the existing provisions governing which licensed, permitted or registered individuals are prohibited from engaging in gaming as well as the duration and scope of the limitation. These subsections have been expanded to cover both registered and certified gaming service providers which reflects the changes in the dollar thresholds that were part of the amendments to Chapter 437a (relating to vendor certification and registration). See 40 Pa.B. 975 (February 20, 2010).

Proposed amendments to § 435a.1(k) clarify that the prohibition on gaming applies to holders of a license or permit who are currently employed by a slot machine licensee, licensed manufacturer, manufacturer designee, gaming related gaming service provider, supplier or gaming junket enterprise. The duration of the prohibition is stated in proposed subsection (n).

Proposed amendments to § 435a.1(l) clarify that this subsection applies to registered employees of a slot machine licensee. The 30-day duration of an employee's prohibition is currently stated in subsection (n).

Proposed § 435a.1(m) restricts employees who are not required to obtain a permit or registration from wagering in the licensed facility where they work. They may wager at any other licensed facility or at the same facility where they worked once their employment has ended.

Proposed § 435a.1(n) applies the same wagering restrictions imposed on employees of a registered or certified gaming service provider to qualifiers of registered or certified gaming service provider. Similarly, proposed subsection (o), currently subsection (m), is amended to include holders of an occupation permit or registration. These amendments will make the prohibition on gaming uniform for registered and certified gaming service provider qualifiers and employees.

In § 435a.2 (relating to key employee license), the number of copies required to be submitted as part of an application for a key employee license has been reduced from three to one. Because of changes in the Bureau of Licensing's internal procedures, three copies are no longer needed. Additionally, subsections (g)—(j) regarding waivers of key employee licensing requirements are proposed to be deleted. This provision has never been used.

Instead, the Bureau of Licensing has relied on the definition of "key employee" to determine whether or not licensure is required.

In § 435a.3 (relating to occupation permit), the number of copies required to be submitted as part of an application for an occupation permit has been reduced from three to one. As previously stated, changes to the Bureau of Licensing's internal procedures now only require one copy of the application. In subsections (a), (e) and (f), the scope has been expanded to cover both registered and certified gaming service providers and certified gaming related gaming service providers.

As was done in §§ 435a.2 and 435a.3, proposed amendments to § 435a.5 (relating to nongaming employee registration) reduce the number of copies required for an application for a nongaming employee registration from three to one and the scope of these provisions has been expanded to cover both registered and certified gaming service providers. The term "licensed entity" is replaced with "slot machine licensee" because other types of licensed entities, such as manufacturers and suppliers, do not have nongaming employees. Nongaming employees are specific to slot machine licensees and certified and registered gaming service providers.

Proposed amendments to § 435a.8(a) (relating to temporary credentials for principals, key employees and gaming employees) permit the Board to issue temporary credentials to gaming employees as well as principals and key employees. Additionally, the language specifying when the Board may issue a temporary credential has been deleted as there are instances when the investigation has been done but the individual will not be issued a permit. Proposed subsection (d) allows Board staff to add conditions such as restricting the use of a temporary credential for a limited purpose or type of event.

In Chapter 436a (relating to horsemen's organizations), § 436a.1 (relating to definitions) is amended for clarity and to reflect the terms used in the body of the horsemen's organization regulations. The term "director" is in the proposed definition of "officer" since it is not a separately defined term. In § 436a.2 (relating to horsemen's organization notification), horsemen's organizations may no longer complete a registration application but must file a notification form with the Bureau of Licensing. The organization must be required to file an updated notification form within 30 days of any change in information.

Proposed amendments to § 436a.3 (relating to permitting of officers, representatives and fiduciaries) are made for clarity. The renewal term for permits is amended from 1 year to 3 years in conformity with amendments to 4 Pa.C.S. Part II (relating to gaming).

In § 436a.4 (relating to responsibilities of horsemen's organizations, officers, representatives and fiduciaries), proposed changes are made for clarity. This section is reorganized so all reporting requirements are in proposed subsection (e).

Section 436a.5(6) (relating to fiduciaries), regarding reporting requirements, is deleted. The text is moved to proposed § 436a.4(e).

