The EPA approved a dissolved Cu WER of 5.7 for Harvey Avenue STP. Subsequently, the EPA approved an additional site specific copper recalculation which was public noticed in the *Pennsylvania Bulletin* on December 2, 2000. The site specific copper criteria, including the WER and recalculated criteria equation are:

$$\text{Cu CCC (dissolved)} = 5.7 * e((0.8545 * \ln[\text{H}]) - 1.203)$$

$$\text{Cu CMC (dissolved)} = 5.7 * e((0.9422 * \ln[\text{H}]) - 1.201)$$

For a hardness of 186 mg/l, the site specific copper CCC criteria is 148.83 ug/l and the CMC criteria is 235.84 ug/l.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S.

§§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

ENVIRONMENTAL ASSESSMENT

EA 49-002. Nottingham Village Retirement Center Associates, LP, 58 Neitz Road, Northumberland, PA 17857-9608. Stream Restoration in Point Township; ACOE Baltimore District.

The project proposes to restore approximately 200 linear feet of first order stream channel. The project will consist of the reestablishment of a natural meander pattern and profile of the Unnamed Tributary to the Susquehanna River, which is designated as a cold water fishery. This work shall remove the existing channel from the previously constructed storm water pond and reestablish the aquatic habitat and flow regime of the natural channel. Associated with this work will be several new meanders, toe protection and a reestablished off stream storm water containment pond. Water quality improvements shall be noted by eliminating stream disturbances associated with future storm water basin maintenance, increases water quality during facility expansions since an "off-stream" storm water basin can be utilized as a sediment basin during construction to control sediment laden water from entering the stream, maintaining hydraulic and hydrologic conditions upslope of the existing seep to ensure there are no secondary impacts to existing wetlands and streams and reduced erosion (head-cutting) in the existing stream channel by diverting existing facility storm water flows into new water quality management facilities. Increased stream channel stabilization by construction of a longer and meandering stream channel will reduce channel slope and be resilient to scour. Bio-retention facilities proposed along the upslope side of the proposed retention basin will promote overall water quality and recharge for the development. The tiered orientation will also help to sustain a permanent pool within the new retention basin. This project is located 1800 feet East on Leeds Drive from the intersection with Strawbridge Road.

SPECIAL NOTICES

Intent to Issue Plan Approval—IPAOP

Philadelphia: Air Management Services, 321 University Avenue, Philadelphia, PA. 19104-4543, Contact: Edward Wiener, Chief, Source Registration at 215 685 9426.

AMS 14218: (Aker Philadelphia Shipyard Inc— 2100 Kitty Hawk Avenue, Philadelphia, PA 19112) for modifying source P-31 dry dock painting operation by relocating a portion of the production that currently occurs within the dry dock to an area adjacent to the existing dry docks. The facility also requests increases of HAP limit from ship building operation from 50.4 tons to 72.1 tons per rolling twelve month period due to a change in coating formulation as required by International Maritime organization's Performance Standard for Protective Coating (PSPC), and reduce the HAP emission limit from the sources in building 763 from 24.5 tons per twelve month rolling period to 2.8 tons per rolling twelve month period for combined HAPs or any singular HAP calculated monthly.

The plan approval will contain operating, monitoring, recordkeeping, and reporting requirements to ensure operation within all applicable requirements.

AMS 08179: PaperWorks Industries, Inc. (5000 Flat Rock Road, Philadelphia, PA 19127) Modifying plan approval No. 08179 in order to continue operate boiler No. 1 with limited capacity (156MMBTU/hr) and with limited usage of No. 6 fuel oil in the City of Philadelphia, **Philadelphia County**. The primary fuel for Boiler No. 1 will be natural gas and operate with the maximum of 168 hrs/year with No. 6 fuel oil, solely for emergency purpose, to keep pipes from freezing in case of natural gas interruption. In addition to that, this modification removes the authorization of No. 6 fuel oil usage on boiler #3 and 4 and redefines these boilers as gas fired boiler. Boiler No. 3 & 4 will only burn natural gas.

The modification will have the following potential annual emissions from boiler No. 1: 138 tons of Nitrogen Oxides (NO_x), 7.22 tons of Sulfur Dioxide (SO₂), 54.52 tons of Carbon Monoxide (CO), 3.63 tons of Volatile Organic Compounds (VOC), 5.6 tons of Particulate Mat-

ter; and for boiler No. 3 & 4 each, 10.15 tons of Nitrogen Oxides (NO_x); 32.77 tons of Carbon Monoxide (CO), 2.2 tons of Volatile Organic Compounds (VOC), 2.96 tons of Particulate Matter. The potential emissions of all of these emissions will decrease as a result of the project due to the use of natural gas as a primary fuel for each boiler and operational limit of boiler No. 1 to 156 MMBTU/hr.

The plan approval will contain operating, monitoring, recordkeeping, and reporting requirements to ensure operation within all applicable requirements.

DEPARTMENT OF PUBLIC WELFARE

Nursing Facility Assessment Program for Fiscal Year 2014-2015

This notice announces the amount of the assessment that the Department of Public Welfare (Department) is implementing for Fiscal Year (FY) 2014-2015, provides an explanation of the assessment methodology that the Department is using in FY 2014-2015 and identifies the estimated aggregate impact on nursing facilities which will be subject to the assessment.

Background

Article VIII-A of the Public Welfare Code (code) (62 P. S. §§ 801-A—815-A) authorizes the Department to impose an annual monetary assessment on nursing facilities and county nursing facilities in this Commonwealth each fiscal year through FY 2015-2016. Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). See 62 P. S. § 803-A. To ensure receipt of FFP, Article VIII-A of the code requires the Department to seek a waiver from the Federal Centers for Medicare and Medicaid Services (CMS) if necessary to implement the Assessment Program. See 62 P. S. § 812-A.

For each fiscal year that the Assessment Program is implemented, the code authorizes the Secretary of the Department (Secretary) to determine the aggregate amount of the assessment and the annual assessment rate in consultation with the Secretary of the Budget. See 62 P. S. § 804-A. The act specifies that annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for Federal matching funds. See 62 P. S. § 804-A.

The Secretary must publish a notice in the *Pennsylvania Bulletin* before imposing an annual assessment for a fiscal year. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P. S. § 805-A.

After consideration of any comments received during the 30-day comment period, the Secretary must publish a second notice announcing the rate of assessment for the fiscal year. See 62 P. S. § 805-A. The annual aggregate assessment amount and assessment rate for the fiscal year must be approved by the Governor. See 62 P. S. § 804-A.

The Secretary published a notice at 44 Pa.B. 3646 (June 14, 2014) announcing the proposed assessment rates, the aggregate amount and the impact for FY 2014-2015. The following is a summary of the comments that the Department received in response to the notice and the Department's responses to those comments.

Public Comment on the Proposed Assessment Program

One commentator, which is a law firm representing Blough Healthcare, LLC (Blough), a licensed nursing facility, submitted comments in response to the Department's notice published at 44 Pa.B. 3646.

Comment

The commentator stated that the Department did not provide sufficient advance notice regarding the change in the number of beds needed to qualify for the lower assessment rate. The commentator stated the Department of Health requires a 60-day advance notice for any decrease in bed compliment, and given that requirement, the earliest a facility can have a decrease in bed compliment is September 1, 2014.

The commentator also stated this change will have a negative annual impact of about \$190,000 on the facility that his firm represents, resulting in a significant hardship and negative impact on the facility's real estate value. The commentator also stated that the change will have an adverse impact on 37 of the 694 nursing facilities subject to the assessment (including Blough). In addition, the commentator states there is no rational basis for the decrease to 44 beds and that this change unfairly targets small operators.