In Chapter 513a (relating to underage gaming), § 513a.2 (relating to exclusion requirements) is amended so only individuals over 21 years of age are permitted on the gaming floor unless the individual is over 18 years of age and authorized to be on the gaming floor for employ-

ment purposes. This proposed amendment is consistent with amendments to 4 Pa.C.S. § 1518(a)(13) (relating to prohibited acts; penalties).

Affected Parties

This proposed rulemaking will affect applicants for and holders of licenses, permits and registrations issued by the Board as well as the horsemen's organizations.

Fiscal Impact

Commonwealth. This proposed rulemaking will not have fiscal impact on the Board or other Commonwealth agencies.

Political subdivisions. This proposed rulemaking will not have direct fiscal impact on political subdivisions of this Commonwealth.

Private sector. Individuals applying for a license, permit or registration will not have to submit as many copies of their applications. The cost and time savings from this amendment is expected to be negligible. Additionally, horsemen's organizations will no longer file a registration application but must file a notification form. The cost savings from this change is \$2,000 every 4 years since there is not an application fee associated with the notification form.

General public. This proposed rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

Individuals applying for a license, permit or registration will have to provide only one copy instead of three copies of their applications. Although horsemen's organizations will no longer complete a registration application, they must still complete a notification form and file the necessary statements, so there likely will not be a reduction in the amount of paperwork for horsemen's organizations.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking, within 30 days after the date of publication in the *Pennsylvania Bulletin*, to Susan Yocum, Assistant Chief Counsel, Pennsylvania Gaming Control Board, P. O. Box 69060, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation #125-144.

S. § 745.5(a)), on March 30, 2011, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee. A copy of this material is available to the public upon request and is available on the Board's website at www.pgcb.state.pa.us.

STATE BOARD OF OCCUPATIONAL THERAPY EDUCATION AND LICENSURE

[49 PA. CODE CH. 42]

Continuing Competency

The State Board of Occupational Therapy Education and Licensure (Board) proposes to amend § 42.17 (relating to fees) and to adopt §§ 42.51—42.58 (relating to continued competency) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will take effect upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

Section 5(b) of the Occupational Therapy Practice Act (act) (63 P. S. § 1505(b)) authorizes the Board to promulgate and adopt rules and regulations consistent with the act as it deems necessary for the performance of its duties and the proper administration of the act. Section 15(a) of the act (63 P. S. § 1515(a)) further provides that “[t]he board may establish additional requirements for licensure renewal to assure continued competency of the applying occupational therapist.”

Background and Purpose

Board members and licensees have long recognized the need for licensed occupational therapists to maintain and expand their professional knowledge and skills. The purpose of this proposed rulemaking is to implement the requirement for continued competency in section 15(a) of the act and establish continued competency requirements to enable licensed occupational therapists to provide “the highest possible degree of professional care and conduct” to the citizens of this Commonwealth as provided in section 2 of the act (63 P. S. § 1502).

Currently, the Board does not have continued competency requirements. Consequently, the Board proposes to add fees for continued competency providers and course approvals in § 42.17 and institute continued competency requirements for occupational therapists as a condition of licensure renewal and reactivation in proposed §§ 42.51—42.58. The Board has not included occupational therapy assistants in this proposal as section 15(a) of the act only authorizes continued competency for occupational therapists. The Board notes, however, that if Senate Bill 187 is enacted prior to these regulations being adopted as final-form, the Board will add occupational therapy assistants to this proposed rulemaking.

Description of Amendments

§ 42.17. Fees

This proposed rulemaking would amend and rename § 42.17 to add a fee schedule regarding continued competency. Applicants seeking provider approval under proposed § 42.54(d) (relating to program providers) would be required to pay a \$40 application and biennial renewal fee. Applicants seeking course approval under proposed § 42.54(e) would also be required to pay a \$40 application fee. These fees are based upon the actual amount of time it takes to process these applications.

§ 42.51. Purpose

Proposed § 42.51 sets forth the purpose of the continued competency requirements consistent with the Board’s statutory authority.

§ 42.52. Definitions

The Board proposes to define ten terms specifically applicable to continued competency in § 42.52: “contact hour,” “continued competency,” “educational courses,” “level I fieldwork,” “level II fieldwork,” “mentor,” “mentorship,” “mentorship agreement,” “professional continued competence portfolio” and “protégé.”

A “contact hour” is defined as 50-60 minutes of participation in a continued competency activity, depending on the type of activity. Generally, educational courses are 50 minutes in duration while fieldwork, mentorship, writing and editing are measured in 60-minute increments. Unlike continuing education, which is a prerequisite for biennial renewal for many licensing professions, “continued competency” is a multidimensional process by which a licensed occupational therapist demonstrates the development and maintenance of knowledge, skills, attitudes, judgment, abilities and ethics. A “professional continued competence portfolio” is a document that evidences completion of continued competency activities plus a self-assessment as required under § 42.57 (relating to documentation and reporting of continued competency activities).

The remaining definitions stem from the acceptable continued competency activities in § 42.55 (relating to acceptable continued competency activities). The proposed definition of “educational courses” clarifies that these courses include academic and continuing education courses delivered by both onsite and distance education. Another acceptable continued competency activity is fieldwork as described in the American Occupational Therapy Association’s (AOTA) Standards for an Accredited Educational Program for the Occupational Therapist. The definitions of “level I fieldwork” and “level II fieldwork” distinguish between basic and advanced fieldwork experiences. Specific information about level I fieldwork and level II fieldwork is available on the AOTA’s web site at <http://www.aota.org/Educate/EdRes/Fieldwork.aspx>.

In addition to education courses and fieldwork, another acceptable continued competency activity is mentorship. As explained in the proposed definition, a mentorship is a formalized one-on-one teaching/learning relationship specified in a “mentorship agreement” between a “mentor” and a “protégé.” A “mentor” includes a licensed occupational therapist as well as another person who holds a license, certificate or registration from one of the health licensing boards within the Bureau of Professional and Occupational Affairs or who is currently certified by the Department of Education.

§ 42.53. Continued competency requirements

Effective the first biennium following publication of the final-form rulemaking, § 42.53 would require licensed occupational therapists to complete a minimum of 24 contact hours in at least two acceptable continued competency activities each biennium, after their first biennial renewal period, as a condition of licensure renewal. Occupational therapists seeking to reactivate lapsed or inactive licenses would be required to show compliance with the continued competency requirement during the biennium immediately preceding the request for reactivation. Additionally, licensed occupational therapists whose licenses have been suspended or revoked would be required to complete the continued competency contact hour

requirement for each biennium in which the license was suspended or revoked as a condition for reinstatement.

§ 42.54. *Program providers*

Under proposed § 42.54, licensed occupational therapists would have three options for provider approvals: complete activities from preapproved providers; complete activities from Board-approved providers; or seek individual approval for a specific activity provided by an entity that is neither preapproved nor Board-approved. Proposed subsection (c) contains the list of 12 preapproved providers including State, National and international occupational therapy associations; the AOTA's Approved Provider Program; the Department of Education; Federal and State programs related to health care; accredited colleges, universities and postsecondary vocational schools; and National and State professional health care and education organizations.

Proposed subsection (d) contains the criteria the Board will use to evaluate providers for Board approval. At least 60 days prior to the beginning of the activity, but no later than 90 days before the end of the biennial renewal period, a provider seeking Board approval would be required to provide the Board with its learning objectives, criteria for selecting and evaluating faculty instructors, subject matter and instructional materials and its evaluation procedures. Unlike preapproved providers, Board-approved providers must renew their approval biennially.

A licensed occupational therapist who wishes to obtain credit for an activity that is provided by an entity that is neither preapproved nor Board-approved may seek approval for the activity no later than 90 days before the end of the biennial period based on the criteria in proposed subsection (e). Following review, the Board will advise the licensed occupational therapist whether the activity has been approved and the number of contact hours awarded.

§ 42.55. *Acceptable continued competency activities*

Proposed § 42.55 describes the various activities for which continued competency contact hours may be awarded, the maximum number of hours that may be awarded and the documentation required for that activity if it differs from the general requirements in proposed § 42.57(a). These activities include continuing education courses, academic courses, mentorship, fieldwork supervision, professional writing and editing, presentation, and instruction. Irrespective of the provider, contact hours would only be granted for activities that are relevant to the practice of occupational therapy and may not involve marketing, office management, financial gain or self-promotion.