The commentator requests the Department defer the effective date of the change to 44 beds until the beginning of the second assessment quarter (October 1, 2014) to afford the current 50-bed providers an opportunity to continue to qualify for the lower rate or otherwise afford facilities that implement the bed reduction by September 1, 2014 retroactive qualification for the entire fiscal year. Also, the commentator requests the Department seek sufficient funding to keep the 50-bed rate in place.

Response

As previously stated, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of MA Program expenditures eligible for FFP. Since the Commonwealth's Nursing Facility Assessment Program is neither broad based nor uniform, the Department is required to seek a waiver of the broad based and uniformity requirements under 42 CFR 433.68 (relating to permissible health care-related taxes) from the CMS to ensure receipt of FFP. When submitting the waiver request, the Department must demonstrate, among other things, that the assessment is generally redistributive using the statistical test (B1/B2) described in 42 CFR 433.68(e)(2). Generally, to meet the test a certain proportion of high MA utilization facilities must be exempt or assessed at a lower rate. Due to the number of former county nursing facilities that are now assessed at a higher rate because of a change of ownership from county ownership to a nonpublic nursing facility provider throughout State Fiscal Year (SFY) 2013-2014, the assessment methodology used in SFY 2013-2014 failed this statistical test for SFY 2014-2015. Without an immediate change in the assessment methodology, the Commonwealth would lose an estimated \$1 billion (assessment revenue and FFP) in SFY 2014-2015 used to support MA payments to nursing facilities.

Numerous options were discussed with the nursing facility trade associations. The proposal to maintain essentially the same assessment methodology that was used in SFY 2013-2014, but for an adjustment to the qualifications for the assessment rates was the result of three important considerations: (1) pass the delicately balanced B1/B2 statistical test previously referenced; (2) minimize the negative financial impact on nursing facilities, while generating a consistent level of revenue to support nursing home rates and supplemental payments; and (3) obtain CMS approval well in advance of the scheduled decrease in FFP.

Deferring the change for one assessment quarter as suggested by the commentator would result in a failed B1/B2 statistical test and, therefore, a loss of approximately \$1 billion used to support payments for medically necessary nursing facility services provided to MA recipients. In addition, of the 37 nursing facilities listed by the commentator, 8 of the nursing facilities will not be adversely impacted by this change since they will continue to be assessed at the lower rate as grandfathered Continuing Care Retirement Communities (CCRC) and another facility requested and was approved for a bed increase. Further, of the remaining 28 facilities on the commentator's list, 24 of them participate in the MA Program. As a result, the MA portion of their assessment cost will be reimbursed and they will also receive a supplemental payment which reflects their MA recipient population. Consequently, their combined allowable cost portion and supplemental payment may exceed their assessment cost if they provide medically necessary nursing facility services to a significant number of MA recipients.

Assessment Methodology and Rates for FY 2014-2015

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2014-2015:

- (1) State owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.
- (3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.
- (4) Nursing facilities that provide nursing facility services free of charge to all residents.

The Department will assess nonexempt nursing facilities at two rates. One rate will apply to three categories of nursing facilities: county nursing facilities; nursing facilities that have 44 or fewer licensed beds; and certain CCRC nursing facilities. See 40 Pa.B. 7297 (December 18, 2010). The other rate will apply to all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate each non-exempt facility's quarterly assessment amount by multiplying its assessment rate by the facility's non-Medicare resident days during the calendar quarter that immediately preceded the assessment quarter. This rate structure is essentially the same structure that was used in FY 2013-2014, but for an adjustment to the qualifications for the assessment rates.

Although the Department will maintain essentially the same basic rate structure for FY 2014-2015, the Department is decreasing the assessment rates for nonexempt nursing facilities from the rates in FY 2013-2014. For FY 2014-2015, the assessment rates for nonexempt nursing facilities will be as follows:

(1) For county nursing facilities, for nursing facilities that have 44 or fewer licensed beds and for qualified CCRC nursing facilities, the assessment rate will be \$8.01 per non-Medicare resident day.

(2) For all other nonexempt nursing facilities, the assessment rate will be \$29.46 per non-Medicare resident day.