For educational courses, under proposed subsection (b)(1), licensed occupational therapists may earn a maximum aggregate of 18 contact hours. The number of contact hours for continuing education courses equals the number of directed hours while one credit equals 15 contact hours for academic courses.

Mentorship activities are delineated in subsection (b)(2). Prior to the beginning of a mentorship, the mentor and the protégé would enter into a mentorship agreement establishing the scope of the mentorship. Following the mentorship, the mentor would provide the protégé a postmentorship summary documenting the time spent and the outcomes of the mentorship program. Both a mentor and a protégé may earn 1 contact hour for every 5 hours of mentorship activities up to 6 contact hours per biennium. A copy of the mentorship agreement and the

postmentorship summary would be included in the professional continued competence portfolio.

Proposed subsection (b)(3) describes fieldwork supervision. Licensed occupational therapists may earn 1 contact hour per student up to 3 contact hours per biennium for serving as a supervisor for level I fieldwork and 3 contact hours per student up to 6 contact hours per biennium for serving as a supervisor for level II fieldwork. In addition to the documentation required to be produced upon audit in proposed § 42.57(a), fieldwork documentation would have to be verified by the educational program.

Proposed subsection (b)(4) describes professional writing activities. Licensed occupational therapists may earn a maximum of 15 contact hours in this activity. The Board proposes to award 15 contact hours for writing a book, 10 contact hours for writing a chapter in a book, 10 contact hours for writing an article published in a peer-reviewed journal and 5 contact hours for writing an article published in a non-peer-reviewed journal. Although the Board is cognizant that numerous hours are spent writing prior to the document being published, for continued competency contact hour purposes, the Board will only award credit for professional writing activities in the biennium in which the book, chapter or article is published.

Like professional writing, the Board proposes capping the number of contact hours to be awarded for editing to a maximum of 15 contact hours per biennium. Proposed subsection (b)(5) would award a maximum of 10 contact hours for editing a book and 1 contact hour, up to a maximum of 6 contact hours, for each article reviewed for a professional journal.

Proposed subsection (b)(6) addresses presentation and instruction. A licensed occupational therapist may earn a maximum of 12 contact hours in this activity per biennium. Two contact hours would be awarded for each 60-minute peer-reviewed or invited presentation.

§ 42.56. *Waivers of continued competency requirements and curing deficiencies*

As proposed, § 42.56 would allow the Board to waive continued competency requirements for licensees due to illness, injury or emergency. Licensees would be required to request a waiver no later than 60 days before the end of the renewal year unless the applicant proves to the satisfaction of the Board that it was impracticable to do so (as in the instance when a licensee is enrolled for a continued competency activity 15 days before the end of the biennial period and suffers a heart attack preventing the licensee from attending the activity). The proposed rulemaking would also permit licensed occupational therapists to make up deficiencies after presenting a request, along with a remediation plan, to the Board to make up the required contact hours.

§ 42.57. *Documentation and reporting of continued competency activities*

Proposed § 42.57 describes the documentation and reporting responsibilities for providers and for licensed occupational therapists. Regardless of whether the provider is preapproved or Board-approved, subsection (a) requires providers to provide attendees with completion documentation following the activity. The documentation must include the name of the participant, provider and instructor, the title, date and location of the activity, and number of contact hours awarded.

Subsection (b) describes documentation requirements for licensed occupational therapists. For each biennial

period, a licensed occupational therapist would be required to prepare a professional continued competency portfolio which contains verification of completion of the required continued competency contact hours as well as a self-assessment. Licensed occupational therapists would be required to retain the portfolio for 4 years following the last day of the renewal period in which the continued competence activities were earned and to provide them to the Board when requested. It also provides notice that licensed occupational therapists who have not completed the required hours of continued competency activities may not be eligible for renewal until the hours are completed, unless a waiver has been granted or a plan for curing deficiencies has been approved by the Board under § 42.56.

§ 42.58. *Disciplinary action*

Finally, § 42.58 advises licensed occupational therapists that failure to comply with the continued competency requirements or submission of false documentation in connection with those requirements subjects the licensed occupational therapist to disciplinary action under section 16 of the act (63 P.S. § 1516). Procedures and standards for due process stemming from a disciplinary action are in 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure), the act of July 2, 1993 (P.L. 345, No. 48) (63 P.S. §§ 2201—2207) and case law.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have a fiscal impact on the regulated community in that each licensed occupational therapist would incur the costs associated with completion of 24 contact hours of continued competency activities as a condition of biennial renewal. Due to the variety of ways an occupational therapist may obtain contact hours for continued competency purposes, it is impossible to derive an appropriate estimate as to costs for the regulated community. For instance, an occupational therapist could obtain contact hours through a mentoring relationship, professional writing and editing, fieldwork supervision, journal review or presentation. None of these activities necessarily impose an additional cost on the licensee. While some educational courses can be expensive, many Internet-based courses are extremely inexpensive and in some cases free. Nonetheless, the Board estimates an average cost of compliance with the continued competency requirements to be \$300 per licensee annually. In addition, the proposed rulemaking would create additional paperwork for the regulated community in that licensed occupational therapists would be required to retain documentation supporting the completion of the continued competency activities for 4 years and provide that documentation to the Board upon request.

The proposed rulemaking will also have a fiscal impact on the Board in that the Board will be required to expend resources reviewing Board-approved provider and individual activity applications. However, the Board anticipates that there will be no more than 30 applications to review in each category and those costs will be borne by the applicants through the proposed \$40 fee. In addition, the Board will incur costs and increased paperwork associated with audit and enforcement of the continued competency requirements.

Sunset Date

The Board continuously monitors the effectiveness of the regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on March 25, 2011, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Judith Pachter Schulder, Board Counsel, State Board of Occupational Therapy Education and Licensure, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference or a public hearing, as applicable, on a mining permit application may be submitted by a person or an officer or head of Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of the person submitting comments or objections, the application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads.

Persons wishing to comment on NPDES permit applications should submit statements to the Department at the address of the district mining office indicated before each application within 30 days of this public notice. Comments received within the comment period will be consid-

ered in the final determinations regarding the NPDES permit applications. A comment must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers

the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The proposed Laser Northeast Gathering Susquehanna Pipeline—South Leg consists of the construction, operation, and maintenance of approximately 14.4 miles of the primary leg of a natural gas gathering system which is comprised of a sixteen inch coated steel pipe, buried to approximately three feet, collecting gas from three laterals of similar construction but ten inches in diameter. The linear length of the three laterals is approximately two, 2.1, and 5.4 miles in length. The natural gas gathering system is proposed for Liberty, Franklin, Silver Lake, Forest Lake and Middletown Township/s, Susquehanna County, Pennsylvania. All stream and wetlands crossings

are proposed to be constructed using the Horizontal Directional Drill method. Total Temporary Impacts for this site are 350.2 lineal feet of stream crossings and 8,056.2 square feet (0.185 acre) of wetland impacts. There are no permanent impacts associated with this site.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Telephone: 717-705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
(West Hempfield Twp)	(3401 Marietta Ave., Lancaster, PA 17601)	Lancaster County

Plan Description: The Mitchell S. Weaver proposed plan revision for subdivision of two residential lots, each using an on lot sewage system, plus a residue lot, was disapproved because the preliminary hydrogeologic study determined the minimum lot size to be 1.65 acres. Proposed Lot 1 does not meet this minimum requirement and therefore does not have the area required to infiltrate the amount of groundwater recharge necessary to successfully dilute the nitrate-nitrogen from this lot's sewage discharge. The average nitrate-nitrogen levels in the groundwater leaving this lot will exceed 10 mg/l. The proposed subdivision is located on the south side of Fairview Rd at the Raintree Road intersection in West Hempfield Township, Lancaster County. The DEP Code number for this proposal is A3-36960-280-2 and the APS number is 738586.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania*

Bulletin. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

Code § 1001.161 (relating to research), the Department may approve an ambulance service to engage in a research project that involves use of a drug not included in a region's medical treatment protocols. Finally, under 28 Pa. Code § 1001.4 (relating to exceptions), a ground ALS ambulance service and its ALS service medical director may apply to the Department for an exception to a region's medical treatment protocols.