Assessment payments are due the last day of the Assessment quarter or 30 days after publication of this second notice, whichever is later.

The Assessment Program due dates, along with supplemental payment dates, will be available on the Department's web site at <http://www.dpw.state.pa.us/provider/doingbusinesswithdpw/longtermcarecasemixinformation/index.htm>.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that the annual aggregate assessment fees for nonexempt nursing facilities will total \$477.065 million. The Department will use the State revenue derived from the assessment fees and any associated Federal matching funds to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

FISH AND BOAT COMMISSION

Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) has approved the addition of one stream section to its list of Class A Wild Trout Streams as set forth at 44 Pa.B. 5155 (July 26, 2014).

Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout popula-

tions represent the best of this Commonwealth's naturally reproducing trout fisheries. The Commission manages these stream sections for wild trout with no stocking.

Executive Director

Classification of Wild Trout Streams; Additions and Adjustments

The Fish and Boat Commission (Commission) has approved the addition of eight new waters to its list of wild trout streams and the adjustment of the section limits of two waters on the list as published at 44 Pa.B. 5154 (July 26, 2014).

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout streams, and it is available on the Commission's web site at http://www.fish.state.pa.us/trout_repro.htm.

Proposed Special Regulation Redesignation; Pine Creek, Lycoming County

The Fish and Boat Commission (Commission) has approved guidelines with regard to encouraging public participation on possible changes to the designation of streams, stream sections or lakes for special regulation programs. Under 58 Pa. Code Chapter 65 (relating to special fishing regulations), the Commission designates certain streams, stream sections and lakes as being subject to special fishing regulations. These designations are effective after Commission approval when they are posted at the site and a notice is published in the *Pennsylvania Bulletin*. Under the Commission's guidelines, a notice concerning the proposed designation or redesignation of a stream, stream section or lake under special regulations ordinarily will be published in the *Pennsylvania Bulletin* before the matter is reviewed by the Commissioners.

At the next Commission meeting on January 21 and 22, 2015, the Commission will consider a proposal to remove the designation of Pine Creek, Lycoming County, from the confluence of Slate Run downstream to the confluence of Bonnell Run, as a Delayed Harvest Artificial Lures Only Area under 58 Pa. Code § 65.6 (relating to delayed harvest artificial lures only areas) and designate it as a Catch and Release All-tackle Area under 58 Pa. Code § 65.15 (relating to catch and release all-tackle areas), effective upon publication in the *Pennsylvania Bulletin*.

At this time, the Commission is soliciting public input concerning this redesignation. Persons with comments, objections or suggestions concerning the redesignation are invited to submit comments in writing to Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 60 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within two years of the close of the public comment period or it will be deemed withdrawn.

**Bureau of Professional and Occupational Affairs
Regulation #16A-723 (IRRC #3069)
Schedule of Civil Penalties—Massage Therapists
October 15, 2014**

We submit for your consideration the following comments on the proposed rulemaking published in the August 16, 2014 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Bureau of Professional and Occupational Affairs (Bureau) to respond to all comments received from us or any other source.

Consistency with the Statute and Clarity.

As explained below, some of the citations to the Massage Therapy Law (Law) and the “Title/Description” are not clear. We ask the Bureau to review and amend the following for consistency with the statute and clarity:

- The first two citations to §§ 627.6(b)(i) and (ii) of the Law omit Paragraph (1) and should actually reference 63 P.S. §§ 627.6(b)(1)(i) and (ii).

- The reference to § 627.14 of the Law appears to be too broad. We presume it should be narrowed to § 627.14(a), based on the corresponding description.

- There is a citation to § 627.14(b) of the Law, but the corresponding description discusses an expired license, whereas the cited Law addresses the use of titles, and does not mention expiration of a license.

- Section 627.14(e) of the Law describes three conditions in the requirement to practice with “a valid, unexpired, unrevoked and unsuspended license.” However, the regulation only describes one category of a penalty for practicing on an expired license. The regulation should be consistent with the statute by including all three conditions set forth in the Law.