The list of drugs in this notice does not apply to air ambulance services. Under 28 Pa. Code § 1007.7(i)(2) (relating to licensure and general operating requirements), each air ambulance service is to develop its own medical treatment protocols which identify drugs that may be used by the air ambulance service. The air ambulance service is to then submit the protocols to the medical advisory committee of the appropriate regional emergency medical services council for the medical advisory committee's review and recommendations. Following its consideration of the recommendations, and after making further revisions if needed, the air ambulance service is to file the protocols with the Department for approval.

Persons with a disability who require an alternate format of this notice (for example, large print, audiotape, Braille) should contact Robert Cooney at the Department of Health, Bureau of Emergency Medical Services, Room 606, Health and Welfare Building, 625 Forster Street Harrisburg, PA 17120-0701, (717) 787-8740. Prehospital Practitioner Scope of Practice

Under 28 Pa. Code §§ 1003.21(c)(13), 1003.22(e)(3), 1003.23(f), 1003.24(e) and 1003.25(b) and (c), the Department of Health (Department) is publishing the scope of practice for ambulance attendants, first responders, emergency medical technicians (EMTs), EMT—paramedics (EMT-Ps) and prehospital registered nurses (PHRNs) under 35 Pa.C.S. §§ 8101—8157 (relating to Emergency Medical Services System Act).

Skills identified may be performed by a prehospital practitioner at the practitioner's level of certification/recognition only if the practitioner has successfully completed training (cognitive, affective and psychomotor) on the specified skill, which includes training to perform the skill on adults, children and infants, as appropriate.

A PHRN with medical command authorization may perform, in addition to those services within an EMT-Ps scope of practice, other services authorized by The Professional Nursing Law (63 P. S. §§ 211—225.5), when authorized by a medical command physician through either online medical command or standing medical treatment protocols. To administer drugs in addition to those permitted by applicable medical treatment protocols, a PHRN must also have received approval to do so by the advanced life support service medical director of the advanced life support ambulance service under which the PHRN is functioning.

This list supercedes the list of skills in the scope of practice of prehospital personnel published at 38 Pa.B. 6565 (November 29, 2008). Two changes have been made. The changes are as follows:

- Removing MAST as an approved treatment.
- Adding Transport Ventilators for use by ALS providers and Carbon Monoxide Co-oximetry monitoring.
- Persons with a disability who require an alternate format of this notice (for example, large print, audiotope, Braille) should contact Robert Cooney, Emergency Med-

ical Services System Act, Department of Health, Bureau of Emergency Medical Services, Room 606, Health and Welfare Building, 625 Forster Street, Harrisburg, PA 17120-0710, (717) 787-8740. DEPARTMENT OF TRANSPORTATION

Finding Bucks County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Director of the Bureau of Project Delivery, as delegated by the Secretary of Transportation, makes the following finding:

The Department of Transportation (Department) is planning a project to replace the bridge that carries Lower State Road (SR 2089) over the Neshaminy Creek

in Doylestown Township, Bucks County. The project involves the placement of a utility pole within the Department right-of-way, but the guy wire supporting the pole extends into the boundary of the National Register-eligible McHenry Farmstead. The placement of the guy wire will result in minimal disturbance to the resource. No effect will occur to the McHenry Farmstead.

In accordance with section 2002 of The Administrative Code of 1929 establishing the Department, a Level-1b Categorical Exclusion Evaluation (CEE) has been developed for the subject project along with a Determination of Section 4(f) De Minimis Use/Section 2002 No Adverse Use document to evaluate the potential environmental impacts caused by the subject project. The document also

serves as the Section 2002 Evaluation. The approved documents are available in the CE/EA Expert System.

Based upon studies, there is no feasible and prudent alternative to the proposed action. Mitigation measures will be taken to minimize harm as stipulated in the Level-1b CEE Evaluation and the Determination of Section 4(f) De Minimis Use/Section 2002 No Adverse Use document.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize the effects.

Finding Franklin County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Director of the Bureau of Project Delivery, as delegated by the Secretary of Transportation, makes the following written finding:

The Norfolk Southern Railroad (NSR) with State transportation funding assistance proposes to construct and operate a new intermodal facility in order to improve freight transportation capacity in its south central service region. The proposed project consists of the construction of the new intermodal facility and several associated road improvements. The proposed site is located on an approximate 150-acre site immediately adjacent and parallel to the existing NSR Harrisburg—Hagerstown mainline at milepost HW-66 in Antrim Township, Franklin County.

The project will require the acquisition of right-of-way from two farms which are eligible for listing in the National Register of Historic Places; the Dr. Robert Johnston Farm and the Samuel Shindle Farm. The 2-acre take from the Johnston Farm and the approximate 5.5-acre take from the Shindle Farm will constitute Section 2002 resource use.

In accordance with section 2002 of The Administrative Code of 1929 establishing the Department of Transportation, a Level-2 Environmental Document has been developed for the subject project to evaluate the potential environmental impacts caused by the subject project along with two Determination of Section 4(f) De Minimis Use Section 2002 No Adverse Use Historic Properties documents. The Section 4(f) documents also serve as the Section 2002 Evaluation. The approved documents are available in the CE/EA Expert System. The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. Based upon studies, there is no feasible and prudent alternative to the use of the Section 2002 resources for the proposed action. Mitigation measures will be taken to minimize harm as stipulated in the Level-2 ED.

Finding Montgomery County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Director of Project Delivery, as delegated by the Secretary of Transportation, makes the following written finding:

The Department of Transportation (Department) is planning a project to rehabilitate the two-span stone arch carrying SR 0152 over Neshaminy Creek. The Section 4(f) resource involved with the project is the bridge to be rehabilitated. The bridge is a narrow two-lane, two-span masonry arch with a length of 42 feet. The bridge was listed on the National Register of Historic Places in June 1988. The proposed project results in a No Adverse Effect finding.

In accordance with section 2002 of The Administrative Code of 1929 establishing the Department, a Level-1b Categorical Exclusion Evaluation has been developed for the subject project along with a Determination of Section 4(f) De Minimis Use/Section 2002 No Adverse Use document to evaluate the potential environmental impacts caused by the subject project. —
Pennsylvania Gaming Control Board
Regulation #125-138 (IRRC #2886)

Table Game Devices

March 30, 2011

We submit for your consideration the following comments on the proposed rulemaking published in the January 29, 2011 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Section 605a.2. Electronic wagering systems.—Implementation procedures; Clarity and lack of ambiguity.

Subsection (c)

This subsection states that all aspects of an electronic wagering system must be tested “and approved by the Bureau of Gaming Laboratory Operations prior to use at any licensed facility in this Commonwealth.” We are concerned that procedures for obtaining Bureau approval are not included in the proposed regulation. We suggest that the final-form regulation include the procedures or an appropriate cross-reference to where the procedures can be found. We have similar concerns with the following sections: §§ 605a.2(e); 605a.4(b); 605a.7(b); 605a.7(c); and 605.7(d)(3).

Subsection (d)

We have four concerns with this subsection. First, Subsection (d)(3)(ii) references “rake procedures established for the game.” Who establishes the “rake procedures” and where can they be found? This should be included in the final-form regulation.

Second, Subsection (d)(6) references “Poker revenue.” Is “Poker revenue” different than any other table game revenue? We believe that clarity could be improved if the term “Poker revenue” was defined.

Third, Subsection (d)(7) requires electronic wagering systems to generate reports that include 12 specific pieces of information. What happens to these reports? Are the reports supposed to be submitted to the Board? This should be clarified in the final-form regulation.

Fourth, Subsections (d)(7)(vii) and (viii) use the term “Poker rake time charges.” What does this term mean? We recommend that it be defined in the final regulation.

2. Section 605a.4. Electronic gaming tables.—Reasonableness; Clarity and lack of ambiguity.

Subsection (g) states that electronic gaming tables that are not fully automated must be equipped with seven specific meters and “Other meters required by technical standards adopted by the Board.” See § 605a.4(g)(8), pertaining to additional meters. We are concerned that Paragraph (g)(8) does not provide the regulated community with a clear standard that would allow them to comply with the regulation. We recommend that the final-form regulation include the information contained in the technical standard. In the alternative, we ask the Board to include a specific cross-reference to the technical standard that would need to be followed.

We have a similar concern with Section 605a.5(d)(12), relating to additional meters for fully automated table games.

3. Chapter 613a. Gaming Related Gaming Service Providers.—Clarity and lack of ambiguity.

Section 1103 of the Pennsylvania Race Horse Development and Gaming Act (4 Pa.C.S. § 1103) defines the term “gaming service provider” as follows:

A person that is not required to be licensed as a manufacturer, supplier, management company or gaming junket enterprise and:

- (1) provides goods or services to a slot machine licensee or an applicant for a slot machine license for use in the operation of a licensed facility; or
- (2) provides goods or services at a licensed facility.

We ask the Board to explain why it has created the term “gaming related gaming service provider” instead of using the statutory term “gaming service provider.” We believe clarity would be improved if the statutory term was used in the regulation.

If the Board believes that the use of the term “gaming related gaming service provider” is warranted, we ask the Board to define this term.

4. Section 613a.2. Gaming related gaming service provider certification applications.—Reasonableness; Implementation procedures; Clarity and lack of ambiguity.

Subsection (a) pertains to the application process that must be followed to obtain a gaming related gaming service provider certificate. We have two concerns. First, why must the table game certificate holder submit the documentation and fee for the gaming related gaming service provider that is seeking certification?

Second, Paragraph (a)(1) includes the phrase, “unless otherwise directed by the Board.” This phrase is vague and does not establish a binding norm. Under what circumstances would there be a deviation from the application process? We recommend that it be deleted from the final-form regulation.

5. Section 613a.6. Gaming related gaming service provider list.—Reasonableness; Clarity and lack of ambiguity.

This subsection states that the Board will maintain a list of certified and approved gaming related gaming service providers, but it does not state where the list can be found. We suggest amending the final-form regulation to state that the list will be available on the Board’s website.

6. Section 613a.7. Requirements for use of a gaming related gaming service provider.—Implementation procedures; Clarity and lack of ambiguity.

We have four concerns with this section. First, under Paragraph (1), what is a “gaming related service”? We recommend that the term be defined.

Second, under that same paragraph, the gaming related gaming service provider is required to submit its gaming related service to the Bureau of Gaming Laboratory Operations (Bureau). Will the Bureau review and approve the gaming related service? If so, similar to our first comment on Section 605a.2, we suggest that the procedures surrounding Bureau approval, or a cross-reference to the procedures, be included in the final-form regulation.

Third, Paragraph (3) includes a reference to Section 601a.4, relating to request to offer a new table game or new feature for an existing table game. This is a reference to a regulation that has not been published as a

final rule. It is our understanding that the reference is to another Board table game regulation that will be published as a final rule in the near future. We are concerned that this rulemaking may be finalized before the other regulation is finalized. If this occurs, it could lead to a confusing regulatory environment for those that must comply with the rulemaking. In the Preamble to the final-form version of this rulemaking, we ask the Board to explain its plan for promulgating these regulations in a manner that ensures all references are valid.

Fourth, Paragraph (4) references a certification fee that must be paid by the gaming related gaming service provider. Where can a gaming related gaming service provider find out what the fee is? Will the fee be posted to the Board's website? If so, we recommend that the final-form regulation be amended in a manner similar to the language found in Paragraph 613a.2(a)(2).

7. Section 613a.8. Permission to conduct business prior to certification.—Whether the regulation is consistent with the intent of the General Assembly.

This section allows the Board's Bureau of Licensing to authorize an applicant for gaming related gaming service provider certification to conduct business with a table game certificate holder if certain criteria are met. In the Preamble to the final-form regulation, we ask the Board to explain how this practice adequately protects the integrity of gaming in this Commonwealth.

In addition, if the Office of Enforcement Counsel denies an application for gaming related gaming service provider certification and that entity has provided a gaming related service to a table game certificate holder, can that gaming related service still be used by the table game certificate holder? If so, will the integrity of gaming in the Commonwealth be adequately protected?

We have similar concerns with § 615a.1, pertaining to table game devices and conditional licenses.

8. Section 615a.1. Table game devices; conditional licenses.—Clarity and lack of ambiguity.

In addition to the concern raised in the previous comment on Section 613a.8, we have two concerns. First, this section uses the term "table game devices." What is a "table game device"? We recommend that the term be defined.

Second, Paragraph (b)(5) requires the submittal of "full payment." Does this subsection pertain to the full payment of a particular fee? We ask the Board to clarify what must be paid, and if appropriate, include a reference to where the fee can be found.
